Wharves—Houston, Tex.—Harris Co. Navigation Dist., 1,720 ft. wharves, in 3 sections, rein.-con. structure, to Doullut & Williams, Carter Bldg., concrete piling $669,000, timber piling $664,000. Noted Aug. 16.

Underground Conduits—Montreal, Que.—Underground conduits in district bounded by St. Lawrence, Craig, Bleury and Lagauchetiere Sts., to Atlas Constr. Co., Ltd., Belmont St., $78,125. Noted Sept. 6.

Electric Light and Power System—Paris, Ont.—Town will extend electric light and power lines by day labor. $25,00. C. B. Barker, clk.

Breakwater—Toronto, Ont.—Dept. Pub. Wks., Parliament Bldgs., Ottawa, 4,440 lin. ft. concrete breakwater on pile foundation, here, to R. Miller & Sons, Lumsden Bldg., $1,030,000. Noted Feb. 8.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: Sept. 19.

Lock Construction

Chicago, Ill.

Sealed proposals for the construction of Lockport Lock, also Miter gates and valves of Lockport and Marseilles Locks will be received at the office of the Director of the Department of Public Works and Buildings, Division of Waterways, Room 121, State House, Springfield, Illinois, until Nine o'clock Central Standard Time of the 19th day of September, 1923, and then publicly opened and read.

The contract, if let, will be awarded to the lowest responsible bidder. The work includes about 170,000 cu.yds. rock excavation, 97,000 cu.yds. of concrete and 2,100 tons of steel work.

Copies of the plans, specifications, proposal blank, etc., may be obtained at the office of the Department, Room 1404, 25 East Jackson Boulevard, Chicago, Illinois upon receipt of a check for Five Dollars made payable to the Division of Waterways, which sum will not be returned.

The State reserves the right to reject any or all proposals.

Bids: Sept. 15.

Water System

WATER DISTRICT NO. 1

Grand Island, N. Y.

Sealed bids will be received until September 15 for the furnishing of all materials and necessary work connected with the construction of a water system. Further information will be furnished upon request. Plans may be seen at the office of the commission, Grand Island, N. Y.

The commissioners reserve the right to reject any or all bids.

EUGENE BUCHER,
Chairman, Board of Commissioners.
HEBER ASHLEY, Engineer.

OFFICIAL PROPOSALS

Bids: Oct. 2.

Construction of Mermentau River Bridge

Baton Rouge, La.

Sealed proposals will be received by the Louisiana Highway Commission, at its offices in the Raymond Building, Baton Rouge, La., up to 12 o'clock noon Tuesday, Oct. 2, 1923, at which time and place they will be publicly opened, for the construction of a highway bridge and approaches over the Mermentau River at Mermentau, La., to be known as the Mermentau River Bridge, Federal Aid Project No. 122.

Construction consists of one channel span of 320 ft., riveted through trusses, 20 ft. clear roadway, 20 ft. above high water elevation and resting on concrete piers 54 ft. high on pile foundations. The plans for the approaching bridging have been prepared for two alternate types:

Alternate "A" consists of a series of 39-foot reinforced concrete deck girder spans resting on reinforced concrete open bents and pile foundations, 7 spans on the east end and 10 spans on west end of bridge.

Alternate "B" consists of a series of 19-foot creosoted timber spans on creosoted piling, 16 spans on east end and 27 spans on west end of bridge.

The earth embankment approaches and gravel surfacing, on the same, containing approximately 30,000 cu.yd. earth borrow and 1,200 cu.yd. gravel surfacing, are to be constructed at the same time the bridge is being constructed but under separate contract.

The entire project will be divided into two sections: Section "A" will be earthwork approaches and Section "B" will be bridge proper. Bids may be submitted on either or both sections and on either or both types of approach bridging.

OFFICIAL PROPOSALS

Information as to the location, character of work, extent and class of material, terms of payment, regulations governing manner of submitting proposals and executing contract, may, on application, be obtained at the office of the Lousiana Highway Commission, Reymond Building, Baton Rouge, La. Plans and specifications may be inspected at the office of the commission in Baton Rouge or will be furnished upon receipt of $5 as payment therefor not to be refunded.

J. M. FOURMY,
State Highway Enginer.
W. T. PETERMAN,
Chairman, Louisiana
Highway Commission.

Bids: Oct. 11.

Filters and Pumping Machinery

Danville, Va.

Sealed proposals will be received by the City of Danville, Virginia, until 4 o'clock p.m., Thursday, October 11th, for furnishing the labor and materials for certain Water Works Improvements.

The work will be under two contracts, namely:

1. For the construction of a coagulating basin, aerator, and reconstruction of filters.
2. For high and low lift centrifugal pumping machinery and electric wiring.

Plans, specifications, form of proposal, bond and contract may be seen at the office of the Engineering Department of the City of Danville, and at the office of Hazen & Whipple, Civil Engineers, 25 West 43rd Street, New York City. Bidders will be furnished with a copy of specifications and blueprints of drawings, upon application and deposit of $10, which will be refunded upon the return of the same in good condition.

The right is reserved to reject any or all bids.

FRANK TALBOTT,
Superintendent Water Department.

CONSTRUCTION NEWS

Engineering News-Record, September 20, 1923

The Construction Barometer

Value of August Contracts Lower Than July—Permits Gain—Prices Stable

Although August contracts fell off from 5 to 33 per cent from the month preceding, in the various sections of the country, the far western group and the states immediately west of the Mississippi showed substantial gains over August, 1922. New England and the Far West, however, were the only sections conforming to the 1922 trend, as shown by the accompanying charts.

Building permits in 252 comparable cities, according to S. W. Straus & Co., totaled $256,722,581 for August; $241,393,803 for July and $233,882,261 for August, 1922. This represents an increase of 10 per cent over August, 1922, and 6 per cent over July of the current year. The gain over July is particularly significant in view of the fact that during the last ten years August permits have shown a decrease from July each year excepting three.

Generators — Timmins, Ont. — Hollinger Consolidated Gold Mines, Ltd., two 12,500 kva. electrical generators in connection with power development on Island Portage, to Canadian General Electric Co., 212 King St. W., Toronto, $250,000.

OFFICIAL PROPOSALS

Bids: Sept. 27.

Excavating Channel

Albany, N. Y., September 6, 1923.

Sealed proposals will be received by the Salt Water Bays Commission at the office of the State Engineer and Surveyor in the Telephone Building in Albany, N. Y. until 12 o'clock noon (daylight saving time) on Thursday, September 27, 1923, at which place and hour they will be publicly opened and read for excavating a channel connecting Moriches, Quantuck, Shinnecock and Peconic Bays, County of Suffolk, Long Island, N. Y., pursuant to the provisions of Chapter 686, Laws of 1923.

For excavating a channel connecting Moriches, Quantuck, Shinnecock and Peconic Bays, County of **Suffolk, Long Island**, N. Y.

Contract plans Sheets 1 to 6 inclusive.

Plans may be seen and detailed specifications, Engineer's estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the offices of the State Engineer and Surveyor in the Telephone Building, Albany, N. Y. and at Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the State Engineer for five per centum (5 per cent) of the amount of the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the State Engineer and Surveyor.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Salt Water Bays Commission, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Salt Water Bays Commission, care of State Engineer and Surveyor, Telephone Building-Albany, N. Y.; and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Salt Water Bays Commission of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

SALT WATER BAYS COMMISSION
By Dwight B. LaDu, Chairman.

Bids: Oct. 10.

Reinforced Concrete Pavement

Belvidere, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Warren for the Construction of Section No. 1 of the Phillipsburg-Belvidere Road in the County of Warren with a Reinforced Concrete pavement. The estimated amount of pavement required is 42,357 square yards.

Bids will be opened and read in public at the office of the said Board at the Court House, Belvidere, N. J., on Wednesday, October 10, 1923, at 11 o'clock A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work prepared by H. W. Vetter, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said engineer at Belvidere, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the blue prints of the drawings by the engineer on proper notice and a deposit of $10.00 which will be refunded upon return of same in good condition. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidders and name of road on the outside, addressed to the Board of Chosen Freeholders of the County of Warren, Belvidere, N. J., and must be accompanied by a statement from a surety company authorized to do business in New Jersey, stating that it will furnish the contractor with a satisfactory bond in the full amount of the contract in case he is found to be the lowest responsible bidder and is subsequently awarded the contract and a certified check for not less than 10 per cent of the amount bid provided said check shall not be less than $500.00 nor more than $20,000.00, made payable to H. O. Carhart, County Treasurer, and be delivered at the place and on the hour above named. The standard proposal form will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the County of Warren.

MORRIS S. FAUST.
Clerk.

Bids: Oct. 11.

Filters and Pumping Machinery

Danville, Va.

Sealed proposals will be received by the City of Danville, Virginia, until 4 o'clock p.m., Thursday, October 11th, for furnishing the labor and materials for certain Water Works Improvements.

The work will be under two contracts, namely:

1. For the construction of a coagulating basin, aerator, and reconstruction of filters.
2. For high and low lift centrifugal pumping machinery and electric wiring.

Plans, specifications, form of proposal, bond and contract may be seen at the office of the Engineering Department of the City of Danville, and at the office of Hazen & Whipple, Civil Engineers, 25 West 43rd Street, New York City. Bidders will be furnished with a copy of specifications and blueprints of drawings, upon application and deposit of $10, which will be refunded upon the return of the same in good condition.

The right is reserved to reject any or all bids.

FRANK TALBOTT.
Superintendent Water Department.

Bids: March 18, 1924.

18-Mile Railway Construction Tenders

DOMINION OF NEW ZEALAND

Wellington, New Zealand.

Tenders close with the Public Works Tenders Board, Wellington, New Zealand, at noon on 18th March, 1924, for construction of 18 miles of railway including bridges station buildings, earthworks, approach road metalling, etc. Plans and specification may be inspected at the New York office of Engineering-News Record.

CONSTRUCTION NEWS

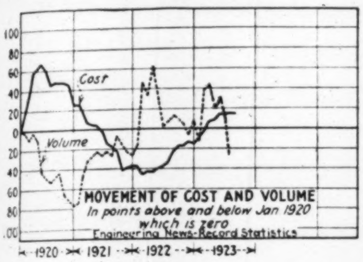
Engineering News-Record, September 27, 1923

The Construction Barometer

Drop in Unfilled Tonnage—Fewer Bank Debits—Buyers Cautious

THAT conditions in the basic industries are not uniform is evinced by conflicting production trends in several of the principal commodities. Increases are noted in the output of steel ingots, cement, automobiles and footwear. Decreases occurred in pig iron and cotton textiles.

Falling off in debits to individual accounts (Federal Reserve figures) together with a drop in unfilled steel tonnage (U. S. Steel Corporation) and a decided decrease in volume of construction (*E. N-R.* Index), despite stable cost indicate caution among buyers as well as seasonal declines.



MOVEMENT OF COST AND VOLUME

Waterworks

PROPOSED WORK

Connecticut — South Manchester Water Co. plans laying 10 mi. c.i. pipe (various sizes), from dam in Buckingham to South Manchester and Manchester. Cost to exceed $100,000.

N. Y., Silver Creek—Plans new reservoir. $30,000. Engineer not selected.

N. C., Goldsboro—City Council authorized $60,000 bond issue enlarging waterworks by 1 m.g. capacity, will also include several miles water and sewer lines, etc.

Tenn., Gallatin—Election soon to vote on $35,000 bonds for filtration plant.

O., Columbus—See "Streets and Roads."

Ill., Metropolis—Having preliminary plans prepared for water works plant, equipment and distribution mains; modernization of electric light plant and transmission system. $100,000. W. A. Fuller Co., 1917 Railway Exch., St. Louis, Mo., engrs.

Wis., Green Bay—Making plans replacing present steam boiler equipment in Municipal pumping station with gas engine and electric motor equipment, incl. new pumps, etc. $75,000. A. E. Kringle, City Hall, engr.

Ia., Albia—Making plans and will let contract early in October for impounding dam, storage reservoir, pumping station and filtration plant. $80,000. Bonds voted for project. Brown & Cook, Uttumwa, engrs.

Ia., Washington—Voted $80,000 bonds for waterworks improvements, incl. 200,000 gal. elevated steel tank, complete new pumping station, motor driven pumps, wells, etc. A. L. Mullergren, Gates Bldg., Kansas City, Mo., engrs. Noted Aug. 30.

Kan., Goff — Voted $25,000 bonds for waterworks. Shockley Eng. Co., 800 Graphic Art Bldg., Kansas City, Mo., engrs. Noted Aug. 16.

Kan., Wichita—Plans addition to water plant. City appropriated $10,000 to be used for engineering fee. E. S. Worrell, city clk. Engineer not selected.

S. D., Watertown—Municipal Utilities Comn. rejected bids Aug. 29, waterworks improvements, filter, pump and pipe equipment for pumping station and filter house. Noted July 26.

Neb., Snyder—Voted $25,000 bonds for water system. W. Reese, city clk.

Mo., Greenfield — Voted $64,000 bonds waterworks plant and distribution mains, also 11,000 ft. sanitary sewers and disposal plant. Engineer not announced. Noted July 26.

Mo., Ironton—Having preliminary plans prepared pumping plant, reservoir, distribution mains, etc. Election soon to vote on $40,000 bonds. J. D. Davis, Jefferson City, engr.

Mo., Odessa—Voted $15,000 bonds 3,500 ft. 8-12 in. distributing mains. Noted Sept. 6.

Mo, Ridgway — Voted $45,000 bonds pumping plant, reservoir, distribution mains, etc. Shockley Eng. Co., 800 Graphic Arts Bldg., Kansas City, engrs. Noted Sept. 6.

Mo., Thayer—Oct. 2, to vote on bonds for distribution system, pumping plant, reservoir, etc. $55,000. R B. Alexander, 535 Benton St., Kansas City, engr. Noted Aug. 9.

Tex., Kerrville—Plans new pumping unit and well. $15,000.

Okla., Cheyenne—Election soon to vote on $25,000 bonds for waterworks system incl. well, mains, pumps, etc. E. W. Baker, First Natl. Bank Bldg., Oklahoma City, engr.

Okla., Lawton—Oct. 3, to vote on $15,000 bonds for 8,000 ft. of 10 in. c.i. pipe around industrial section of city. E. M. Montain, city engr.

Okla., Owasso—Election soon to vote on $25,000 bonds for waterworks system. Holway Eng. Co., 5050 Wright Bldg., Tulsa, engrs. Noted Aug. 23.

Okla., Sulphur—Takes bids about Oct. 1, waterworks extension. $50,000. E. T. Archer & Co., 609 New England Natl. Bank Bldg., Kansas City, Mo., engrs. Noted Aug. 30.

Okla., Terlton—Sept. 25, to vote on $20,000 bonds waterworks system, tower, well

Waterworks (Continued)

and pump. F. B. King, 409 West 11th St., Oklahoma City, engr.

Ont., Ford—Essex Border Utilities Comn. having plans prepared and takes bids about Nov. 1, filtration plant. $150,000. J. C. Keith, 300 Ouellette Ave., Windsor, engr.

Que., Montreal—Plans 15,216 ft. 8 and 10 in. c.i. mains in Bernard, Crevier, Delanaudiere, Des Encores, Milton, Poupart, Valois and Sackville Sts., $61,048, also 3,424 ft. 2 x 3 brick sewers in Hopper, Bocage, Woodland, Rochland and Springland Sts., $21,154. E. Gauthier, asst. city clk.

BIDS DESIRED

N. Y., Ellenville — Oct. 5, by Village Trustees at office of C. G. Fischer, clk., new outlet for Maratanza Lake, incl. open channels, tunnels, manholes, pipe and fittings, and 8 in. supply piping for waterworks system. H. W. Taylor, 149 Bway., New York, engr.

N. J., Bayonne—Oct. 2 by Bd. Comrs., furnishing c.i. B. & S. pipe and fittings for Water Dept. W. Lee, clk.; adv. E. N.-R., Sept. 27.

N. J., Keansburg—Oct. 2, by H. E. Cowley, boro clk., small section of proposed new water supply system, and paving Palmer Ave. Alexander Potter, 50 Church St., New York City, consult. engr.; adv. E. N.-R. Sept. 27.

Miss., Leland—Oct. 2, by J. T. Mathis, mayor and Bd. Alderman, furnishing 13,640 ft. 6-12 in. standard hub and spigot, Class B c.i. or c.i. pipe manufactured by Centrifugal process or other c.i. pipe of equal quality and strength, etc., f.o.b. Leland. F. A. Phillips, supt. water and light system.

O., Columbus—See "Streets and Roads."

O., Elyria — Oct. 10, by Director Pub. Serv., excavation, hauling and laying 5,000 lin.ft., and excavation, hauling, furnishing and laying 1,350 lin.ft. steel pipe. Morris, Knowles Inc., 662 Hanna Bldg., Cleveland, engrs.; adv. E. N.-R. Sept. 27.

O., New Concord — Sept. 26, by M. W. Taylor, clk. Bd. Trustees, constructing c.i. mains in Main St., 4,400 ft. 8 in. 2,670 ft. 6 in. and 4,290 ft. 4 in. pipe. Former bids rejected. Jennings-Lawrence Co., 511 Hartman Bldg., Columbus, engrs.

Wis., Fond du Lac—St. Agnes Hospital, c/o M. Marcella, superior general, 309 Division St., taking bids on 150 ft. rein.-con. stack, 70,000 gal. concrete reservoir, silo, 24 ft. diam., 40 ft. high, and considerable tunnel work. Private plans.

Minn., Staples—Sept. 25, by city, 1 deep well motor-driven pump. Noted Apr. 26.

Minn., St. Paul—Sept. 25, by H. W. Austin, city purch. agt., c.i. valve and service connection boxes required by Bureau of Water.

Tex., Edinburg—See "Excavation, Drainage, Irrigation."

Tex., Lampasas—Oct. 1, by Mayor, 18,000 ft. mains, $20,000.

Okla., Tulsa—Oct. 26, by Water Comn., constructing portion Spavinaw Water Supply Project, Contrs. 14, 15 and 16, A. J. Rudd, chn. J. D. Trammell and W. R. Holway, 508 Wright Bldg., engrs. D. H. Maury, 1445 Monadnock Blk., Chicago, consult. engr.; adv. E. N.-R. Sept. 27. Noted Aug. 23.

Calif., Los Angeles—Oct. 2, by Pub. Serv. Comn., furnishing 20,000 pieces 4 in. c.i. pipe, 10,000 pieces 6 in., 1,000 pieces 8 in. and 650 pieces 12 in., all 12 ft. lengths, Spec. 687-C.

Calif., Montecito — Montecito Co. Water Dist. receiving bids DeLaVaud centrifugal type pipe for distributing system. $110,000.

Que., Acton Vale—G. Ouimet, engr., 76 St. Gabriel St., Montreal, taking bids 2,450 ft. 12 in. c.i. pipe for town.

Que., Montreal — Oct. 1, by Executive Comn., City Hall Annex, 495 lengths 20 in. and 430 lengths 16 in. c.i. pipe. R. Bauset, city clk.

BIDS RECEIVED

N. Y., Brooklyn — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., New York, Sept. 19, mains and appurtenances in (1) Bath, Cropsey, Emmons and 14th Aves., Mackenzie, Norfolk and Oxford Sts., Glenwood Rd. and Shore Blvd. (2) Bedford, Lincoln, Sutter and 15th Aves., 58th, 62nd, 66th, 67th, 70th, East 3rd, East 5th, East 7th, East 8th, East 9th, East 10th, East 12th, East 28th, East 95th, West 10th, Jerome and Osborn Sts., Parrott Pl., Kings Highway and Sheepshead Bay Rd., from Wataga Contg. Co., (1) $133,300 (2) $29,300. Noted Sept. 13.

N. Y., New York — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., Sept. 18, laying mains and appurtenances in Aqueduct Ave. West, Davidson, Gouverneur, Orloff, Riverdale, Sedgwick, Tyndall and Van Cortlandt Aves., East 178th, East 193rd, West 235th and 254th St., Grand Concourse and Mosholu Parkway south, from Wattega Contg. Co., $29,300; in Allerton, Benedict, Bruner, Edison, Ely, Fenton, Grace, Gunther, Holland, Lacombe, Mace, Matthews, McGraw, Newman, Nereid, O'Brien, Stephens, Ward, Wayne and Yates Aves., Arnow Pl. and White Plains Rd., from Norton Eng. and Contg. Co., $36,525. Noted Sept. 13.

N. J., Trenton—For 450 tons 10 in. c.i. pipe, from R. D. Wood & Co., 400 Chestnut St., Phila., $61.30 per ton; U. S. Cast Iron Pipe & Fdry. Co., Morris Bldg., Phila., $61.30. Noted Sept. 13.

O., Cleveland—Cuyahoga Co., Sept. 12, 12,000 ft. 6 and 8 in. c.i. mains, from Salem & George Bros., Erie Bldg., $43,085. Noted Sept. 6.

CONTRACTS AWARDED

O., Cleveland — To Kennedy Valve Mfg. Co., East Water St., Elmira, N. Y., forty 30 in. flanged, eighty 24 in. flanged and forty 24 in. wash water flanged valves, all hydraulically operated, $29,952, $33,167 and $21,992 respectively, one 24 in. flanged valve, electrically operated $675, total cost $85,787; to Rensselaer Valve Co., Ontario St., Troy, N. Y., one 24 in. gate valve $470, two 54 in. valves $4,400, four 48 in. $5,120, one 42 in. $1,540, four 30 in. $2,760, two 12 in. $161, eight 8 in. $337, three 6 in. $80, twenty-one 4 in. $308, two 36 in. flanged valves $1,650, sixteen 12 in. flanged valves $998 and forty 8 in. flanged valves $1,320, all hand operated, also one 24 in. check valve $365, total $19,509. Noted Sept. 6.

Ind., Evansville — Bd. Water Trustees, buildings and structures for 6 m.g. addition to water filtration plant, to A. Phelps & Sons, Knoxville, Ia., $98,480; furnishing filter equipment for same, to International Filter Co., 333 West 25th Pl., Chicago, $57,000. Noted Sept. 13.

Mich., Detroit—Dept. Water Supply, furnishing 100 tons Class C. 42 in. c.i. pipe and 105,600 ft. 6 in. centrifuggal pipe to U. S. Cast Iron Pipe & Fdry. Co., Burlington, N. J., $55 per ton $5,000 and $0.878 per ft. $92,677 respectively; 1,504 tons 8 in. c.i. pipe to Lynchburg Fdry. Co., Peoples Natl. Bank Bldg., Lynchburg, Va., $55.70 per ton $85,277.

Wis., Portage — Intake cut, submerged pipe line for city water supply, to J. Allmendinger, Benton Harbor, Mich., cost plus fixed fee basis. Noted Aug. 23.

Mo., Edina—Impounding reservoir, filter plant and several miles distributing mains, to F. Shofner, Atchison, Kan., $30,700. Engrs. est. $35,000.

Sewers

PROPOSED WORK

R. I., Cranston (Providence P. O.)—Had surveys made sewerage system. $2,600,000. Fay, Spofford & Thorndike, 200 Devonshire St., Boston, engrs. Noted March 10, 1921.

Conn., Hartford—Street Dept. plans laying new sewers in Church St. from Turnbull St. to railroad station. $50,000. R. N. Clark, city engr.

Conn., New Britain—Bd. Pub. Wks., plans vitr. clay sewers in various streets, $50,000; extension to East Side trunk sewer, 24 in. vitr. clay pipe, $50,000; Cherry St. storm water sewer, main trunk, 15 in. vitr. clay pipe, $25,000; 1,500 ft. 36 in. segmental block, Commonwealth Ave., $25,000. J. D. Williams, city engr.

N. Y., Irondequoit—Making surveys sewage disposal plant. $25,000. Weeks, Cole & Newell, Rochester, engrs.

N. Y., Pittsford—Village making plans Sewerage System 1. $40,000. G. C. Wright, Court House, Rochester, engr.

Pa., Bellevue (Pittsburgh P. O.)—Ross Twp. Bd. Comrs., c/o H. B. Ruehl, Keystone Ave., having plans prepared sanitary sewerage system, terra cotta pipe. $60,000. McCully Eng. Co., Bergen Bldg., Pittsburgh, engrs.

N. C., Goldsboro—See "Waterworks."

Fla., Bartow—Soon takes bids sanitary sewerage system. $90,900. Burns & McDonnell Eng. Co., Interstate Bldg., Kansas City, Mo., engrs. Noted Aug. 16.

O., Cincinnati—Plans to build Duck Creek sewer. $275,000. F. Krug, City Hall, engr.

O., Columbus—See "Streets and Roads."

Ia., Ft. Dodge—Takes bids about Oct. 1 for 25 blocks 8-27 in. vitr. clay sewers. $35,000. C. H. Reynolds, city engr.

Ia., Mason City—Soon takes bids 13,000 ft. 8-3 6 in. vitr. clay or concrete sewers. $25,000. C. H. Stevens, city engr.

Minn., Tracy—City rejected bids sewerage system repairs, extensions and reconstruction, and installing septic tank. $28,000. Will readvertise. Noted Nov. 23.

Kan., Onaga — Making plans sanitary sewerage system. E. T. Archer & Co., 609 New England Bank Bldg., Kansas City, Mo., engrs.

Mo., Greenfield—See "Waterworks."

Mo., Ridgway—Voted $45,000 bonds for sanitary sewerage system and disposal plant. Shockley Eng. Co., 800 Graphic Art Bldg., Kansas City, engrs. Noted Sept. 6.

Tex., Laredo—Rejected bids storm sewers and appurtenances. S. F. Crecelius, 211 Alexander Bldg., engr. Noted Aug. 30.

Calif., Visalia—Had plans prepared new modified Imhoff septic tank for sewer farm. $30,000. L. H. Gadsby, city engr.

Que., Montreal—See "Waterworks."

BIDS DESIRED

N. Y., Brighton — Oct. 8, by Bd. Sewer Comrs. Sewer Dist. 2, Clover St., sanitary sewers and sewage disposal plant, Contrs. A, B and C; also by Bd. Sewer Comrs., Sewer Dist. 1 of Town of Pittsford, Clover St., Brighton, sewers, Contr. D. W. S. Lozier, Cutler Bldg., Rochester, consult. engr.; adv. E. N.-R. Sept. 27.

N. J., Asbury Park—Oct. 2, 4,470 lin.ft. 12-36 in. concrete storm drains, etc. N. Rogers, Asbury Park, engr.

Md., Baltimore—Oct. 3, by Bd. Awards, constructing storm water drains and sanitary sewers in Bellwood Ave. near Belair Rd. Storm Water Contr. 64, incl. 900 ft. of 6-9 ft., rein.-con. drain and 700 ft. 18 in. sanitary sewer. $30,000. B. L. Crozier, City Hall, highway engr.

"B" Conc. 9,215 lbs. reinf. steel, 44 lin. ft. Gd. Rail. The right is reserved to limit the project to the two miles immediately East of Bedford.
2. Proj. S-145A—Rt. 35—Southampton Co. Line-Homesville, Sussex Co. 3.6 mi. 16′-8-6-8 conc roadway approx. 6 ac. clearing, 12,605 cu. yds. exc., 476 lin. ft. Pipe, 20 cu. yds. "B" conc. State will furnish cement.
3. Proj. F-183—Rt. 31—Cranes Corner-Falmouth, Stafford Co., 2.9 mi. 18′-8-6-8 conc. Approx. 8 ac. clearing, 44,000 cu. yds. Exc., 500 cu. yds. Borrow, 528 lin. ft. Pipe, 470 cu. yds. "A" conc., 35 cu. yds. "B" conc., 18,934 lbs. reinf. steel, 2,800 lin. ft. Wood. Gd. Rail. State will furnish cement.
4. Proj. S-310B—Rt. 12—Lawrenceville towards Edgerton, Brunswick Co., 2.0 mi. 18′-8-6-8 conc. Approx. 0.6 ac. clearing, 6,047 cu. yds. Exc., 206 lin. ft. Pipe, 8 cu. yds. "B" Conc., 1,000 lin. ft. Wood Gd. Rail. State will furnish cement. The right is reserved to cut off the work at the expenditure of $100,000.00.
5. Proj. F-225B—Rt. 31—Approaches to Falmouth Bridge, Spotsylvania Co., 0.7 mi. 18′-8-6-8 conc. Approx. 3,705 cu. yds. Exc., 210 lin. ft. Pipe, 35 cu. yds. "A" conc., 54 cu. yds. "B" conc., 3,243 lbs. reinf. steel, 130 lin. ft. Gd. Rail. Bids to be based on understanding that this work will be let in conjunction with Proj. F-183. State will furnish cement.
6. Proj. S-320 ABC—Rt. 10—Three reinforced concrete clear beam span bridges over Broad Creek, Lynnhaven River, and Thalia Arm in Norfolk and Princess Anne Cos., Approx. 724 cu. yds. A Conc., 639 cu. yds. "B" conc., 83,000 lbs. reinf. steel, 19,360 lin. ft. untreated piling.
7. Proj. S-327—Rt. 11—Moorefield-Hamlin-Russell Co.. 2.0 miles 16′ Bit. Mac. Approx. 5.6 Ac. Clearing, 46,000 cu. yds. Exc., 4.000 cu. yds. Borrow. 736 lin. ft. Pipe, 150 cu. yds. "A" conc., 114 cu. yds. "B" conc., 4.571 lbs. reinf. steel. 5,192 lin. ft. Wood Gd. Rail, 72 cu. yds. Rubble Masonry. The right is reserved to cut off the work at the expenditure of $40,000.00

Proposal guaranties will be $500.00 for bids less than $100,000.00 and $1.000 for bids amounting to or more than $100,000.00.

Plans and specifications are on file at the Office of the State Highway Dept. and at the office of the following Dist. Engrs. Proj. S-143-Salem. Proj. S-145 A and S-320 ABC Suffolk. Proj. F-183 and F-225B Fredericksburg. Proj. S-310 Richmond. Proj. S-327 Bristol.

Additional plans for bidders for the above project can be obtained upon application to the State Highway Dept. upon receipt of $5.00 payable to H. G. Shirley, of which $2.50 will be refunded if plans are returned within two weeks after bids are opened. Bridge plans can be obtained from W. F. Hobart, 805½ E. Franklin St., Richmond, to cost as follows: Proj. S-320ABC-$1.62.

Engrs. will be at the following places to show prospective bidders over the projects as follows:

Proj. S-143 Hotel Bedford 10:30 A.M., Friday, October 5th, Proj. S-145A Hotel at Sebrell 11 A.M., Wed., Oct. 3rd; roj. F-183 and F-225B, Dist. Engrs. Office, Fredericksburg, 10:30 A.M., Wed., Sept. 26th; Proj. S-330 Lawrenceville Court Couse, 10:30 A.M., Monday, Oct. 1st; Proj. S-320 Lorraine Hotel, 10:30 A.M., Norfolk, Fri., Sept. 28th; Proj. S-327 Blue Sulphur Hotel, St Paul, Va., 10 A.M., Monday, Oct. 8th.

Proposals will not be available until September 25th.

The State Highway Commission reserves the right to reject any or all bids.

H. G. SHIRLEY,
Chairman.

C. S. MULLEN,
Acting Commissioner.

Bids: Oct. 23.

Filter Equipment

Buffalo, N. Y.

Sealed proposals for furnishing and installing the necessary meters, rate controllers, gages, chemical feed devices, operating tables and other filter equipment and appurtenances in connection with the Filter Plant for the City of Buffalo, endorsed "Proposal for Filter Equipment," will be received by the Commissioner of Public Works at his office in the Municipal Building, Buffalo, N. Y., until eleven A.M. on Tuesday, the 23rd day of October, 1923, and at that time will be publicly opened and read.

Copies of the plans and specifications may be seen at the office of the Engineer, Filtration Division, Bureau of Water, Buffalo, N. Y., and copies of the plans, specifications, contract and form of proposal may be obtained at said office, upon the deposit of Twenty-five Dollars ($25.00) for each set furnished, which sum will be refunded if the said plans and specifications are returned in good condition within thirty (30) days after bids have been received and acted upon by the City of Buffalo. Plans and specifications may also be seen at the office of Fuller & McClintock, Consulting Engineers, 170 Broadway, New York City.

Each bid must be accompanied by a certified check upon an acceptable National Bank or Trust Company, made payable to the Commissioner of Public Works of the City of Buffalo, in the amount of Ten Thousand Dollars ($10,000.00).

A bond in the sum of one-third the total amount of the proposal with a satisfactory surety company as surety will be required, conditioned upon the faithful performance of the work, said bond to remain in force for one year after the final completion and acceptance of the work.

GEORGE C. ANDREWS,
Engineer, Filtration Division.
September 10, 1923.

Bids: Oct. 2.

Cast Iron Pipe

Bayonne, N. J.

Sealed proposals will be received by the Board of Commissioners of the City of Bayonne, New Jersey, at the meeting place of said Board, in the City Hall, Avenue E and 30th Street, on Tuesday, October 2, 1923, at 8.30 o'clock P.M., for furnishing and delivering to the Water Department, f.o.b. cars Pennsylvania Railroad, Passaic Avenue, Kearnry Meadows, Kearny, N. J., thirty (30) lengths of thirty (30) in. Class B, standard cast iron B. & S. pipe for Water Supply purposes, and the following fittings for the same:

Four (4) thirty (30) inch 90 degree Ells.
Four (4) thirty (30) inch 45 degree Ells.

All bids must be submitted in sealed envelopes, plainly endorsed, "Proposal for Cast Iron Pipe" and the name of the bidder. A certified check for 10% of the amount bid must accompany each proposal.

The Board reserves the right to reject any and all proposals.

By order of the Board of Commissioners of the City of Bayonne.

Dated, Sept. 20, 1923.

WM. P. LEE,
City Clerk.

Bids: March 18, 1924.

18-Mile Railway Construction Tenders

DOMINION OF NEW ZEALAND

Wellington, New Zealand.

Tenders close with the Public Works Tenders Board, Wellington, New Zealand, at noon on 18th March, 1924, for construction of 18 miles of railway including bridges, station buildings, earthworks, approach road metalling, etc. Plans and specification may be inspected at the New York office of Engineering-News Record.

CONSTRUCTION NEWS

Engineering News-Record, October 4, 1923

The Construction Barometer

Prices Firm—Domestic Buying Slow—Great Demand for Materials in Japan

THE fourth quarter opens with an apparent stability of materials prices and labor, due more to contraction in domestic demand, perhaps, than to actual stabilization. Japanese reconstruction requirements have already exerted a firming effect upon certain basic materials, particularly fir lumber. Replenished domestic stocks and lack of pressure for mill deliveries serve to offset this tendency toward higher prices, caused by the demand for materials in Japan. Unprecedented car loadings indicate the rate of consumption on orders already placed. According to R. G. Dun & Co. there were fewer business failures in the U. S. during September than for any month since January, 1921.

CONSTRUCTION NEWS

Engineering News-Record, October 11, 1923

The Construction Barometer

Gain In Volume of Construction—Prices Stable—Drop In Industrial Building

THE apparent stabilization of costs during the last four months has resulted in an abrupt rise in the volume of construction in September, as shown by the charts. Labor costs have risen, in the skilled trades, but basic materials prices have shown little change. Had this lack of change been due to stagnation instead of stabilization, there could not have been an increase in the volume of construction, particularly at this season of the year. Nearly all classes of construction gained in value of contracts let, with the exception of industrial building. The unusual gain in bridge contracts is mainly due to four big jobs, namely: A 2,480-ft. steel bridge over the St. Johns River, Fla., $1,800,000; a 1,733-ft. concrete bridge over the Ashley River, S. C., $1,067,466; a bridge over the Delaware River between Philadelphia and Camden, N. J., $2,546,900 and a bridge over the Carquinez Straits, Calif., $4,500,000.

PROPOSED WORK

Grain Elevator—Middletown, Conn.—See "Industrial Works."

Steam Heating Plant, etc.—Albany, N. Y.—Albany City Hospital, North Scotland Ave., soon takes bids installing new steam heating plant and minor repairs to Pavilion F. $35,000. J. G. Brennan, city engr.

Lighting and Pumping System—Canandaigua, N. Y.—Plans installing lighting and pumping system. $60,000-$75,000. W. J. MacFarlane, mayor. Engineer not announced.

Track Elevation—Trenton, N. J.—Pennsylvania R.R., Broad St. Sta. Phila., having plans prepared elevating tracks on Belvidere Div., here. $150,000. A. B. Temple, Broad St. Sta., Phila., engr.

Transmission Lines—Pennsylvania — See "Industrial Work."

Transmission Line—Pennsylvania — West Penn Power Co., West Penn Bldg., Pittsburgh, plans transmission line, six 132,000 volt wires and three 22,000 volt across Monongahela River at Baird Sta., Washington Co., all on 90 ft. steel towers. $30,000.

Transmission Lines—Gibsland, La.—See "Waterworks."

Coal Tipple—Dawson Springs, Ky.—Dawson Daylight Coal Co. plans coal tipple, crushing outfit and loading booms for opening new coal lands. $30,000.

Transmission Line — Indiana — Indiana Electric Corp., Indianapolis (subsidiary of Central Indiana Power Co.), plans 20 mi. transmission line, 33,000 volts, from Sullivan to Worthington. $40,000. J. H. Brewer, pres.

Parks — Appleton, Wis. — City plans 2 parks, incl. laying out roads, walks, buildings, baseball diamonds, tennis courts, pools, etc. $25,000. E. L. Williams, city clk. Architect not selected.

Athletic Field—Madison, Wis.—Common Council appropriated $50,000 for creation athletic field on east side, incl. tennis courts, football fields, grandstands, apparatus, etc. H. C. Buser, City Hall, clk. Engineer not selected.

Swimming Pool—Two Rivers, Wis.—Bd. Educ. making plans brick, steel and tile swimming pool in high school. $25,000. J. D. Chubb, North Dearborn St., Chicago, engr.

Stadium—Minneapolis, Minn.—University of Minnesota having plans prepared by Osborn Eng. Co., 7016 Euclid Ave., Cleveland, O., for stadium. F. M. Mann, dean of Architectural School, associated archt. Noted Sept. 27.

Transmission Lines—Cameron, Mo.—See "Industrial Works."

Breakwater—Ft. Smith, Ark.—Soon takes bids breakwater in Poteau River, also plans to purchase new chlorination machine of 25 lb. daily capacity and dry alum machine 800 lb. daily capacity. $30,000.

Transmission Line — Hiram, Ark. — See "Dam."

Park Improvements—Ft. Worth, Tex.—Making plans walks, drives and other improvements to Cobb Park, etc. $25,000. G. C. Clarke, park supt.

Levee — Kaufman, Tex. — Kaufman Co. Levee Impvt. Dist. 4, election Oct. 13, to vote on $175,000 bonds for improvements, alterations and repairs. Engineer not announced.

Swimming Pools, etc.—San Antonio, Tex.—Plans to vote on $100,000 bonds first week in December, general improvements, incl. 1 or 2 new concrete swimming pools, beautifying parks and additional playground and apparatus. D. D. Harrigan, city engr.

Street Repairing Machine—Chico, Calif.—City plans to purchase machine to repair asphalt streets. F. S. Robinson, city engr.

Electroliers—Fresno, Calif.—Had plans prepared 350 electroliers, c.i. and steel on cement concrete, 2 ft. deep and 2 ft. sq., conduit to be galvanized metal tubing containing wire conductors, etc. $25,000 or more. W. Stranahan, city engr.

Gas Holder—Los Angeles, Calif.—Southern California Gas Co., 950 South Bway., plans 10,000,000 cu.ft. gas holder.

Park, etc.—Richmond, Calif.—Plans to purchase block bounded by 12th and 13th Sts., Bissel and Macdonald Aves., for park improvements and Amer. Legion memorial building. Park site improvements will exceed $25,000.

Swimming Pool—Richmond, Calif.—See "Buildings."

Subway Crossing — Sacramento, Calif.—Having preliminary plans prepared subway crossing at 2nd and R Sts. $50,000-$60,000. A. Givan, city engr.

Power Distributing System—San Francisco, Calif.—Bd. Supervs. of city and San Francisco Co., voted for municipal distribution of power developed on Hetch Hetchy Project. M. M. O'Shaughnessy, city engr., instructed to prepared plans and specifications.

Electric Light and Power System—Blyth, Ont.—Council plans hydro electric lighting and power distribution system. $28,000. Work will be carried out under direction of Hydro Comn., A. Beck, chn., London.

Hydro Electric System—Cayuga, Ont.—City plans hydro electric system. $30,000.

Power Lines—Islington, Ont.—Etobicoke Twp. plans to expend $40,000 for extending lines. Work will probably be done by day labor. S. Barratt, twp. clk.

Drilling—Spry, Ont.—J. H. Cook, Lions Head, interested in syndicate which plans to drill for oil on 6,000 acres in Eastner Twp. $30,000.

BIDS DESIRED

Underground Fire Alarm System — New York, N. Y.—Oct. 17, by T. J. Drennan, fire comr., Municipal Bldg., part of underground fire alarm system in Bronx Boro.

Boardwalk—Spring Lake, N. J.—Nov. 7, by Mayor and Boro Council, Boro Hall, constructing boardwalk. J. M. Braly, boro engr. E. H. Schmieder, Spring Lake, consult. archt.; adv. E. N.-R. Oct. 11.

Ornamental Lighting System—DuBois, Pa.—Oct. 15, by G. Minns, supt. Dept. Pub. Safety, ornamental lighting system on Long Ave. from Stockdale to Main Sts., and on Brady St. from Weber Ave. and Liberty Bridge, 100 standards.

Lumber—New Orleans, La.—Oct. 18, by Bd. Port Comrs., Suite 200 New Court House Bldg., furnishing 60,000 ft. untreated yellow pine. J. H. Walsh, genl. mgr.

Wall and Dike, etc.—Shreveport, La.—Oct. 23, by S. G. Wolf, secy.-treas., 1,000 ft. sheet pile toe wall, 24 ft. deep, 2,200 ft. pile dike 55 ft. deep, willow fascine or plank mattress under dike 100 x 2,200 ft., 20,000 cu.yd. grading and 25,000 sq.ft. creosote pavement. Alternate bids on log crib filled with brush anchored to piling. C. E. Smith, Ry. Exch., St. Louis, Mo., engr.

Unloading Equipment, etc.—Toledo, O.—Swan Creek Lumber & Supply Co., City Park Ave., in market for unloading equipment, pit and automatic conveyors, 4 coal storage tanks, etc. K. Aschbacher, purch. agt.

Tractor—Racine, Wis.—W. A. Bechthold, highway comr. Racine Co., taking bids medium sized tractor.

Tractor—Grand Rapids, Minn.—Oct. 23, by T. Erskine, aud. Itasca Co., one 10 ton tractor. H. A. LeSueur, Grand Rapids, engr.

Materials—St. Paul, Minn.—Oct. 16, by H. W. Austin, city purch. agt., materials for paving Plum St. between Mound Blvd. and Maria Ave., 380 bbl. portland cement, 623 cu.yd. crushed rock, 27 tons asphalt, 116 tons cinder stone, 45 tons trap rock; also 400 coils $\frac{3}{4}$ in. extra strong lead pipe and 5,000 lb. solder for Water Dept. C. M. Shepard, city engr.

Rails—Houston, Tex.—Oct. [illegible] at Navigation Commissioners Office, [illegible] lin.ft. 70-80 lb. rails, new or relay, bids for both rails and fastenings.

Grade Separation — Colorado — See "Streets and Roads."

Subway—San Francisco, Calif.—Oct. 25, by State Bd. Harbor Comrs., Ferry Bldg., subway under Ferry Loop at foot of Market St. $425,000. F. G. White, ch. engr. Noted June 28.

Road Scrapers—Montreal, Que.—Oct. 15, by R. Bauset, city clk., 3 auto road scrapers.

Underground Cable—London, Ont.—Utilities Comrs. taking bids 13,000 volt underground cable. $35,000. E. V. Buchanan, c/o owner, engr.

Motor Flusher—Pembroke, Ont.—Taking bids one motor flusher.

Breakwater—Port Lorne, N. S.—Oct. 22, by R. C. Desrochers, secy. Dept. Pub. Wks., Ottawa, 50 ft. extension to concrete breakwater, 45 ft. wide, here. $27,000.

Breakwater—St. Francis Harbour, N. S.—Oct. 22, by R. C. Desrochers, secy. Dept. Pub. Wks., Ottawa, Ont., 301 ft. concrete breakwater, 20 ft. wide, here. $60,000.

BIDS RECEIVED

Subway—Brooklyn, N. Y.—Transit Comn., 49 Lafayette St., New York, Oct. 2, subsurface railroad extending along and under 4th Ave. from 87th to 95th Sts., here, from T. A. Gillespie Co., 7 Dey St., New York, $1,725,884. Noted Sept. 20.

Grapple Dredge — Phila., Pa. — G. F. Sproule, dir. Dept. Wharves & Ferries, grapple dredge from Ellicott Machine Co., Bush and Syrian Sts., Baltimore, Md., $211,000. Noted Sept. 20.

Fill—Florida — State Hy. Dept., Tallahassee, Sept. 27, 2.3 mi. fill for Escambia Bay Bridge, Project 38-A, Escambia Co., from Atlantic Gulf & Pacific Co., 13 Park Row, New York City, $491,550.

Levee—Portage, Wis.—Wisconsin State Levee Comn., Capitol, Madison, strengthening, enlarging and protecting portions of levee system, from M. S. Burgitt, Britt, Ia., $26,150. Noted Sept. 20.

CONTRACTS AWARDED

Park—Rockville, Conn.—Grading and paths in Fox Hill Park, to J. Hoye, 374 Capen St., Hartford. Archts. est. $25,000. Noted April 19.

Asphaltic Cement, etc.—Brooklyn, N. Y.—E. Riegelmann, boro pres., Boro Hall, 300,000 gal. asphaltic cement to Warner Quinlan Co., 79 Wall St., New York, $15,600; 6,000 cu.yd. binder stone to Calvin Tompkins Co., 30 Church St., New York, $13,860; 50,000 asphalt paving blocks to Hastings Paving Co., 25 Broad St., New York, $4,780; 50,000 grade 1 granite paving blocks to Rockport Granite Co., 13 Park Row, New York, $6,900; 50,000 wood paving blocks to Amer. Creosoting Co., 17 Battery Pl., New York, $2,950; 60,400 ft. lumber to East River Mill & Lumber Co., 92nd St. and East River, New York, $3,962. Noted Sept. 13.

Foundation—Kohler, Wis.—See "Industrial Works under Proposed Work."

Basement—Milwaukee, Wis.—See "Buildings under Proposed Work."

Grade Separation—Milwaukee, Wis.—Bd. Pub. Wks., grade separation at Forest Home Ave., etc., to H. Danischefsky, 1484 Humboldt Ave., Milwaukee, $47.698. Noted Sept. 27.

Wall—Waterloo, Ia.—City and Illinois Central Ry. Co., 135 East 11th Pl., Chicago, 525 lin.ft. rein.-con. river wall on Cedar St. between 5th and 6th Sts., to H. Maine & Co., 305 Marsh Pl., $50,000. Noted Aug. 30.

Tunnel—Redding, Calif.—Pacific Gas and Electric Co., 445 Sutter St., San Francisco, concrete lined tunnel, 4 mi. long, 19 ft. diam., at Pit 3, Shasta Co., to Bates & Borland, Bank of Savings Bldg., Oakland.

Tanks—Watson, Calif.—Pan American Petroleum Transport Co., erecting two 80,000 bbl. and thirteen 100,000 bbl. tanks equipped with water tops, to Chicago Bridge & Iron Wks., Hudson Terminal Bldg., New York City.

Electric Lighting System—Point Grey, B. C.—New electric lighting system in Shaughnessy Heights, to Farr, Robinson & Bird, 546 Howe St., Vancouver, Engrs. est. $58,000.

CONSTRUCTION NEWS

Engineering News-Record, October 18, 1923

The Construction Barometer

Construction Conforms to 1922 Trend in Twenty-five States—September Building Permits Drop 11 Per Cent

CONTRACTS awarded on large engineering construction projects in the United States, during September, showed a considerable gain over similar lettings for the month preceding.

This upward turn in construction conforms to the 1922 trend in New England, the Middle Atlantic states and the group immediately west of the Mississippi. The opposite, however, is true of the South, the Middle West and the far Western states.

In all sections of the country except New England, September construction exceeded the lettings for the same month in 1922. In the Middle Atlantic states, however, the money value was exactly the same.

According to S. W. Straus & Co., September building permits fell off 11 per cent from the month preceding, which was in keeping with the usual trend of permits issued during these two months.

Waterworks

PROPOSED WORK

Me., Portland — Portland Water Dist. plans main water conduit. $275,000. Bids in spring. H. U. Fuller, ch. engr.

N. Y., Orchard Park—Had surveys made and plans election to vote on $215,000 bonds for complete water system. White & Getan, Mutual Life Bldg., Buffalo, engrs. Noted April 19.

N. Y., Pultneyville—Plans 3 mi. water system. $25,000. H. C. Kittridge, Union Trust Bldg., Rochester, engr.

Pa., Shenandoah—Plans to extend and improve waterworks. Election in November to vote on $200,000 bonds. Gannett, Seelye & Fleming, Inc., 1 North Market Sq., Harrisburg, engrs. Noted Oct. 11.

Va., Charlottesville—Nov. 6, to vote on $500,000 bonds for new water system, with Moormans River as source. Fuller & McClintock, 600 Walnut St., Kansas City, Mo., engrs.

W. Va., Keyser—Having plans prepared 500,000 gal. steel storage tank and motor driven centrifugal pump. $50,000. J. N. Chester Engineers, Union Bank Bldg., Pittsburgh, Pa., engrs. Noted Oct. 4.

N. C., Albemarle—Bd. Comrs. will sell $90,000 bonds Oct. 25, for waterworks. L. C. Russell, town clk.

Ala., Florence—Plans converting steam pumping plant into electrically driven plant, capacity 1,000 g.p.m. $30,000.

Ky., Morgansfield—Election soon to vote on bonds for water plant, and about 6 mi. pipe line.

La., Gibsland—Making plans waterworks and electric improvements. $50,000. E. T. Archer, 609 New England Bank Bldg., Kansas City, Mo., engrs.

La., Leesville—Making plans waterworks, electric light plant and sewers. $225,000. Election soon to vote on bonds. E. T. Archer & Co., 609 New England Bank Bldg., Kansas City, Mo., engrs.

La., Winfield — Having final plans prepared waterworks extensions and sanitary sewers. $100,000. E. T. Archer & Co., 609 New England Bank Bldg., Kansas City, Mo., engrs. Noted Oct. 11.

O., Dayton—Making surveys enlarging waterworks facilities and equipment, sufficient to meet demands of city during next 25 years. F. O. Eichelberger, city engr.

Ill., Galesburg—Making plans pipe line from Burlington to Galesburg, and pumping station to supply city and Burlington R.R. with water. City will pay $500,000, Chicago, Burlington & Quincy R.R., 547 West Jackson Blvd., Chicago, $750,000, and Illinois Light & Power Co., Illinois Merchants Bank Bldg., Chicago, $250,000.

Ia., Bedford — Voted $20,000 bonds for waterworks extension. J. E. Lovell, clk.

Ia., Corning—Voted $20,000 bonds for extending water system.

Kan., Arkansas City—Soon takes bids new pumping equipment and extensions to distribution system. $53,000.

Kan., Lenora—Plans waterwork system. $35,000 voted. Ruckel Eng. Co., Hutchinson, engrs.

Mo., Breckenridge—Voted $45,000 bonds waterworks and distribution system. E. T. Archer & Co., New England Bldg., Kansas City, engrs. Noted Oct. 4.

Mo., Farmington—Oct. 30 to vote on $55,000 bonds extending water system. C. A. Haskins, 517 Finance Bldg., Kansas City, engr.

Tex., Greenville—Election soon to vote on $325,000 bonds new reservoir, etc. A. D. Duck, city engr. Noted Sept. 13.

Tex., Paris—Plans 500,000 gal. tank and tower, etc. $15,000. M. C. Welborn, city engr.

CONSTRUCTION NEWS

Engineering News-Record, October 25, 1923

The Construction Barometer

Curtailment in Iron and Steel Output—Drop in Unfilled Tonnage—Bank Debits Gain

CURTAILMENT in iron, steel and textile output reflects the recent falling off in demand. Cement however, is being produced at the highest rate on record and common brick are rapidly heading in the same direction.

Almost all buying is on a strictly conservative basis and confined to actual requirements only. That there has been more activity among purchasers since Summer, is evidenced by the increase in debits to individual accounts, as shown by the chart.

Unfilled steel tonnage has diminished steadily since the March peak and with September ingot production at the lowest point fo. the year, the position of the steel industry, usually considered a barometer of other industries, is clearly shown.

Bids: Nov. 7.

Storm Sewer

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the construction of 20 in. storm sewer, manholes, cross drains and catch basins on the W. Long Branch-Interlaken Rd. No. 41, Sect. 1—Total Length, 2973 Lin. Ft. and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, Nov. 7, 1923, at **11**:00 A.M.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

ATTEST:
CHARLES E. COLE, Clerk.
Freehold, N. J., Oct. 17, 1923.

Bids: Nov. 9.

State Highway Work

Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10.00) upon application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids must be made on the standard proposal form in the manner designated therein and as required by the specifications for this work, same to be enclosed in sealed special addressed envelopes, bearing the name and address of the bidder and the work bid upon on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids not enclosed in special addressed envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as required in and in accordance with the provisions of the said specifications conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

CONSTRUCTION NEWS

Engineering News-Record, November 1, 1923

The Construction Barometer

Prices Stable—Seasonal Slowness Pervades Market—Buyers Covered on Basic Materials

WHILE there has been a certain amount of price recession in building materials, during the last two weeks, the items affected were mainly those used in frame building construction. Steel structurals, cement and pine timbers have remained firm at present levels, during the last month. Douglas fir, however, shows a slight upward trend due to the influence of Japanese demand.

The volume of pig-iron buying has not been large enough to justify a maintenance of the recent high production rate, hence, the weakness in price.

The average common labor rate (54c. per hr.) has not varied since June. Meanwhile, wage schedules for the skilled trades have been steadily advancing. Higher wages are offset by the slight downward trend in certain prices. New buying is slow, however, owing to seasonal influences and the fact that purchasers are covered for months ahead on basic materials.

Waterworks

PROPOSED WORK

Conn., Middletown—Water Dept. plans pumping station on Highland Ave. $40,000. J. W. Mylchrest, city engr.

Pa., McKeesport—Election Nov. 6, to vote on $233,000 bonds for extending stand pipe, additional filter beds, etc., for waterworks system. J. E. Crossland, city clk.

Va., Staunton—Plans election to vote on $700,000 bonds for waterworks improvements.

N. C., Durham—Having surveys made extending water system, incl. new mains, plant, large dam on Flat River to create 4 billion gal. reservoir. Will probably build hydro electric plant. R. W. Rigsbee, city mgr.

N. C., Elon College—See "Buildings."

La., Gibsland—Nov. 8, to vote on $50,000 bonds for waterworks, distribution mains and electric light plant. E. T. Archer, New England Bldg., Kansas City, Mo., engr. Noted Oct. 18.

Tenn., Nashville — Plans to modernize waterworks plant, additional force mains, pumping equipment, etc. $2,000,000. H. E. Howse, mayor. Noted Aug. 2.

Tenn., Watertown—Plans to issue $50,000 bonds for waterworks improvements. Noted July 26.

Ky., Paducah—See "Streets and Roads."

O., Rocky River—Plans waterworks and filtration plant. $300,000. E. H. Arnold, city engr.

O., Struthers — Mahoning Valley Water Co., 403 Mahoning Bank Bldg., Youngstown, plans to purchase machinery and equipment for new filtration plant, here. $20,000. G. T. Evans, supt.

Mich., Ferndale—Voted $30,000 bonds extending mains, 6 and 8 in. c.i. pipe, etc. G. Jerome, 1331 Majestic Bldg., Detroit, engr.

Mich., Kalamazoo — See "Industrial Works."

Ill., Posen—Soon takes bids 4,000 lin.ft. 10 in., 7,400 lin.ft. 8 in., 2,700 lin.ft. 6 in. and 6,000 lin.ft. 4 in. c.i. mains, etc. E. Hancock, 2047 Ogden Ave., Chicago, engr.

Minn., Foxhome—Plans waterworks system, incl. mains, pumping equipment, etc. $15,000. C. A. Bevins, village recdr. Engineer not announced.

Minn., Granite Falls — Making plans water supply system, will either construct filter plant or install 3 mi. main to convey water from springs. $33,000. W. E. Buell & Co., 205 Davidson Bldg., Sioux City, Ia., engrs.

Minn., Marietta — Making plans waterworks system, 200 ft. well, pumping equipment, steel tower and tank, 30,000 gal. capacity. $24,000. W. E. Buell & Co., 205 Davidson Bldg., Sioux City, Ia., engrs.

Kan., Arkansas City — Soon takes bids waterworks improvements and extensions incl., 20,055 ft. 4 in. class B c.i. pipe, 7,337 lb. B & S specials, thirty-four 4-in. gate valves and boxes, 21 fire hydrants, 23 connections, 200 meters, 2 wells, and one remote control house pump, and extra equipment. $50,000. D. Lawhe, Arkansas City, engr. Noted Oct. 11.

Kan., Brookfield—Plans election to vote on $20,000 bonds waterworks and distribution system.

Kan., Kansas City—Plans extensions to water plant, $275,000 for 25 m.g. settling basin, $160,000 for 12 mi. new mains, $95,000 for 3 new pumping units. Bonds voted. F. F. Beauchamp, constr. engr. Noted Sept. 20.

Mo., Palmyra—Election soon to vote on $25,000 bonds waterworks, reservoir and disposal system.

Tex., Port Arthur — See "Streets and Roads."

Tex., Ranger—Plans election to vote on $200,000 bonds, filtration plant, main extensions, etc. Elrod Eng. Co., 3206 Elm St., Dallas, engrs.

Wash., Bellingham—Plans to purchase new c.i. mains early next year. $30,000. C. M. Adams, city engr.

Wash., Seattle—Plans impounding reservoir at Youngs Lake, drilling 9,000 ft. tunnel 8 ft. diam. concrete lined, alternate plan calls for 3,000 ft. tunnel, same diam. (over different route). $1,000,000. J. D. Blackwell, city engr.

Calif., Sacramento—City plans to purchase 10,000 lin.ft. of 6 in. c.i. mains. A. Givan, city engr.

Calif., Santa Ana—Having plans prepared water distributing system, 5,150 lin.ft. 30 in., 9,058 lin.ft. 27 in., 3,615 lin.ft. 21 in., 2,570 lin.ft. 18 in., 15,939 lin.ft. 15 in., 3,308 lin.ft. 14 in., 13,105 lin.ft. 12 in., 26,305 lin.ft. 10 in., 41,255 lin.ft. 8 in. and 7,290 lin.ft. 6 in. pipe, etc. R. L. Lucks, City Hall, engr.

Ont., Forest—Plans waterworks system incl. pumps, 15,000 ft. c.i. mains, 6 in. up, valves, hydrants, water towers, etc. $100,000. Chipman & Power, Mail Bldg., Toronto, engrs.

Ont., London—Utilities Bd. plans to extend mains in Oxford and Victoria Sts., probably 6 and 8 in. $30,000. E. V. Buchanan, Hydro Offices, engr.

Ont., Port Colborne — Preparing plans waterworks plant incl. storage basin, pump house, intake, two 750 gal. motor driven pumps, one 1,500 gal. gasoline driven pump, three pressure filter units, 12 in. mains and 2 m.g. elevated tank. $90,000. E. H. Darling, Home Bank Bldg., Hamilton, engr. Noted Sept. 20.

BIDS DESIRED

N. Y., Corning — Nov. 8, by Corning Homes Inc., mains and sewers. W. C. Sleight, secy.; adv. E. N.-R. Nov. 1.

N. Y., New York—Nov. 9, by N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., electric valve operating equipment, Manhattan Boro.

N. J., Chatham — Nov. 15, one, two or three 8 in. wells and respective suction lines. Tribus & Massa, 15 Park Row, New York City, consult. engrs.; adv. E. N.-R. Nov. 1.

N. J., Clifton—Nov. 13, by Passaic Valley Sewerage Comrs., 900 Chamber of Commerce Bldg., 24 Branford Pl., Newark, pumping machinery and equipment for Yantacaw pumping station, here. J. H. Quigg, clk.

N. J., Woodbury—Nov. 13, by C. S. Davis, city clk., c.i. pipes, special castings, bell-end stop valves with boxes and covers, etc. W. H. Boardman, 426 Walnut St., Phila., engr.; adv. E. N.-R. Nov. 1.

Colo., Denver — Nov. 5, by Bd. Water Comrs., 1509 Cleveland Pl., rein.-con. lining

Waterworks (Continued)

in east and west basins, Ashland Ave. Reservoir, retaining wall with timber roof at east basin, together with additional roof column footings in west basin, open concrete drains to be installed in both. $110,000; 20,400 ft. of 54 in. wood, concrete or steel conduit from Massey Hill to Wynetka. B. Lowther, 1509 Cleveland Pl., engr. Noted Oct. 4.

BIDS RECEIVED

N. Y., Long Island City—Bd. Water Supply, Gas & Electricity, Municipal Bldg., New York, Oct. 23, mains in Anable, Woolsey and 6th Aves., etc., here, from J. A. Gregory, 351 East 124th St., New York City, 42,572. Noted Oct. 18.

N. Y., New York—N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., Oct. 23, mains in Adee, Arnow and Bartow Aves., from Norton Eng. & Contg. Co., 510 West 149th St., $13,200; in Boyd, Bronxwood and Colden Aves. from Knight & DeMicco, 448 East Tremont Ave., $14,500. Noted Oct. 18.

N. Y., St. George—Bd. Water Supply, Gas & Electricity, Municipal Bldg., New York, Oct. 23, mains in Bennett, Clinton and Dewey Aves., here, from Knight & DeMicco, 448 East Tremont Ave., New York, $15,400. Noted Oct. 18.

Md., Baltimore — Bd. Awards, Oct. 24, brass service pipe fittings, from H. Mueller Mfg. Co., 512 West Cerro Gordo St., Decatur, Ill., $15,739. Noted Oct. 18.

O., Cleveland—Cuyahoga Co., 12,000 ft. 6 and 8 in. c.i. mains, Impvt. 45 Co. Sewer Dist., from Salem & George Bros., Erie Bldg., $51,271.

O., Columbus—See "Sewers."

Calif., Santa Cruz—Constructing Bay St. reservoir, from Egan Constr. Co., Stockton, $147,075. Noted Oct. 18.

Que., Montreal—Executive Comn., City Hall Annex, furnishing 5,160 ft. 16 in. and 5,940 ft. 20 in. Class C c.i. pipe (747 tons) from Canada Iron & Foundries, Mark-Fisher Bldg., $52.75 per ton. Noted Sept. 27.

CONTRACTS AWARDED

Mass., Stoneham (Boston P. O.)—Metropolitan Dist. Comn., 1 Ashburton Pl., Boston, crank and flywheel, cross compound pump, 20 m.g.d., to Worthington Pump and Mchy. Corp., 115 Bway., New York City, $69,000. Noted Sept. 13.

Conn., Bristol—Water Dept., laying 4,000 ft. 6-12 in. c.i. mains in various streets, to J. E. Driscoll, 499 Prospect St., Torrington. Engrs. est. $20,000.

N. Y., Albany—Repairing retaining wall of basins, removing and replacing new sand, etc., in filtration plant, to E. B. Stevenson, Albany, $62,277. Engrs. est. $60,000. Noted Oct. 18.

N. J., Matawan—Boro Council, 150,000 gal. storage water tank, to Pittsburgh-Des Moines Steel Co., Curry Bldg., Pittsburgh, Pa., $12,940; concrete base for tower, to W. Bianchini, Freehold, $2,495. Noted Oct. 4.

O., Euclid—See "Sewers."

O., Lyndhurst (Cleveland Heights P. O.) —See "Sewers."

Ind., South Bend—Bd. Pub. Wks., waterworks station; building and foundations to Hay-Wever Co., South Bend, $157,400; suction well to Phelps & Son, Knoxville, $27,000; chimney to H. R. Heinicke, Inc., 540 North Meridan St., Indianapolis, $6,083; pumps to Allis-Chalmers Co., 1410 Waldheim Bldg., Kansas City, Mo., $69,900; boilers to Union Iron Wks., Lackawanna Siding, Hoboken, N. J. $23,008; coal and ash handling, to Link-Belt Co., 910 South Michigan Ave., Chicago, $12,143. Noted Oct. 4, 1923.

Kan., Winfield—Waterworks extensions, incl. 22,000 ft. 16 in. pipe, to Central Fdry. Co., 332 South Michigan St., Chicago, $87,560. Engrs. est. $75,000.

S. D. Milbank—Water collection system, incl. 1,940 lin. ft. pipe, rein.-con. reservoir, etc., to E. M. Scheflow, Elgin, Ill., $18,200. Noted Sept. 20.

Tex., Ft. Worth—Cast Iron pipe 15 cars, 4 in. up, to Natl. Cast Iron Pipe Co., Great Southwestern Life Bldg., Dallas, $15,000.

Tex., Kerrville—For 75 hp. Worthington pump, motor driven, etc., to G. E. Ginter, Calcasieu Bldg., San Antonio, $10,707. Noted Sept. 27.

Tex., Sweetwater—Filter plant, complete, to R. C. Newcomb, Scollard Bldg., Dallas, $39,000. Noted Sept. 6.

Idaho, Lewiston—Waterworks improvements, incl. filtration plant, 2 reservoirs, 6 mi. c.i. pipe, etc., to Chanute Constr. Co., Chanute, Kan., $346,600. Noted Sept. 20.

Sewers

PROPOSED WORK

Mass., Roxbury—Dept. Pub. Wks., Boston, soon takes bids 500 ft. circular concrete, and 2,000 ft. 10-18 in. earthen pipe sewer in Weld St., here. E. F. Murphy, div. engr. City of Boston.

N. Y., Albany — Plans extending 2 mi. Patroons Creek sewer and branches from below Russell Rd. reservoir to Central Ave. $125,000. F. Ravens, City Hall, engr.

PROPOSED WORK

California—Road—C. H. Sweetser, dist. engr. U. S. Bureau Pub. Rds., 9 Main St., San Francisco, making plans improving Yuba Pass National Forest Highway Project, 10 acres clearing, 135,000 cu.yd. excav., 3,500 lin.ft. corrugated pipe, etc.

Calif., San Diego—Concrete Floor, Foundations, etc.—Spec. 4925—Bureau Yards & Docks, Navy Dept., Wash., D. C., plans concrete slab floor, concrete foundations, water and drainage systems, etc., here.

BIDS DESIRED

Conn., Mystic—Post Office—Nov. 26, by Treas. Dept., Wash., D. C., 1 story, 62 x 64 ft., brick and tile, here. J. A. Wetmore, acting superv. archt.

N. Y., New York—Dredging, etc.—Nov. 30, at office U. S. Engineer, Army Bldg., 39 Whitehall St., dredging and rock removal in Bronx River; adv. E. N.-R. Nov. 1.

Pa., Fort Mifflin—Pipe, Specials, etc.—Nov. 2, at office U. S. Engineer, Phila., 1,075 lin.ft. 4 in. c.i. pipe, specials, etc.

La. New Orleans — Barge Nov. 27, at office U. S. Engineer, 329 Custom House, one 120 x 30 x 7 ft. steel barge and two 80 x 26 x 5 ft. steel oil barges; adv. E. N.-R. Nov. 1.

O., Gallipolis—Post Office—Nov. 27, by Treas. Dept., Wash., D. C., construction U. S. Post Office, here. J. A. Wetmore, acting superv. archt.; adv. E. N.-R. Nov. 1.

Ill., Great Lakes—Rebuilding Laundry—Spec. 4918—Nov. 7 by Bureau Yards & Docks, Navy Dept., Wash., D. C., rebuilding laundry, here. Noted Oct. 4.

Wis., Ripon—Post Office—Nov. 23, by Treas. Dept., Wash., D. C., construction, complete incl. mechanical equipment, U. S. Post Office, here. J. A. Wetmore, acting superv. archt.; adv. E. N.-R. Nov. 1.

Idaho, American Falls — Water Supply System—Nov. 27, by U. S. Bureau of Recl. Denver, Colo., furnishing and laying wood or metal water pipe, in Reclamation Addition to City of American Falls, Minidoka Project. D. W. Davis, comr.; adv. E. N.-R. Nov. 1.

Nevada—Road—Nov. 9, by C. H. Sweetser, dist. engr. U. S. Bureau Pub. Rds., 9 Main St., San Francisco, Calif., grading 8.87 mi. Meadow Creek Sect., Gold Creek-Jarbridge Highway, Elko Co., here, 53,500 cu.yd. excav., 1,660 lin.ft. corrugated metal pipe, etc.

Wash., Puget Sound—Dredging—Spec. 4708—Nov. 21 by Bureau Yards & Docks, Navy Dept., Wash., D. C., dredging approximately 68,000 cu.yd. place measurement in Navy Yard, here.

Wash., Tacoma—Dredging—Nov. 19, at office U. S. Engineer, Seattle, dredging 78,000 yd. in Harbor, here.

Oregon—Road—Nov. 8 by C. H. Purcell, dist. engr., U. S. Bureau Pub. Rds., Post Office Bldg., Portland, constructing 7.2 mi. Detroit-Niagara Sect. Santiam National Forest Rd., 40 ft., Marion Co., 17 acres clearing, 88,000 cu.yd. rock excav., 60,000 cu.yd. common excav., etc.

Oregon—Road—Nov. 8, by C. H. Purcell, dist. engr. U. S. Bureau Pub. Rds., New Post Office Bldg., Portland, constructing 7.2 mi. Waldo-Elk Creek Sect., Grants Pass-Crescent City National Forest Rd. Project, 35 acres clearing, 21 acres grubbing, 5,000 cu.yd. rock excav., 53,000 cu.yd. common excav., etc.

California—Road—Nov. 13, by C. H. Sweetser, dist. engr., U. S. Bureau Pub. Rds., 9 Main St., San Francisco, clearing, grading and crushed rock surfacing 15.5 mi. Murphy-Big Trees National Forest Highway, Calavoras Co., 100 acres clearing, 133,400 cu.yd. excav., 18,000 cu.yd. crushed rock surfacing, etc. Noted Aug. 16.

BIDS RECEIVED

R. I., Providence—Dredging—U. S. Engineer, Providence, R. I., dredging 348,000 cu.yd. in Harbor, here, from Bay State Dredging and Contg. Co., 62 Condor Et., East Boston (Boston P. O.), Mass., $80,360. Noted Sept. 30.

N. Y., Brooklyn—Lumber—Bureau Supplies and Accounts, Navy Dept., Wash., D. C., furnishing 80,000 ft. b.m. white oak, Navy specification, at Navy Yard, here, from C. E. Chenevert, 856 Spitzer Bldg., Toledo, O., $87.50 per M.

D. C., Wash.—Grading, etc.—Constructing Quartermaster, War Dept., clearing, grading, etc., extension to Flying Field at Bolling Field, from C. T. Hofferberth, Woodward Bldg., $47,635.

Va., Fortress Monroe—Pipe Line—Constructing Quartermaster, Fortress Monroe, pipe line construction incl. relocation pipe line, trestle, and elevated steel water tank, here and at Langley Field, from Noland-Clifford Co., 330 28th St., Newport News, $52,898.

S. C., Clinton—Post Office—Treas. Dept., Wash., D. C., 1 story, 62 x 64 ft., brick and tile, here, from Perkins Constr. Co., Greenville, $42,485. Noted Oct. 4.

Ky., Louisville—Derricks—U. S. Engineer, P. O. Box 72, furnishing 6 steel derricks complete exclusive of wire rope, from Lakeside Bridge & Steel Co., North Milwaukee, Wis., $33,700. Noted Oct. 4.

Wyoming—Road—J. W. Johnson, dist. engr., U. S. Bureau Pub. Rds., Custom House, Denver, Colo., grading 3.77 mi. Cody-Yellowstone Rd., here, from Taggard Bros. & Tebbs, Cowley, $70,128. Noted Sept. 27.

Calif., Los Angeles—Dredging—U. S. Engineer, 725 Central Bldg., dredging 700,000 cu.yd. in Harbor, here, from United Dredging Co., Central Bldg., $0.4197 per cu.yd., total $293,790. Noted Sept. 27.

Calif., Presidio (San Francisco P. O.)—Pump, etc.—Constructing Quartermaster, Fort Mason, San Francisco, 20 in. booster pump and motor, f.o.b. Rio Vista, and addition to pump house, here, from Main Iron Wks., 16th and Daggett Sts., San Francisco, $9,685. Noted Oct. 18.

CONTRACTS AWARDED

N. Y., New York—Discharge Pipe—U. S. Engineer, Army Bldg., 167 lengths shore discharge pipe, to Thompson Iron Wks., 1825 Callowhill St., Phila., $6,495.

Pa., Point Marion—Lock—U. S. Engineer Office, Pittsburgh, will build Lock 8, Monongahela River, here, by day labor. $750,000.

Ala., Florence—Cement—U. S. Engineer, furnishing 60,000 bbl. portland cement for Wilson Dam, to Lehigh Portland Cement Co., Birmingham, $89,562 and Atlas Portland Cement Co., B-N Bldg., Birmingham, $88,129.

Ala., Florence—Lime—U. S. Engineer, furnishing 15,000 sacks hydrated lime for Wilson Dam, Muscle Shoals, to Keystone Lime Wks., Keystone, $8,460.

Federal Government Work (Continued)

Ala., Mobile—Pontoon Pipe—U. S. Engineer, 1,200 ft. 15 in. iron discharge pipe and one 90 degree elbow, to Hartley Boiler Wks., Lownes St., Montgomery, $6,098. Noted Aug. 9.

Ala., Mobile—Steel Beams—U. S. Engineer, furnishing 100 tons fabricated steel beams, to Virginia Bridge and Iron Co., Roanoke, Va., $8,950.

La., New Orleans—Lumber—U. S. Engineer, furnishing 260,000 ft. yellow pine lumber, to G. E. Gurd, Natchez, Miss., $5,460.

Ill., Rock Island—Lumber—U. S. Engineer, furnishing 280,947 ft. b.m. Douglas fir, to Brandmeir-Rounds Lumber Co., White Bldg., Seattle, Wash., $8,410. Noted Aug. 30.

Kan., Ft. Riley—Road Paving—Constructing Quartermaster, 60,000 sq.yd. bituminous roadway, to Kaw Paving Co., 616 New England Bldg., Topeka, $68,060. Noted Oct. 4.

Ark., North Little Rock—Building, etc. —F. T. Hines, dir. U. S. Veterans Bureau, at office Constructing Quartermaster General, 2306 Munitions Bldg., Wash., D. C., for disturbed patients building, 2 continued treatment buildings, recreation building, tuberculosis cottage, male attendants quarters, additions to nurses' quarters, and to kitchen and mess, all rein.-con., brick and tile; together with road, water, sewer and electric lines serving same, to Murch Bros. Constr. Co., Railway Exch. Bldg., St. Louis, Mo., $618,909 (250 days). Noted Oct. 25.

New Mexico—Road—E. S. Wheeler, dist. engr., U. S. Bureau New Pub. Rds., Dept. Agriculture, 242 West Washington St., Phoenix, Ariz., constructing or improving 11.09 mi. Glenwood-Reserve Sect. 4, Forest Highway, Datil National Forest, Catron Co., here, to Fuqua & Gonzales, Las Cruces, $239,450. Noted Aug. 23.

Arizona — Road — E. S. Wheeler, dist. engr., U. S. Bureau Pub. Rds., Dept. Agriculture, 242 West Washington St., Phoenix, constructing 15.583 mi. Prescott-White Spar Forest Highway, Prescott National Forest, Yavapai Co., to Lee Moor Contg. Co., Two Republics Bldg., El Paso, Tex., $462,907 (condition A Alternate); grading 16.522 mi. Salt River-Pleasant Valley, Sect. 1, Forest Highway, Tonto National Forest, Gila Co., 12 ft., to W. C. Braley, Claypool, 18,917 cu. yd. rock excav. $1.25, 80,946 cu.yd. common excav. $0.28, 3,608 lin.ft. 18 in. and 920 lin. ft. 24 in. corrugated metal pipe $2.20 and $3.30 respectively, etc., total $87,803 (Condition A Alternate 2). Noted Aug. 23 and Sept. 20.

Unclassified

PROPOSED WORK

Hydro-electric Development—Morrisville, Vt.—Village plans hydro-electric development, incl. concrete dam, power house, etc. $150,000. C. A. Slayton, Morrisville, engr. and mgr.

Airplane Hangar—Hartford, Conn.—Aircraft Comn., Municipal Bldg., plans 60 x 120 ft., steel and wood hangar. $25,000.

Sewalls—Geneva, N. Y.—See "Streets and Roads."

Subway—Watertown, N. Y.—City, State and New York Central R.R., Grand Central Terminal, New York City, plan subway under Massey St. $85,000. A. Burkhardt, c/o Pub. Service Comn., Albany, engr.

Undercrossing — Scranton, Pa. — See "Bridges."

Park—Washington Crossing, Pa.—Washington Park Comn. plans to develop state park, here. $100,000. A. P. Townsend, Langhorne, secy.

Fish Hatchery — Marion, N. C. — State Fish Comn., Raleigh, plans construction of lake and development of fish hatchery plant, 18 mi. from Marion, Cedar Cove Twp., McDowell Co. $50,000. J. K. Dixon, Trenton, chn.

Transmission Line—Alabama—Alabama Power Co., B. M. Bldg., Birmingham, plans 48 mi. transmission line from Montgomery to Greenville. $310,000.

Terminal — Memphis, Tenn. — Jones & Laughlin Steel Corp., Ross St., Pittsburgh, Pa., plans river and rail transfer terminal on 8 acre site, here.

Tractor, etc.—Kenosha, Wis.—City plans to purchase tractor, 2 road graders and catchbasin cleaning machine. B. W. Bolerjack, purch. agt.

Parks, etc.—Cincinnati, O.—Nov. 6 to vote on $1,750,000 bonds parks, boulevards and playgrounds. F. Krug, City Hall, engr.

Street Lights, etc.—Cleveland, O.—Plans overhead street lights, equipment and distribution service for same. Plans election to vote on $400,000 bonds.

Jetties—Lakewood (Cleveland P. O.), O. —See "Buildings."

Docks—Sandusky, O.—Lower Lakes Dock Co., foot of King St., and Pennsylvania R.R., Penn. Sta., Pittsburgh, plan improving docks along canal, and new railroad terminal. $1,000,000.

Freight Yard—Willows (East St. Louis P. O.), **Ill.**—Chicago, Burlington & Quincy R.R., 547 Jackson Bvd., Chicago, plans freight yards, capacity 1,100 cars, here. $700,000. A. W. Newton, ch. engr.

Golf Course—Dallas, Tex.—City having plans prepared golf course in Tennison Park. $25,000. E. A. Kingsley, city engr.

Levee System—Kaufman, Tex.—Kaufman Levee Dist. 4, voted $175,000 bonds for improvements, alterations and maintenance of present system. Noted Oct. 11.

Wharf—Cap Rouge, Que.—See "Industrial Works."

Power Line—Jarvis, Ont.—Plans to build 7 mi. electric power line from here to Hagersville. $35,000. Work will be done under direction Ontario Hydro Comn., London, A. Beck, chn.

Wharves and Slip—Saulte Ste. Marie, Ont.—Spanish River Pulp & Paper Co. had plans prepared wharves and slip, concrete and timber. $350,000. Private plans.

Gas Mains—Kingsville, Ont.—B. Jasperson plans to lay gas mains in various streets. $25,000.

Arena—Port Arthur, Ont.—Port Arthur Arena Co. having plans prepared 1 and 2 story skating arena. $150,000. C. D. Howe & Co., Port Arthur, engrs.

Public Lavatories—Toronto, Ont.—City plans 24 one and two story, rein.-con., brick and steel lavatories, plain foundations, in various sections of city. R. C. Harris, city engr. W. Price, city archt.

BIDS DESIRED

Concrete Mixer—Brooklyn, N. Y.—O. and R. Heepe, 461 7th Ave., taking bids concrete mixer.

Fire Alarm System—Coney Island (Brooklyn P. O.), **N. Y.**—Nov. 5 by T. J. Drennan, fire comr., Municipal Bldg., New York, portion of underground fire alarm system, here.

Subway—New York, N. Y.—Nov. 13, by Transit Comn., 49 Lafayette St., tracks for part of Jerome Ave. Yard of 7th Ave. Lexington Ave. Line. G. McAneny, chn.

Gravel Loader—Wilmington, N. C.—W. Clark P. O. Box 824, in market 2 ton hoist steam driven gravel loader.

Dragline Machines—Greenville, Miss.—Dec. 4, by Bd. Drainage Comrs. Washington Co., 3 dragline machines. O. C. Kulicka, ch. engr.; adv. E. N.-R. Nov. 1.

Cement Mixing Machine—Kenosha, Wis. —B. W. Bolerjack, city purch. agt., taking bigs cement mixing machine for Street Dept.

Tractor, etc. — Shorewood, (Milwaukee P. O.), **Wis.**—Nov. 5, by G. E. Krnecke, village purch. agt., one tractor and snow remover, also street cleaning equipment which can be attached.

Tunnel—Oroville, Calif.—Nov. 10, by Directors Oroville-Wyandotte Irrigation Dist., Tunnel No. 1 for Lost Creek concrete arch dam on South Feather River Ditch, 1,140 lin.ft. long, 370 cu.yd. solid rock and 210 lin. ft. loose rock excav.; constructing road, 1,800 cu.yd. solid and 4,400 cu.yd. loose rock excav. S. J. Norris, ch. engr.

Hopper Dredge — Brisbane, Queensland, Australia—March 31, by G. L. Beal, under secy. The Treasury, furnishing twin screw bucket hopper dredger.

Aluminum Steel Cored Cable and Accessories—Melbourne, Victoria, Australia—Jan. 3, by R. Liddelow, secy. State Electricity Comn. of Victoria for Specification 24/1, aluminum steel cored cable and accessories, for Morwell Power Scheme; adv. E. N.-R. Nov. 1.

BIDS RECEIVED

Station Finish—Brooklyn, N. Y.—Transit Comn., 49 Lafayette Ave., New York, station finish work for part of Bway.-4th Ave. Rapid Transit R.R. in Willoughby St. between Lawrence and Bridge Sts., here, from Station Finish Corp., 7 East 42nd St., New York, $51,100. Noted Oct. 18.

Materials—St. Paul, Minn.—H. W. Austin, city purch. agt., materials for paving Plum St. **(a)** 380 bbl. cement **(b)** 623 cu.yd. crushed rock **(c)** 27 tons asphalt **(d)** 116 tons binder stone **(e)** 45 tons trap rock, from Speakes Co., Griggs and Fuller Sts., **(a)** $2.80 per bbl.; Stiefel Material Co., 501 Concord St., **(a)** $2.80 **(b)** $3; Donohue Brick Co., 614 Ryan Bldg., **(a)** $2.80; J. L. Shiely Co., 305 Dakota Bldg., **(b)** $3 **(d)** $2; Minnesota Road Equipment Co., 4536 Dupont Ave. S., Minneapolis, **(c)** $22.66, Trap Rock Co., Bway. and K St., N. E., Minneapolis, **(d)** $2, **(e)** $2.25; 400 coils ¾ in. extra strong lead pipe and 5,000 lb. solder, for Water Dept., from Natl. Lead Co., 451 East 6th St., $8.06 per 100 lb. and $23 per 100 lb. respectively. Noted Oct. 11.

Grade Separation—Colorado—See "Streets and Roads."

Cement—Portland, Ore.—Multnomah Co. furnishing 270,000 bbl. cement for construction of Burnside and Ross Island bridges from H. Cowell Lime & Cement Co., Ry. Exch. Bldg., $3.04 f.o.b. barges at bridge site, 10c. credit on each sack returned, and 5c. per bbl. discount for cash in 10 days. Noted Oct. 4.

CONTRACTS AWARDED

Underground Fire Alarm System—New York, N. Y.—T. J. Drennan, fire comr., Municipal Bldg., part of underground fire alarm system in Bronx Boro, to W. F. Kenny Co., 44 East 23rd St., Item 1 $10,914; J. Sudgen Co., 100 5th Ave., Item 2 $62,775. Noted Oct. 25.

Dock—North Tonawanda, N. Y.—Tonawanda Iron Corp., new dock, to Empire Eng. Co., River Rd., to exceed $200,000. Noted May 10.

Subway — Martinsburg, W. Va. — Baltimore & Ohio R.R., Baltimore and Charles Sts., Baltimore, Md., concrete subway under tracks, here, to Empire Eng. Co. Inc., 216 East Lexington St., Baltimore, Md., $300,000.

Levee—New Orleans, La.,—Bd. Comrs. Atchafalaya Basin Dist., State Engineer Office, 213-215 New Court House Bldg., constructing Sect. 2 Alabama Island Levee, 1,000,000 cu.yd. excav., to H. B. Blanks, 502 First Natl. Bank Bldg., Vicksburg, Miss., $275,000.

Car Barns, etc.—Richmond, Ind.—Terre Haute, Indianapolis & Eastern Traction Co., Traction Terminal, Indianapolis, plans car barns and repair shop, here. $50,000.

Dock — Mackinaw, Mich. — State Hy. Dept., Lansing, dock here, to T. L. Durocher Co., DeTour, $98,718.

Coaling Station — Gilman, Ill. — Illinois Central R.R. Co., 135 East 11th Pl., Chicago, rein.-con. coaling station, 300 ton capacity, here, to Howlett Constr. Co., 1605 5th Ave., Moline. Archts. est. $40,000.

Golf Course—Appleton, Wis.—Appleton Golf Club, c/o S. Harwood, pres., 806 College Ave., will construct 18 hole golf course, by day labor. $35,000. W. C. Jackson, 909 Webster Bldg., Chicago, engr. Noted Sept. 20.

Foundation — La Crosse, Wis. — See "Buildings" under "Proposed Work."

Culverts—Le Mars, Ia.—Plymouth Co., 11 box culverts and 1 pony truss, 654.5 cu.yd. rein.-con., 121,600 lb. steel, etc., to Deloit Bridge Co., Denison, $25,826.

Spray Pond—Leavenworth, Kan.—Kansas Electric Power Co. will construct 86 x 187 ft. rein.-con. spray pond, by day labor. $35,000. Private plans.

Levee — Gascony, Ark. — New Gascony Levee Dist. 1, new levee embracing 106,000 cu.yd. earth work, to H. Brown, North Little Rock, $0.33 per cu.yd. Engrs. est. $35,000.

Dock Sheds — Houston, Tex. — Turning Basin Compress Co., Ship Channel, dock sheds, brick, to W. E. Humphreville, Woolworth Bldg., $42,500.

Gate Valves—Montreal, Que.—Furnishing two 48 in. and four 48 in. gate valves to Dominion Eng. Wks., Lachine, $6,500 and $11,850 respectively; five 36 in., one 30 in. and one 24 in. gate valves to Drummond McCall & Co., 28 Victoria Sq., $7,515, $1,105 and $635 respectively. Noted Oct. 25.

Pier—Burlington, Ont.—Dept. Pub. Wks., Parliament Bldgs., Ottawa, reconstructing south pier in Burlington Channel, concrete and pile, to Port Arthur Constr. Co., Excelsior Life Bldg., Toronto, $46,000.

Foundation—Hamilton, Ont.—Canadian Westinghouse Co., Ltd., Aberdeen St., foundation for 1 story, rein.-con., brick and steel foundry, Aberdeen St., to Yates Constr. Co., 17 Main St. E. Total cost $250,000.

Steel Towers—Port Arthur, Ont.—Hydro Electric Power Con., 190 University Ave., Toronto, steel towers for 80 mi. transmission line, to Port Arthur Shipbuilding Co., Port Arthur, $200,000.

Docks—Sandwich, Ont.—Pittsburg Coal Co., extending docks to Detroit River Constr. Co., Sandwich St. W., $100,000.

Telephone Cable — Toronto, Ont. — Bell Telephone Co. of Canada, 76 Adelaide St. W., will build 264 pair cable from here to Hamilton, distance of 40 miles, by day labor. $750,000. F. Kennedy, mgr.

CONSTRUCTION NEWS

Engineering News-Record, November 8, 1923

The Construction Barometer

Construction Volume 132 Compared with 130 in Ten Months of 1922

A FACT that may not be generally recognized but deserves serious consideration is that although the value of contracts awarded in the first ten months of this year is $330,000,000 greater than in the same period of 1922 the actual physical volume of construction is only 1½ per cent above last year. *Engineering News-Record's* Volume Index Number for the ten months of 1923 is 132, against 130 for the same period of 1922 and also for the whole of 1922. This is due entirely to high cost. The Cost Index is 214 for the ten months of 1923 and 173 for 1922.

The sharp rise in industrial building, shown by the chart, is attributable to the $20,000,000 power plant at Kearny, N. J., for the Public Service Corporation. The difference in the September and October bridge contracts is due to four big September awards totaling $9,914,366.

O., Springfield—School—Bd. Educ., Oct. 29, 2 story and basement, 71 x 163 ft., rein.-con. and brick, from T. A. Graham, 1519 Clifton Ave., $142,821. Noted Oct. 25.

Calif., Sacramento—Theatre—Paramount Theatre, Inc., c/o L. F. Starks, archt., 1010½ 8th St., general contract rein.-con. and steel, K St., from Mathews Constr. Co., Forum Bldg., $224,000. Noted Oct. 18.

WATERWAY—ILLINOIS

Following are lowest three bids opened by Dept. Pub. Wks. & Bldgs., Div. Waterways, Springfield, Sept. 19, for constructing Lockport Lock (exclusive of miter gates), (A) Greene & Sons Co., 705 Tower Bldg. (awarded contract); (B) M. E. White Co., 130 North Wells St.; (C) Byrne Bros. Constr. Co., 358 East 115th St. Contractors all of Chicago. The unit bids were as follows:

	A	B	C
Clearing (lump sum)	$8,750.00	$3,300.00	$3,200.00
Cofferdams, pumping, etc. (lump sum)	190,000.00	73,000.00	166,000.00
171,000 cu.yd. excavation	2.00	3.50	478,000.00
39,000 sq.ft. channeling	.50	1.00	1.27
12.3 M.ft. b.m. pine and fir timber	100.00	100.00	100.00
4.4 M.ft. b.m. white oak timber	200.00	200.00	200.00
1,564,000 lb. structural steel	.10	.105	.15
167,000 lb. steel castings	.17	.24	.30
22,000 lb. gray iron castings	.12	.18	.25
36,000 lb. steel forgings	.24	.18	.25
96,600 cu.yd. concrete	6.60	6.50	9.50
30,500 lb. metal reinforcement	.05	.55	.10
18 lin.ft. 30-in. vitrified pipe	5.00	7.00	5.00
48-30-in. vitrified pipe specials	16.00	25.00	20.00
58 lin.ft. 24-in. vitrified pipe	3.00	5.00	3.00
4-24-in. vitrified pipe specials	12.00	15.00	15.00
600 lin.ft. 18-in. vitrified pipe	2.70	2.50	1.60
29-18-in. vitrified pipe specials	8.00	8.00	10.00
170 lin.ft. 8-in. vitrified pipe and specials	1.00	1.00	2.00
1,770 lin.ft. 6-in. vitrified pipe and specials	.15	.75	1.20
120 lin.ft. 4-in. vitrified pipe and specials	.40	.50	.75
15,000 lb. 1, 2, 4½ and 6-in. W.S. pipe and railings	.15	.27	.50
12,800 lb. 6 and 8-in. c.i. pipe and specials	.07	.12	.10
6 valve sets for shuttle gate	390.00	825.00	800.00
3 6-in. quick oper. gate valves	40.00	55.00	60.00
3,850 lin.ft. 3-in. fiber conduit	.40	.30	.50
2 lift gate machinery	20,000.00	26,500.00	24,750.00
2-50-hp. electric motors	2,000.00	2,000.00	2,000.00
4 gate for culvert valves	2,000.00	2,300.00	3,500.00
Extended totals	$1,460,077	$1,643,249	$2,007,063

BULL RUN CONDUIT—PORTLAND, ORE.

Following are lowest three bids opened by city, Oct. 3, for constructing Bull Run Conduit, (A) Willamette Iron & Steel Works, Foot of Front St., N., (awarded contract for lock bar pipe); (B) J. H. Tillman Co., 622 Ry. Exch. Bldg., riveted steel pipe; (C) J. F. Shea, Henry Bldg., riveted steel pipe. The unit bids were as follows:

	A	B	C
36,200 lin.ft. 60-in. riveted steel pipe, $\frac{5}{16}$-in. plate	....	$16.49	$15.25
12,300 lin.ft. 60-in. riveted steel pipe, $\frac{3}{8}$-in. plate	....	18.96	17.71
1,600 lin.ft. 60-in. riveted steel pipe, $\frac{7}{16}$-in. plate	....	22.34	20.46
2,700 lin.ft. 60-in. riveted steel pipe, $\frac{1}{2}$-in. plate	....	30.90	26.54
35,400 lin.ft. 52-in. riveted steel pipe, $\frac{1}{4}$-in. plate	....	11.77	11.72
22,400 lin.ft. 52-in. riveted steel pipe, $\frac{5}{16}$-in. plate	....	14.18	13.60
21,800 lin.ft. 52-in. riveted steel pipe, $\frac{3}{8}$-in. plate	....	16.46	15.79
Alternate proposal for lock bar or hammer welded and annealed pipe	....	....	....
49,840 lin.ft. 58-in. lock bar pipe, $\frac{5}{16}$-in. plate	$16.09	....	....
500 lin.ft. 58-in. lock bar pipe, $\frac{3}{8}$-in plate	18.52	....	....
1,000 lin ft. 58-in. lock bar pipe, $\frac{7}{16}$-in. plate	20.56	....	....
1,460 lin.ft. 58-in. t.r. butt strap, $\frac{1}{2}$-in. plate	33.10	....	....
60,600 lin.ft. 50-in. lock bar pipe, $\frac{1}{4}$-in. plate	12.54	....	....
19,000 lin.ft. 50-in. lock bar pipe, $\frac{5}{16}$-in. plate	14.25	....	....
Items same for either	....	....	....
12-6-in. air valves with 6-in. gate valves	323.73	330.00	292.00
10-6-in. air valves with 6-in. gate valves offset	343.35	340.00	292.00
6-4-in. air valves with 4-in. gate valves	189.66	200.00	160.00
7-4-in. air valves with 4-in. gate valves offset	209.28	210.00	160.00
35-6-in. blow offs with 6-in. gate valves	71.94	30.00	34.00
2,000 lin.ft. 6-in. class "B" B. & S. c.i. pipe	1.31	1.50	1.50
22,200 lb. steel trestle bents	.095	.10	.14
720 lin.ft. boxing for 60-in. diameter pipe	4.09	5.50	4.50
780 lin.ft. boxing for 52-in. diameter pipe	3.81	5.00	4.50
310 cu.yd. concrete masonry, class A	32.70	25.00	30.00
600 cu.yd. concrete masonry, class B	30.52	21.00	28.00
1 venturi meter with recorder for 60-in. pipe in place	5,668.00	4,200.00	5,400.00
1 venturi meter with recorder for 52-in. pipe in place	5,014.00	4,000.00	4,700.00
2 reinforced concrete meter houses complete	1,308.00	650.00	1,250.00
1 reinforced concrete addition to gate chamber No. 1	2,398.00	1,800.00	1,800.00
1 concrete inlet chamber at res. No. 1	14,170.00	12,000.00	11,000.00
1-48-in. x 72-in. sluice gate with weatherproof stand	2,670.50	1,800.00	2,650.00
1-60-in. gate valve with weatherproof stand	4,251.00	4,200.00	4,000.00
1-7-ft. traveling intake screen (placing only)	545.00	400.00	800.00
2-6-ft. traveling intake screen (placing only)	872.00	300.00	1,200.00
10,000 cu.yd. solid rock excavation (trench)	3.82	3.50	4.50
290,000 cu.yd. other excavated material and refilling pipe trenches	1.11	.94	1.18
13,500 cu.yd. gravel backfill	2.18	3.00	3.00

ROAD WORK—KENTUCKY

Following are lowest three bids opened by State Highway Comn., Frankfort, Sept. 26, for improving 6.502 mi. Mt. Sterling-Owingsville Rd., Montgomery Co., (A) Gradison Constr. Co., 701 1st Natl. Bank Bldg., Cincinnati, O.; (B) Metzel, O'Hearn, Vastine & Lewin, Covington; (C) J. A. Kreis, Knoxville, Tenn. The unit bids were as follows:

	A	B	C
1 acre clearing and grubbing	$50.00	$100.00	$100.00
524 trees and stumps	3.00	5.00	5.00
45,297 cu.yd. earth excavation	.50	.58	.50
984 cu.yd. borrow excavation	1.00	.60	.50
133 cu.yd. structural excavation	1.00	1.50	1.00
25,674 sq.yd. overhaul	.05	.05	.03
14,400 sq.yd. scarifying and reshaping	.05	.05	.10
1,326 ft. concrete curb and gutter	.50	[illegible]	1.40
257 cu.yd. class A concrete	14.00	24.00	26.00
8,700 lb. reinforcement	.06	.07	.07
1 rural catch basin	50.00	60.00	50.00
276 ft. 12 in. culvert metal pipe	1.50	2.50	1.40
1,000 cu.yd. rock excavation	1.25	2.50	1.40
69,188 sq.yd. rock asphalt	1.00	1.03	1.20
23,221 tons crushed limestone			3.60
69,188 sq.yd. 6 in. concrete base	2.15	2.18	2.07
69,188 sq.yd. reinforced concrete	2.65	2.69	2.94
938 ft. 18 in. vitrified pipe	1.75	2.25	1.80
172 ft. 24 in. vitrified pipe	2.25	3.00	3.40
103 cu.yd. encased concrete	12.00	20.00	24.00
938 ft. 18 in. concrete pipe	2.50	3.00	3.60
172 ft. 24 in. concrete pipe	3.50	4.00	5.00
Extended totals rock asphalt concrete base vitrified pipe	$251,283	$266,326	$265,605
Extended totals rock asphalt concrete base concrete pipe	250,968	265,146	265,102
Extended totals reinforced-concrete pavement vitrified pipe	220,504	234,278	247,351
Extended totals reinforced-concrete pavement concrete vitrified pipe	220,189	233,098	246,848

Federal Government Work (Continued)

California—Sheet Steel—Bureau Supplies & Accounts, Navy Dept., Wash., D. C., furnishing 229,990 lb. soft sheet steel for Navy Yards, at Mare Island and San Diego, here, to Holbrook, Merrill & Stetson, 665 6th St., San Francisco, $12,019 (60 days).

Unclassified

PROPOSED WORK

Grain Elevator—Buffalo, N. Y.—W. E. Kreiner, 652 Elk St., plans grain elevator, concrete. $30,000.

Athletic Field and Bulkhead, etc.—Hightstown, N. J.—See "Buildings."

Swimming Pool—Bluefield, W. Va.—See "Buildings."

Levee — New Orleans, La. — Bd. Levee Comrs., New Orleans Court Bldg., soon takes bids completing Couret Stanton Levee, 151,000 cu.yd. F. C. Hyme, pres.

Terminal—Ashland, Ky.—American Rolling Mill Co. plans river and rail freight terminal along Ohio River, to exceed $25,000.

White Way—Louisville, Ky.—Bd. Pub. Wks., City Hall, plans "White Way" system on 4th and Market Sts., to exceed $25,000.

Street Lighting—Cuba City, Wis.—Plans street lighting system. $25,000. W. Brewer, clk. Engineer not selected.

Transmission Line—Texas—Western Public Service Co., Navasota, making survey transmission lines from Hempstead to Anderson, etc. $75,000. P. Freeman, supt.

Pipe Lines—Electra, Tex.—Electra Gas Co., c/o R. Y. Smith, had plans prepared pipe lines. $45,000.

Stadium—Waco, Tex.—Dec. 18, to vote on $60,000 bonds for stadium and athletic field, for Bd. Educ. V. C. Koch, city engr. Noted July 12.

Levee — Waxahachie, Tex. — Ellis Co. Levee Impvt. Dist. 2, voted $40,000 bonds, levee construction Sand Lake. T. C. Forest, Waxahachie, engr.

Drydocks and Slips—Los Angeles, Calif.—Bethlehem Shipbuilding Corporation, H. W. Hellman Bldg., plans drydocks and slips. $1,250,000.

Levees, etc.—Ontario, Calif.—San Antonio Storm Water Dist. plans election to vote on $40,000 bonds for levees, embankments, etc.

Grade Elimination—San Jose, Calif.—Defeated $100,000 bonds for grade elimination over Southern Pacific R.R. tracks. Noted Oct. 18.

Breakwater—St. John, N. B.—Dept. Pub. Wks., Ottawa, Ont., soon takes bids extending breakwater 1,490 ft. to Patridge Island, in St. John Harbor, 380,000 tons rock for random stone core and 225,000 tons rock for cover stones. A. Gray, St. John, engr.

Drilling—Alliston, Ont.—Henderson Exploration Co. plans to drill for oil and gas in Tecumseh Twp. $50,000.

Grain Elevator — Port Arthur, Ont. — Gilespie Grain Elevator Co. soon takes bids 500,000 bu. grain elevator.

Grain Elevator — Port Arthur, Ont. — Grain Growers Elevator Co., Ltd., plans 1,000,000 bu. grain elevator.

Electric Power Supply—Wiarton, Ont.—Council asked Hydro Power Comn. to submit estimates of cost for developing electric power from Sauble River.

BIDS DESIRED

Heating and Ventilating Apparatus, etc.—New York, N. Y.—Nov. 12, by Superintendent Bd. Educ., 500 Park Ave., heating, ventilating and temperature regulation apparatus in P. S. 6, Tremont Ave., and P. S. 1[illegible], Jerome Ave., Bronx Boro. W. H. Gompert, Flatbush Ave. extension and Concord St., Brooklyn, archt. and engr.

Signal Tower—New York, N. Y.—Nov. 9, by Transit Comn., 49 Lafayette St., signal tower in 239th St. Yard of White Plains Rd. Rapid Transit R.R., Route 18, Sect. 2, Bronx Boro, Agreement "CU."

Heating, Ventilating, Plumbing, etc.—Phila., Pa.—Nov. 21, by F. H. Caven, dir. pub. wks., 216 City Hall, and Bd. Trustees Free Library of Phila., heating, ventilating, plumbing, etc. in free library building. H. Trumbauer, 406 Land Title Bldg., archt.; adv. E. N.-R. Nov. 8.

Levee—Clarksdale, Miss.—Nov. 13, by Yazoo Mississippi Delta Levee Comrs., enlarging 5 mi. old Ward Lake Levee, incl. 75,000 cu.yd. banquette, 10,000 cu.yd. topping. W. L. Head, engr. Noted Oct. 25.

Tunnel—Oregon—See "Railways."

BIDS RECEIVED

Column Foundations, etc.—Long Island City, N. Y.—Transit Comn., 49 Lafayette St., New York, Nov. 2, column foundations for part of Rapid Transit R.R. Flushing Route, from Phoenix Constr. Co., 41 Park Row, New York, $140,000, structural steel, from Jobson-Gifford Co., 30 East 42nd St., New York, $442,239. Noted Oct. 25.

Relocating Entrance, etc. — New York, N. Y.—Transit Comn., 49 Lafayette St., Nov. 2, relocating entrances to 157th St. station of Manhattan-Bronx Rapid Transit R.R., Agreement "CR," from J. Riches, 23 Willow Pl., Brooklyn, $51,912; frogs, switches and tracks at 180th St. Yard, Route 18, from McElraey & Kerwin, $15,285. Noted Oct. 25.

Subway—San Francisco, Calif.—State Bd. Harbor Comrs., Ferry Bldg., subway under Ferry Loop at foot of Market St., here, from Tibbitts-Pacific Co., 16 California St., $238,700. Noted Oct. 11.

CONTRACTS AWARDED

Station Finish—Brooklyn, N. Y.—Transit Comn., 49 Lafayette Ave., New York, station finish work for part of Bway.-4th Ave. Rapid Transit R.R. in Willoughby St. between Lawrence and Bridge Sts., here, to Station Finish Corp., 7 East 42nd St., New York, $51,000. Noted Nov. 1.

Culvert—Asbury Park, N. J. — Neptune Twp., 1,600 lin.ft. rein.-con. culvert, near here, to Seaman & Letzkus, Stone Harbor, $35,672.

Foundation—Blairsville, Pa.—Natl. Plate Glass Co., foundation, excavation and track laying for 190 x 300 x 500 ft. plant addition, here, to J. F. Casey Co., Union Arcade, Pittsburgh. Total cost $2,000,000.

Tunnel—Phila., Pa.—Comrs. Fairmount Park, City Hall, tunnel between 23rd St. and Spring Garden Bridge, to A. J. O'Neill Co. Weightman Bldg., $166,000. Noted Oct. 25.

Wall and Dike—Shreveport, La.—Constructing 1,000 ft. sheet pile toe wall, 24 ft. deep, and 2,200 ft. pile dike, 55 ft. deep, willow fascine, to A. W. Farney, Kansas City, Mo., $48.50 per lin.ft.

Coaling Station—Madison, Wis.—Chicago & Northwestern Ry., c/o B. A. Kulp, div. engr., 201 Blair St., 200 ton mechanical coaling station, brick, rein.-con. and steel, to Ogle Constr. Co., 28 East Jackson Blvd., Chicago. This corrects report Oct. 18 issue.

Docks—Two Harbors, Minn.—Duluth & Iron Range R.R., Duluth, will replace present wooden Dock 6 with steel structure, and build steel approach to same; also replace wooden pockets on Dock 1 with concrete slabs, here. $400,000. Work will be done by day labor. W. A. Clark, ch. engr.

Gas Distribution System—Magnolia Park, Tex.—See "Industrial Works."

Cement Lining—Porterville, Calif.—South Tule Irrigation Dist., cement lining approximately 10 mi. ditches, to Carlson Bros., Turlock, approximately $48,000.

Arena—Port Arthur, Ont.—Port Arthur Arena Co., 1 and 2 story, rein.-con., brick and steel, arena, plain foundation, Machar Ave., to Carter-Halls-Aldinger Co., Union Bank Bld., Winnipeg, Man. $150,000.

Equipment and Materials

See p. 783, "From the Manufacturer's Point of View."

OFFICIAL PROPOSALS

Bids: Nov. 19.

Bridge and Bulkhead Construction

Clearwater, Fla.

Sealed proposals will be received by the Board of County Commissioners of Pinellas County, at the Courthouse at Clearwater, Florida, up until 10 o'clock a.m., Monday, November 19th, 1923, at which time they will be opened and read publicly for the furnishing of the necessary materials, equipment, tools and labor for the construction of one 8 x 4-foot concrete box culvert, concrete slab and combination concrete curb and gutter, 1,500 lineal feet of creosoted timber bulkheads.

The work to be done includes the following approximate quantities:

84	M. F. B. M. Creosoted bulkhead timber.
2,500	lineal feet Creosoted timber piles.
290	square yards 6"-8"-6" Reinforced concrete slab.
258	lineal feet concrete curb and gutter.
258	lineal feet concrete guard rail.
46	cubic yards class "A" concrete.
4,570	pounds reinforcing steel.

All complete in place according to plans and specifications on file in the County Engineer's office, Clearwater, Florida.

Proposals will be considered on the lump sum basis for structures complete in place.

Plans and specifications may be secured from the County Engineer, upon payment of five dollars ($5.00), which will be refunded upon return of said plans and specifications in good condition within fifteen (15) days from the date of opening proposals.

All proposals shall be accompanied by either a certified check on a Pinellas County bank, drawn to the order of Pinellas County, E. H. Beckett, Chairman, in the sum of three per cent (3 per cent) of the amount of the proposal accompanied by same up to fifty thousand (50,000) dollars, which is the maximum amount required to cover proposals for the entire work, or a Bidder's Bond executed by a resident Agent now doing business in Pinellas County, representing a Surety Company authorized to do business in the State of Florida, and otherwise acceptable to the County. Such bidder's bond shall be in the sum of five per cent (5 per cent) of the total amount of the proposal accompanied by the same.

A construction bond in the amount of fifty per cent (50 per cent) of the amount of the contract with a Surety Company complying with all the requirements above noted will be required.

The County reserves the right to select the type of structure and to reject any or all bids.

Board of County Commissioners, Pinellas County, Florida.

E. H. BECKETT,
Chairman.
C. E. BURLESON,
County Engineer.

Bids: Nov. 19.

Road Construction

Clearwater, Fla.

Sealed proposals will be received by the Board of County Commissioners of Pinellas County at the Courthouse at Clearwater, Florida, up until 10 o'clock a.m., Monday, November 19th, 1923, at which time they will be opened and read publicly, for the furnishing of the necessary materials, equipment, tools and labor for the construction of certain roads, all as herein referred to.

The work to be done shall include the construction of a paving surface—with all incidental work preliminary thereto—of vitrified brick with bituminous filler, or Asphalt Block with Asphalt filler, or sheet asphalt, or bituminous macadam penetration method, all on a compacted limerock base, with concrete curb; or Portland cement concrete pavement, as alternate types of construction on roads number 1, 2, 3, 4, 6, 7 and 8; and for the construction of re-laid vitrified brick surface with bituminous filler and double bituminous surface-treated lime rock shoulders on road number 5; all as indicated and described in the plans and specifications for the work.

The completed work will include approximately 250,000 square yards of re-laid vitrified brick surface with asphalt filler and approximately 550,000 square yards of new pavement surface of the alternate types above designated; together with all clearing, grubbing, grading, drainage structures, rock base, curb and other items appurtenant to the completed work.

The roads to be improved and constructed are divided in the following groups.

Group 1—Section 1 of road 1 and sections 1 and 2 of road 4.

Group 2—Section 2 of road 1 and roads 2-3 and 8.

Group 3—Roads 5-6 and 7.

Proposals will be considered only on the following basis; on the combined projects as a whole, or on the combined projects in any one group.

Bidders submitting proposals on any road in a single group must also bid on all other roads in that group.

Bids will also be considered on the combined projects as a whole or on any group as a whole on the lump sum basis, and the County reserves the right to award each contract on either a lump sum or unit price basis as it may consider to its best interest.

All items necessary for the completion of any road in connection with the type of wearing surface must be bid upon, and if not, same shall be sufficient cause to reject the proposals.

All work done and materials furnished shall be in accordance with the provisions of the plans and specifications therefor on file in the office of the County Clerk and of the County Engineer, Courthouse building, Clearwater, Florida.

Plans and specifications may be secured from the County Engineer upon payment of ten dollars ($10.00), which will be refunded upon return of said plans and specifications in good condition within fifteen days from the date of opening proposals.

All proposals shall be accompanied by either a certified check on a Pinellas County bank, drawn to the order of Pinellas County, E. H. Beckett, Chairman, in the sum of three per cent (3 per cent) of the amount of the proposal accompanied by same up to fifty thousand ($50,000) dollars, which is the maximum amount required to cover proposals for the entire work, or a Bidder's Bond executed by a resident Agent now doing business in Pinellas County, representing a Surety Company authorized to do business in the State of Florida, and otherwise acceptable to the County. Such bidder's bond shall be in the sum of five per cent (5 per cent) of the total amount of the proposal accompanied by the same.

A construction bond in the amount of fifty per cent (50 per cent) of the amount of the contract with a Surety Company complying with all the requirements above noted will be required.

The County reserves the right to select the type of pavement and to reject any or all bids.

Board of County Commissioners, Pinellas County, Florida.

E. H. BECKETT,
Chairman.
C. E. BURLESON,
County Engineer.

Bids: Nov. 27.

Bridge Work

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the following:

For 15' widening of seven 85' arch spans, two 65' deck plate girder spans and one 60' bascule span including all foundations, changes to approaches for a distance of 140' on the west side and 550' on the east side including drainage, paving, curbing, walks, retaining walls together with the relocation of telephone, gas sewer lines and trolley tracks over Raritan River, M. P. 31.4, Route No. 1, Section No. 13, in the municipalities of New Brunswick and Highland Park, in the County of Middlesex.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Tuesday, November 27th, 1923, at 12:00 Noon, Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10.00) upon application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids must be made on the standard proposal form in the manner designated therein and as required by the specifications for this work, same to be enclosed in sealed special addressed envelopes, bearing the name and address of the bidder and the work bid upon on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelope will be furnished on application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids not enclosed in special addressed envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: Dec. 28.

Governor's Mansion

AT
KANAWHA, DUFFY AND VIRGINIA STREETS

Charleston, W. Va.

Sealed bids will be received by the State Board of Control at its office in Charleston, W. Va., until 2:00 p.m., Friday, December 28, 1923, for the furnishing of all labor and materials of every kind necessary in the completion of the building described below, according to the plans and specifications of Walter F. Martens, Architect, Charleston, W. Va.

The building is to be 73' 6" x 81' 2" with a service wing 58' x 17', and with additional areas for porches; semi-fireproof construction; two stories high, with half basement and attic; walls brick, hollow tile; exterior walls faced with Colonial Red Brick; Vermont Marble and Indiana Limestone trim; slate roofing; built-up roofing on decks; structural steel and steel lumber; tile floor in halls, baths, toilets and porches, oak floors elsewhere; wood stairs on steel frames; trim Birch, Oak and Poplar; metal lath; Gypsum and cement plaster; wood sash, frames and doors; electric wiring, conduit system; inter-communicating telephone system; plumbing; vapor steam heating system; incinerator; vacuum cleaner.

Plans, specifications and blank form for bids will be mailed by the State Board of Control, when request is accompanied with check for $25.00, which amount will be *refunded only on receipt of bona-fide bid* on or before the time named above, and the return of the plans.

Bids to be accompanied with certified check payable to the State Board of Control for an amount equal to 1% of the bid, as guarantee of good faith.

STATE BOARD OF CONTROL
By JAMES S. LAKIN, Pres.,
Charleston, Kanawha County, W. Va.

Bids: Dec. 4.

Three Dragline Machines

Greenville, Miss.

Proposals will be received by the Board of Drainage Commissioners of Washington County, Miss., at their office in Greenville, Miss., until eleven o'clock a.m., on Tuesday, December 4, 1923, for the furnishing of three dragline machines equipped with internal combustion engines and mounted on caterpillars.

Further information will be furnished upon request.

O. C. KULICKA,
Chief Engineer.

CONSTRUCTION NEWS

Engineering News-Record, November 15, 1923

The Construction Barometer

Gain in October Permits—Industrial and Residential Building Active—Other Classes Drop

CONTRACTS awarded on large engineering construction projects in the United States, during October, showed a drop of about 5 per cent in total money value, from the month preceding. This gain, however, was confined almost entirely to water-works, industrial building and Federal Government construction. Residential building gained heavily during the month, particularly in the Middle Atlantic states. This group was also the only one showing a gain in large engineering projects, as shown by the charts, the increase being due to four industrial jobs amounting to $32,000,000. October building permits gained more than 25 per cent over the month preceding. With ample building materials reserves and from 25 to 50 per cent of the building trades mechanics unemployed between December and February, an active Winter building program is being contemplated.

Fire Alarm System—Brooklyn, N. Y.—T. J. Drennan, comr. Fire Dept., Municipal Bldg., New York, Nov. 5, underground fire alarm system, here, from W. F. Kenney Co., 44 East 23rd St., New York, (1) $26,530; J. Sugden Co., 100 5th Ave., New York, (2) $16,731.

Heating and Ventilating Apparatus—Kew Gardens (Forest Hills P. O.), N. Y.—Bd. Educ., 500 Park Ave., New York, heating and ventilating apparatus in P. S. 99, here, from Federal Heating Co., 300 Madison Ave., New York, $46,950.

Signal Tower—New York, N. Y.—Transit Comn., 49 Lafayette St., Nov. 9, signal tower in 239th St. Yard of White Plains Rd. Rapid Transit R.R., Route 18, Sect. 2, Bronx Boro, Agreement "CU," from J. B. Roberts & Co., 1170 Bway., $12,757. Noted Nov. 8.

Heating and Ventilating Apparatus—St. Albans (Jamaica P. O.), N. Y.—Bd. Educ., 500 Park Ave., New York, heating and ventilating apparatus in P. S. 36, here, from Federal Heating Co., 300 Madison Ave., New York, $46,950.

Electrolier System—Los Angeles, Calif.—Electrolier system in portion of Sunset Blvd., from Paulson Constr. Co., Detwiler Bldg., $38,874.

CONTRACTS AWARDED

Column Foundations, etc.—Long Island City, N. Y.—Transit Comn., 49 Lafayette St., New York, column foundations for part of Rapid Transit R.R. Flushing Route, to Gotham Constr. Co., 220 Bway., New York, $149,830; structural steel for Route 52, Sect. 2, to Jobson-Gifford Co., 30 East 42nd St., New York, $443,239. Noted Nov. 8.

TUNNEL—CLEVELAND, OHIO

Following are lowest three bids opened Nov. 2, by Dept. of Pub. Utilities, Div. of Water, for constructing Fairmount Rd. Tunnel, Contr. No. 43, Baldwin-Fairmount Project, (A) P. F. Connolly Co., 2029 East 102nd St.; (B) Winterbottom-Connelly Co., 2997 Meadowbrook Blvd.; (C) Graham-Henderson Co., 1274 West 108th St. The unit bids were as follows:

	A	B	C
1,200 cu.yd. excavation and backfill, in open cut	$2.50	$5.00	$5.00
2,300 cu.yd. excavation in shafts and tunnel	16.40	18.75	26.55
1,550 cu.yd. concrete in shafts and tunnel	17.00	20.00	20.00
160 cu.yd. miscellaneous concrete	20.00	22.00	20.00
200 cu.yd. excess concrete in shafts and tunnel	5.00	5.00	5.00
150 ton furnishing and laying cast iron, straight, bell and spigot pipe, in open cut	80.00	75.00	69.50
260 ton furnishing and laying cast iron, straight, bell and spigot pipe, in tunnel	82.50	95.00	79.50
40 ton furnishing and laying cast iron, straight, bell and spigot standard fittings, in open cut	200.00	180.00	189.00
4 ton furnishing and laying cast iron, bell and spigot standard fittings, in tunnel	200.00	200.00	200.00
85 ton furnishing and laying cast iron, flanged, and flanged and spigot pipe	140.00	180.00	127.00
60 ton furnishing and laying cast iron flanged fittings	210.00	200.00	231.00
9,500 lb. steel reinforcement and miscellaneous wrought iron and cast iron	.10	07	06
100 linear ft. furnishing and laying 12-in. vitrified pipe drains	3.00	3.00	3.00
100 linear ft. furnishing and laying 6-in. vitrified pipe drains	1.50	2.00	2.00
100 linear ft. furnishing and laying 4-in. vitrified pipe drains	1.00	1.00	2.00
100 linear ft. furnishing and placing 10-in. piles	2.50	3.00	8.00
10 ton furnishing and delivering surplus cast iron pipe and fittings	50.00	50.00	50.00
Extended totals	$140,270	$157,960	$168,945

Coaling Station—Newburgh, N. Y.—New York Central R.R., Grand Central Terminal, New York City, coaling station, here, to Wilbur G. Hudson Corp., 50 Church St., New York City, $30,000.

Relocating Entrances, etc.—New York, N. Y.—Transit Comn., 49 Lafayette St., relocating entrances to 157th St. station of Manhattan-Bronx Rapid Transit R.R., Agreement "CR," to J. Ritchie, 23 Willow Pl., Brooklyn, $51,912; frogs, switches and tracks at 180th St. Yard, Route 18, to McElroy & Kerwin, 316 Flatbush Ave., Brooklyn, $15,285. Noted Nov. 8.

Foundation and Coal and Ash Bunkers, etc.—Phila., Pa.—Phila. & Reading Ry., Reading Terminal, driving piles and constructing rein.-con. foundations for coal thawing house at Pier 18, Port Richmond, to McLean Constr. Co., Pier 5, North Wharves, $52,000; furnishing and erecting coal and ash bunkers in connection with power house at Pier 14, Port Richmond, to Guarantee Constr. Co., 140 Cedar St., New York City, $35,000.

Transmission Lines—Andrews, N. C.—See "Industrial Works."

Campanile—Baton Rouge, La.—R. L. Hines, secy. Louisiana State University, concrete and brick campanile at State Agricultural College, to Caldwell Bros., 816 Howard Ave., New Orleans, $85,000.

Levee—New Orleans, La.—F. C. Hymel, pres. Orleans Levee Dist., New Court Bldg., completing Couret-Stanton Levee, 151,000 cu.yd. excav., to Lewis Constr. Co., Godchaux Bldg., $73,365.

Light, Power and Telephone Systems, etc.—Cleveland, O.—Electric light, power and telephone systems for Baldwin-Fairmount Project, Contr. 48, to Enterprise Electric Constr. & Fixture Co., 6507 Euclid Ave., $31,000; heating and ventilating, to T. M. Shand, 3155 East 93rd St., $31,942; plumbing, to Warden & Leese, 2450 Prospect Ave., $26,850.

Foundation—Duluth, Minn.—W. Schroeder & Sons, 86 Michigan St., Milwaukee, Wis., foundation for 16 story and basement, 125 x 140 ft. hotel, rein.-con., stone and brick, Superior St. and 3rd Ave. E., here, to Jacobson Bros., 410 Columbia Bldg. Total $1,500,000. Noted Sept. 13 under "Buildings."

Electrolier System—Fresno, Calif.—Installing 350 electroliers in portions of J, North Bway. Sts., etc., to Valley Electric Co., 1817 Tulare St., $43,000. Noted Oct. 25.

Subway—San Francisco, Calif.—State Bd. Harbor Comrs., Ferry Bldg., subway under Ferry Loop at foot of Market St., here, to Tibbitts-Pacific Co., 16 California St., $238,700.

Transmission Line, etc.—Turlock, Calif.—See "Excavation, Drainage, Irrigation" under "Bids Received."

Materials and Equipment

PROPOSED WORK

Structural Steel—Louisville, Ky.—Louisville & Nashville R.R. Co., 10th St. and Bway., plans to purchase 1,600 tons steel for bridge work. $100,000. W. H. Courtney, ch. engr.

Street Sweeper—La Crosse, Wis.—Preparing specifications power street sweeper. Council appropriated $7,000. C. C. Congdon, City Hall, engr.

Pipe — Tacoma, Wash. — See "Waterworks," under Contract Awarded.

Cast Iron Pipe—Montreal, Que.—Montreal Light, Heat & Power Co., Craig St. W., soon takes bids furnishing 24,000 ft. or 2,000 lengths 4 in. and 6,000 ft. or 300 lengths of 6 in. c.i. pipe.

BIDS DESIRED

Limestone, etc.—Brooklyn, N. Y.—Nov. 21, by E. Riegelmann, boro pres., Boro Hall, 1,200 net tons limestone or other suitable inorganic dust, 6,000 cu.yd. asphalt sand, 3,000 bbl. Portland cement and 2,500 cu.yd. 1½ in. gravel or 2,500 cu.yd. 1½ in. broken stone.

Concrete Mixer—New York, N. Y.—Logan Constr. Co., 15 Park Row, in market for 1 portable concrete mixer, one 150 ft. belt driven compressor and 4 air stone drills.

Cranes—Pittsburgh, Pa.—Carnegie Steel Co., Carnegie Bldg., in market for two 75 ton and three 10 ton cranes.

Plumbing, etc.—Greensboro, N. C.—See "Buildings."

Pipe, etc.—Cordelia, Fla.—C. D. Terrell, city purch. agt. taking bids 100 tons 6 in. c.i. B & S pipe, 20 standard fire hydrants, six 10 in. valves.

Street Sweeper—Sanford, Fla.—W. B. Williams, city mgr. receiving bids street sweeper.

Crane—Warren, O.—East Ohio Mfg. Co. in market for one 25 ton 3 motor industrial crane. B. Shaver, Oliver Bldg., Pittsburgh, Pa., engr.

Hoist—Ft. Wayne, Ind.—City taking bids 100-ton hoist for movable dam on Maumee River. C. Brossman, 1503 Merchants Bank Bldg., Indianapolis, and A. W. Grosvenor, 122 East Washington St., Ft. Wayne, engrs.

Road Roller and Scarifier—Logansport, Ind.—Nov. 17, by Cass Co., 10-ton gas or oil road roller and scarifier. Successful bidder will be required to accept as part of purchase price 10-ton roller now owned by County. H. M. Gardner, aud.

BIDS RECEIVED

Valve Equipment — New York, N. Y. — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., Nov. 9, electric valve operating equipment, Manhattan Boro, from Fox Reynolds Co., 81 East 125th St., $25,500. Noted Nov. 1.

CONTRACT AWARDED

Road Surfacing Material — New York, N. Y.—See "Streets and Roads."

Gravel—Kountze, Tex.—Hardin Co., 20,000 yd. road gravel, to J. H. Sullivan, Nacogdoches, flint gravel $2.35, iron ore gravel $1.61. Noted Sept. 27.

Steel—Seattle, Wash.—Pacific Steamship Co., L. C. Smith Bldg., 5,000 tons steel for first unit of ocean shipping terminals (to cost $3,000,000-$4,000,000), to U. S. Steel Corp., 71 Bway., New York City. Noted Feb. 8.

Steel Oil Tanks—Avon, Calif.—Associated Oil Co., Associated Oil Bldg., San Francisco, six 80,000 bbl. steel oil tanks, to Western Pipe & Steel Co., 444 Market St., San Francisco, about $205,900.

OFFICIAL PROPOSALS

Bids: Dec. 21.

General Construction and Mechanical Equipment

OFFICE BUILDING FOR THE STATE OF WEST VIRGINIA

Charleston, W. Va.

Sealed proposals will be received by the Capitol Building Commission for the general construction and mechanical equipment of an office building for the State of West Virginia, Charleston, West Virginia, which proposals are to be in accordance with drawings and specifications prepared by Cass Gilbert, Architect, 244 Madison Avenue, New York City.

Two copies of the drawings and specifications will be on file in the office of the Capitol Building Commission after November 12, 1923, for examination and use of all bidders.

If bidders wish individual sets of drawings and specifications for their own use in preparing their bid, they may obtain such individual sets upon application in writing to Cass Gilbert, Architect, upon payment of the actual cost of blueprinting same. A certified check for $200.00 is to accompany request for individual sets, which check will be returned upon return of said drawings and specifications. Another check for $20.00, representing cost of duplicating of each set of drawings and specifications, must also accompany request.

Such individual sets are for estimating purposes only and are to remain the property of the Architect and are to be returned to him immediately after bids have been submitted.

A certified check for $20,000.00 must accompany proposal for General Construction and certified checks for $2,000.00 must accompany proposals for Heating and Ventilating, Plumbing and Gas Fitting, and Electrical Work. Said checks to be drawn on some solvent banking institution and made payable to the Capitol Building Commission of the State of West Virginia, Charleston, West Virginia.

In lieu of said certified checks, bonds of equal amounts of the United States or State of West Virginia, or any political subdivision thereof, may accompany proposals. The checks or bonds of all bidders will be returned to them after award of contract.

All bids to be delivered at the office of the Governor of the State of West Virginia, Charleston, West Virginia, on or before 12 o'clock noon, December 21, 1923. No proposals received after the time stated above will be considered. The Capitol Building Commission reserves the right to reject any and all bids and to waive any defect or informality in any bid.

For the Capitol Building Commission.
E. F. MORGAN, Governor.
Ex-Officio, Chairman.

Bids: Dec. 14.

Lake Youngs Development

Seattle, Wash.

Sealed bids will be received by the Board of Public Works until ten o'clock a.m., Friday, December 14th, 1923, for Lake Youngs Development, Seattle Water Supply. Involves construction of inlet, outlet conduit controlling works and pipe lines.

Approximate estimated cost $2,000,000. A deposit of $10.00 is required for the plans.

J. D. BLACKWELL,
City Engineer.

OFFICIAL PROPOSALS

Bids: Dec. 5.

Bridge

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Construction of Bridge No. Hl-48, on the Squankum-Lakewood Road, consisting of one 70′ plate girder span encased in Concrete, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on December 5th, 1923, at 11:00 a.m., Standard Time.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.
BRYANT B. NEWCOMB,
Director.

Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., October 17th, 1923.

Bids: Nov. 27.

Earth Dam

Frederick, Md.

Sealed proposals will be received by Emory C. Crum, City Engineer, at his office, City Hall, Frederick, Md., until Tuesday, November 27, 1923, at 11 a.m., at which time they will be publicly opened and read, for furnishing materials, tools, equipment and labor for the construction of an earth dam for the water supply of Frederick on Fishing Creek.

The work includes earth and rock excavation, 575 ft. of concrete cutoff and core wall, 48,000 cu.yd. of rolled embankment, waste canal, conduit tunnel and gate tower.

Plans and specications may be secured from the City Engineer upon payment of $25.00, which will be refunded upon return of said plans and specifications in good condition before date of opening bids.

All proposals must be accompanied by a certified check in the sum of $5,000.00.

The City of Frederick reserves the right to reject any or all bids.

EMORY C. CRUM, City Engineer.
NORTON, BIRD AND WHITMAN,
Advisory Engineers.

OFFICIAL PROPOSALS

Bids: Dec. 5.

Dams, Spillways, etc.

Watertown, N. Y.

Sealed bids or proposals will be received by the Board of the Black River Regulating District, at its offices, Room 530, Light and Power Building, Public Square, Watertown, New York, until 11 a.m. Eastern Standard Time, on Wednesday, December 5, 1923, for the construction of certain dams, spillways and other structures for the enlargement of the Stillwater Reservoir, on the Beaver River, in the Town of Webb, Herkimer County, New York, all as set forth in the plans and specifications.

The work consists of raising the existing dam and spillway by about nineteen feet and the construction of such additional embankments, spillways, structures and appurtenances as may be required. Maps, plans, specifications and proposal and contract forms can be seen at the offices of the Board at the above address and also at the office of the Water Control Commission, Albany, N. Y. Pamphlets containing information for proposers, forms of proposal and contract, specifications and plans can be obtained from the Board at the above address by depositing the sum of five dollars ($5) for each pamphlet, which sum will be refunded on return of the pamphlet in good condition within seven days after the bids are opened.

All proposals will be publicly opened and read at the aforesaid time and place. Every proposal must be accompanied by a certified check upon some national or state bank or trust company within the state in good credit for five per centum (5%) of the amount of the proposal payable to the order of the Board of the Black River Regulating District. The Board reserves the right to reject any or all proposals and to again advertise for further proposals.

Board of the Black River Regulating District.

E. S. CULLINGS,
Secretary.

Bids: Dec. 11.

Warehouse

Tampa, Fla.

Sealed bids will be received by the City Commission of Tampa, Florida, until Tuesday at 2 o'clock p.m., Dec. 11th, 1923, for furnishing all material and labor, and building a warehouse 694 x 75 ft., at the City Docks, in the City of Tampa; all in accordance with the plans and specifications, copies of which may be secured from A. W. D. Hall, Engineer in charge of the work. Post Office address Box 2736.

The erection of the building cannot be started until certain work now under way is completed, which will not be before Feb. 15th.

Each bid shall be accompanied by a certified check for Five per cent of the amount of the bid as a guarantee the successful bidder will enter into contract and furnish bond as required by the specifications. The checks of unsuccessful bidders will be returned within thirty days from the date letting.

The Commission reserves the right to reject any or all bids.

CHAS. H. BROWN,
Mayor Commissioner.

WM. E. DUNCAN,
City Clerk.
A. W. D. HALL,
Engineer.

Business Side of Construction

FACTS AND EVENTS THAT AFFECT COST AND VOLUME

Water-Works Installation This Year and Last

Water-works construction in the United States has followed a remarkably regular curve this year, according to *Engineering News-Record* statistics covering contracts of $15,000 and over. The first two months were normal, though about $2,000,000 per month above 1922. March was abnormally heavy, owing to $10,330,462 worth of Catskill Aqueduct contracts being awarded for a syphon to Brooklyn and conduits in that borough. Since March the slope has been fairly uniform, in August falling below 1922 figures. Contracts in the last two months have continued lighter than those let last year.

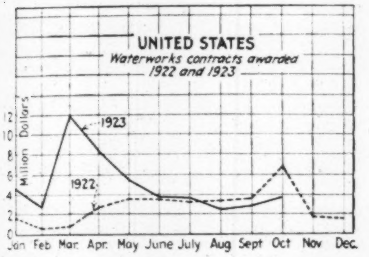
During the first nine months of the two years under consideration, 1922 had 327 awards with a total value of $25,000,000 against 335 for 1923 valued at $51,000,000. The average value of each contract in 1922 was $77,889 compared with $153,074 of this year. The trend of water-works installation for the United States during the last four years (for nine months in each case) may be gathered from the following figures:

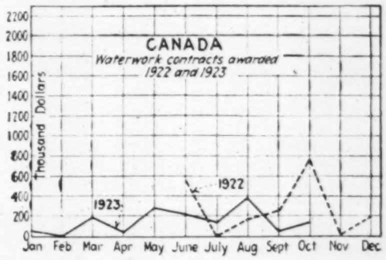
Year	Value	Monthly Average
1920	$16,401,000	$1,822,000
1921	24,252,000	2,695,000
1922	25,470,000	2,830,000
1923	51,280,000	5,698,000

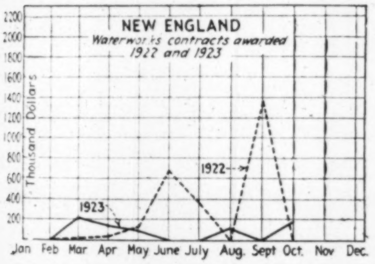
The significant fact is the same as that pointed out in the case of industrial work (p. 784, this section, Nov. 8 issue), that although the year started off with a rush of work, there has been a steady decline in the last half of the year. The Middle Atlantic states and the Mid West have been by far the most active in water-works construction this year, though both these sections are running low at present.

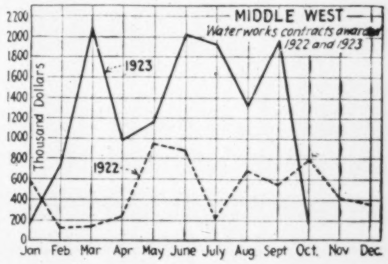
The October, 1923, record was hung up by the Far West, and included a 25-mi. conduit for Portland, Ore., price $2,571,404. A glimpse of the situation in the various sections of the country is given by the following comparison of the number and value of projects in the first nine months of 1922 and 1923:

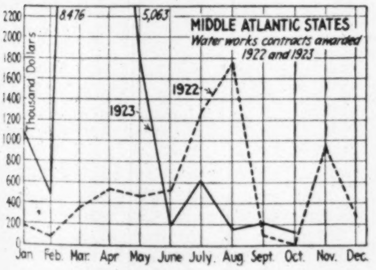
	1922		1923	
	No.	Value	No.	Value
New England	12	$2,754,000	8	$671,000
Middle Atlantic	56	5,972,000	55	20,706,000
Southern	40	2,602,000	25	2,676,000
Middle West	85	4,828,000	111	13,518,000
West of Miss.	103	4,899,000	116	10,320,000
Far West	31	4,414,000	20	3,389,000
Total	327	$25,469,000	335	$51,290,000

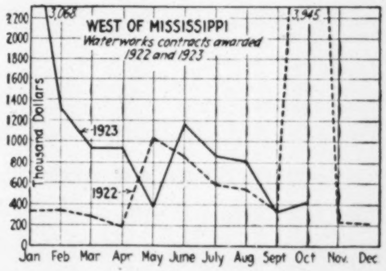


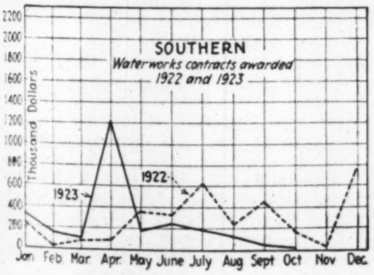


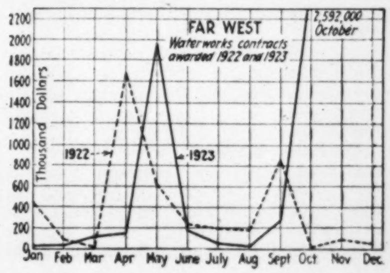












Importation of Foreign Cement Affects Sewer Bids

The importation of foreign cement at Los Angeles Harbor has been steadily increasing during the past year, and is having its effect on the local construction situation. The presence of foreign material at the harbor last summer seems to have resulted in lower bids for the large quantities of material required in the construction of the Los Angeles outfall sewer. At least this was the opinion of engineers connected with that particular job.

During July, August and September of this year, the total receipts of the foreign material amounted to 47,420 tons, while for the corresponding period of 1922, no receipts were recorded.

Segregation by countries from which cement was received during this third quarter of 1923 is indicated by the following table:

England	16,785 tons
Sweden	16,770 tons
Belgium	6,041 tons
Germany	3,761 tons
Norway	3,028 tons
Denmark	1,035 tons
Total	47,420 tons

The value of this cement according to figures of the City Harbor Commission was $503,769. During the busiest part of the 1923 building season in this vicinity, there occurred a shortage of native cement and this was the reason for the bringing in of appreciable quantities of the foreign material.

Whether or not the importing of the foreign cement will be continued, depends upon the ability of dealers in the local materials being able to meet the demands. It is understood that native cement is now being stored by local producers in anticipation of the heavy demands which are expected in the Spring of 1923.

Austin, city purch. agt., materials for paving Plum St. between Mound Blvd. and Maria Ave., 380 bbl. cement to Corning Donohue Brick Co., 614 Ryan Bldg., $2.80 per bbl., 27 tons asphalt to Minnesota Road Equipment Co., 4536 Dupont Ave. S., Minneapolis, $22.66 per ton; 400 coils ¾ in. extra strong lead pipe to Natl. Lead Co., 451 East 6th St., $8.06 per 100 lb., 5,000 lb. solder to United Lead Co., 102 Fairfield Ave. W., $22.20 per cwt. Noted Nov. 1.

CONSTRUCTION NEWS

Engineering News-Record, November 29, 1923

The Construction Barometer

Seasonal Drop in Construction—Gain in Permits—Plenty of Cars and Materials—Scarcity Feared in Spring

WHILE there has been a steady gain in private construction projects during the first half of November, the tendency, during the last week, has been toward a falling off in both private and public work. Autumn building permits, however, show an unusual gain compared with previous years. With a seasonal downward trend in construction cost, plenty of materials and improved transportation facilities, buyers are strongly tempted to enter the market during the off-season, in order to avoid the usual Spring labor and materials' scarcity and traffic congestion.

CONTRACTS AWARDED

N. Y., Buffalo—Cement—U. S. Engineer, 2,000 bbl. cement, to Lehigh Portland Cement Co., Ellicott Sq., $2.83.

Va., Norfolk—Dredging—U. S. Engineer, dredging 69,000 cu.yd. in eastern branch Elizabeth River, Norfolk Harbor, from Norfolk Dredging Co., P. O. Box 494, $27,806. Noted Oct. 11.

Fla., Pensacola — Distribution System, etc.—Spec. 4715—Bureau Yards & Docks, Navy Dept., Wash., D. C., reconstruction steam distribution and heating systems, at Naval Air Station, here, to Newport Contg. and Eng. Co., Law Bldg., Newport News, Va., $23,448 (120 days). Noted Oct. 25.

Ala., Florence—Cement and Lumber—U. S Engineer, furnishing for Wilson Dam, at Muscle Shoals, 25,000 bbl. portland cement to Phoenix Portland Cement Co., Birmingham, $70,812; 450,000 ft. yellow pine lumber to Acme Lumber and Coal Co., Amer. Trust Bldg., Birmingham, $14,048; 250,000 ft. yellow pine to Flynn-Wooten Co., Columbus, Miss., $7,860.

Ill., Belleville — Hangars — Constructing Quartermaster, Scott Field, two 66 x 160 ft. steel hangars, to S. Kraus, Belleville, $9,086. Noted Oct. 11.

Alaska, Juneau—Breakwater—U. S. Engineer, furnishing and placing 15,000 tons of stone for breakwater in Wrangell Harbor, here, to N. Fleiness, 539 North 80th St., Seattle, Wash., $32,750. Noted Oct. 18.

P. I., Cavite—Reconstruction of Wharf—Spec. 4896—Bureau Yards & Docks, Navy Dept., Wash., D. C., reconstructing wharf, here, to J. E. Grant, 2030 Croquieta, Manila, $35,000. Noted Aug. 16.

Unclassified

PROPOSED WORK

Transmission Line—New York—Corning Light & Power Co., 54 East Market St., Corning, plans power line from plant in Elmira to Corning, with extensions to Riverside, South Corning, Erwin, Gang Mills and Coopers. $50,000. Engineer not announced.

Ferry Houses, etc.—New Orleans, La.—Algiers Pub. Service Corp., R. T. Nolan, mgr., plans 3 ferry houses, numerous bridge approaches for Canal St. and 3rd Dist. Ferries, also two ferry boats, 150 ft. long, 67 ft. wide. $350,000. W. T. Nolan, Canal Commercial Trust & Savings Bank Bldg., archt.

Summer Resort—Chimney Rock, N. C.—Chimney Rock Mountains, Inc., plans large lake, concrete dam, 100 ft. high, 2 hotels, 27 mi. driveways, replacement 6 mi. State Highway, club house, tennis, golf and polo grounds, water, sewer and power development for lighting purposes. $4,000,000. L. B. Morse, pres.

Stadium—Macon, Ga.—Mercer University plans concrete stadium, seating capacity 15,000. $100,000.

Dock, etc. — Cincinnati, O. — Cincinnati River-Rail Transfer Co. soon takes bids dock with railway connections along Ohio River. B. L. Baldwin, ch. engr.

Transmission Line—Wisconsin—Wisconsin Utilities Co., Monroe, plans 66,000 volt transmission line from here to Orfordville, and increasing voltage of present lines from Janesville to Orfordville from 33,000 to 66,000 volts, also increasing capacity of substation at Janesville. $100,000. Private plans.

Golf Course — Milwaukee, Wis. — Blue Mound Country Club, c/o H. W. Ellis, pres., 149 Michigan St., making plans 18 hole golf course. Will build club house later. $100,000. S. J. Rayner, Southampton, N. Y., engr.

Storage Space—Milwaukee, Wis.—Milwaukee Auditorium, 6th and Cedar Sts., making plans storage space under sidewalk, structural steel and concrete. $30,000. Clas, Shepherd & Clas, 445 Milwaukee St., engrs.

Golf Course—Mineral Point, Wis.—Blue Grass County Club, making plans 9 or 18 hole golf course, tennis courts and club house. $40,000. Private plans.

Pipe Line—Amarillo, Tex.—See "Industrial Works."

Levees—Kaufman, Tex.—Kaufman Levee Dist. 1, Kaufman Co., election Dec. 4, to vote on $140,000 bonds, repairs and maintenance of present levees.

Pipe Line—Marlin, Tex.—Natl. Petroleum Co., Magnolia Bldg., Dallas, plans pipe line from Post Oak Oil Field to San Antonio and Arkansas Pass R.R. $40,000.

Concrete Tanks—San Antonio, Tex.—W. E. Simpson, engr., Natl. Bank of Commerce Bldg., takes bids about Jan. 1, ten concrete tanks, 20 ft. diam. x 50 ft., 3,000 cu.yd. earth excav., 700 cu.yd. earth fill, 3,500 cu.yd. rein.-con., 350 tons reinforcing steel, for San Antonio Portland Cement Co., Lakeview Ave.

Lighting System—La Jolla, Calif.—City of San Diego plans ornamental lighting system, incl. 99 standards, underground conduits, marbleite posts, etc., in Girard St. and Prospect Ave., here. $25,000. F. A. Rhodes, City Hall, San Diego, engr.

Shipping Terminal — Berkeley, Calif. — East Bay Terminal & Manufacturers Assn., 6234 San Pablo Ave., Oakland, plans shipping terminal, here. $500,000. G. A. Posey, c/o Courthouse, Oakland, directing engr. R. S. Hawley, 1091 43rd St., Oakland, consult. engr.

Telephone Line—Redding, Calif.—Pacific Gas & Electric Co., 445 Sutter St., San Francisco, plans 188 mi. telephone line from here to Vaca-Dixon substation. To exceed $100,000.

Harbor Improvements — Ontario — Dept. Pub. Wks., Ottawa, plans improvements to harbor at Chantry Island, Bruce Co., $50,000, also dredging and improving Saugeen Harbor, extending and improving piers, etc., Bruce Co., $120,000. H. B. Craig, Royal Bank Bldg., London, engr.

BIDS DESIRED

Pavilions—New York, N. Y.—Dec. 20, in office of General Medical Superintendent, Bellevue Hospital, 415 East 26th St., Pavilions F and G of new Bellevue Hospital. J. J. McGrath, pres. Bd. Trustees Bellevue & Allied Hospitals.

Test Borings—Phila., Pa.—Dec. 4, by W. S. Twining, dir. Dept. City Transit, 1211 Chestnut St., test borings for bridge over Schuylkill River and for subway and elevated railway construction in West Phila.

Heating and Ventilating Apparatus—Cincinnati, O.—Dec. 24, by Clerk Bd. Educ., 511 West Court St., heating and ventilating apparatus in 25th Dist. School, Tremont St. To exceed $25,000. W. E. Bordenstein, 405 2nd Natl. Bank, engr.

BIDS RECEIVED

Heating and Ventilating Apparatus—New York, N. Y. — Bd. Educ., 500 Park Ave., Nov. 21, heating and ventilating apparatus in P. S. 12, Bronx, from Federal Heating Co., 300 Madison Ave., $25,431.

Heating, Ventilating, Plumbing, etc.—Phila., Pa.—F. H. Caven, dir. Pub. Wks., 216 City Hall, and Bd. Trustees Free Library of Phila., heating and ventilating system from J. H. Cooney, 210 North 4th St., Harrison, N. J., $397,500; plumbing, etc., from W. S. Connell Co., Colonial Trust Bldg., $236,000; for free library building, Vine, 20th, Wood and 19th Sts. Noted Nov. 8.

CONTRACTS AWARDED

Retaining Wall, etc.—Providence, R. I.—D. W. Flint, Inc., Allens Ave., 100 x 110 ft., rein.-con. retaining wall, rein.-con. foundations for several storage tanks and 40 x 60 ft. steel building, to Mahoney & Tucker, 72 Weybosset St. Archts. est. $25,000.

Jetty—Asbury Park, N. J.—Repairing 650 ft. jetty, to T. Proctor Co., 212 North 5th St., Long Branch, $25,000.

Foundations—Baltimore, Md.—Sanitary Mfg. Co., Bessemer Bldg., Pittsburgh, Pa., concrete and rein.-con. foundations for manufacturing buildings, 5th Ave. east of Baltimore & Ohio R.R., here, to B. A. Groah Constr. Co., 847 West North St., Pittsburgh, and Fort Pitt Bridge Wks. of Pittsburgh, Oliver Bldg., Pittsburgh, Pa. Engrs. est. $100,000. Noted May 17 under "Buildings."

Gas Line—Bastrop, La.—Excelsior Pipe Line Co., 25 mi. 8 in. gas pipe line from here to West Monroe, to General Constr. Corp., Bastrop, $25,000.

Culvert—St. Louis, Mo.—Bd. Pub. Serv., 208 City Hall, to H. A. Henske, 1504 St. Louis Ave., rein.-con. culvert to carry Delmar Blvd. over River Des Peres, 32,330 cu. yd. Class A excav. $0.85 per cu.yd., 72,560 cu.yd. Class B excav. $0.40, 8,485 cu.yd. Class C excav. $1, 64,030 cu.yd. Class A concrete $0.55, 52,470 cu.yd. Class B concrete, etc., $0.45, total $150,756. Noted Oct. 4.

Electrolier System—Los Angeles, Calif.—Electrolier system in Washington St. between Hobart and 8th Aves., to Newberry Electric Corp., 724 South Olive St., $42,136. Noted Nov. 22.

Street Lighting System — Santa Paula, Calif.—Street lighting system, incl. 123 ornamental standards, to Osborn Electric Co., Turlock, $25,115.

Improving Harbor—Port Stanley, Ont.—Dept. Pub. Wks., Ottawa, dredging and improving harbor to Port Arthur Constr Co., Ltd., Excelsior Life Bdlg., Toronto, $50,150.

Materials and Equipment

PROPOSED WORK

Motor Street Sweeper—Yuba City, Calif.—City plans to purchase street sweeper. C. C. Kline, city clk.

BIDS DESIRED

Highway Materials, etc. — New York, N. Y.—Dec. 3, by E. W. Buckley, comr. Purchase, Municipal Bldg., highway and roofing materials to Fire Dept., Depts. Health, Parks-Brooklyn and Street Cleaning.

Inorganic Dust—New York, N. Y.—Dec. 5, by J. Miller, pres. Manhattan Boro, Municipal Bldg., 300 tons inorganic dust.

Material for Bridge Repairs—Phila., Pa.—Dec. 4, by Dept. Pub. Wks., Bureau of Highways, material for repairing bridges, furnishing granite block, furnishing dryers for city asphalt plant. F. H. Caven, dir.

Crane—Urbana, Ill.—R. G. Flaugher Constr. Co., 1105 South Race St., in market for 1¾ yd. full revolving caterpillar tread auto crane.

Snow Removing Machinery — Madison, Wis.—City, c/o H. C. Buser, clk., City Hall, taking bids snow removing machinery incl. scrapers, brooms, etc.

Lumber—Marengo, Ia.—Dec. 5, by Auditor Iowa Co., 240,000 ft. bridge lumber. C. P. McGrath, Marengo, engr.

Steel Bars, etc.—Mason City, Ia.—Dec. 3, by Auditor Cerro Gordo Co., 15 tons ¾ in. round steel reinforcing bars and 3,024 ft. 12 in. corrugated metal culbert. Iowa Hy. Comn., Ames, engrs.

Plank and Piling—Onawa, Ia.—Dec. 4, by Auditor Monona Co., 5 cars full sawn fir bridge plank and 1 car cedar piling. A. P. Borman, Onawa, engr.

Wire and Cables—Austin, Minn.—Dec. 4, by Water, Electric Gas & Power Comn., 124,000 lin.ft. Nos. 0-4-6-8 cable, 8,200 lb. Nos. 4-6-8-10 T B W P wire. J. C. Todd, secy.

Piles—California—L. H. Smith, purch. agt., State Hy. Comn., Sacramento, taking bids furnishing nine hundred fifty 40 ft. piles, on bank of Klamath River, at bridge site about 2 mi. east of Requa, Humboldt Co.

Motor Street Sweeper—Porterville, Calif.—City trustees receiving bids motor street sweeper. F. Pease, city eng.

BIDS RECEIVED

Inorganic Dust, etc.—Brooklyn, N. Y.—E. Riegelmann, boro pres., Boro Hall, Nov. 21, 1,200 tons inorganic dust, from Limestone Products Corp. of America, 17 West 42nd St., New York, $6,420; 6,000 cu.yd. asphalt sand, from T. E. McCormick, 810 Lincoln Rd., Flatbush, $7,800; 3,000 bbl. Portland cement, from Hygrade Builders Supply Co., 6th St. and 2nd Ave., $8,520; W. M. Young, $8,520, E. E. Buehler, $8,520; 2,500 cu.yd. gravel or broken stone, from Rosoff Sand & Gravel Corp., 152 West 42nd St., New York, $6,125. Noted Nov. 15.

CONTRACT AWARDED

Steel—Cincinnati, O.—Cleveland, Cincinnati, Chicago & St. Louis R.R., Union Central Bldg., 375 tons structural steel, to McClintic-Marshall Co., Oliver Bldg., Pittsburgh, Pa. Engrs. est. $20,000.

Concrete Aggregates — Michigan — See "Streets and Roads."

Crushing Plant—Owatonna, Minn.—Steele Co., 1 portable combined gravel, screen and crushing plant, to Russell Grader Mfg. Co., 2005 University Ave. S. E., Minneapolis, $6,725. Noted Nov. 8.

OFFICIAL PROPOSALS

Bids: Dec. 13.

State Road Work

Charleston, W. Va.

Sealed proposals will be received by the State Road Commission of West Virginia at its offices in Charleston, West Virginia, until ten o'clock a.m., on the 13th day of December, 1923, and said proposals will be opened and read immediately thereafter at the Kanawha County Court House, Charleston, W. Va., for the construction of the following sections of State Road:

Project 3304-A—Monroe County—10 miles of the Rock Camp-Peterstown Road, for grading and draining. Certified check $7,000.00.

Project 131—Pocahontas County—2.1 miles of Marlinton-Buckeye Road, for paving with bituminous macadam. Certified check $2,500.00.

Project 132—Pocahontas County—4.2 miles of Buckeye-Mill Point Road, for paving with bituminous macadam. Certified check $4,500.00.

Project 3200—Logan County—6 miles of Blair-Ethel Road, for grading and draining. Certified check $3,500.00.

Project 3229—Taylor County—7 miles of Northwestern Turnpike, for grading and draining. Certified check $4,500.00.

Project 3278-A—Lewis County—6.5 miles of Glenville-Weston Road, for grading and draining. Certified check $3,500.00.

Project 3160—Doddridge County—8.14 miles of Northwestern Turnpike, for concrete paving. Certified check $9,500.00.

Project 3186—Preston County—5 miles of the Thomas-Oakland Road, for grading and draining. Certified check $4,000.00.

Project 3272—Preston County—5.6 miles of Reedsville-Monongalia County Line Road, for grading, draining and paving with bituminous macadam. Certified check $7,000.00.

Project 3274—Monongalia County—8 miles of Morgantown-Preston County Line Road, for grading, draining and paving with bituminous macadam. Certified check $12,000.00.

Project 134—Hampshire County—5 miles of Pleasantdale-Hanging Rock Road, for grading and draining. Certified check $2,500.00.

Proposals will be received only upon State Standard forms in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates may be obtained from the office of the Division Engineer in whose territory the proposed construction is located, or from the office of the State Road Commission at Charleston, West Virginia.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

State Road Commission of West Virginia.
E. B. CARSKADON,
Secretary.

Bids: Dec. 10.

Sewerage, Waterworks, Etc.

New Orleans, La., Oct. 11, 1923.

Sealed proposals will be received by the Sewerage and Water Board of New Orleans up to 12 o'clock, noon, of Monday, December 10th, 1923, for furnishing labor and material, on a percentage basis, for sewerage, waterworks and drainage construction, during the year 1924. Specifications and blank proposal forms may be obtained at the office of the Board, No. 526 Carondelet Street, New Orleans, Louisiana. The right is reserved to reject any, or all bids.

GEO. G. EARL, A. G. MOFFAT,
Gen.'l Supt. Secretary.

OFFICIAL PROPOSALS

Bids: Dec. 5.

Bridge

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Construction of Bridge No. Hl-48, on the Squankum-Lakewood Road, consisting of one 70′ plate girder span encased in Concrete, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on December 5th, 1923, at 11:00 a.m., Standard Time.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.
BRYANT B. NEWCOMB,
Director.

Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., October 17th, 1923.

Bids: Dec. 12.

Reservoir

Albuquerque, N. Mex.

Sealed proposals will be received at the office of the City Clerk of the City of Albuquerque, New Mexico, until two o'clock p.m. on Wednesday, December 12, 1923, for construction of a reinforced concrete reservoir of approximately 10,000,000 gallons capacity.

Plans, specifications and proposal form may be obtained from the City Engineer of the City of Albuquerque upon the deposit of twenty-five ($25.00). Deposit to be refunded upon return of plans and specifications in good condition on or before December 12th, 1923.

The City reserves the right to reject any or all bids.

B. H. CALKINS, City Manager.
F. KIMBALL, City Engineer.
IDA V. MALONE, City Clerk.

OFFICIAL PROPOSALS

Bids: Dec. 17.

Waterworks Improvements

Elizabethtown, Ky.

Sealed bids for improvements to the waterworks at Elizabethtown, Ky., will be received by the Mayor and City Council, at the office of the City Clerk until 2 o'clock p.m., December 17, 1923, at which time and place they will be publicly opened and read.

The improvements proposed consist of:

The Construction of a 750,000 gallon gravity type Filtration Plant, in two units.

Furnishing 4 centrifugal pumps and electric motors.

Bids will be received separately on furnishing and installing the filter equipment.

Plans and specifications may be examined at the Mayor's office at Elizabethtown, Ky., or at the office of the Engineer, or a copy may be obtained from the Engineer upon receipt of a deposit of $15.00 of which amount $10.00 will be refunded when the plans and specifications are returned in good order.

If additional information is required, address the Engineer.

The right is reserved to reject any and all proposals and to waive informalities.

The Contractor will be paid in cash on monthly estimates amounting to 90% of the value of the work done and materials furnished.

All proposals and bids must be accompanied by a certified check drawn on a responsible bank or trust company and made payable to Starling Wells, City Clerk, for a sum not less than 5% of the aggregate of the proposal.

The successful bidder will be required to furnish a performance bond in the sum of 50% of the contract price.

B. H. KLYCE, Engineer,
720 4th & 1st Natl. Bank Bldg.,
Nashville, Tenn.

Bids: Dec. 5.

Street Improvements

Raleigh, N. C.

Sealed proposals will be received by the Mayor and Commissioners of the City of Raleigh, N. C., until 3:00 p.m., December 5th, 1923, at the City Hall in Raleigh, N. C., for the construction of Street Improvements.

The work will consist of approximately 75,000 square yards, more or less, of Sheet Asphalt or other Bituminous pavement on a concrete foundation; or One Course Concrete Pavement; Combined Concrete Curb and Gutter; Granite Curbing; Storm Drainage, etc.

Proposals must be marked "Proposals for Street Improvements for the City of Raleigh, N. C." All bids must be submitted upon blank forms provided in copies of the proposal ,contract and specifications.

Each bid must be accompanied by a certified check for five (5) per cent of the amount of the bid, as evidence of good faith.

Plans, copies of the proposal, contract, specifications, etc., may be obtained upon application to the Engineer.

The city reserves the right to reject any or all bids or to award contracts which appear to be for the best interests of the city.

WILLIAM C. OLSEN,
Engineer,
Raleigh, N. C.
Kinston, N. C.

E. E. CULBRETH, Mayor.
C. C. PAGE, Commissioner, Public Works.
W. L. DOWELL, City Clerk.

CONSTRUCTION NEWS

Engineering News-Record, December 6, 1923

The Construction Barometer

Drop in Cost—Materials Scarcity and Higher Prices Possible in 60 to 90 Days with Present Rate of Permits

CONSTRUCTION cost has dropped somewhat during the last month; the declines occurring principally in iron, lumber, cement and brick. These recessions are seasonal, but the gain in the volume of late-autumn building permits indicates an unusually extensive winter construction program. In the New York district, November contracts awarded were the heaviest of the year. Now comes the question of building materials scarcity, from sixty to ninety days hence. Cement mill stocks since August have been heavier than for the same months last year; there are more burned brick on hand than at any time in 1922; lumber production has exceeded shipments since April. Present lumber mill stocks, however, are approximately 360,000,000 ft. under the quantity on hand one year ago, owing to the extremely heavy demand.

Pa., Pittsburgh—Paving Manchester Ave., to Booth & Flinn Ltd., 1942 Forbes St., $92,776; Bennett St., to M. O'Herron Co., South 1st and McKean Sts., $41,730; Flotilla Way to M. Mannella, 5140 Breedshill St., $11,526.

La., Crowley—See "Waterworks."

Kentucky — State Hy. Dept., Frankfort, grading 2.646 mi. Hazard-Jackson Rd., 24 and 28 ft., State Project 4, Sect. B, Perry Co., to Codell Constr. Co., Winchester, $46,884; 3.996 mi. Hazard-Whitesburg Rd., 24 and 28 ft., State Project 4, Sect. C, Perry Co., to J. C. Williams, Winchester, $77,463; paving 12.6 mi. Winchester-Clay City Rd., 18 ft., State Project 4, Sect. A, Clark Co., waterbound macadam, to E. E. Price Co., 723 Hambrick Ave., Lexington, $360,061. Noted Sept. 6 and 20.

Kentucky — State Hy. Dept., Frankfort, paving various roads **(F. A. P. means Federal Aid Project, S. P. State Project)**, gravel surfacing 14.032 mi. Marion-Princeton Rd., 14 ft., S. P. 10, Sect. C, Caldwell Co., to McQuarry Bros., Hopkinsville, $96,845, 7.212 mi. Marion-Princeton Rd., 14 ft., S. P. 10, Sect. C, Crittenden Co., to Costello Bros., Henson Bldg., Knoxville, Tenn., $54,469, 7.765 mi. Madisonville-Hopkinsville Rd., 18 ft., F. A. P. 111, Christian Co., to Alexander Bros., Cadiz, $169,595, surface treating above roads, to Atlantic Refining & Asphalt Co., Candler Bldg., Atlanta, Ga., $12,928, $6,603 and $9,636 respectively; waterbound macadam surfacing 5.54 mi. London-Mt. Vernon Rd., 18 ft., F. A. P. 29, Sect. E, Laurel Co., to E. A. Chilton, London, $175,208, surface treatment, to Atlantic Refining & Asphalt Co., Candler Bldg., Atlanta, Ga., $8,712, 17.082 mi. Owenton-Georgetown Rd., 14 ft., S. P. 49, Sect. A, Owen Co., to Billiter & Oliver Bros., Covington, $362,327, surface treatment, to F. G. Breslin, 32nd and Market Sts., Louisville, $23,586, 10.155 mi. Scottsville-Glasgow Rd., 18 ft., F. A. P. 112, Allen Co., to Gorrell & Traughber, Russellville, $301,463; grading 10.941 mi. Irvine-Beattyville Rd., 24 and 28 ft., S. P. 29, Sect. B, Estill Co., to Connelly Constr. Co., Somerset, $253,992, 9.498 mi. Richmond-Mt. Vernon Rd. (Boone Gap Route) 26 and 30 ft., F. A. P. 88, Madison and Rockcastle Counties, to Codell Constr. Co., Winchester, $119,456, 9.924 mi. Beattyville-Booneville Rd., 24 and 28 ft., S. P. 31, Sect. A, Lee and Owsley Counties, and 10.898 mi. Richmond-Mt. Vernon Rd., 26 and 30 ft., F. A. P. 88, Madison and Rockcastle Counties, to Ellis, Smeathers & Brantley, Owensboro, $221,417 and $158,421 respectively, 16.558 mi. Somerset-Whitley City Rd., 24 and 28 ft., F. A. P. 110, Pulaski Co., to Ping Bros. Constr. Co., Somerset, $191,440; reinforced concrete surfacing 17.035 mi. Barboursville-Corbin Rd., F. A. P. 61, Sect. C, Knox Co., to G. S. Kreis, Knoxville, Tenn., $561,850. Noted Nov. 15.

Latest advice is that contracts on above projects will be awarded Dec. 10. Above prices, therefore, are merely lowest bids and not contract prices.

Ohio — Dept. Highways and Pub. Wks., Columbus, grading, bridging and paving 2.821 mi. Sect. "B," 2.825 mi. Sect. "E," and 0.521 mi. Sect. "Ohio-City," Van Wert-Rockford Rd., Van Wert Co., first 2 sections bituminous macadam, asphalt, and latter rein.-con., to Putman & Shindeldecker, Van Wert, $60,933, $57,147 and $11,803 respectively. Noted Nov. 22.

O., Akron—W. F. Peters, dir. Pub. Serv., improving North Main St., to T. E. McShaffrey Constr. Co., 171 South Forge St., 26,000 cu.yd. grading $0.60 per cu.yd., 3,400 sq.yd. brick gutter, asphalt filler $2.35, 16,800 sq.yd. asphalt willite pavement Plan B, Trinidad $1.85, etc., total $158,808. Noted Nov. 22.

Michigan — State Hy. Dept., Lansing, grading and surfacing 0.582 mi. State Trunk Line Rd. 53-3, and 1.464 mi. State Trunk Line Rd. 38-7, Sect. B, Sanilac Co., 20-40 ft., to Murray & Fremont, Bad Axe, $18,954 and $49,628 respectively.

Kan., Independence—Montgomery Co., grading and bituminous macadam surfacing 5.141 mi. Chaney Rd., Sect. C, Federal Aid Project 121, 18 ft., to A. G. Sherwood, Independence, $128,783. Noted Nov. 8.

South Dakota—State Hy. Dept., Pierre, gravel and rock surfacing 12 mi. highway from Elk Point to Sioux City, to W. R. Larson, 519 Secy. Natl. Bank Bldg., Sioux Falls, $57,000.

Ark., Little Rock—Improving East 2nd, Cumberland Rock, Byrd, Commerce, Sherman, Ferry, Collins and Rector Sts., in Dist. 356, to P. F. Connelly Constr. Co., Little Rock, 3 in. asphalt top $1.44 sq.yd., 6 in. concrete base $1.35, etc., total $75,085. Noted Nov. 8.

Ark., Mena—Grading and gravel surfacing 16 mi. Mena-Egger Highway, 18 ft., to Western Constr. Co., Little Rock, $90,000.

Ark., Walnut Ridge—Grading and gravel surfacing in Rd. Dist. 8, to C. Hager, Walnut Ridge, $50,000.

Tex., Coleman—Coleman Co. graveling 4 mi. Rockwood-Colorado River Rd., to Austin Bros. Bridge Co., Clarence St., Dallas, $28,551. Noted Oct. 25.

Tex., Jefferson — Marion Co., grading, gravel surfacing, etc., 14.42 mi. State Highway 49, Federal Aid Project 364, 16 ft., to Womack Constr. Co., Sherman, $108,419; 34,716 cu.yd. gravel to be furnished by county. Engrs. est. $148,600. Noted Nov. 29.

Tex., Marlin — Falls Co. grading and gravel surfacing 7.65 mi. State Highway 44, Federal Aid Project 331-B, 16 ft., to H. Popejoy, Marlin, $42,680, 19,949 cu.yd. gravel to be furnished by county $34,400, engrs. est. $84,803; grading, gravel surfacing and bridging 5.68 mi. State Highway 44, Rd. Dist. 3, State Aid Project 410-B, 18 ft. to P. M. Skinner, 5632½ Reiger Ave., Dallas, $61,779, 14,154 cu.yd. gravel to be furnished by county, engrs. est. $101,146. Noted Nov. 22.

Calif., Compton — City, improving Wilmington St., 72,800 sq.ft. grading, 72,800 sq.ft. 5 in. concrete, steel and concrete culverts, curbs and walks, to G. H. Oswald, 366 East 58th St., Los Angeles, $30,500.

Calif., Oakland — Paving 5th St. from Harrison to Oak Sts., to Heafey, Moore & McNair, 2030 High St. 52,500 sq.ft. grading $0.05, 50,400 sq.ft. 2 in. Warrenite bitulithic on 6 in. concrete $0.30, etc.; 75th Ave. from Beck St. northeast, to Hutchinson Co., Hutchinson Bldg., 35,557 sq.ft. grading $0.035, 15,982 sq.ft. oil macadam paving $0.11, 7,022 sq.ft. cement walks $0.16, etc.

Calif., Sausalito — Improving Princess St., to McDonald Improvement Co., Pacific Bldg., San Francisco, $36,380. Noted Nov. 29.

Industrial Works

PROPOSED WORK

Vt., East Dorset—Manchester Marble Co., having plans prepared by Manchester Marble Co., Rutland, 1 story, 170 x 230 ft. mill, steel and timber, plain foundation, Main St., to replace one recently destroyed by fire. $175,000.

Conn., Hartford—Bryant & Chapman, 350 Woodland St., plan 2 story milk plant, brick and steel, plain foundation, Maple Ave. $60,000. Engineer and architect not selected.

Conn., Hartford — Standard Oil Co., Wawarme Ave., plans 1 story garage and service station, Windsor Ave. $50,000. Private plans.

Conn., Putnam—Lowell Needle Co. had plans prepared 2 story, 50 x 100 ft. factory. $45,000. Private plans.

N. Y., Albany—Albany Hardware & Iron Co. plans 7 story, 120 x 200 ft., rein.-con., brick and steel warehouse, concrete pile foundation, Bway. $500,000. Engineer and architect not selected.

N. Y., Binghamton—Globe Grocery Stores, Inc., 68 Jay St., Brooklyn, plans 4 story, 225 x 250 ft. warehouse, Montgomery St., here. Will mature in spring.

N. J., Trenton—Holmes, Inc., 29 Chancery Lane, having plans prepared by F. D. Priory, 11 West State St., 2 story, 56 x 106 ft., battery service station and work shop. $65,000.

Pa., Phila.—Frankford Grocery Co., Penn and Unity Sts., having plans prepared by W. H. Dyer, Land Title Bldg., 4 story, 64 x 89 ft. warehouse and 1 story, 45 x 100 ft. garage, rein.-con. and brick, plain foundation, Penn and Unity Sts. $130,000.

Pa., Scranton—Lackawanna Laundry Co., 308-312 Penn Ave., plans 4 story, 60 x 170 ft. addition to plant. $100,000. Private plans.

Md., Baltimore—General Elevator Co., 400 South Charles St., plans 1 story, 65 x 160 ft., brick and steel factory, plain foundation, Bush, Russell and Ridgely Sts. $50,000. W. S. Austin, 1002 Maryland Trust Bldg., engr.

Md., Baltimore — Reliable Furniture & Mfg. Co., 303 President St., had plans prepared 2 story, 262 x 274 ft. factory, brick, plain foundation, Ridge Rd. and Wittemore Ave. $180,000. Private plans.

W. Va., Dunbar—Carrier Chemical Co. plans new chemical plant. $50,000.

N. C., Burlington—Burlington Mills Inc. plans new mill containing 50,000 sq.ft. floor space. This company formerly Gastonia Mfg. Co. of Gastonia. $100,000. J. S. Love, Gastonia, mgr.

N. C., Gastonia—Manville Jenckes Co., Pawtucket, R. I., purchased High Shoals Cotton Mills, here, and will convert same into gigantic weave mill by addition of new units and equipment. A. Q. Kale, supt.

N. C., Murphy—See "Dams."

La., New Orleans—Checker Cab Co. Inc., plans brick garage, on 60 x 400 ft. site, Poydras St. near South Rampart St. $40,000. J. Bistes, St. Charles Hotel, pres.

Tenn., Bristol—Bristol Ice & Coal Co. plans new plant. $50,000.

Tenn., Nashville — Hooper Grocery Co., 2nd Ave., plans 4 story, brick, concrete and stone warehouse. $75,000.

Ky., Louisville—Highway Iron Products Co., Columbia Bldg., takes bids about Dec. 31, 1 story, 80 x 250 ft., brick factory, 17th and Magnolia Sts. $106,000. Joseph & Joseph, Francis Bldg., archt.

O., Cincinnati—Union Gas & Electric Co., 4th and Plum Sts., plans electrical generating plant, incl. administration and storage buildings, etc., brick and steel, here $15,000,000. Sargent & Lundy, 72 West Adams St., Chicago, engrs.

O., Cleveland—Chicago Pneumatic Tube Co., 1241 East 49th St., plans 3 story and basement, 43 x 126 ft. brick and timber factory addition. $50,000. T. P. Kimman, mgr. Private plans.

O., Cleveland—A. C. Spear, 13931 Kinsman Rd., plans 1 story, brick garage and commercial building, 2612 Prospect Ave. $50,000. Private plans.

O., Cleveland—Forbes Varnish Co. had plans prepared 1 story, 50 x 83 ft., brick and steel factory, 3800 West 143rd St. $40,000. Private plans.

O., Conneaut—New York, Chicago & St. Louis R.R., Columbia Bldg., Cleveland, plans 1 story, brick and steel machine shop and office building, here. $50,000. E. E. Hart, Columbia Bldg., Cleveland, engr.

O., Maple-heights (Worthington P. O.)—Cleveland Roofing Tile Co., East 123rd St. and Erie R.R., plans 1 story, factory, concrete block, Dunham Rd., here. $40,000. Private plans.

O., Toledo—Hickok Producing Co. plans refinery, Bancroft St. $500,000. Will mature in spring. Engineer and architect not announced.

O., West Austintown—Valley Cities Brick Co., Youngstown, plans brick plant, here. N. T. Hurd, 214 Fairgreen Ave., Youngstown, secy. Will mature after Jan. 1.

Ind., Dunkirk—Indiana Glass Co. plans plant. $80,000.

Ind., Terre Haute—Wabash Valley Refining Co. plans first unit of refinery. $45,000.

Ill., Chicago—Acme Garage Co., c/o M. Leviton & Co., archt., 123 West Madison St., having plans prepared 1 story, 120 x 125 ft., garage extension, 921-935 North California Ave. $75,000.

Ill., Elgin—Texas Co., 17 Battery Pl., New York City, having preliminary plans prepared 1 story, 118 x 334 ft. oil storage plant, rein.-con. and brick, Ann St., here. $50,000. Private plans.

Ill., Peoria—Kingan & Co., West Maryland St., Indianapolis, Ind., plans brick packing plant, here. To exceed $40,000.

Wis., Hartland—Hartland Creameries Co., c/o J. P. Haerle, pres., plans 2 story, brick, rein.-con. and steel plant, plain foundation. $50,000. Engineer and architect not selected.

Wis., Madison—A. J. McCance, 204 Meary St., having plans prepared 1 story and basement, 60 x 100 ft., garage and repair shop brick, rein.-con. and steel, plain founda-

Industrial Works (Continued)

tion, Washington St. $40,000. Private plans.

Ia., Council Bluffs—Citizens Gas & Electric Co., 26 Pearl St., plans new gas plant and several miles gas mains. $250,000. A. L. English, mgr.

Ia., Shenandoah—Defeated $175,000 bond issue for electric light and power plant. F. Sanman, clk. Noted June 27.

Ia., Sioux City—Illinois Central R.R. Co., 135 East 11th Pl., Chicago, having plans prepared by W. E. Burke, 518 Nebraska St., brick and concrete shops, round-house and coaling equipment, here. $500,000. F. L. Thompson, ch. engr.

Minn., St. Paul—Willis Motor Co., 50 12th St., having plans prepared by Mather & Fleishbein, 442 Endicott Bldg., 1 story, 100 x 150 ft. garage, brick and concrete, Congress and Robert Sts. $40,000.

Neb., Omaha—Nebraska Power Co., 15th and Farnam Sts., having preliminary plans prepared by F. S. Scott, 216 Kennedy Bldg., 1 story and basement, 114 x 254 ft. rein.-con. and brick warehouse and garage. $150,000.

Mo., Bolivar—Voted $50,000 bonds electric power plant and distribution system. Work involves 2 directed connected oil engines, 400 poles, 35 mi. wire, 100 series street lamps, 10 transformers, etc. Also plans to purchase 2 motor driven centrifugal fire pumps and remote control electrically operated valve. F. W. Graham, 5244A Cote Brilliante Ave., St. Louis, engr.

Mo., St. Louis—Jersey Farm Dairy Co., 1007 Russell Ave., soon takes bids 2 story, 50 x 80 ft., rein.-con. and brick plant, plain foundation, 1009 Russell Ave., $60,000. Larkin Eng. Co., 424 North 3rd St., archts. and engrs. Noted Oct. 25.

Mo., Springfield — Toombs-Fay Sash & Door Co. plans 3 story 90 x 100 ft. factory, 542 West Phelps St.

Tex., Dallas—Texas & Pacific R.R., T & P Bldg., had plans prepared by J. M. Knightlinger, Supt., Union Terminal Bldg., Fort Worth, round house, shops and yard trackage Belt Junction, here. $1,000,000.

Tex., Dallas—Theater Electric Light Co., Queen Theatre Bldg., plans power plant, one 200 hp. or two 100 hp. generator sets, $50,000. L. G. Bissinger, c/o owner, engr.

Tex., Houston—York Eng. & Supply Co., 2201 Texas Ave., plans 4 story, 100 x 150 ft., brick and concrete warehouse, Texas Ave. $80,000.

Tex., Port Arthur—Port Arthur Ice & Refrigerating Co., had plans prepared by Stone & Webster, Milk St., Boston, and York Eng. & Supply Co., Texas Ave., Houston, ice plant, 175 ton daily capacity, Houston St., here. $300,000.

Ont., Orillia—Canada Wood Specialty Co. plans plant, Front and Coldwater Sts. $85,000.

Tex., Dallas—Washington Cotton Oil Co., c/o W. L. Patton, mgr., Maple Ave., plans additions to mill. $50,000. Engineer and architect not announced.

Okla., Ponca City — Burns of Midwest Creamery Co. having plans prepared by Stoddard Eng. Co., 357 Amer. Natl. Bank Bldg., Oklahoma City, 1 story, 50 x 100 ft., brick and steel creamery. $60,000.

N. M., Las Cruces—Elephant Butte Irrigation Dist., La Cruces, and El Paso Water Impvt. Dist., (portion of Rio Grande Project in Texas), plan 18,000 kw. plant at Elephant Butte Dam, with auxiliary dam 20 mi. south of same. Secondary hydro-electric plant will probably be built at dam. Approximately $5,000,000. H. H. Brook, pres. and mgr.

Wash., Bellingham—City Council passed ordinance providing for submission at December election of plan to construct or purchase an electric light and power plant and system. $500,000. C. M. Adams, city engr.

Wash., Seattle—See "Unclassified."

Wash., Wenatchee—Wenatchee Cold Storage Co. plans 5 story, 115 x 350 ft. cold storage plant, brick, Spring and Wenatchee Sts. $400,000.

Ore., Portland—Portland Pulp and Paper Co., R. H. Mills, pres., 815 Bway. Bldg., plans 1 and 2 story, 80 x 300 ft. paper mill, rein.-con. and steel. $1,250,000.

Calif., Alhambra — Jenkins-Wright Co., 2912 Central Ave., Los Angeles, plans 2 story, 50 x 190 ft., also 1 story 175 x 200 ft. factory buildings.

ROAD WORK—OREGON

Following are lowest 3 bids opened by C. H. Purcell, dist. engr., U. S. Bureau Pub. Rds., Post Office Bldg., Portland, for constructing 7.2 mi. Detroit-Niagara Sect. Santiam Natl. Forest Rd., Marion Co., (A) Payne & Padrick Marshfield; (B) Elliott, Scoggins & Paquet; (C) Morrison-Knutsen. The unit bids were as follows:

	A	B	C
17 acres clearing	$150.00	$250.00	$200.00
12 acres grubbing	300.00	300.00	350.00
83,000 cu.yd. rock excavation	1.00	1.20	1.45
60,000 cu.yd. common excavation	.35	.50	.55
500 cu.yd. structural excavation	1.00	1.00	2.00
1,000 sta. yd. overhaul	.10	.07	.10
7.2 mi. finishing earth road	100.00	100.00	300.00
85 cu.yd. class B concrete	18.00	25.00	32.50
500 cu.yd. cement rubble masonry	10.10	14.00	14.00
500 cu.yd. dry rubble masonry	8.00	10.00	5.00
270 lin.ft. 18 in. corrugated pipe	2.00	2.50	2.75
360 lin.ft. 24 in. corrugated pipe	3.00	3.50	3.50
300 lin.ft. 36 in. corrugated pipe	5.00	6.00	6.50
500 lin.ft. rustic guard rail	1.00	1.00	.80
100 M.ft. b.m. trestle bridge material	60.00	60.00	60.00
12 acres grubbing, using government explosives	150.00	150.00	250.00
83,000 cu.yd. rock excavation using government explosives	.90	1.10	1.40
770 lin.ft. bridge deck	10.00	7.00	7.00
Extended totals furnishing explosives	$139,320	$168,490	$192,215
Extended totals using government explosives	139,220	158,390	186,865

SEWER—CHICAGO, ILL.

Following are lowest 3 bids opened by Sanitary Dist. of Chicago, Nov. 22, for Calumet Intercepting Sewer, Contr. No. 1, and 95th St. Sewage Pumping Sta., Divs. A, B, C, D, E, F and G, (A) T. J. Forschner Contg. Co., 125th St. and Michigan Ave.; (B) W. E. White Co., 130 North Wells St.; (C) A. Brundage, 110 South Dearborn St. The unit bids were as follows:

	A	B	C
Division A			
320 lin.ft. sewer 11 ft. internal width on piles	$77.00	$80.00	$116.50
320 lin.ft. sewer 11 ft. internal width on crosswalls	86.00	90.00	125.00
375 lin.ft. double barrel sewer 11 ft. internal width	140.00	140.00	170.00
180 lin.ft. double barrel sewer N. of pumping station	195.00	210.00	217.00
580 lin.ft. 15 in. vitrified pipe sewer	2.00	3.00	4.75
Junction chamber near 96th St. (lump sum)	6,500.00	8,500.00	11,000.00
30 lin.ft. standard manholes on concrete sewers	7.00	15.00	8.00
60 lin.ft. standard manholes on vitrified pipe sewers	10.00	15.00	8.00
40 lin.ft. pressure manholes	14.00	20.00	8.00
4 catch basins	55.00	100.00	50.00
600,000 lb. reinforcing steel	0.11	0.05	0.05½
5,000 lb. iron castings and miscellaneous metals	0.24	0.15	0.25
1,000 lb. iron pipe	0.15	0.12	0.17
25 cu.yd. brickwork	35.00	50.00	27.50
2,000 lin.ft. piling furnished	0.30	0.30	0.25
2,000 lin.ft. piling driven	1.10	1.00	2.00
5 cu.yd. rock excavation	5.00	5.00	5.00
50 cu.yd. additional earth excavation	2.00	2.00	2.00
10 cu.yd. concrete, class A	24.00	24.00	19.50
50 cu.yd. additional concrete, class B	18.00	18.00	18.00
100 cu.yd. concrete, class C	17.00	12.00	16.50
50 M.ft. B.M. additional sheeting and bracing	40.00	40.00	40.00
Extended totals	$225,000	$196,675	$239,563
Division B			
Excavation P.S. substructure and miscellaneous work (lump sum)	$43,650.00	$22,000.00	$49,000.00

Miss., **Vicksburg**—Steel Hulls—Jan. 10, at office U. S. Engineer, 2 steel maneuver boat hulls; adv. E. N.-R. Dec. 6.

Ky., **Addison**—Lock Gates—Jan. 3 at office U. S. Engineer, P. O. Box 72, Louisville, furnishing and erecting 2 mitering lock gates for Dam 45, Ohio River, here; adv. E. N.-R. Dec. 6. Noted Nov. 8.

Ky., **Louisville**—Metal Work—Dec. 29, at office U. S. Engineer, metal work for Dams 44 and 45, Ohio River; adv. E. N.-R. Dec. 6.

Ky., **Owensboro**—Lumber—Dec. 7, at office U. S. Engineer, P. O. Box 72, Louisville, furnishing approximately 150,000 ft. No. 1 common yellow pine, various sizes, here.

Neb., **Omaha**—Changes, etc.—Dec. 28, by Treas. Dept., Wash., D. C., changes in lobby screen and miscellaneous remodeling and repairs in U. S. Court House, Custom House and Post Office, here. J. A. Wetmore, acting superv. archt.; adv. E. N.-R. Dec. 6.

Mo., **Liberty**—Post Office—Jan. 2, by Treas. Dept., Wash., D. C., construction, complete incl. mbechanical equipment, U. S. Post Office, here. J. A. Wetmore, acting superv. archt.; adv. E. N.-R. Dec. 6.

Tex., **Paris**—Post Office and Court House—Dec. 27, by Treas. Dept., Wash., D. C., 1 story and basement, 88 x 109 ft., brick and stone, here. J. A. Wetmore, acting superv. archt.

Washington—Gates—Jan. 3, by Bureau of Recl., Denver, Colo., two 5 x 6 ft. high pressure emergency gates for Tieton Dam, Yakima Project, here. D. W. Davis, comr.

Wash., **Grays Harbor**—Power House—Dec. 11 at office Supt. of Lighthouses, 17th Dist., Portland, Ore., rein.-con. power house and rein.-con. shelter for fog signal at Grays Harbor Light Station, here.

Ore., **Portland**—Stone—Dec. 27, at office U. S. Engineer, stone for jetty at mouth of Umpqua River.

Calif., **Mare Island**—Fuel Oil Storage—Spec. 4717—Jan. 16 (extended date), by Bureau Yards & Docks, Navy Dept., Wash., D. C., two 50,000 bbl. fuel oil tanks, motor driven centrifugal oil pumps, 3 brick pump houses and 1 heater house, etc., at Navy Yard, here. Noted Oct. 25.

BIDS RECEIVED

N. Y., **New York**—Dredging—U. S. Engineer, 2nd Dist., Army Bldg., dredging in Newark Bay, N. J., from G. H. Breymann & Bros., 17 Battery Pl., Area 1, $0.5475; Morris & Cummings Dredging Co., 17 State St., Area 2, $0.25; Atlantic Gulf and Pacific Dredging Co., 13 Park Row, Area 3, $0.2764. Noted Oct. 25.

Conn., **Mystic**—Post Office—Treas. Dept., Wash., D. C., 1 story, 62 x 64 ft., brick and tile Post Office, here, from W. P. Thurston Co., Merchants Natl. Bank Bldg., Richmond, Va., $44,300. Noted Nov. 1.

Pa., **Pittsburgh**—Cement—U. S. Engineer, 103,000 bbl. cement for lock construction on Monongahela River, from Universal Portland Cement Co., Frick Bldg. Engrs. est. $275,000.

Ky., **Louisville**—Barges—U. S. Engineer, sixteen 6½ x 26 x 110 ft. steel barges, with cargo boxes, from Amer. Bridge Co., Ambridge, Pa., $256,550; two 7½ x 36 x 120 ft. steel barges with cargo boxes, from Nashville Bridge Co., foot of Shelby St., Nashville, Tenn., $57,440; two 5 x 25 x 100 ft. steel barges wthout cargo boxes, from C. Hegewald & Co., New Albany, Ind., $30,900. Noted Oct. 25.

O., **Gallipolis**—Post Office—Treas. Dept., Wash., D. C., for U. S. Post Office, here, from C. Weitz Sons Co., 713 Mulberry St., Des Moines, Ia., $50,500. Noted Nov. 1.

Ill., **Great Lakes**—Coal Bunkers, etc.—Spec. 4929—Bureau Yards & Docks, Navy Dept., Wash., D. C., coal bunkers and railroad siding at Naval Training Station, here, (1) work complete, from Newport News Contg. and Eng. Co., Law Bldg., Newport News, Va., (1) $14,480 (2) $10,980 (3) $3,500. Noted Nov. 22.

Porto Rico, San Juan—Quarters—Spec. 4909—Bureau Yards & Docks, Navy Dept., Wash., D. C., double quarters and auxiliary buildings, at Naval Radio Station, here, (1) work complete, from M. Benitiz Rexach, P. O. Box 905, (1) $17,100 (2) $900 (3) $2,500 (4) $2,100 (5) $2,400 (6) $3,000. Noted Nov. 8.

CONTRACTS AWARDED

N. Y., **New Rochelle**—Dredging—U. S. Engineer, Army Bldg., 39 Whitehall St., New York, dredging in Harbor, here, to Bridgeport Dredge and Dock Co., 1024 Main St., Bridgeport, Conn., $33,320. Noted Oct. 4.

Del., **Wilmington**—Dredging—U. S. Engineer, dredging in Tuckerton Creek, New Jersey, to Delaware Dredging Co., 139 South 3rd St., Phila., $5,400.

Va., **Norfolk**—Dredging—U. S. Engineer, dredging 69,000 cu.yd., in eastern branch Elizabeth River, in Harbor, here, to Norfolk Dredging Co., P. O. Box 494, $27,806. Noted Nov. 29.

Ill., **Great Lakes**—Rebuilding Laundry—Spec. 4918—Bureau Yards & Docks, Navy Dept., Wash., D. C., rebuilding laundry at Training Station, here, to G. I. Morgan, 342 Ridgeland Ave., Waukegan, $31,372. Noted Nov. 29.

Wash., **Tacoma**—Dredging—U. S. Engineer, Seattle, dredging 78,000 cu.yd. city waterway in Harbor, here, to Henry & McFee, Northern Life Bldg., Seattle, $21,450. Noted Nov. 1.

H. T., **Pearl Harbor**—Extension—Spec. 4910—Bureau Yards & Docks, Navy Dept., Wash., D. C., extension for battery storage and overhaul, at Submarine Base, here, to A. Pope, 4722 15th St., N. W., Wash., D. C., $48,000 (180 days). Noted Nov. 15.

Unclassified

PROPOSED WORK

Memorial Arch—Middletown, Conn.—Soldiers Memorial Comn. plans memorial arch, Main St. $50,000. S. Mattes, chn.

Piers, Baltimore, Md.—Port Comn. plans 2 rein. con. piers, concrete pile foundation, 1800 ft. long, foot of McComas St. $1,750,000. Western Md. Ry., Standard Oil Bldg., lessee.

Parks—Charleston, W. Va.—See "Streets and Roads."

Steel Tipple and Coal Handling Equipment—Junior, W. Va.—West Virginia Coal & Coke Co., Norton, plans new steel tipple and coal handling equipment, here. $25,000.

Electrolier System—Torrence, W. Va.—City to vote on $75,000 bond issue for electrolier system.

Transmission Line—Murphy, N. C.—See "Dams."

Sea Wall — Biloxi, Miss. — See "Streets and Roads,"

Elimination of Grade Crossing—Jackson, Miss.—See "Streets and Roads."

Golf Course—Louisville, Ky.—Louisville Country Club, Upper River Road, plans new 18 hole golf course. $50,000.

Park—Louisville, Ky.—D. B. G. Rose, c/o Standard Printing Co., 218 1st St., plans amusement park at Fern Grove, near here. $50,000.

Athletic Field—Baraboo, Wis.—Park Bd. plans grading for athletic field. $25,000. H. Grotophorst, pres. Clas, Shepherd & Clas, 445 Milwaukee St., Milwaukee, engrs.

Gas Line—Texas—Brownwood Gas Co., Brownwood, plans 8 in. pipe line, 13 mi. long, from Janellen to Brownwood. $125,000.

Transmission Line—Texas—Texas Power & Light Co., Interurban Bldg., Dallas, plans transmission line from Corsicana to Athens and Tyler. $300,000.

Grandstands—Austin, Tex.—University of Texas making plans grandstands on Clarke Field, 1st unit in stadium to seat 40,000. $30,000. H. M. Greene Co., North Texas Bldg., Dallas, engrs.

Golf Course, etc.—Dallas, Tex.—Dallas Country Club, Beverly Dr., plans improvements to golf course and grounds, incl. drives, walks, etc. $100,000. Engineer not announced.

Park Improvements—Ft. Worth, Tex.—Plans election to vote on $500,000 bonds, park improvements. D. L. Lewis, city engr.

Loading Platform—Bellingham, Wash.—See "Buildings."

Port Development — Everett, Wash. — Voters of Port District will vote Dec. 1 on comprehensive scheme of port development. Tentative plan provides for purchasing 10-

Unclassified (Continued)

acre tract for proposed terminals, securing land for ferry landing, acquisition of 1,800 acres of tidelands outside jetty, and dredging operations on Snohomish River.

Terminals, etc.—Seattle, Wash.—Port of Seattle purchased Skinner & Eddy wartime shipyard site, etc., and will build intercoastal terminals, with 2 large piers and warehouse. G. F. Nicholson, 2727 33rd St. S., ch. engr.

Grade Separation—Yakima, Wash.—City had plans prepared for grade separations on Walnut St., 2 underneath driveways, each 19 ft. wide and 2 sidewalks each 6 ft. wide, with clearance of 10 and 9 ft. respectively below tracks. C. F. Wilson, city engr.

Fill—Alameda, Calif.—Neptune Beach Co., Central and Webster Sts., plans placing 100,000 cu.yd. fill in approximately 16 acres of land projecting into San Francisco Bay from Washington Park to 6th St.

Transmission Lines—Modesto, Calif.—Modesto Irrigation Dist. to vote on $500,000 bond issue for completion Don Pedro power distributing system. H. Storrs, ch. engr. Noted July 12.

Pier, etc.—Oakland, Calif.—See "Excavation, Drainage, Irrigation."

Electrolier Lighting System—Sacramento, Calif.—City plans ornamental electric electrolier lighting system on portions of 12th and I Sts., incl. foundations, lamps, globes, switches, wiring, conduits, etc. $25,000.

Grain Terminal—San Francisco, Calif.—State Bd. Harbor Comrs., Ferry Bldg., plans grain terminal, Islais Creek. $325,000. F. G. White, ch. engr.

Tunnel—Mexico—See "Bridges."

BIDS DESIRED

Steel Framing and Rolling Doors—New Orleans, La.—Dec. 20, by Bd. Port Comrs., 200 New Court Bldg., structural steel framing for shed and steel rolling doors; adv. E. N.-R. Dec. 6.

Foundation—Rapid City, S. D.—Dec. 12, by State Cement Comn., concrete foundations for 50 x 72 ft. coal mill building, 30 x 72 ft. crusher building, also structural steel and conveyor gallery, 350 ft. long. J. C. Buckbee Co., 1733 First Natl. Bank Bldg., Chicago, engr.

BIDS RECEIVED

Special Work—New York, N. Y.—Transit Comn., 49 Lafayette St., Nov. 30, special work (Order 23) for Lenox Ave. and 148th St. Yard, from Bethlehem Steel Corp., 25 Bway., $12,544. Noted Nov. 22.

Foundation, etc. — Minneapolis, Minn. — Bd. Educ., Nov. 26, foundation and first floor slab for 1 story and basement, 150 x 300 ft. school, rein.-con. and brick, Mississippi River Blvd., from Manly Jackson Constr. Co., 124 South 8th St., $21,600. Total cost $200,000. Noted Nov. 22 under "Buildings."

Sluice Gates—Exchequer, Calif.—Directors Merced Irrigation Dist., Merced, 2 sluice gates, 277 static head operated under 100 ft., 28-30 ft. to discharge, 6 ft. diam. sluiceway, for Exchequer Dam, here, from J. Hendy Iron Wks., 75 Fremont St., San Francisco, (1) sluice gates with equipment $4,390 (2) discharge castings $2,575. Noted Nov. 8.

CONTRACTS AWARDED

Airplant Hangar—Hartford, Conn.—Municipal Aviation Comn., 60 x 120 ft. steel hangar, to Berlin Constr. Co., Berlin. Noted Nov. 1.

Dock, Retaining Wall, etc.—Creighton, Pa. — Pittsburgh Plate Glass Co., Frick Bldg., Pittsburgh, dock retaining wall, etc., here, 7,000 cu.yd. concrete, etc., to Dravo Contg. Co., Diamond Bldg., Pittsburgh. Engrs. est. $75,000.

Retaining Wall—Emsworth, Pa.—Pennsylvania R.R., Penn Sta., Pittsburgh, 700 ft. retaining wall along Ohio River, here, to Vang Constr. Co., Standard Life Bldg., Pittsburgh, $25,000.

Electric Fan and Ventilating System—Phila., Pa.—Phila. & Reading R.R., Reading Terminal, installing electrical fan and ventilating system in Mahanoy Tunnell, to Penn Power & Light Co., Hauto, $100,000.

Banquette Work, etc.—Clarksdale, Miss.—Yazoo-Mississippi Delta D. D., 75,000 cu. yd. banquette work and 10,000 cu.yd. topping, to G. L. Williams, Exch. Bldg., Memphis, Tenn., $0.38 per cu.yd. Noted Oct. 25.

Oil Well—Hammond, La.—Indian Bayou Oil & Gas Co., drilling oil well, 7 mi. from here, to F. Kyle, Shreveport, $25,000.

Dock—Bellaire, O.—Carnegie Steel Co., Carnegie Bldg., Pittsburgh, Pa., dock on Ohio River, here, to Dravo Contg. Co., Diamond Bldg., Pittsburgh, Pa. Engrs. est. $25,000.

Okla., Blanco — Pittsburgh Co., (McAlester) 140 ft. steel truss with concrete trestle approaches, 165 cu.yd. concrete, 3,800 cu.yd. earth approach and fill, to Campbell Bros., 1838 Walnut St., Kansas City, Mo., $28,635.

Golf Course—Yosemite Valley, Calif.—See "Buildings."

Gas Mains — Montreal, Que. — Montreal Light, Heat & Power Co., Craig St. W., will construct 15,721 ft. 4 and 6 in. c.i. gas mains in Chambord, Bourbonniere, Ducharme, Amherst, Bellechasse, Belanger, Lafontaine and St. Columbian Sts., Lasalle and Avenue Rds., 5th, Mariette, 10th, Stuart, Picton, Des Marchais and 2nd Aves., by day labor. $37,936. E. S. Stanton, supt. gas distribution.

Pier—Toronto, Ont.—R. C. Desrochers, secy. Dept. Pub. Wks., Ottawa, reconstructing eastern pier of Eastern Harbor, concrete pier on wood piles, to Port Arthur Constr. Co., 36 Toronto St., $48,000.

Materials and Equipment

PROPOSED WORK

Snow Loader, etc. — Hartford, Conn. — Street Dept., Municipal Bldg., plans to purchase snow loader, similar to Barber-Greene type, $6,000; set of bucket loaders to be attached to various equipments, $2,000; catch basin cleaner; scarifier road roller.

Road Working Tools—Brooksville, Fla.—Hernando Co. plans election to vote on $15,000 bonds for road working tools.

Road Machinery—Wisconsin—Following are county appropriations for road machinery during 1924. Vernon Co. $7,000 incl. crushing outfit, graders, etc., A. Ristow, Viroqua, comr.; Pierce Co. $20,000 incl. tractor, grader and 2 trucks, C. F. Kenall, Ellsworth, comr.; Kenosha Co. $15,000 incl. 2 trucks, three 3 way drags, one stone crusher, small clam loader, J. F. Herzog, Kenosha, comr.; Shawano Co. $20,000 incl. stone crusher, screening plant and 2 trucks, W. F. Meyer, Shawano, comr.; Green Lake Co. $5,000, D. C. Williams, Green Lake, comr.; Richland Co. $14,000 incl. belt conveyor, 2 trucks, 1 tractor, 8 patrol graders, 12 drags, 1 small air compressor, A. V. Robinson, Richland Center, comr.; Lafayette Co. $11,000, G. H. Priestley, Darlington, comr.; Crawford Co. $8,000, J. N. Campbell, Bell Center, comr.; Winnebago Co. $7,500 incl. truck and tractor, etc., J. Binning, Oshkosh, comr.; Waushara Co. $6,000 incl. gravel crushing machinery, graders, drags, etc., F. Grimm, Wautoma, comr.; Dunn Co. $9,000 incl. patrol graders, F. Stewart, Menomonie, comr.; Pepin Co. $4,000, G. Goss, Durand, comr.; Adams Co. $4,000, J. A. McGregor, Friendship, comr.; Price Co. $14,400 incl. crusher and patrol graders, B. M. Griffin, Phillips, comr.; Oconto Co. $5,000 road machinery, $8,000 crushing plant and $5,000 machine shop, E. W. McAllister, Oconto, comr.; Walworth Co. $5,000, H. J. Peters, Elkhorn, comr.; Marathon Co. $14,000 incl. 12 ft. grader, patrol graders, gravel crusher and screening plant, H. J. Vogt, Wausau, comr.; Bayfield Co. $10,000, J. Friberg, Washburn, comr.; Taylor Co. $9,000, C. Kelnhofer, Medford, comr.; Marquette Co. $7,500 incl. crusher and truck, H. Schmitz, Montello, comr.; Grant Co. $10,000 incl. 15 patrol graders, 6 drags, 6 wheel scrapers, 6 slip scrapers, 6 plows, shop equipment and small tools, H. Mink, Lancaster, comr.; Calumet Co. $16,000 incl. patrol graders, etc., J. A. Gillis, Chilton, comr.; Iowa Co. $3,000, C. Wonn, Dodgeville, comr.; Jackson Co. $4,000 incl. 12 ft. grader, O. Overlien, Black River Falls, comr.; Marinette Co. $18,000, A. Eklund, Marinette, comr.; Chippewa Co. $12,000, P. O. Lodrantz, Chippewa Falls, comr.; Manitowoc Co. $25,000 incl. tractor, crusher, 3 patrol graders, one heavy grader, 5 wheelers and 1 patrol tractor, J. Connell, Manitowoc, comr.; Racine Co., 1 snow plow, W. A. Bechthold, Racine, comr.; Rock Co. $4,000, C. E. Moore, Janesville, comr.

Water Pipe—Eureka, Calif.—See "Waterworks."

Sand and Gravel Plant Equipment — Fresno, Calif.—See "Industrial Works."

Asphalt, Cement, etc.—London, Ont.—W. A. Near, city engr., soon takes bids for 1924 supplies, incl. asphalt, cement, broken stone, c. i. castings, road oil and general supplies.

BIDS DESIRED

Cement—Brooklyn, N. Y.—Dec. 12, by E. Riegelmann, boro pres., Boro Hall, 3,000 bbl. Portland cement.

Dump Cars—Bluefield, W. Va.—H. M. Waugh, in market for ten 12 cu.yd. dump cars.

Graders, etc.—Georgia—Dec. 14, by W. R. Neel, engr., State Hy. Dept., at East Point, twenty-eight 8 ft., nine 10 ft. and six 12 ft. road graders, equal to Adams, Russell, Stockland or better; forty-four 1 ton trucks with gravity dump bodies, equal to Ford 1 ton trucks equipped with Perry-Mattin dump bodies or better, 20 back slopers for 10 ft. graders, 15 back slopers for 12 ft. graders and 16 scarifier attachments for 12 ft. graders, equal to Adams, Russell, Stockland or better; twenty-five 2 ton tractors equal to Holt T-35 or better; twenty 5 ton tractors, equal to Bert. Hult or better; sixty 7 ft. three blade road drags, equal to Adams, Russell or better; twenty complete circles with blade for maintainors, equal to Adams, Russell or better. Give prices f.o.b. Atlanta, Macon, Augusta, Albany, Savannah and Waycross.

Steam Shovel—Gadsden, Ala.—Comrs. Etowah Co. in market for steam shovel.

Steam Shovel—Columbus, O.—Yale Ave. Constr. Co., 146 Yale Ave., in market for one 2½ cu.yd. steam shovel and hoisting equipment. L. Gentile, mgr.

Steam Shovel—New London, O.—E. Biglow Co., in market for 1 steam shovel about 2½ tons capacity.

Crane—Detroit, Mich.—G. J. Finn, comr. Purchases & Supplies, 700 Marquette Bldg., taking bids one 20 ton steam locomotive crane, for Bd. Water Comrs., East Jefferson St.

Posts—Springfield, Ill.—Dec. 10, by Dept. Pub. Wks. and Buildings, Div. Purchases and Supplies, Springfield, 4,825 creosoted Y. P. posts.

Dump Cars, etc.—St. Paul, Minn.—Dec. 11, by H. W. Austin, city purch. agt., 10 steel dump cars, one thousand six hundred and eighty 15 ft. steel tracks, one 4 ton gasoline locomotive, 2 complete turnouts, 2 right hand and 2 left hand switches, 40 tons ferrous sulphate. G. M. Shepard, city engr.

Concrete Mixer—Independence, Kan.—A. G. Sherwood, in market for concrete mixer and grader for road work.

Tractors, etc.—Texas—Dec. 29, by State Hy. Dept., c/o J. W. Francis, equipment engr., Austin, forty 10 ton, thirty 5 ton and two hundred 2 ton tractors; three hundred 3 ton, twenty-five 3 ton, and two hundred seventy-five 1 ton trucks; fifty 4 wheel and twenty-five 2 wheel trailers; 10 water wagons; two hundred one man maintainers with engines; 25 pavement heaters, 25 large and 25 small asphalt heaters; forty 12 ft. graders with back sloper and scarifiers, twenty 10 ft. and two hundred 7 ft. graders with black sloper and extension blade; five hundred 4 ft. fresnos; five hundred 3½ ft. drag slips. State will take over maintenance of all designated State Highways on January 1 and above will be used for that purpose.

Grader—Dallas, Tex.—Dec. 17, by Comrs. Dallas Co., one or more 12 ft. graders with back slope attachments, leaning wheel or extension axle, engine hitch, for Rd. Dist. 1. Nagle Witt & Rollins, Court House, co. engrs.

Shell—Houston, Tex.—Dec. 17, by Comrs. Harris Co., 10,000 cu.yd. shell for road construction. $75,000. Howe & Wise, co. engrs.

Steam Shovel—San Antonio, Tex.—Street Dept. taking bids steam shovel. D. D. Harrigan, city engr.

Insulators—San Francisco, Calif.—See "Waterworks."

Cletrac—San Jose, Calif.—Supervs. Santa Clara Co., receiving bids 1 Cletrac, equipped for road use, f.o.b. Gilroy, for Rd. Dist. 1.

Ties—Montreal, Que.—Canadian Pacific Ry., Windsor St. Sta., taking bids 6,000,000 ties. $4,000,000. T. Walklate, genl. tie agt.

CONTRACTS AWARDED

Structural Steel—Louisville, Ky.—Louisville & Nashville R.R. Co., 10th and Bway., steel for bridge work, 800 tons to Virginia Bridge & Iron Co., Roanoke, Va., 300 tons to Amer. Bridge Co., Ambridge, Pa., 150 tons to Louisville Bridge & Iron Co., 11th and Oldham Sts., Louisville, Ky.

CONSTRUCTION NEWS

Engineering News-Record, December 13, 1923

The Construction Barometer

Estimated Value of 1923 Contracts Exceeds Five Billion

THE total value of contracts awarded on large engineering construction projects in the United States, as published in *Engineering News-Record,* reached $1,807,040,000 for the eleven months of 1923. Contracts for the first week in December amounted to $31,102,000. An estimated total for December, 1923, would therefore exceed $124,000,000. The estimated yearly total will probably reach $1,931,448,000 for large projects above the *E. N.-R.* minimum in each class of construction. All construction, exclusive of residential, will probably exceed $3,862,000,000. Residential building alone amounted to $1,587,785,400, according to F. W. Dodge figures for the eleven months of the current year. An estimated total of residential construction would therefore amount to over $1,700,000,000 for the year 1923. This amount, added to the $3,862,000,000 non-residential construction, would make a grand total of about $5,600,000,000 for all classes of construction for the entire year, or an increase of about 25 per cent above the total for 1922.

OFFICIAL PROPOSALS

Bids: Dec. 19.

DELAWARE RIVER BRIDGE
CONTRACTS NO. 9 AND 10

Demolition

Philadelphia, Pa.

Sealed proposals for the demolition and removal of the properties on the sites of the Philadelphia and Camden approaches of the bridge over the Delaware River connecting the City of Philadelphia, Pa., and the City of Camden, N. J., will be received by the Delaware River Bridge Joint Commission at Room 806, Widener Building, Philadelphia, Pa., until 2:30 o'clock p.m., December 19, 1923, when they will be publicly opened and read. The contracts will be awarded, or all bids rejected, within fourteen days after bids are opened. The right is reserved to reject any or all bids.

Separate bids are asked on each of five sections of the Philadelphia approach and each of four sections of the Camden approach. The work includes demolition and removal of structures, and certain other work incidental thereto.

Bids must be made upon the blank proposal forms, which, together with specifications, bond and contract form, and contract drawings, may be obtained at the office of the Joint Commission, upon deposit of $10.00, which deposit will be refunded upon receipt of bid or upon the return in good condition of the copies so taken.

Each proposal must be accompanied by a certified check for Three Thousand Dollars, drawn upon a national or state bank or trust company having an office either in Philadelphia or Camden, and payable to the Delaware River Bridge Joint Commission, and surety's consent must be shown. The bidder or bidders to whom the contract for each section is awarded will be required to given bond in the sum of fifty per cent of the amount of such contract, but not less than $25,000.

Delaware River Bridge Joint Commission.
GIFFORD PINCHOT,
Chairman.
JOSEPH K. COSTELLO,
Secretary.

Bids: Dec. 19.

Watchman's Signal System

Central Islip, N. Y.

Sealed proposals for Watchman's Signal System, at the Central Islip State Hospital, Central Islip, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock p.m. Wednesday, December 19th, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4164. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Central Islip State Hospital, Central Islip, N. Y.; at the New York Office of the Department of Architecture, 18th Floor Fuller Building, Broadway & 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: November 21, 1923.

Bids: Dec. 28.

State Highway Work

Richmond, Va.
December 7, 1923.

Sealed bids will be received at the office of the State Hwy. Dept., 413 N. 10th St., Richmond, until 10:30 a.m., Friday, Dec. 28, 1923, for the construction of:

1. PROJ. S-146C RT 10 Radford—Three Miles East Montg'ry Co. 3 mi. 18' 8" Bit. Mac. Road. Approx. 3,000 cu.yd. Exc. 1,376 cu.yd. Borrow Exc.
2. PROJ. S-279 RT 27 Great Bridge—N. C. State Line Norfolk Co. 12.6 mi. 18' Conc. Road. Approx. 12 A Clearing, 29,860 cu.yd. Exc., 35,800 cu.yd. borrow, 1,856 lin. ft. pipe, 380 cu.yd. "A" Conc., 207 cu.yd. "B" Conc., 22,605 lbs. reinf. steel, 3,840 lin.ft. Wood Gd. Rail.
3. PROJ. S-293-C RT 23 Newport — Hoges Store Giles Co. 1.61 mi. 24-26 ft. Grading and Dr. Approx. 13,913 cu.yd. Exc., 392 lin.ft. pipe, 70 cu.yd. "A" Conc., 120 cu.yd. "B" Conc., 8,000 lbs. reinf. steel, 604 lin.ft. Wood Gd. Rail.
4. PROJ. F-295-C RT 39 Richmond — Seven Pines Henrico Co. 5.18 mi. 18' Conc. Road. Alt. bids using 4" Gravel. Subbase, 4" Bit. Conc. coarse agg. type base, 2" Sheet Aspht. Top without binder course. Approx. 2 Ac. Clearing, 10,026 cu.yd. Exc., 5,946 cu.yd. Borrow, 682 lin.ft. pipe, 27 cu. yd. "B" Conc.
5. PROJ. S-322 RT 393 Bottoms Bridge —New Kent C. H. New Kent Co. 13.0 mi. Gravel, 38 Ac. Clearing, 92,950 cu.yd. Exc., 4,368 cu.yd. Borrow, 2,576 lin.ft. pipe, 243 cu.yds. "A" conc., 191.2 cu.yd. "B" conc., 17,426 lbs. reinf. steel, 2,120 lin.ft. wood gd. rail. Right is reserved to cut off surface if gravel is not available.

Proposal guaranties to be $500 for bids less than $100,000 and $1,000 for bids over $100,000.

Plans and specifications are on file at the office of the State Hwy. Dept., Richmond, and the following Dist. Engr's Offices: Proj. S146C Salem, S279 Suffolk, F295C and S322 Richmond, S293 Salem.

Additional plans for bidders on the above projects may be obtained upon application to State Hwy. Dept., with check for $5.00 payable to H. G. Shirley, $2.50 will be returned if plans are returned in two weeks after bids are opened.

Engineers will be at the following places to show bidders over work: S146C N&W Station. Radford 11 a.m. Wed., Dec. 19, S279 Lorraine Hotel, Norfolk, 10:30 a.m. Tues., Dec. 18, S293 N&W Station, Pembroke, 10 a.m. Dec. 21, F295C & S322 Dist. Engrs. Office, Richmond, 10 a.m. Fri., Dec. 14.

State Highway Commission reserves right to reject any or all bids.

H. G. SHIRLEY,
Chairman.

C. S. MULLEN,
Acting Commissioner.

Bids: April 30, 1924.

Arapuni Power Scheme

NEW ZEALAND
SECTION 1, HEADWORKS

Wellington, New Zealand.

The time for the receipt of tenders for the above contract is hereby extended until the 30th April, 1924. (Advertised May 24 and August 16.)

Bids: April 30, 1924.

Arapuni Electric Power Scheme

SECTION 2—POWERHOUSE & PLANT

Wellington, New Zealand.

Tenders for the above close with the Secretary, Public Works Tenders Board, Wellington, New Zealand, at noon on 30th April, 1924. Specifications may be seen on application at the New York, Cleveland, Chicago and San Francisco Offices of "Engineering News-Record" and "Electrical World."

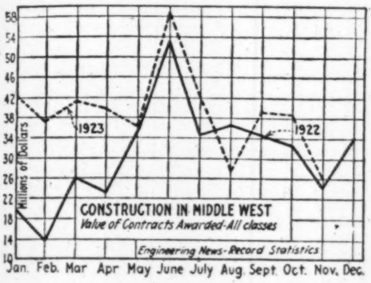
CONSTRUCTION NEWS

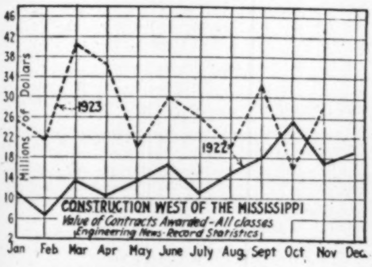
Engineering News-Record, December 20, 1923

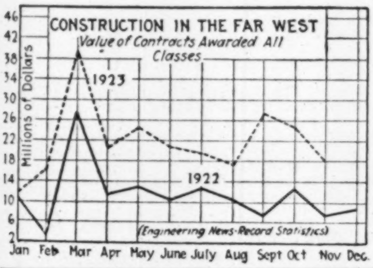
The Construction Barometer

Favorable Weather Stimulates Building in Northeastern States—Contracts Gain West of Mississippi—Other Industries Slow

FAVORABLE weather conditions throughout the country have greatly stimulated construction, particularly in New England and the Middle Atlantic states. During November, however, the group of states immediately west of the Mississippi, was the only one to show a gain in value of contracts let. While the grand total of December awards, for the entire nation, will probably show a slight seasonal drop from the month preceding, that section of the country embracing the eleven Northeastern states, will undoubtedly register a gain over the November total. This marked activity in winter construction will serve to offset the seasonal slowdown now evident in general industrial operations.







Engineering News-Record Statistics

VALUE OF LARGE CONTRACTS LET IN THE UNITED STATES

Week Ended	Public Work	Private Work	Total Contracts

Waterworks

PROPOSED WORK

Fla., Fort Myers—Dec. 28 to vote on $80,000 bond issue for mains. F. E. Smith, clk.

Tenn., Union City—Soon takes bids improving water system, sewers and light plant $125,000. Noted Nov. 29.

O., Ashtabula—Ashtabula Water Co., had sketches made extending filter plant. $150,000. J. N. Chester, Engineers, Union Bank Bldg., Pittsburgh, engrs. Noted July 26.

Proposals will appear next week as usual.

Wis., Oconomowoc—Making plans 300,000 gal. steel tank, incl. approximately 1,700 ft. 12 in. Class C pipe. J. A. Stemper, City Hall, engr.

Kan., Russell—City voted $95,000 bond issue for improvements and extension to water works system. Noted Nov. 22.

Neb., Kearney—Election in January to vote on $132,800 bonds for waterworks improvements. Burns & McDonnell Eng. Co., 402 Interstate Bldg., Kansas City, Mo., engrs. Noted Aug. 26.

Neb., University Place (Lincoln P. O.)—Defeated $100,000 bonds for waterworks improvements. Fulton & Letton, Bankers Life Bldg., Lincoln, engrs. Noted Nov. 22.

Mont., Missoula—Apr. 2 to vote on $950,000 bonds for new water supply and distribution system. Burns & McDonnell Eng. Co., 404 Marsh-Strong Bldg., Los Angeles, Calif., engrs. Noted Nov. 15.

Mo., Palmyra—Voted $15,000 bonds water tower. Noted Nov. 1.

Mo., Piedmont—Dec. 22 to vote on $40,000 bonds water works and distribution system. Defeated at previous election by slight margin. W. A. Fuller Co., 1917 Ry. Exch. Bldg., St. Louis, engrs. Noted Nov. 8.

Mo., Thayer—Defeated $50,000 bonds waterworks. At election held several weeks ago proposition carried but opponents successfully opposed legality of election and new vote was ordered. Noted Oct. 18.

Tex., Cisco—W. B. Statham, city secy., takes bids latter part of month 650 ft. 14 in. Bell and Spigot c.i. pipe, 16,500 ft. 14 in. Class B and 500 ft. 14 in. Class C pipe, 2 tons special castings, miscellaneous valves, etc. Alternates on Universal and concrete pipe. Elrod Eng. Co., 3206 Elm St., Dallas, engrs.

Tex., Lamesa—Having plans prepared complete waterworks system. $40,000. Elrod Eng. Co., 3206 Elm St., Dallas, engrs.

Waterworks (Continued)

Tex., Malone—City voted $40,000 bonds complete water system. Elrod Eng. Co., 3206 Elm St., Dallas, engrs. Noted Nov. 29.

Tex., Mart—Jan. 28, to vote on $150,000 bonds reservoir and new mains with pumps. Koch & Fowler, Central Bank Bldg., Dallas, engrs.

Okla., Altus—Surveys being made enlarging and raising dam and spillway at Bitter Creek. $27,000. C. Reid, city engr.

Okla., Carter—Surveys being made for new waterworks system, well, elevated tank, and distribution fittings. $28,000. V. V. Long & Co., 1300 Colcord Bldg., Oklahoma City, engrs.

Okla., Okmulgee—Election in January to vote on $3,700,000 bonds for 45 mi. pipe line, 2 pumping stations, 10 m.g. reservoir and distribution system, Burns & McDonnell Eng. Co., 402 Interstate Bldg., Kansas City, Mo., engrs.

Okla., Stillwater — Preliminary plans in progress waterworks extensions and dam. V. V. Long & Co., 1300 Colcord Bldg., Oklahoma City, engrs. Noted July 26.

Wash., Wapato—City Council making plans and takes bids about Jan. 5, replacing wooden mains with 18,000 ft. 4, 8 and 10 in. c.i. mains.

Calif., Oakland—City plans 240 fire hydrants and 6, 8, 12, 20 and 24 in. mains, East Bay Water Co., 512 16th St., will install mains, city to pay 8% of cost to company each year. $615,000.

Calif., Orange—Plans to vote on bonds for purchasing two 1,000 gal. pumps, 10,000 ft. c.i. water pipe and hydrants, also $40,000 bonds for 1 m.g. reservoir.

Ont., Port Elgin—Plans to install electricity driven auxiliary waterworks pumps. $25,000. A. McClaren, chn. com.

BIDS DESIRED

N. Y., Brooklyn—Dec. 24, by N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., New York, mains in Bedford, Livonia and Morgan Aves. etc., here.

Md., Baltimore—Dec. 26, by Bd. Awards, 400,000 lb. pig lead for water dept. V. B. Siems, City Hall, water engr.

Miss., Belzoni—Jan. 10, concrete reservoir, concrete foundation for building and machinery, coal conveying machinery, two 500 g.p.m. motor driven centrifugal pumps, one 500 g.p.m. synchronous motor driven pump, one 1,000 g.p.m. motor driven fire pump, one 1,000 g.p.m. steam fire pump, 2 turbine driven centrifugal boiler feed pumps, 1 steam boiler feed pump, two 350-400 brake-hp. full diesel oil engines with generators, 1 building for either oil or steam plant, etc. J. J. Sisloff, supt. water and light plant.

O., Columbus—Dec. 28, by Franklin Co. 2,005 ft. 6 in. c.i. mains and 1,050 ft. ¾ in. extra strong lead pipe in Sewer Dist. Clinton 2, Contr. 32 $6,000, 6,365 ft. 6 and 10 in. c.i. mains in Sewer Dist. Clinton 2, Contr. 27, $14,000; 4,446 ft. 8 in. vitr. sewer in Sewer Dist. Clinton 2, Contr. 31, $10,000.

Ind., South Bend—Jan. 16, by Bd. Pub. Wks., City Hall, reserve pumping unit. $30,000. J. W. Joyne, engr.; adv. E. N.-R. Dec. 20.

Ia., Ames—Jan. 7, constructing 18 in. well, 100 ft. deep, and installing pumping equipment. A. B. Maxwell, clk.

Mo., Holden—Dec. 18, by E. E. Harper, engr., 3031 Park Ave., Kansas City, waterworks improvements, incl. filter house, small pump house, extending and increasing height of dam, chlorine equipment, 100,000 gal. tank on 120 ft. tower, 4,250 g.p.m. centrifugal pumps, valves, hydrants, etc., here. Noted Oct. 4.

Mo., St. James—Jan. 10, by W. H. Powell, mayor, waterworks improvements consisting of 75,000 gal. tank on 125 ft. tower, deep well and 100 g.p.m. deep well pump, etc. $33,000, also sewer lines and septic tank, $12,000. Alexander Eng. Co., Springfield, engrs. Noted Aug. 23.

Okla., Oklahoma City—Jan. 15, by M. Pershek, Jr., city clk., improving water supply; adv. E. N.-R. Dec. 20.

Calif., Burbank—Jan. 8, by F. S. Webster, city clk., 1 deep well centrifugal or turbine pump, 1,350 g.p.m. capacity, also drilling 16 in. well between 150 and 200 ft. deep, using No. 12-guage well casing.

Ont., Ford City—Dec. 27, by R. B. Braid, secy. Essex Border Utilities Comn., Heintzman Bldg., Windsor, water purification plant here incl. rein.-con. filters, coagulating basins, pure water reservoir, office building, etc., supplying 42 in. steel pipe, c.i. pipe and specials, valves and sluice gates, rate controllers and operating tables. Core, Nasmith & Storrie, 625 Confederation Life Bldg., Toronto, engrs.

BIDS RECEIVED

N. Y., Buffalo—Commissioner Pub. Wks., Municipal Bldg., standard and special 10, 12, 16 and 24 in. c.i. pipe castings for Buffalo Filter Plant, Contr. 11, from Fillmore Ave. Fdry. & Iron Wks., Inc., 153 Fillmore Ave., Schedule A $2,972, Schedule B $3,406, other items $2,826, total for entire work $9,204; Bowler Fdry. Co., 1688 Columbus Rd., Cleveland, O., Schedule A $143. per ton, Schedule B $124, 40 flanged ells, etc. $158; R. D. Wood & Co., 400 Chestnut St., Phila., material in lists A and B at an average price of $0.085 per lb., f.o.b. foundry with freight allowed to Buffalo; U. S. Cast Iron Pipe & Fdry. Co., 957 East Ferry St., Item 1 AQ $0.055 per lb., Item 2 AP $0.055 per lb. Item 3 AO $0.04 per lb., Item 4 AN $0.055 per lb., Item 5 AM $59.80 per net ton, Item 6 AL $0.055 per lb., Item 7 AK $0.055 per lb., Item 8 AJ $0.07 per lb., Item 9 AH $59.80 net ton, Item 10 AG $0.055 per lb., Item 11 AF $0.06 per lb., Item 11 AF $0.06 per lb., Item 12 AE $0.055 per lb., Item 13 AB $0.055 per lb., Item 14 AA $0.055 per lb., Special Items forty 24 in. flanged ¼ bends $0.075 per lb. Noted Nov. 29.

Ill., Villa Grove—Pumping station and equipment incl. 20 hp. electric motor and deep well pump, from Meister Bros., Tuscola, $15,391.

Minn., Minneapolis — F. S. Gram, city purch. agt., Dec. 5, bell and spigot c.i. pipe, from Amer. Cast Iron Pipe Co., Acipco St., Birmingham, Ala., 50,000 lin.ft. 6 in. Class C, 16 ft. lengths, $0.995, 12,000 lin.ft. 8 in., Class C, 16 ft. lengths, $1.445, 6,000 lin.ft. 12 in. Class B, 12 ft. lengths, $2.285, 1,400 lin.ft. 16 in., Clas C $3.48 per ft. Noted Nov. 29.

Minn., St. Paul—H. W. Austin, city purch. agt., Dec. 4, furnishing and delivering 88,440 lin.ft. Class B. c.i. pipe in 12 ft. lengths about 2,925 tons, from Natl. Cast Iron Pipe Co., Tarrant City, Birmingham, Ala., 6, 8 and 12 in. $55.66 per ton, Glamorgan Pipe & Fdry. Co., The Rookery, Chicago, 16 and 20 in. $55.55 per ton, 19 tons c.i. water specials from Hammond-Byrd Iron Co., American Trust Bldg., Birmingham, Ala., $2,406. Noted Nov. 29.

Wash., Seattle—Bd. Pub. Wks., constructing Lake Youngs reservoir project, incl. intake, outlet conduit controlling works and pipe lines, from Jahn & Bressi, New York Bldg., $1,210,759; Goetz & Brennan, Seaboard Bldg., $1,226,471. Engrs. est. $1,200,000. Noted Nov. 15.

Wash., Seattle—Bd. Pub. Wks., Dec. 7, installing mains in East Northlake Ave., et al., from R. G. Stevenson, 1327 North 34th St., 3,055 ft. 12 in. pipe $4, 1,575 ft. 8 in. $2.25, total $19,898. Engrs. est. $21,526.

CONTRACTS AWARDED

N. Y., Brooklyn — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., New York, mains in Aves. N and O, etc., to Grippo Contg. Co., 85 Webster Ave., Long Island City, $16,800. Noted Nov. 29.

N. Y., New York — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., mains in Bayview, Griswold Aves., etc., to Melrose Constr. Co., 103 East 125th St., $15,500. Noted Nov. 15.

N. J., Clifton—Passaic Valley Sewerage Comrs., 900 Chamber of Commerce Bldg., 24 Branford Pl., Newark, pumping machinery and equipment for Yantacaw Pumping Station, here, to Turbine Equipment Co., 30 Church St., New York City, $27,775. Noted Nov. 29.

O., Cleveland—For 30 in. and 24 in. c.i. mains in Woodhill Rd., Contr. 32, Sects. N and S, to Winterbottom-Connelly Co., 2997 Meadowbrook Blvd., Cleveland Heights, $126,690 and $117,645 respectively. Noted Nov. 29.

O., Toledo—Director Pub. Serv. synchronous motor driven centrifugal pump, 35 m.g. capacity, to Dravo-Doyle Co., Diamond Bldg., Pittsburgh, $26,000. Noted Nov. 22.

Kan., Lenora—Constructing Waterworks system, incl. 2,600 lin.ft. 6 in. and 13,100 lin.ft. 4 in. Class B c.i. pipe in place, 2,400 lin.ft. galvanized pipe in place, 50,000 gal. tank on 80 ft. tower with 36 in. steel riser pipe erected, etc., to Burt & Tripp, Hutchinson, $25,729. Noted Oct. 11.

Minn., St. Paul—H. W. Austin, city purch. agt., 72 tons steel reinforcing bars to Kalman Steel Co., 514 Merchants Natl. Bank Bldg., $5,000; 40 tons pig lead in 100 lb. pigs, to Nassau Smelting & Refining Co., Oppenheim Bldg., $5,560; 6 sluice gates, gate stands and 1 electric motor operating device, to Michigan Valve & Fdry. Co., Amer. Trust Bldg., Detroit, Mich., $8,614; three thousand ¾ in. corporation cocks, three thousand ¾ in. inverted key curb stops and five hundred ¾ in. tail pieces, to Union Brass & Metal Mfg. Co., Lawson and Mackubin Sts., $3,390; three hundred 1 in.; one hundred 1½ in. and fifty 2 in. tail pieces, to H. Mueller Mfg. Co., 512 West Cerro Gordo St., Decatur, Ill., $2,354; 1,030 lin.ft. 36 in. concrete pipe to Massey Concrete Products Corp., 817 Merchants Natl. Bank Bldg., $4,944; 3,580 disc type cold water meters, to Badger Meter Co., 30th and Meinecke Aves., Milwaukee, Wis., $29,455. Noted Nov. 15 and Nov. 22.

Mo., Greenfield—See "Sewers."

Tex., Dallas — W. W. Samuels, Medical Arts Bldg., 1¼ mi. mains in Kessler Highlands, to J. D. Winslett, 4902 Eastside St., $15,000.

Wash., Bellingham—Furnishing 520 tons 4-12 in. De Lavaud centrifugally c.i. pipe, to U. S. Cast Iron Pipe & Fdry. Co., Colman Bldg., Seattle, $29,904. Noted Nov. 1.

Sewers

PROPOSED WORK

Conn., Manchester — Selectmen appropriated $50,000 for storm water sewers.

N. Y., Albany — Takes bids in January 2,200 ft. sewer in Russell Rd. to drain area near 17th Ward School, $50,000; 3,000 ft. sewer in Manning Blvd., $65,000. J. G. Brennan, City Hall, engr.

N. Y., Rensselaer—Takes bids Jan. 5, 4,000 ft. sewer in Forbes Ave. east from 9th St. $42,000. A. J. Kaufman, City Hall, engr.

Fla., Fort Myers—Dec. 28 to vote on $75,000 bonds for sanitary sewers and $70,000 for storm sewers.

Tenn., McKenzie—Soon takes bids general sewerage system. $86,000 bonds sold. H. C. Bryant, city clk.

O., Kenmore—R. E. Garvin, engr., Davis & Farley Bldg., Cleveland, submitted preliminary report for disposal plant, here. $300,000. Noted Oct. 4.

Wis., Oshkosh—Making plans vitr. clay sanitary sewers in Jefferson, Sawyer, 9th and Osborn Aves., Beach, Cedar, Maple, Arizona, Michigan and Walter Sts., also miscellaneous cross sewers. $25,000. G. Randall, City Hall, engr.

Minn., Rochester—Defeated $300,000 bond issue for sewage disposal plant. Rubling, Holdsworth & Hudson, Rochester, engrs. Noted Nov. 2, 1922.

Kan., Salina—Election about Feb. 1 to vote on $225,000 bonds for disposal plant. C. A. Haskins, 517 Finance Bldg., Kansas City, Mo., engrs.

Neb., Kearney—Election in January to vote on $165,000 bonds for storm sewers. Burns & McDonnell Eng. Co., 402 Interstate Bldg., Kansas City, Mo., engrs.

Mo., Norborne—See "Waterworks."

Mo., St. James—See "Waterworks."

Calif., Elsinore—Election soon to vote on $28,000 bonds sewer improvements. Burns & McDonnell Eng. Co., 415 Marsh-Strong Bldg., Los Angeles, engrs.

Ont., Windsor—Plans extending sewers. $50,000.

BIDS DESIRED

Mass., Boston — Dec. 20, at office of Metropolitan Dist. Comn., 1 Ashburton Pl., constructing Sect. 72, New Mystic Sewer, North Metropolitan System, in Winchester and Woburn, 2,362 lin.ft. earth excav. and refilling in trench for 30 x 31 in. concrete sewer, 1,114 lin.ft. earth excav. and refilling in trench and laying pipe for 20 in. Akron pipe sewer, 40 cu.yd. brick masonry in manholes and special structures, portland cement mortar, etc. G. L. Rogers, secy.

N. Y., Buffalo—Dec. 27, by Commissioner Pub. Wks., Municipal Bldg., 4,700 ft. 10-24 in. tile sewers in Taunton Pl., Brunswick Blvd., Houston St., Elmwood and Roland Aves. $25,000. C. E. P. Babcock, Municipal Bldg., engr.

N. Y., Long Island City—Dec. 22, by M. E. Connolly, pres. Queens Boro, Queens Subway Bldg., reconstructing outlet sewer in lines of 43rd and 51st Sts. and in Flushing Bay, etc.

N. J., Long Branch—Jan. 2, by Bd. City Comrs. sewerage system together with pumping station. J. W. Seaman, city engr.; adv. E. N.-R. Dec. 20.

Md., Baltimore—Dec. 26, by Bd. Awards 4,200 ft. of 8-27 in. sanitary sewers, Dist. 24-B Trunk Sewer, Sanitary Contr. 208, $85,000; 6,400 ft. 8-48 in. sanitary and storm drains in Dist. 50 and G-11, Storm Water Contr. 63, $70,000. B. L. Crozier, highways engr.

O., Columbus—See "Waterworks."

Minn., St. Paul—Dec. 26, by H. W. Austin, city purchasing agt., sewer junction between old and new sewer tunnels and lining 500 ft. new tunnel. $35,000. G. M. Shepherd, city engr.

Mo., Farmington—Dec. 20, by S. F. Iseman, city clk., City Hall, 62,862 lin.ft. 8-15 in. vitr. clay, and 360 lin.ft. 8-15 in. c.i. sewers, disposal plants, 63,567 lin.ft. 0-24 ft. trench and backfill, etc. $85,000. C. A. Haskins, 517 Finance Bldg., Kansas City, engr. Noted Nov. 15.

Sewers (Continued)

Mo., Maplewood (St. Louis P. O.)—Dec. 26, by G. D. Komar, city clk., City Hall, 9,800 ft. 8-36 in. vitr. clay and 200 ft. 42 in. segmental block sewer in Laclede Rd. Dist. Sewer 1. $90,000. A. H. Beard, 616 Title Guaranty Bldg., St. Louis, engr.

Calif., Los Angeles—Bd. Pub. Wks. taking bids Sect. 4 north outfall sewer, 11,487 lin.ft. monolithic concrete sewer, 10 ft. high, 12 ft. wide, laid in open trench, 15 in. walls, vitr. clay block lining. Former bids rejected. Noted Dec. 13.

Calif., Newport Beach—Dec. 24, by City Council, cement concrete sanitary sewers, flush tanks, pumping stations, septic tank on Balboa Island, Municipal Impvt. Dist. No. 3. To exceed $100,000. P. E. Kressly, H. W. Hellman Bldg., Los Angeles, engr.

Calif., Torrance—M. C. Halsey, engr., 661 Pacific Electric Bldg., Los Angeles, receiving bids 1,200 ft. 24 in., 1,200 ft. 8 in. and 1,200 ft. 6 in. vitr. or cement sewer pipe, here, for Pacific Electric Ry. Co., Pacific Electric Bldg., Los Angeles.

Concrete Wall—Hartford, Conn.—South School Dist., underpinning school wall, concrete, to Foundation Co., 120 Liberty St., New York City. Engrs. est. $25,000.

Heating, Ventilating, Plumbing, etc. — Phila., Pa.—F. H. Caven, dir. Pub. Wks., 216 City Hall, and Bd. Trustees Free Library of Phila., heating and ventilating system for free library, Vine, 20th, Wood and 19th Sts., to J. Cooney, 210 North 4th St., Harrison, N. J., $397,500; plumbing, etc., to W. G. Cornell Co., Colonial Trust Bldg., $236,000. Noted Nov. 29.

Culverts, etc.—Clearwater, Fla.—Pinellas Co. concrete culverts, fills, bulk heading, etc., on various roads, to Latham & Ward, Dade City, $62,440.

White Way — Chattanooga, Tenn. — Bd. Comrs., "White Way" system on Main St., to Tennessee Electric Power Co., Chattanooga. Est. cost to exceed $25,000. Noted Nov. 22.

Foundation—Louisville, Ky.—See "Proposed Work Under Buildings."

Track Elevation—Cleveland, O.—Cleveland Electric Illuminating Co., c/o R. Lindsey, genl. mgr., Pub. Sq., elevating 350 ft. track, concrete piers, wood and steel platform, to S. W. Emerson Co., Union Bldg., $40,000.

Amusement Park—Houston, Tex.—Houston Amusement Park Co., 2200 Houston Ave., will construct walks, drives, riding devices, etc., by day labor. $100,000.

Concrete Tanks—San Antonio, Tex.—San Antonio Portland Cement Co., Lakeview Ave., 3 concrete stacks, 8 ft. 6 in. diameter at top, 201 ft. high, 213 ft. overall length, incl. 330 cu.yd. earth excav., 700 cu.yd. rein.-con., 50,000 fire brick, to J. De Puy, Bedell Bldg., $23,290. Noted Nov. 29.

Materials and Equipment

PROPOSED WORK

Road Machinery—Wisconsin—Following are county appropriations for road machinery during 1924: Kewaunee Co. $6,000, H. Griese, Algoma, comr.; Iron Co. $10,000 incl. tractor and snow plow, W. Webber, Saxon, comr.; Jefferson Co. $19,000 incl. tools and machine shop equipment, also 1 scarifier, R. D. Royce, Ft. Atkinson, comr.; Burnett Co. $2,000 incl. large tractor, grader and patrol graders, G. E. Miller, Webster, comr.; Rusk Co. $7,000, incl. 6 patrol graders, 10 or 15 ton tractor and four trucks, P. Koehler, Ladysmith, comr.; Portage Co. $35,000 incl. 2 stone crushers, 4 trucks, some graders, scrapers, etc. J. T. Henton, Portage, comr.; Ozaukee Co. $17,500 incl. small tools and snow removal machinery, W. J. Ubbink, Port Washington, comr.

Road Machinery—Wisconsin—Following are county appropriations for road machinery during 1924. Eau Claire Co. $25,000, incl. rock crusher, patrol graders, etc., G. Osborne, Eau Claire, comr.; Dodge Co. $5,000, E. T. Klug, Juneau, comr.; Langlade Co. $14,000, C. Olsen, Antigo, comr.; Dane Co. $15,000, incl. tractor and oiling equipment, J. R. Caldwell Madison, comr.; Buffalo Co. $3,000, incl. patrol graders, J. Reinhardt, Nelson, comr.

Crusher — Rush Tower, Mo. — Missouri Marble Quarries, Inc., St. Louis, plans to purchase crusher to handle waste and which also could be used for road building material. $75,000. G. J. Breaker, Boatmen's Bank Bldg., St. Louis, one of incorporators.

BIDS DESIRED

Tractors, etc.—Ballston Spa, N. Y.—Bd. Supervs. Saratoga Co. taking bids four 10 ton caterpillar type tractors, 1 Fordson type tractor, 4 rotary type snow plows and 1 plow. J. E. Hodgman, supt. highways.

Road Oil—Madison, Wis.—Dane Co. Bd., c/o J. R. Caldwell, comr., taking bids road oil for approximately 100 mi. gravel roads. $100,000 appropriated. Private plans.

Stone, etc.—Oshkosh, Wis.—Winnebago Co. Road & Bridge Comn., c/o W. H. Hoppe, secy., taking bids 16,000 cu.yd. crushed stone and 8,000 cu.yd. gravel, 40 tons ⅝ in. round steel, for road work next season.

Bridge Material—Allison, Ia.—Dec. 26, by Auditor Butler Co., furnishing 3 cars 2 in. oak bridge flooring and 6 cars No. 1, rough fir bridge plank.

Lumber — Indianola, Ia. — Dec. 28, by Auditor Warren Co., 5,420 ft. piling, 203,000 ft. fir bridge lumber and 110 posts. R. E. Boyle, co. engr.

Lumber—Montezuma, Ia.—Dec. 26, by Auditor Poweshiek Co., 180,290 ft. fir lumber. C. E. Olson, co. engr.

Reinforcing Steel Rods, etc.—St. Paul, Minn.—Dec. 26, by H. W. Austin, city purch. agt., 418 tons reinforcing steel rods; 10,000-gal. tank car of low test gasoline. G. M. Shepard, city engr.

Grader—Marlin, Tex.—Auditor of Falls Co. taking bids 7 ft. road grader.

Valves and Connections—San Francisco, Calif.—Jan. 9, by Bd. Pub. Wks., 3 Butterfly valves, each 104 in. inside diam., 1 c.i. blind flange for one side of valve, 1 steel platform extending over valves, and all operating mechanism for all valves, bypass valves and connections, all bolts and gaskets for joints and bolts for foundation and platform. Will be used in connection with Hetch Hetchy Moccasin Creek Power plant. $40,000. M. M. O'Shaughnessy, city engr.

BIDS RECEIVED

Cement — Brooklyn, N. Y. — E. Riegelmann, boro pres., Boro Hall, Dec. 12, 3,000 bbl. portland cement, from E. E. Buhler Co., 103 Park Ave., New York, $8,370. Noted Dec. 6.

CONTRACTS AWARDED

Steel—Greenville, Miss.—Furnishing steel for bridge, 60 ft. span, 18 ft. roadway, structural and reinforcing steel, to Lukens Steel Co., 626 South Peters St., New Orleans, La., $49,930.

Wire and Cables—Austin, Minn.—City, 124,500 lin.ft. 0-4-6-8 cable to North Western Electric Equipment Co., 174 East 6th St., St. Paul, and Pierce Electric Co., Austin, $22,514 and $9,358 respectively; 8,200 lb. 4-6-8-10 T.B.W.P. wire, to St. Paul Electric Co., 145 East 5th St., St. Paul, $1,684; switchboard and equipment to General Electric Co., 410 3rd Ave. N., Minneapolis, $7,110. Noted Nov. 29.

Cranes, etc.—Longview, Wash.—Long-Bell Lumber Co., one 10 ton, one 3 ton and ten 5 ton electric cranes, 5 lumber trolleys equipped with Sumner type grapple, 11 two-way switches and 6,000 ft. track, to Pawling & Harnischfeger Co., 38th St. and National Ave., Milwaukee, Wis.; 6,000 ft. conveyor belts to Pioneer Rubber Mills, 68 Sacramento St., San Francisco, Calif.

OFFICIAL PROPOSALS

Bids: Jan. 7.

Notice Inviting Bids for Making Test and Core Borings at San Gabriel Dam Site and Vicinity

Los Angeles, Calif.

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the Los Angeles County Flood Control District, State of California, until 11 o'clock a.m. of January 7, 1924, for core and test drilling, for the testing of the underlying formations for a dam site, the location of which is just below the confluence of the west fork of the San Gabriel River with the main San Gabriel River, which point is about eleven (11) miles northward from Azusa and about thirty-two (32) or thirty-three (33) miles northeasterly from Los Angeles.

The proposed contract embodies the material, equipment and labor for the drilling of approximately thirty (30) test holes, (more or less), of indefinite depths, the upper portions of the formation at the dam site being of material designated as boulder wash, and the material below the boulder wash, or detrital material, as bed rock.

The approximate amount of drilling in an indefinite number of holes through the boulder wash material and bed rock is about three thousand (3,000) lineal feet, divided into seven (7) classes—"A," "B," "C," "D," "E," "F," "G," which classes indicate the different depths below the surface and which may occur in any or all holes.

Class A, about 300 feet, more or less, in boulder wash material.

Class B, about 300 feet, more or less, in boulder wash material.

Class C, about 300 feet, more or less, in boulder wash material.

Class D, about 300 feet, more or less, in boulder wash material.

Class E, about 200 feet, more or less, in boulder wash material.

Class F, about 100 feet, more or less, in boulder wash material.

(All the six foregoing classes in these specifications to be in what is called boulder wash material.)

Class G, fifteen hundred (1,500) feet more or less, in an indefinite number of holes in the bed rock, beneath the boulder wash or beneath the boulder wash encountered in the drill holes of Classes A, B, C, D, E, and F, or in any other holes in the bed rock from which the boulder wash material has been removed, the holes to be drilled vertically, or at an angle up to sixty degrees (60°) from a vertical line, and at such places as the Chief Engineer may designate upon either side of the dam site, or its vicinity, and below the elevation of 1,380 U.S.G.S. datum.

Each bid must be in duplicate and accompanied by certified or cashier's check, payable to the Chairman of the Board of Supervisors of the Los Angeles County Flood Control District for an amount equal to at least ten per cent (10%) of the amount bid, as a guarantee that the bidder, if successful, will enter into a contract satisfactory to the Board of Supervisors, and the successful bidder will be required to file good and sufficient bonds for the faithful performance of the contract and for the payment of laborers and materialmen.

The right is reserved to reject any and all bids not suitable to the best interest of the District.

Drawings, specifications, proposal blanks and other information may be obtained on application to the Clerk of the Board of Supervisors of Los Angeles County Flood Control District, Los Angeles, California.

OFFICIAL PROPOSALS

By order of the Board of Supervisors of the Los Angeles County Flood Control District, made November 15, 1923.

L. E. LAMPTON,
Clerk of the Board of Supervisors of the Los Angeles County Flood Control District.
By A. M. McPHERRON,
Deputy.

Date of first publication Nov. 17, 1923.

Bids: Dec. 28.

Bridge

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commisson of New Jersey for the following:

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Friday, December 28th, 1923, at the hour named below, and will be opened and read immediately thereafter.

BIDS AT 12:00 NOON (STANDARD TIME)

Construction of a bridge of 73 feet span and 30 feet roadway consisting of structural steel encased in concrete supported on concrete abutments with wing walls, including approaches of reinforced concrete on earth embankment, excavation of channel and removal of existing bridge over Passaic River, M. P. 32.2, State Highway Route No. 16, in the municipalities of Bernard and Passaic, Counties of Somerset and Morris.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10.00) upon application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids must be made on the standard proposal form in the manner designated therein and as required by the specifications for this work, same to be enclosed in sealed special addressed envelopes, bearing the name and address of the bidder and the work bid upon on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application to Mr. John L. Vogel, Bridge Engineer, 772 Broad Street, Newark, New Jersey. Bids not enclosed in special addressed envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provsions of the said specifications conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

OFFICIAL PROPOSALS

Bids: Jan. 8.

Fire Escapes

Sonyea, N. Y.

Sealed proposals for Construction—Fire Escapes, at Craig Colony, Sonyea, N. Y., will be received by Mr. Percy L. Lang, President, Board of Managers, Craig Colony, Sonyea, N. Y., until 2 o'clock p.m. on Tuesday, January 8, 1924, when they will be publicly opened and read. Proposal shall be enclosed in an envelope furnished by the State Architect, sealed and addressed and shall be accompanied by a deposit consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4182. The right is reserved to reject any or all bids. Drawings and specifications may be examined at Craig Colony, Sonyea, N. Y., at the Department of Architecture, 18th Floor, Fuller Bldg., Broadway and 23rd Street, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: December 13, 1923.

Bids: Jan. 2.

Sewerage System

Long Branch, N. J.

Notice is hereby given that sealed proposals will be received by the Board of Commissioners of the City of Long Branch, New Jersey, for the building of a separate sewerage system, together with a pumping station, in the northerly section of the city, and will be opened and read at a meeting of the Board of Commissioners held at City Hall on Wednesday evening, January 2, 1924 at 8 o'clock, or as soon thereafter as may be called for.

The approximate amount of work to be done consists of 11,000 feet of main sewer, 5,000 feet of connections to the curb with necessary manholes and pumping station, all as shown on plans and specifications prepared by J. Wesley Seaman, City Engineer, which may be obtained by applying to the Engineer at his office, 192 Broadway, Long Branch, N. J., upon a deposit of $10, which will be refunded upon the return of the plans and specifications in good condition at the time the bids are received.

Bids must be made on the standard proposal form, in the manner designated therein and required by the specifications, and must be enclosed in sealed envelopes bearing the name and address of the bidder and marked "Bids for Sewer," and addressed to Frank C. Quinn City Clerk and must be accompanied by a certified check for not less than 10 per cent of the amount bid on the work, drawn to the order of Frank L. Howland, City Treasurer, or cash in equal amount.

The Board of Commissioners reserves the right to reject any or all binds if deemed to the best interest of the Board so to do.

Dated, Long Branch, N. J., December 13, 1923.

FRANK C. QUINN,
City Clerk.

CONSTRUCTION NEWS

Engineering News-Record, December 27, 1923

The Construction Barometer

Slower Pace in Industrial Activity—Production Conditions Exactly Opposite One Year Ago

THE reported slower pace in industrial activity is confirmed by the charted trends in iron, steel, lumber and cement production, as shown below. Pig-iron, steel ingot and lumber output declined considerably during November of this year, against an exactly opposite condition existing in November, 1922. From March to October, 1922, the unfilled steel tonnage steadily rose; during the same period this year it gradually dropped. Although unfilled tonnage declined during the last quarter of 1922, the drop from October to November of this year was unusually abrupt. Cement output, though lessened, conforms closely to the regular seasonal trend. November debits to individual accounts (Federal Reserve) showed only a slight drop from the preceding month, against a sharper decline last year. Payments of debts are normally heavier in the last three months of the year than during the preceding quarter.

Calif., Los Angeles — Market — Youngs Market Co., 3 story and basement, 140 x 150 ft., rein.-con., 7th St. and Union Ave., to Weymouth Crowell Co., 2026 West 9th St., $400,000.

Calif., Los Angeles—Market and Loft—Youngs Market Inc., 216 South Spring St., 3 story and basement, rein.-con. and brick 7th and Union Aves., to Weymouth-Crowell Co., 2026 West 9th St., $350,000.

Federal Government Work

PROPOSED WORK

W. Va., Huntington—Quarterboat—U. S. Engineer rejected bids one 5 x 26 x 80 ft. steel quarterboat. Noted Nov. 8.

Ala., Florence—Cranes—U. S. Engineer, Florence, plans to purchase two 159 ton cranes for Wilson Dam.

Ky., Owensboro—Castings—U. S. Engineer, P. O. Box 72, Louisville, plans to purchase 44 tons c.i. castings for lock valves at Dam 46, Ohio River, here.

Federal Government Work (Continued)

Ind., Leavenworth—Cement—U. S. Engineer, P. O. Box 72, Louisville, Ky., plans to purchase 10,000 bbls. cement for Dam 44, Ohio River, here.

BIDS DESIRED

Pa., State College—Post Office—Jan 21 by Treas. Dept., Wash., D. C., construction, complete incl. mechanical equipment, U. S. Post Office, here; adv. E. N.-R. Dec. 27.

Va., Norfolk—Remodeling—Spec. 4912—Jan. 9, by Bureau Yards & Docks, Navy Dept., Wash., D. C., remodeling officers quarters at Marine Corps Base, here. Noted Oct. 4.

O., Cincinnati—Gates—Jan. 19 at office U. S. Engineer, furnishing and erecting gates for Lock 34, Ohio River; adv. E. N.-R. Dec. 27.

BIDS RECEIVED

D. C., Wash.—Bungalows—Dept. of Interior, construction complete, 7 bungalows at St. Elizabeth's Hospital, (1) work complete, from G. G. Loehler Co., Franklin Bank Bldg., 10th and Pennsylvania Ave., (1) $71,600 (2) $60,800; C. Colonna, P. O. Box 154, Hampton, Va., (1) $72,050 (2) $58,664. Noted Nov. 22.

CONTRACTS AWARDED

Ala., Florence—Cement—U. S. Engineer, Florence, furnishing 115,000 bbls. cement for use at Wilson Dam as follows: to Atlas Portland Cement Co., B-M Bldg., Birmingham, 63,334 bbls. f.o.b. Leeds, $2.25; to Signal Mountain Portland Cement Co., James Bldg., Chattanooga, Tenn., 20.000 bbl. f.ob. Chattanooga, $2.11; to Lehigh Portland Cement Co., Birmingham, 31,666 bbl. f.o.b. Boyles, $2.25. Noted Nov. 29.

La., New Orleans—Steel Hull—U. S. Engineer, 1 steel hull for derrick-boat, to Jahncke Dry Dock, Inc., New Orleans, $18,690.

Ky., Owensboro—Lumber—U. S. Engineer, P. O. Box 72, Louisville, furnishing lumber for Dam 46, f.o.b. here, as follows: Lot (1) 125.000 ft. No. 1 yellow pine s.i.s.-i.e., to Daly Lumber Co., 905 Andrews Bldg., Cincinnati, O., $34 per M; Lot (2) 24,000 ft. No. 1 yellow pine rough, to Great Southern Lumber Co., Todd Bldg., Louisville, $35; Lot (3) 52,000 ft. Deuse merchantable yellow pine s4s, to Nicola, Stone & Myers Co., Hattiesburg, Miss., $44.30.

Wash., Puget Sound—Dredging—Spec. 4708—Bureau Yards & Docks, Navy Dept., Wash., D. C., dredging approximately 68,000 cu.yd. place measurement, Navy Yard, here, to Puget Sound Bridge and Dredging Co., Central Bldg., Seattle, $48,750. Noted Nov. 1.

Unclassified

PROPOSED WORK

Trestle, etc.—East Boston (Boston P. O.), **Mass.**—Boston Sand & Gravel Co., 88 Broad St., Boston, plans timber trestle, 250 ft. long, supporting traveling crane and belt conveyor with coal hoist mounted at one end. Cost incl. equipment. $40,000-$50,000. Private plans.

Transmission System—Somerset, Mass.—See "Industrial Works."

Park and Fish Hatchery — Burlington, Conn.—State Dept. of Fish & Game, Hartford, plans large park and fish hatchery, here.

Lighting Standards, etc.—Louisville, Ky.—Bd. Park Comrs. plan 75 lighting standards, etc. on Western Parkway. $25,000. A. A. Kreiger, city engr.

"White Way"—Louisville, Ky.—Bd. Pub. Wks. plans "White Way" system on 6th and 7th Aves. $25,000. A. A. Krieger, city engr.

Coaling Station — Russell, Ky. — Chesapeake & Ohio R.R. Co., 823 East Main St., plans 800 ton rein.-con. coaling station, here. $40,000. H. Frazier, ch. engr.

Power Development—Logansport, Ind.—J. A. Shafer, 1008 Odd Fellows Bldg., plans power development, incl. dam, on Wabash River, 6 mi. below here. To exceed $25,000.

Retaining Wall — Chicago, Ill. — South Park Comrs., 57th St. and Cottage Grove Ave., retaining wall along approaches to 23rd St. viaduct, to B-W Constr. Co., 720 Cass St., $42,850. Noted Nov. 22.

Street Lighting—Cuba City, Wis.—Having plans prepared ornamental street lighting system, concrete posts, cable, etc., $25,000. J. A. Clark, 15 North 4th St., Minneapolis, Minn., engr. Noted Nov. 8.

Grain Elevator—Milwaukee, Wis.—I. C. Lyman, 93 Michigan St., plans to rebuild brick and concrete grain elevator, plain foundation, recently destroyed by fire. $100,000. Engineer and architect not selected.

Gas Distribution System — Coffeyville, Kan.—Plans election to vote on $500,000 bonds for gas production and distribution system. T. R. Marshall, city engr.

Lighting System—St. Joseph, Mo.—Election in January to vote on $500,000 bonds electric lighting system. W. K. Seitz, city engr. Noted Sept. 20.

Dock—South St. Louis (St. Louis P. O.) **Mo.**—Natl. Lead Co., International Life Bldg., St. Louis, plans terminal dock on Mississippi River, at Canary Plant, here. To exceed $25,000.

Rock Crushing Plant—Colusa, Calif.—Colusa Sand and Rock Co., having plans prepared gravel and rock crushing plant, incl. spur tracks. Will install rock crusher, compressors, storage bins, motors, transformers and will probably be in market for dragline excavator.

Golf Course — Pasadena, Calif. — City plans election to vote on $125,000 bonds for golf course.

Transmission Lines, etc.—Pasadena, Calif.—See "Industrial Works."

Ornamental Lighting System—San Fernando, Calif.—See "Streets and Roads."

Transmission Line — Quebec — Electric Service Corp., Power Bldg., Montreal, plans 4,400 volt transmission line in municipalities of St. Felix de Valois and St. Jean de Matha, distance of 7 miles.

BIDS DESIRED

Dike, etc.—Los Angeles, Calif.—Petroleum Export Co., 423 Pacific Electric Bldg., receiving bids 850 ft. rein.-con. dike, 8 ft. high; one 50 x 100 ft. and one 50 x 75 ft. steel and corrugated iron warehouses, etc.

Wharf — Pembroke, Ont. — Jan. 9, by Dept. Pub. Wks., Ottawa, reconstructing concrete bulkhead 689 ft. long, 100 ft. return wall, gravel fill, wharf slips, dredging basin and channel 70,000 cu.yd. sand, muck and clay, gravel road, moving existing warehouse, and old pilework wharf approach 1,120 ft. long. $100,000. K. M. Cameron, engr.

BIDS RECEIVED

Transmission Line, etc.—Brockton, Mass.—See "Industrial Works."

Heating and Ventilating Apparatus — Brooklyn, N. Y.—Bd. Educ., 500 Park Ave., New York, Dec. 19, heating and ventilating apparatus, in P. S. 99, East 9th St. between Aves. K and L, here, from Gillis & Geoghegan, 537 West Bway., New York, $44,229; in P. S. 142, Rapelyea St., here, from D. J. Rice, 405 Lexington Ave., New York, $46,970. Noted Dec. 20.

Heating and Ventilating Apparatus — New York, N. Y.—Bd. Educ., 500 Park Ave., Dec. 19, heating and ventilating apparatus in P. S. 60, 12th St. and Ave. A, from Raisler Heating Co., 129 Amsterdam Ave., $98,765. Noted Dec. 20.

Pavilions—New York, N. Y.—Bellevue & Allied Hospital, 415 East 26th St., Dec. 20, general contract pavilions F and G of new Bellevue Hospital, from George A. Fuller Co., 949 Bway., $2,940,700; heating work, from T. F. Hall, Inc., 405 Lexington Ave., $260,716; plumbing, from T. E. O'Brien, Inc., 6311 5th Ave., Brooklyn, $448,000. Noted Nov. 29.

CONTRACTS AWARDED

Car Sheds—Wichita Falls, Tex.—Wichita Tract, concrete and brick car sheds, to C. M. Balkowski, Morgan Bldg., $40,000.

Tunnel — Niagara Falls, Ont. — Queen Victoria Park Comn., extending scenic tunnel under Horse Shoe Falls, here, to J. H. McKnight Co., 88 St. David St., Toronto, $36,000, also 2 concrete bridges at Dufferin Islands, to R. H. H. Blackwell, 86 Clinton Ave., Toronto, $21,000.

Materials and Equipment

PROPOSED WORK

Tractor—Utica, N. Y.—Park Bd. plans to purchase tractor caterpillar type. $5.000.

Road Machinery—Wisconsin—Following are county appropriations for road machinery during 1924. Sawyer Co., $4,000 incl. 3 light trucks, patrol graders, etc., E. J. Collett, Hayward, comr.; Outagamie Co. $20,000 incl. larger grader, small tools, etc., A. G. Brusewitz, Appleton, comr.; Waukesha Co. $27,500 incl. tractor and crushing outfit, C. J. Hahn, Waukesha, comr.; Ashland Co. $10,000, incl. 3 patrol graders, one 12 ft. blade with back sloper and ditcher.

Road Machinery—Arcadia, Fla.—De Sota Co. election Jan. 7, to vote on $10,000 bonds for road building machinery.

Structural Steel — Chicago, Ill. — Illinois Central R. R., 135 East 11th Pl., plans to purchase 350 tons structural steel for bridges. F. L. Thompson, ch. engr.

Road Machinery — Hudson, Wis. — St. Croix Co. appropriated $10,000 for road machinery, incl. patrol graders. J. Caffrey, Hammond, comr.

Road Machinery — Manitowoc, Wis. — Manitowoc Co. takes bids about Feb. 1, 2 motor trucks, 1 patrol tractor, 3 patrol graders, 1 heavy grader and 5 wheel scrapers. $25,000. J. Connell, highway comr.

Dragline Excavator—Colusa, Calif.—See "Unclassified."

BIDS DESIRED

Pipe, etc.—Phila. Pa.—Dec. 31, by T. F. Armstrong, purch. agt., 312 City Hall, furnishing lengths c.i. pipe, Class 112, 50,000 lbs. pig lead, Class 111, fire hydrants, Class 113, all foregoing for Water Bureau, 175,000 gal. fuel oil, Class 115, 6,500 cu.yd. asphalt, 2,500 tons crushed slag, 2,500 tons binder stone, Class 116, etc., for Bureau of Highways.

Dredge — Savannah, Ga. — Jan. 10, by Comrs. Chatham Co. and ex-officio judges, furnishing land dredge.

Tractor, etc.—Pass Christian, Miss.—Dec. 31, by Bd. Supervs. Harrison Co., Court House, one crawler type factor and one 7 ft. grader with needed attachments.

Gravel—Abbeville, La.—Jan. 2, by J. E. Broussard, pres. Police Jury Vermillion Parish, 13,000 cu.yd. washed gravel and 5,000 cu.yd. sand clay gravel, 40% metal retained on ¾ in. sieve.

Tractor and Shovel—Granite City, Ill.—F. J. Lewis Mfg. Co. in market for caterpillar tractor and shovel, complete outfit.

Cement—Wisconsin—Jan. 3, by State Hy. Comn., at Capitol Annex, Madison, 1,023,000 bbl. Portland cement for delivery during 1924. A. R. Hirst, state highway engr.

Clam Loader—Pittsburg, Kan.—Du Bois Constr. Co., in market for clam loader for handling cement, sand and crushed rock.

Crushed Stone—Houston, Tex.—Jan. 7, by Comrs. Court Harris Co., 10,000 tons crushed stone, 10,000 tons gravel, 5,000 cu. yd. shell for highway construction and repairs. $50,000. Howe & Wise, co. engrs.

Crushing plant, etc.—Salado, Tex.—L. Harrington & Co., engrs., Houston Bldg., San Antonio, receiving bids and opens same about Jan. 1, equipment for new crushing plant, incl. 75 hp. pumper, screens and bins, 300 yd. sand washer, 75-100 hp. boiler, bucket line probably 2 yd. size, hoisting engine and appurtenances, for Salado Gravel Co., Salado. Noted Dec. 20 under "Industrial Works."

Paving Mixe —Okmulgee, Okla.—J. E. Parks (contractor) receiving bids large steam concrete paving mixer.

BIDS RECEIVED

Pipe—Montreal, Que.—Furnishing 207 tons 20 in. and 71.5 tons 16 in. pipe for spring delivery and 535 tons 20 in., 256.1 tons 16 in. and 568.75 tons 30 in. pipe for winter delivery, from Kennedy & Co., 288 Beaver Hall Hill, $46.50 per ton.

CONTRACTS AWARDED

Inorganic Dust, etc.—Brooklyn, N. Y.—E. Riegelmann, boro pres., Boro Hall, 1,200 tons inorganic dust, to Limestone Products Corp. of America, 17 West 42nd St., New York, $6,420; 6,000 cu.yd. asphalt sand, to T. E. McCormick, 810 Lincoln Rd. Flatbush, $7,800; 2,500 cu.yd. gravel or broken stone, to Rosoff Sand & Gravel Corp., 152 West 42nd St., New York, $6,125. Noted Nov. 29.

Lumber—Atlantic, Ia.—Cass Co., furnishing 300,000 ft. bridge lumber and 17,000 ft. red cedar to Standard Bridge Co., City National Bank Bldg., Omaha, Neb., $27.22. Noted Nov. 22.

A Banner Construction Year in Prospect

WITH the end of the present year at hand, the thoughts of engineers and contractors turn to 1924. What is the prospect for construction during the next twelve months?

The answer, according to the forecast of *Engineering News-Record's* Construction News Department is:

$5,000,000,000

This sum, if costs remain at their present level, will be spent on building and general construction in the United States during 1924, according to the best estimates now available. In other words, if no unforeseen events occur to upset calculations, a banner construction year is in sight.

Assuming that this huge sum will be expended on various classes of work in the same ratio as obtained during 1923, the figures are as follows:

The Construction Prospect for 1924

Streets and roads	$1,250,000,000
Industrial building	350,000,000
Commercial building	1,350,000,000
Residential building	550,000,000
General construction	1,500,000,000
Total	$5,000,000,000

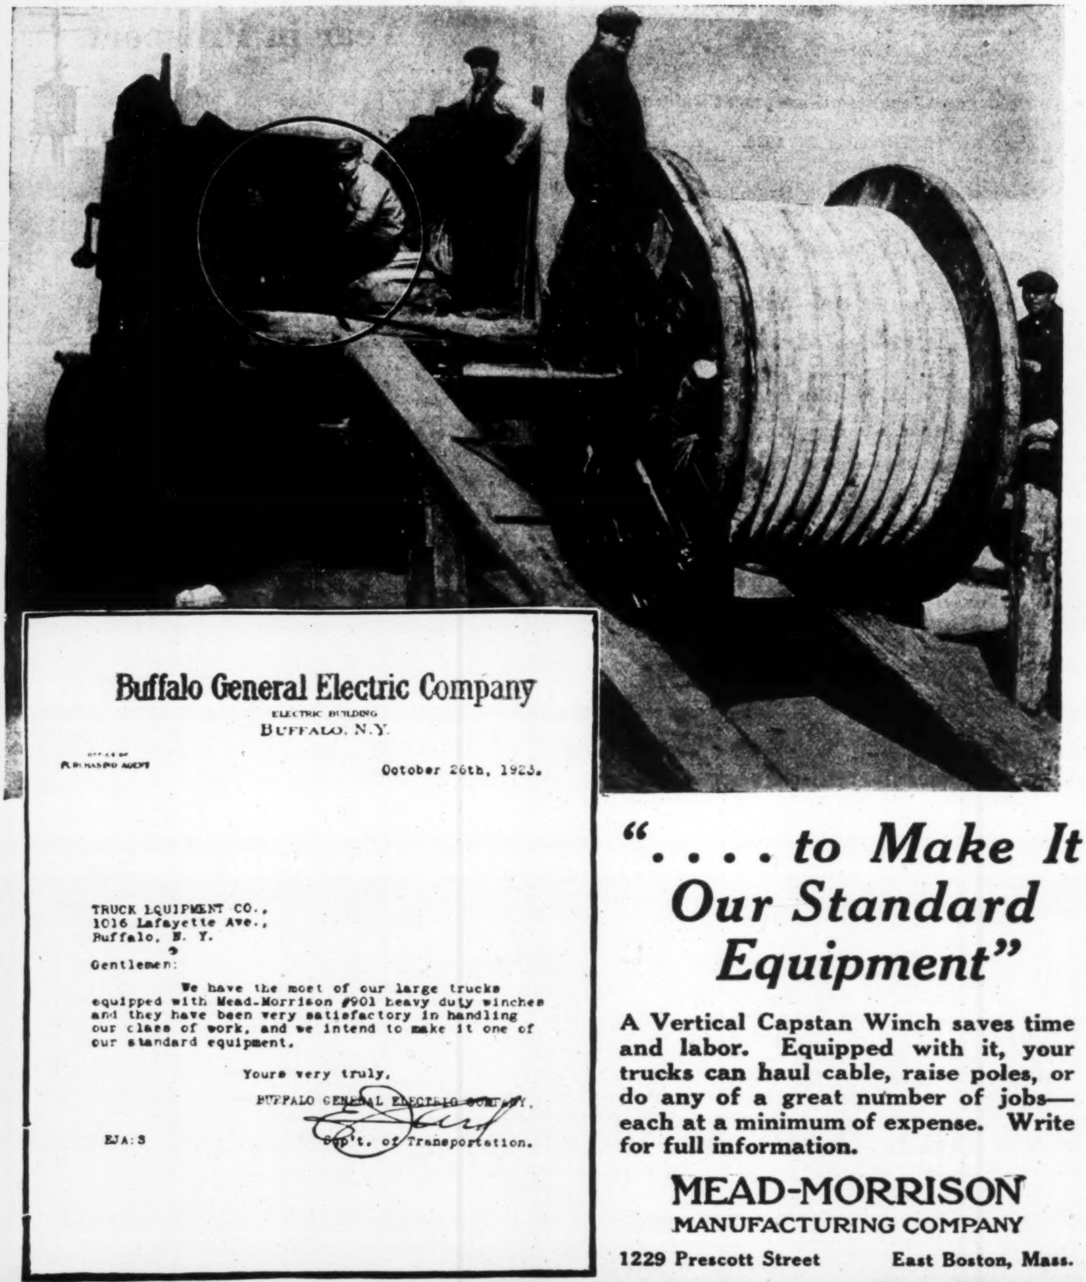
VERTICAL CAPSTAN WINCH



Buffalo General Electric Company
ELECTRIC BUILDING
BUFFALO, N.Y.

OFFICE OF
PURCHASING AGENT

October 26th, 1923.

TRUCK EQUIPMENT CO.,
1016 Lafayette Ave.,
Buffalo, N. Y.

Gentlemen:

We have the most of our large trucks equipped with Mead-Morrison #901 heavy duty winches and they have been very satisfactory in handling our class of work, and we intend to make it one of our standard equipment.

Yours very truly,
BUFFALO GENERAL ELECTRIC COMPANY,
Sup't. of Transportation.

EJA:S

". . . . to Make It Our Standard Equipment"

A Vertical Capstan Winch saves time and labor. Equipped with it, your trucks can haul cable, raise poles, or do any of a great number of jobs—each at a minimum of expense. Write for full information.

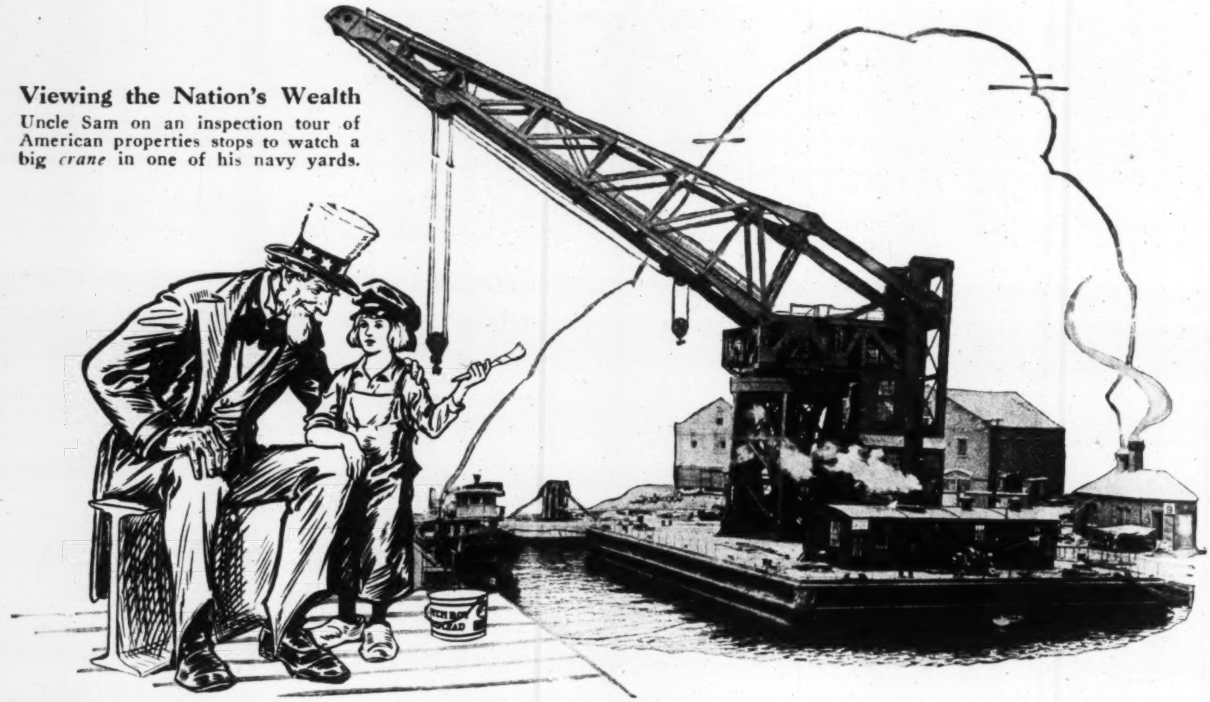
Uncle Sam on an inspection tour of American properties stops to watch a big *crane* in one of his navy yards.



The Dutch Boy Painter:
"That floating crane can handle tons as easily as an elephant tosses straw. But neither its size, nor its power, can save it from ultimate destruction from rust—if its metal isn't protected!"

This 150-ton floating crane couldn't lift a rust-mortgage

UNPROTECTED metal surfaces soon become plastered with rust-mortages. Every engineer knows what that means. The metal has been robbed of a certain part of its strength. What has been lost can't be recovered, but further loss can be stopped and future loss can be prevented—*by red-lead.*

Red-lead has for many years been recognized as metal's best protection against rust. It is the standard protection. Rust can't form where there is a well-maintained coat of red-lead.

Because it is pure red-lead, Dutch Boy red-lead supplies complete protection to metal surfaces against rust. Rust never holds a mortgage on metal that is guarded by Dutch Boy.

Dutch Boy red-lead sticks tight to clean metal. It forms a tough, elastic coating which expands and contracts with the metal without cracking or checking. It becomes almost a part of the metal's surface. Dutch Boy red-lead costs no more than other good paints. In fact, its cost is materially decreased by its unusual spreading power.

You can get Dutch Boy red-lead as a paste and also in liquid form ready for the brush. The *liquid* comes as straight, untinted red-lead for shop painting and priming coats. It is also tinted to greens, browns and black for finishing coats. The untinted *paste* can be tinted to any dark color.

For the complete protection of metal surfaces, specify Dutch Boy red-lead by name—then stop. There is no "or equivalent."

Write for Painting Helps No. 5.

Accurate Decimal Points

SUPPOSE you had a Scratch Pad with Decimal Points printed on it. Then when you wrote the two factors of a decimal multiplication with the whole numbers to the left of the points and the decimals to the right, the correct answer would automatically appear, *accurately pointed off.*

Such a Scratch Pad would be valuable to you. Accuracy of decimals is equally as important as accuracy of figures.

The Monroe Calculating Machine gives you Proven Results, *accurately pointed off,* in just the same way. As you "write" the two factors of any problem in the machine, you immediately read the Proven Answer, with the decimal point in the correct place.

Ask to see why users say "the Monroe is the finest Scratch Pad ever given a clerk." The coupon below simplifies your request.

Monroe Automatic—Marks a new era in Mechanical Calculating and Adding. A portable, electrically-operated machine for use either on desk or stand.

To Add or Multiply, simply touch the Plus (+) Bar. To Subtract or Divide, simply touch the Minus (—) Bar. The Proven Answers automatically appear with split-second speed.

Monroe Standard Model—Every feature of the Standard Monroe is conducive to speed with absolute accuracy. A forward turn of the crank to add or multiply; a backward turn to subtract or divide.

Special Models to fit individual requirements—British Currency Model, Fraction Models, etc., on which all ordinary calculations may also be performed.

There are Offices rendering Monroe Service at all Principal Points in the U. S. and Canada and throughout the World.

BOILER makers, car builders and structural steel fabricators alike express their preference for Little Giant Electric Drills when used on reaming and tapping operations.

This mark of distinction has been given to Little Giants because they are successfully meeting their requirements in hundreds of boiler and car shops, structural steel plants and other industries where the gruelling work encountered is a fit test for any tool.

The economy, service and dependability of Little Giant Electric Drills is attributed to their design and construction. Large overload capacity, low temperature rise, high efficiency and long life are a few of their many points of superiority that mean economical operation over a period of years.

You can use one or more of these Little Giant Electric Drills profitably on your reaming and tapping work. Bulletin 891 describes them in detail. Write for your copy.

These contractors held their good men all winter —*at a profit*

Of course it pays well to hold on to good men who know your ways. Steady employment, 12 months a year, attracts the best class of skilled labor and common labor.

You have often seen a *permanent organization* beat the lowest costs that can be gotten with transient labor, that is hired for only a single "season."

Every winter there are more contractors holding their best men together by working right through cold weather, *and making money doing it.* In some cases the profit-per-yard has run higher than the same contractors were able to make during the warm months of the same year, when keen competition bid the prices way down.

There have been very good results on winter cellar excavation, trench digging, stripping gravel pits, quarries, and shale pits, road grading that is fairly heavy, ditching, etc.

The ideal machine for cold weather is the ERIE Shovel— because of its greater digging power, and its steady reliability. Actual records kept by experienced owners show that their ERIES cost only ⅓ as much to keep up as other makes of shovels that they have used— with A CORRESPONDING SAVING IN WORKING TIME.

Write and tell us what kind of winter work you are figuring on. We will send records of similar work, in full detail— showing you just what can be done.

Mid-winter road grading; two ERIES excavating 90% rock, with only light blasting.

"Two of our ERIE Shovels completed the most difficult piece of State Road work in Pennsylvania, 90% rock, and we had to shoot very light because of a parallel electric railway and canal. This left large tight stone, which the ERIES handled with very little repairs. We have owned other makes of shovels, but since we bought our first ERIE, we would have nothing else."— *R. C. Murphy, W. H. Murphy & Sons, Harrisburg, Pa.* (5 ERIES)

Removing snow for street department at a good rental figure

C. C. Kilby, owner of the "A" ERIE above, saved the city of Hartford, Conn., 50% to 60% of the costs of removing 4 to 5 feet of ice and snow— and found profitable work for his shovels.

This ⅜ cu. yd. ERIE and 3 five-ton trucks did the work of 50 laborers and 10 teams, and did it quicker.

Mr. Kilby writes: "We are greatly pleased with the work of our three ERIES; have found them very fast, with plenty of power for heavy work."

ERIE STEAM SHOVEL CO., Erie, Pa., U. S. A.

Representatives throughout the U. S. A.

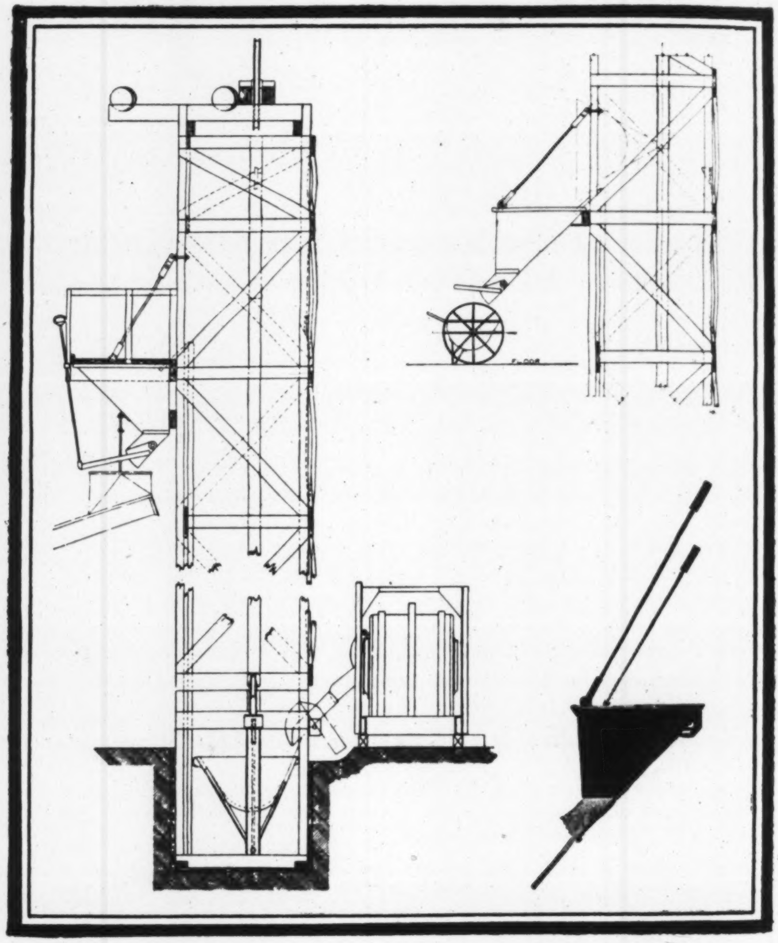
ERIE Revolving Shovels

Laying Water Main: Any ERIE Shovel can be changed over in a few hours to a crane like the above, shown placing 36-ft. sections of steel water main pipe, Akron, Ohio. Also handled 10-ton valves. Operating a clamshell bucket, it did the backfilling. One of 3 ERIES owned by P. F. Connolly Co., Cleveland.

"On this cellar cut we bucked frost with our "A" ERIE with wonderful success," *writes the Chas. H. Fry Construction Co., Erie, Pa.* "We have also had remarkable results with this ½ cu. yd. ERIE digging shale rock, which would be tough digging for a much heavier shovel."

For 20 years Ransome HOIST BUCKETS

A
20 year
leader



For over two decades the Ransome Hoist Bucket has been prominent on the big concrete jobs throughout the world. It is used in conjunction with a straight back tower bin for a chuting installation or with a sloping back bin with cart distribution. The bucket operates quickly in a direct vertical lift. One of its great advantages is that no harm is done to the tower or bucket if the bucket is accidentally hoisted above the dumping point.

Its *simple and sturdy construction* makes each year's demand greater. Bulletin 202 gives complete information.

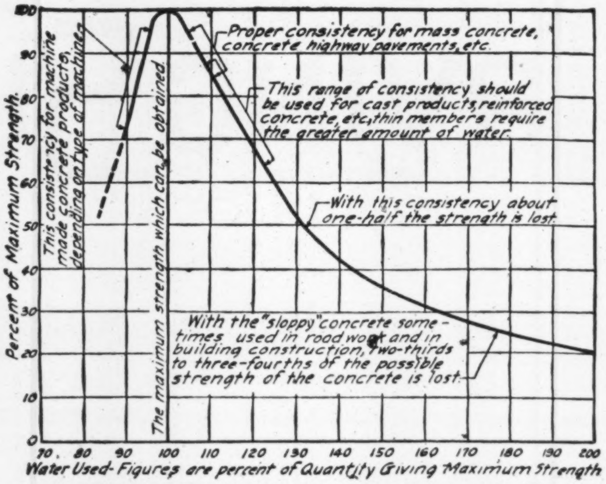
When One Pint of Water Wastes Two Pounds of Cement



Effect of Quantity of Mixing Water on the Compressive Strength of Concrete

NOTE: In general construction, the maximum strength can rarely be obtained, but it is possible to obtain 70 to 90 per cent of the maximum strength without additional expense by restricting the quantity of mixing water.

Observe this curve closely. It shows impressively the effect of the quantity of mixing water on the strength of concrete.

It is now known that excess mixing water, not only weakens concrete, but that it is actually wasteful of cement. One pint of water more than necessary in a one-bag batch decreases the strength and resistance to wear as much as though two or three pounds of cement were left out.

Here is a fact, which if brought home to the superintendent and the foreman, can be of great practical value in raising quality on the job.

Wouldn't you like to have, right at hand for quick reference, a practical manual which tells how the quantity of mixing water can be closely controlled, so as to give concrete greater strength without using any more cement?

Then write today for our free booklet, "Concrete Data for Engineers and Architects." We will be glad to send you extra copies for superintendents and foremen.

Take full advantage of the service the Portland Cement Association has to offer. One of the District Offices of the Association is always near you. Get acquainted with it.

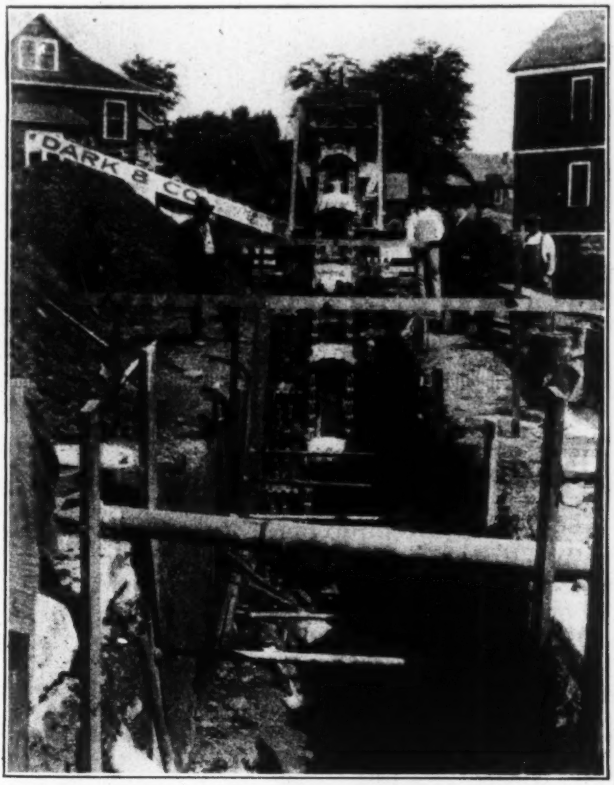
Economies in Trench Excavation are effected by the Equipment you employ



Efficiency comes from Experience. And experience is not gained on the drafting board but on the job under actual working conditions.

Every Austin Trench Excavator has back of it forty years of "On-the-Job" experience.

Economies are effected through the use of larger power units, safety features that avoid breakdowns, heavy construction, patented devices and ability to dig anything that is classed as earth excavation.

This is AUSTIN TRENCH DIGGING efficiency summed up and the guarantee of economy on every job.

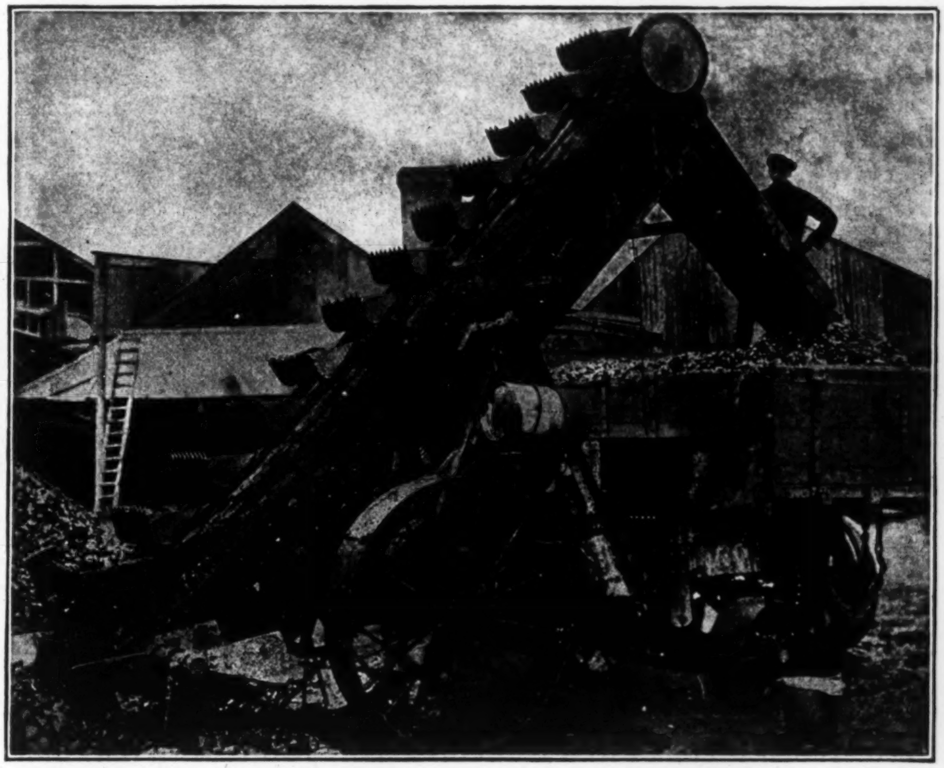
The "Wheel" Machine's The Thing



Cross-country road building needs the "Creeper Type" Path Digging Loader—but city work or material yard handling is just as well done with the "Wheel Type" Machine.

Has the wonderfully efficient Haiss Self-Feeding Propellers and a slow-speed drive of 30 inches a minute to crowd it against the pile. Self-propelling, of course.

Digs and loads 1 cu. yard per minute (and better) in crushed rock or other material—and does all the work with a labor cost of one operator only.

"The man who owns one" buys a second out of the first one's savings. Repeat orders on Haiss Loaders are a matter of course.

RIP-SNORTER

Users of the Austin Rip-Snorter know how appropriately it was named. When it comes to tearing up a hard-as-sin, worn out, rutted road surface, no other machine or method can touch it.

On maintenance work the Rip-Snorter scarifies and grades in a single operation, leaving the road ready for rolling. In the preparation of an old road for resurfacing, the blade carries the scarified material to the sides of the road to form the new shoulders, or can be easily loaded in wagons.

Special Rip-Snorter Bulletin H suggests many other uses that the practical road man will find for this most efficient machine. Write for a copy today.

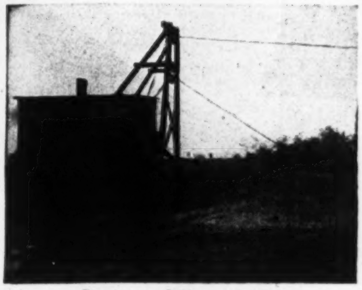
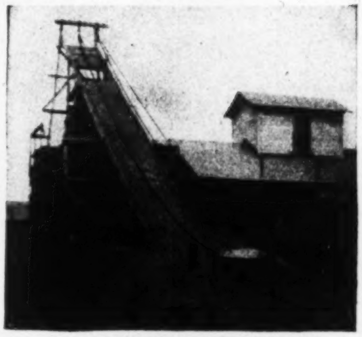
Scraper in County Gravel Pit



Scraper and Traveling Tower



Scraper at Concrete Block Plant

Scraper on Cut-and-Fill Job

How Scraper Handles Stripping

The Brief Statement Below Gives You the Main Facts You Wish To Know Regarding

SAUERMAN Power Drag SCRAPERS

In excavating bank deposits of gravel, stripping overburden, making cuts and fills, cleaning out reservoirs, storing and reclaiming crushed stone, gravel or coal, Sauerman Power Drag Scrapers are money-savers because they possess large capacity, yet require no great outlay to install, operate and maintain. They show greatest economy in handling materials distances of 200 to 400 feet.

Description—There are three distinct types of Sauerman power scrapers. "Excavator," "LeClair" and "Crescent," each best suited to a particular class of work All are bottomless, hence self-loading and self-dumping. The operation consists simply of dragging the scraper back and forth over the deposit or pile that is to be excavated or rehandled. When the scraper reaches the dumping point, the operator causes it to deposit its load automatically by putting the pull-back cable in operation; one man at the levers of a double drum hoist controlling the complete operation.

Sizes—Standard sizes of Sauerman Power Scrapers are from 1/3 to 5 cu.yd. Larger sizes can be built to order as specified.

A portable power scraper outfit, designed for light excavating and material-handling, is offered in two sizes, ¼ and ½ cu.yd., with operating spans of 200 ft.

Service—If the illustrations here do not, give you sufficient evidence of the adaptability of Sauerman equipment for your conditions and requirements, submit your problem to Sauerman engineers. Their experience, gained through contact with over 1,000 installations of Sauerman cableways and power scrapers, is freely at your service.

Tell us what you want to accomplish, daily yardage you require and the surrounding conditions and we will suggest the type of equipment and general layout that will give you the desired result at lowest cost.

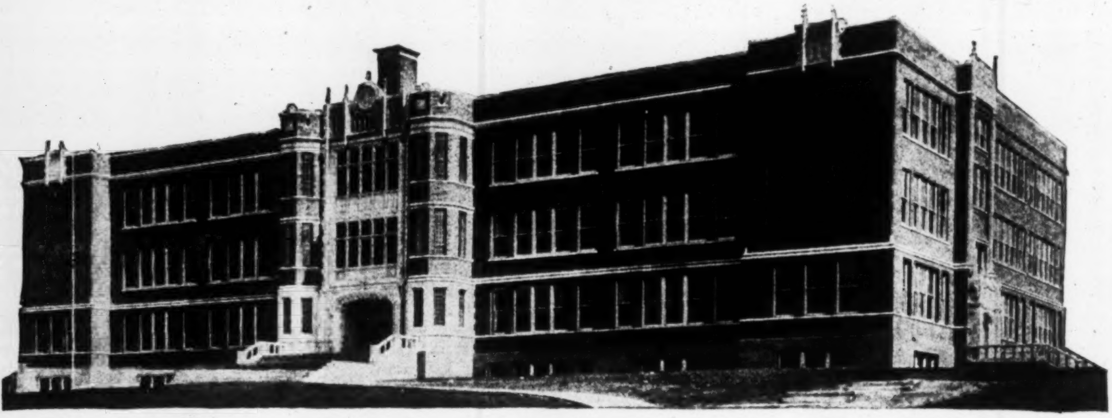
Batcherplant as nucleus for central mixing and distributing system—Metropolitan-Edison Co., Middletown, Pa. power plant.



Carney was specified for the McKinley Junior High School at Cedar Rapids, Iowa, as it is for hundreds of buildings throughout the country because it builds a better wall.

Architects: Rugh & Zalesky, Cedar Rapids, Iowa.
Contractors: Theo. Stark & Co., Cedar Rapids, Iowa.

Carney Sales Increase Each Month

THE merits of Carney have brought it into general use. Hundreds of Contractors know from practical experience that it saves time, money, and worry. Carney sales are increasing by leaps and bounds, due entirely to its good and saving qualities. Carney always builds a better wall at final lower cost. That is why we are building new mills.

Carney Has These Exclusive Merits

It can be used immediately after mixing or left in the box over night. There is no waste to Carney. Five bags to a barrel. Four and seventy-five hundreths cubic feet to a barrel. Four parts sand carrying capacity. It requires no lime, which saves time and labor in mixing. It prevents loss and waste through carelessness. Being more plastic and smoother working, the mason can work faster and easier on the wall. It lays the maximum number of brick to the barrel. It is ideal for wall bearing buildings. It becomes harder than the brick and tile it binds, continuing to harden indefinitely as time goes on. It sets a creamy white, contrasting beautifully with brick and tile. The final cost of a Carney wall is always lower. Contractors bid lower, do better work, and make more profit with Carney.

INDIANAPOLIS

321

Chemical Laboratory Building Ohio State University, Columbus, Ohio. Architect, Prof. J. N. Bradford. Contractors, D. W. McGrath & Sons. 35,000 sq. ft. Berloy ¾-in. Ribplex used in the 2-in. solid walls and partitions.

Two-Inch Walls and Partitions

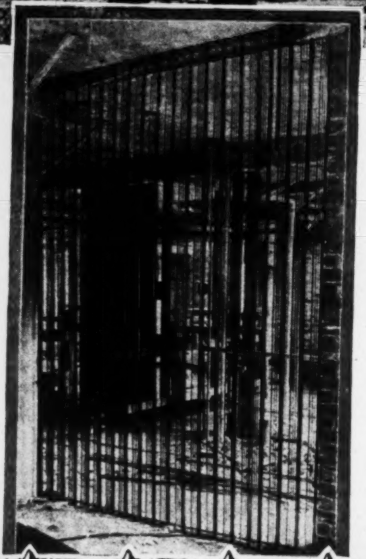
To the adaptability of reinforced concrete there is no end. Proper distribution of steel is one of the biggest factors in its success and for many forms of concrete work. Berloy ¾-inch Ribplex has proven to be a very effective type of reinforcement.

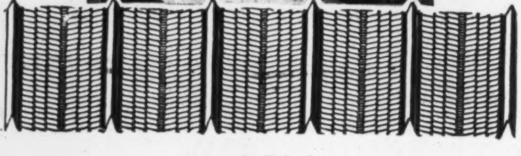
Walls and partitions two inches thick with the ribs of the ¾-inch Ribplex placed vertically were used to excellent advantage in the building shown above.

The same type of construction has been used in many other buildings in walls, partitions, floors, roofs, and in a wide variety of special concrete work such as bath houses, ornamental fences, drying ovens, hand-ball courts and, in fact, wherever a light, strong concrete slab is desirable.

Another very effective basis for two inch solid walls and partitions is the use of ⅜-inch Ribplex with ribs horizontal wired to Berloy cold rolled channel supports.

May we tell you more about this type of construction and its use? Please address Dept. F-24.





¾-Inch Ribplex

This is a stiff, expanded metal mesh with ¾-inch ribs, spaced 4.8 inches on centers. Covering width of sheets is 24 inches, the ribs nesting together at sides and ends to make a firm, even splice.

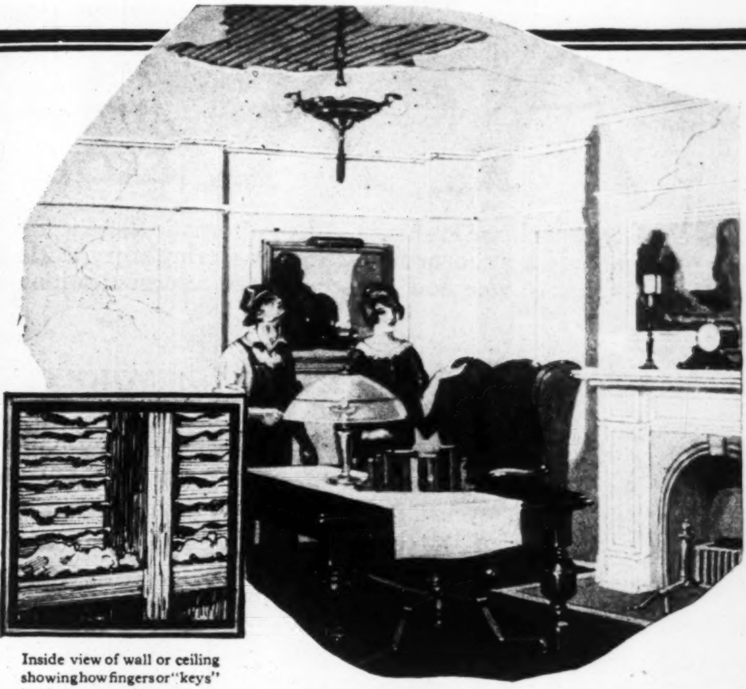
¾-inch Ribplex has been used exensively as centering and reinforcement for concrete floors and roofs as well as for walls, partitions and many forms of special work. Other Berloy Products include ⅜-inch Ribplex, Diamond Mesh Lath, Metal Lumber and Floor Cores.

The Berger Manufacturing Co.

Canton, O., Boston, New York, Philadelphia, Chicago, St. Louis, Kansas City, Minneapolis, San Francisco, Los Angeles, Dallas, Roanoke, Jacksonville.

BERLOY

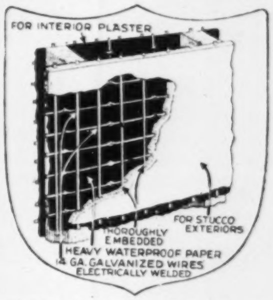
DIAMOND MESH LATH AND RIBPLEX



Inside view of wall or ceiling showing how fingers or "keys" hold plaster to wood lath.

NATIONAL

Stucco-Plaster Reinforcement



A combination plaster and stucco base and *reinforcement* which makes those materials permanent and enduring.

why does PLASTER *crack?*

Plaster and stucco crack, and sometimes fall off, because expansion and contraction of lath causes the fingers or "keys" which hold it in place, to break off.

National Stucco-Plaster Reinforcement eliminates "keys".

This combination of base and *reinforcement* becomes an integral part of and thoroughly embedded in, plaster and stucco, and thereby prevents cracking and falling.

It provides very much stronger stucco and plaster than any other type of lath or base. It automatically "back-plasters" itself. It is fire-safe and sound-deadening. It eliminates dust streaks, lath marks, and rust marks.

It is applied either direct to studs and joists, or over sheathing or insulation It cannot be "skinned", yet takes less material because it eliminates "keys".

In all your work, use National Stucco-Plaster Reinforcement in place of lath, because it saves time, labor, and material, yet assures stronger plaster and stucco.

Our new catalog explains and proves *how* and *why* it is best to build with *reinforced* concrete, plaster, and stucco. Write for a copy—it is tree.

NEW FEATURES IN CONSTRUCTION AND DESIGN

Ford
Fordson

1924

Make no mistake! The passing of another year has been marked by enormous changes in the value of methods and tools!

A visit to the FORD POWER EQUIPMENT EXPOSITION will keep you posted on the vitally important savings effected in adapting efficient, low-cost FORD POWER to industrial and commercial use.

Here are gathered exhibits by more than 78 leading manufacturers of industrial, commercial and agricultural equipment using the Fordson Tractor and Ford One-Ton Truck as power plants.

Proven money savers displayed side by side on a "brass tack" basis.

Men who know your needs—to give cold facts and figures—to show you why, when and where! Keep posted! Write now for a detailed list of exhibits and information on the application of FORD POWER in the solving of *your* problems'

There Will Be Other Jobs

You expect to work your shovel on future jobs too. Some of them will be tough work. You will need the best shovel you can get.

You can see records of all makes of shovels on all kinds of jobs. Some people get the idea that it doesn't make much difference what make of shovel they buy. They sometimes find out that in a few years it means the difference between a good dependable shovel and a wreck.

So don't take a chance. Don't buy for one job or one season. They all work fine when they are new but when you hear of a shovel ten years old and still doing six days a week, it is a Thew.

And Thews are made better today than ever before. New improvements. More conveniences. Added refinements.

Write us before you buy.

THE THEW SHOVEL COMPANY, LORAIN, OHIO

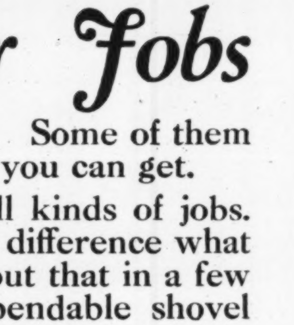
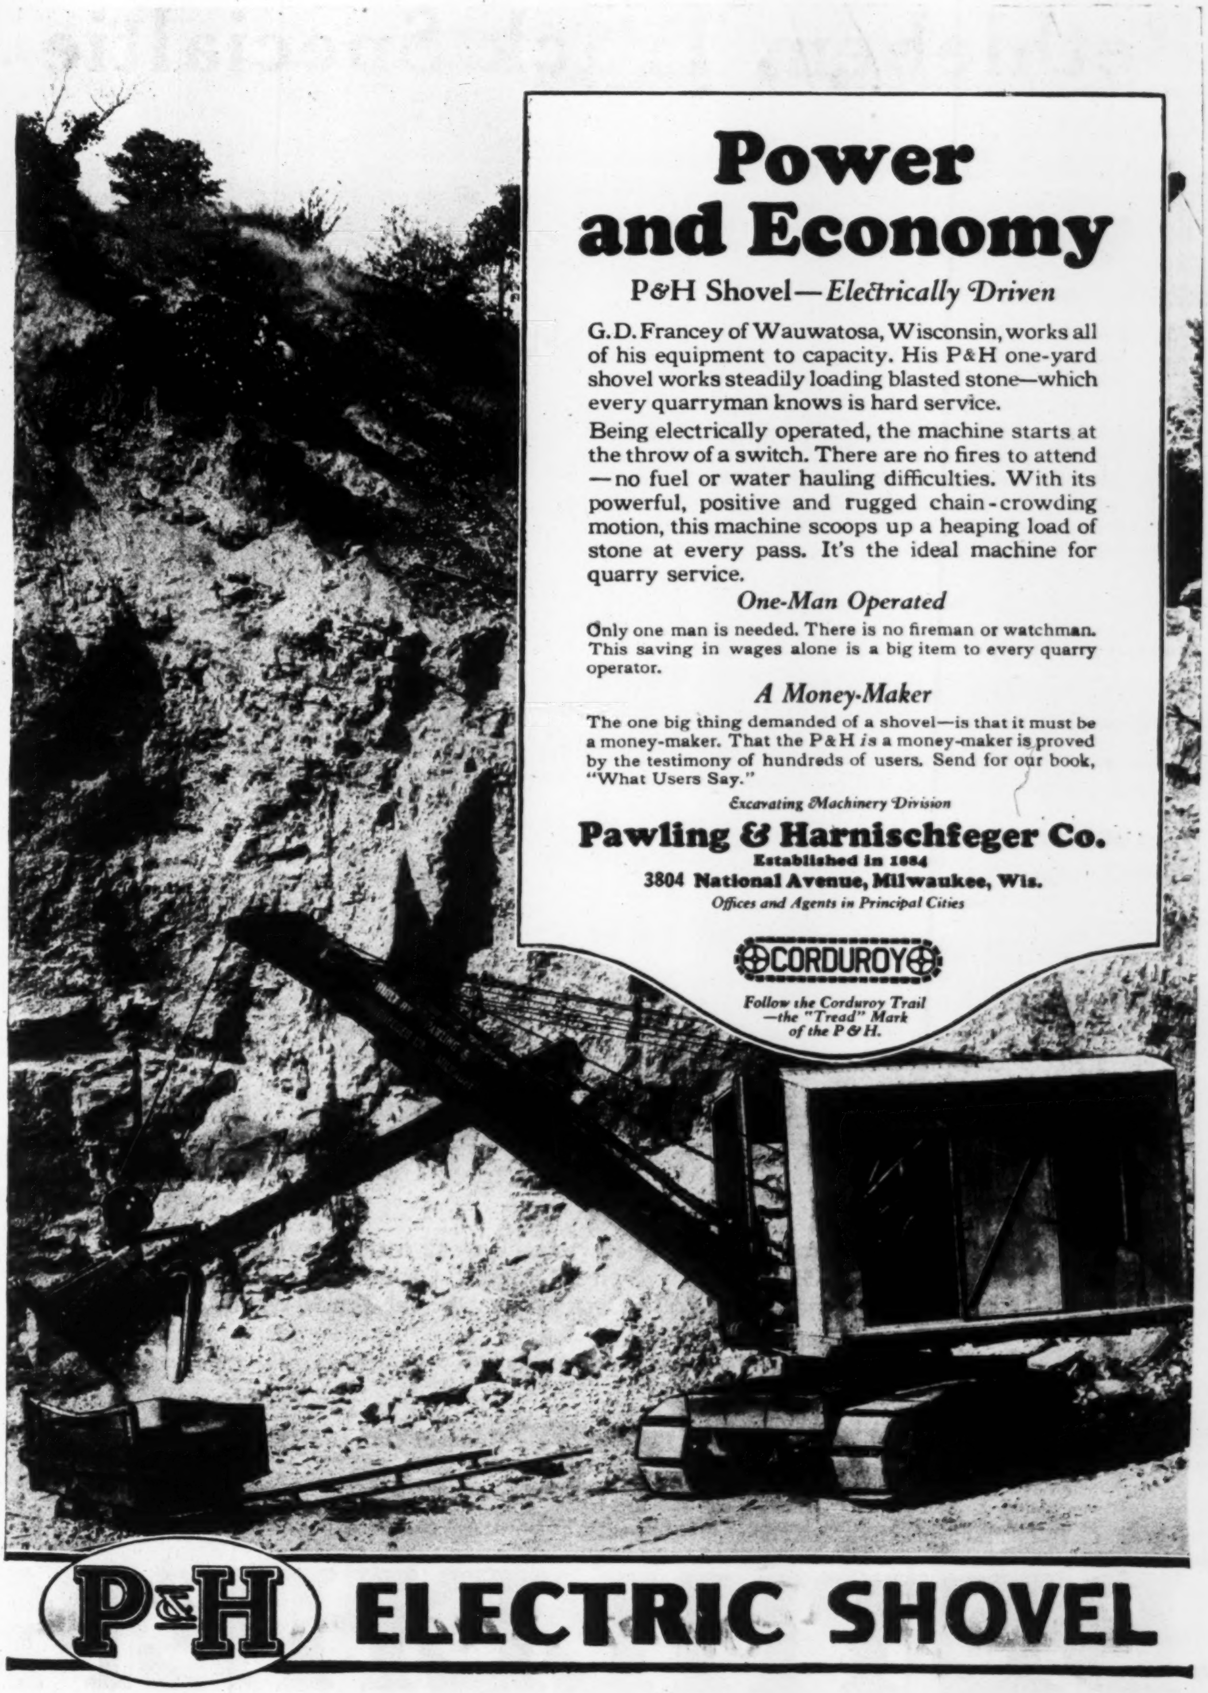
Power Shovels





Power and Economy

P&H Shovel—*Electrically Driven*

G. D. Francey of Wauwatosa, Wisconsin, works all of his equipment to capacity. His P&H one-yard shovel works steadily loading blasted stone—which every quarryman knows is hard service.

Being electrically operated, the machine starts at the throw of a switch. There are no fires to attend—no fuel or water hauling difficulties. With its powerful, positive and rugged chain-crowding motion, this machine scoops up a heaping load of stone at every pass. It's the ideal machine for quarry service.

One-Man Operated

Only one man is needed. There is no fireman or watchman. This saving in wages alone is a big item to every quarry operator.

A Money-Maker

The one big thing demanded of a shovel—is that it must be a money-maker. That the P&H *is* a money-maker is proved by the testimony of hundreds of users. Send for our book, "What Users Say."

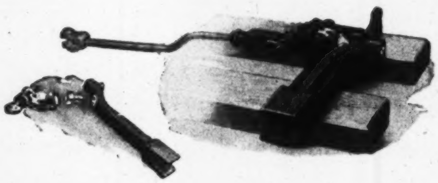
P&H ELECTRIC SHOVEL

Bethlehem Track Specialties

CAMBRIA MINE TIES are in one piece—no loose parts to mislay—clamping button quickly turned to position with hammer—track always to gage—extra ties can be added or taken out without disassembling track—longer life than wood ties—can be used many times.

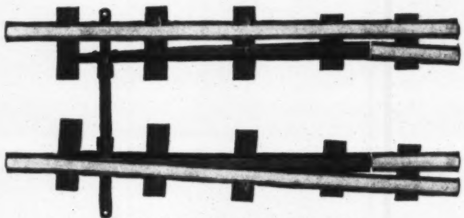
A Bundle of ten No. 2 Cambria Mine Ties

BETHLEHEM PARALLEL THROW SWITCH STAND, MODEL 1217, is adjustable for any throw—lever throws parallel to the track—when in normal position, lever is on "dead center" and switch is positively held—only 3″ high—only 3 moving parts—no bolts—can also be furnished with spring rod.



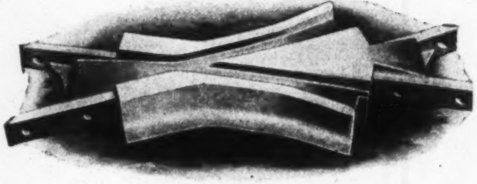
Parallel Throw Switch Stand, Model 1217

BETHLEHEM HEAVY DUTY SWITCH is fitted with extra heavy plates and braces—practically corrosion proof—will stand unlimited abuse—derailments eliminated—lengthens tie life—maintenance expense wiped out—plates and braces last indefinitely—switch points cost no more to renew than other kinds.



Heavy Duty Switch, Design 396

BETHLEHEM SOLID CAST FROG, Design 289, is made either of carbon, or manganese steel—strictly one-piece construction with no rivets or plates to work loose—flange bearing feature makes for smoother riding and reduces wear on wing rails and point—unbreakable and easy to install.



Solid Cast Frog, Design 289

Bethlehem also manufactures heavy track work for steam Railroads, such as Rails, Guard Rails, Switch Stands, Crossings, Tie Plates, Fish Plates, Splice Bars, Solid Cast Frogs, Special Track Work, etc.

Let us know your requirements and we will gladly furnish estimates

Compressor Efficiency At Full and Partial Loads With the 5-Step Clearance Control

The demand for air is seldom steady even during any one day. Throughout the year it is bound to vary in accordance with the shop's production.

Your compressor must be large enough to meet the shop's present or contemplated maximum demand. At the same time it should operate efficiently when delivering partial capacity so that the cost of air does not become excessive when the demand falls off.

Class PRE direct-connected, electric motor driven compressors are extensively used where large volumes of air are required. The volume of compressed air delivered by the compressor is efficiently regulated by means of the patented 5-step Clearance Control. With this regulation the compressor delivers automatically, full, three-quarter, one-half, one-quarter or none of its rated capacity. The horsepower required is reduced practically in proportion to the reduction in capacity.

Another feature of the 5-step Clearance Control is the maximum Demand Stop which prevents operation of the compressor at any higher maximum load than is desired. This is extremely important when a maximum demand of service charge is included in your contract for electric current.

THE HIGHEST DEVELOPMENT IN CAST IRON PIPE

ARECIBO, P. R. wanted pipe for its water supply—reliable, durable, permanently tight pipe. "Universal" was laid because it possessed all of these essentials, *and more*—no expensive cumbersome joint-making equipment was needed, no time was wasted pouring and calking. The above line hugging the bridge is "Universal" 12-inch.

The flexibility and tightness of its machined joints make 'Universal' a great favorite for water supply, fire protection systems, sewage disposal, gas lines, subaqueous lines, and for other service where freedom from leakage is essential.

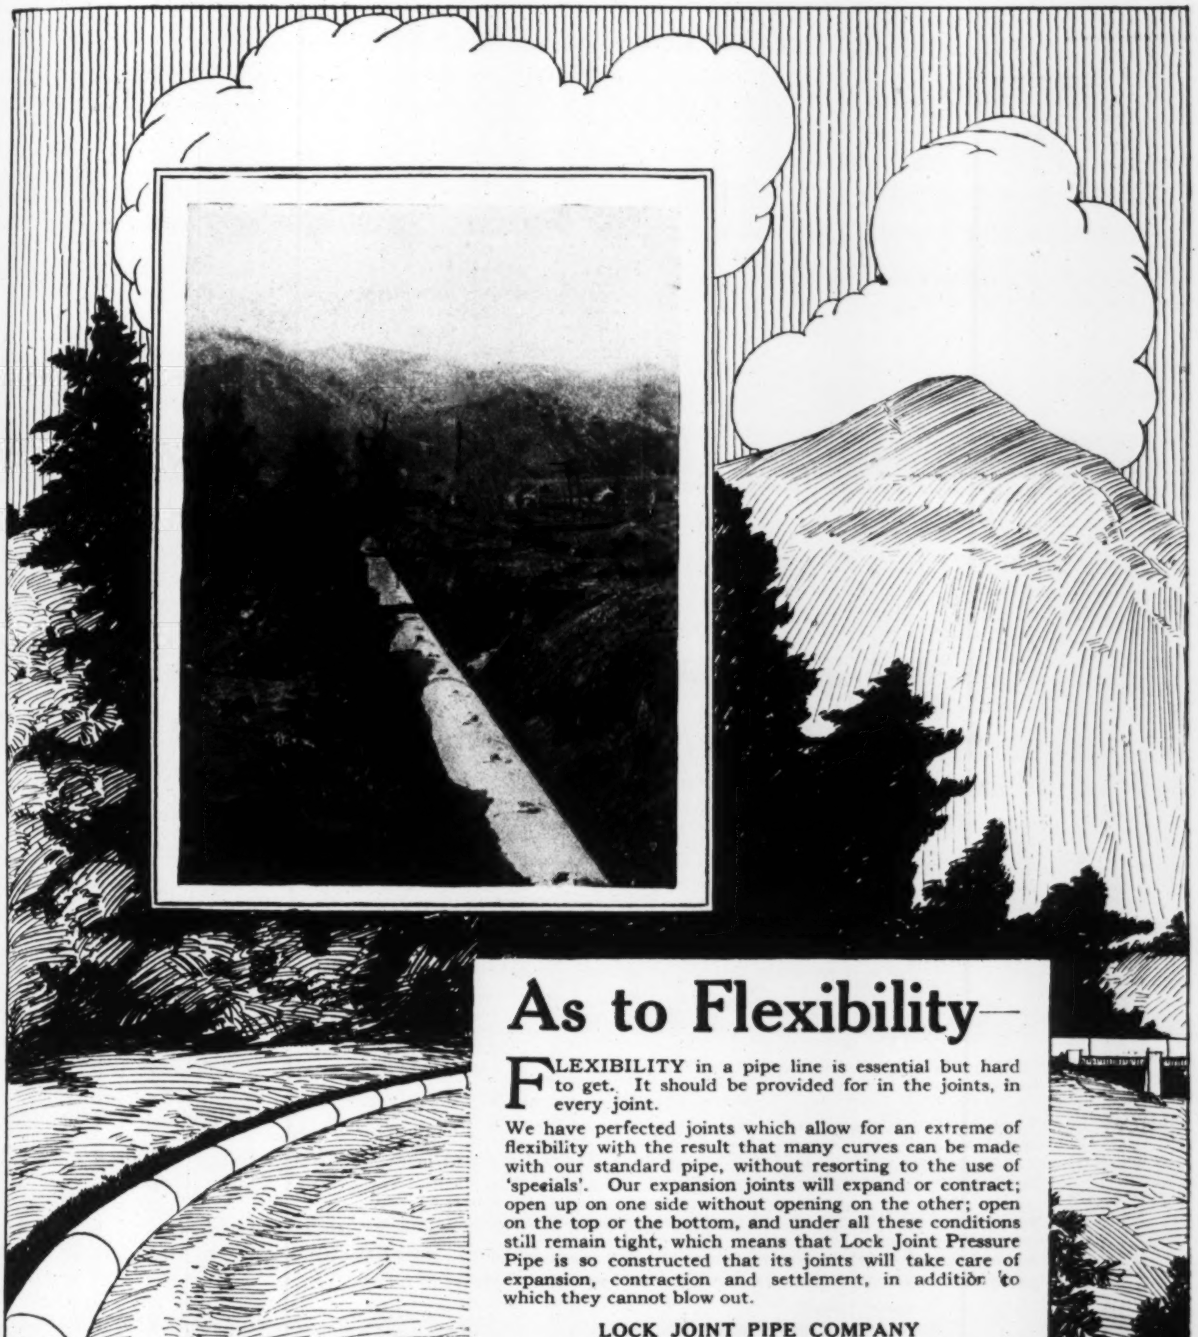
UNIVERSAL CAST IRON PIPE

tight, flexible, dependable—no lead, no calking, no bell holes to dig



As to Flexibility—

FLEXIBILITY in a pipe line is essential but hard to get. It should be provided for in the joints, in every joint.

We have perfected joints which allow for an extreme of flexibility with the result that many curves can be made with our standard pipe, without resorting to the use of 'specials'. Our expansion joints will expand or contract; open up on one side without opening on the other; open on the top or the bottom, and under all these conditions still remain tight, which means that Lock Joint Pressure Pipe is so constructed that its joints will take care of expansion, contraction and settlement, in addition to which they cannot blow out.

To Condenser

Meeting Special Requirements is one of the features of "NAVCO" service

Where clearance or other structural conditions make the use of standard valves, fittings, or piping accessories impossible, we can meet the requirements by supplying special valves, fittings, and other castings from our own foundry.

The above illustration shows a 30-inch gate valve in the condenser connection of a turbine, with a 14-inch side outlet for the atmospheric exhaust connection. The center line of the branch is offset $3\frac{1}{2}$ inches to clear the I-beams in the turbine foundation.

This, and many other small details, make up an entire piping job. Our experience in this field should be invaluable to piping men and consulting engineers.

Send for our Catalog 5A. It should be in the hands of everyone who has to do with power piping.

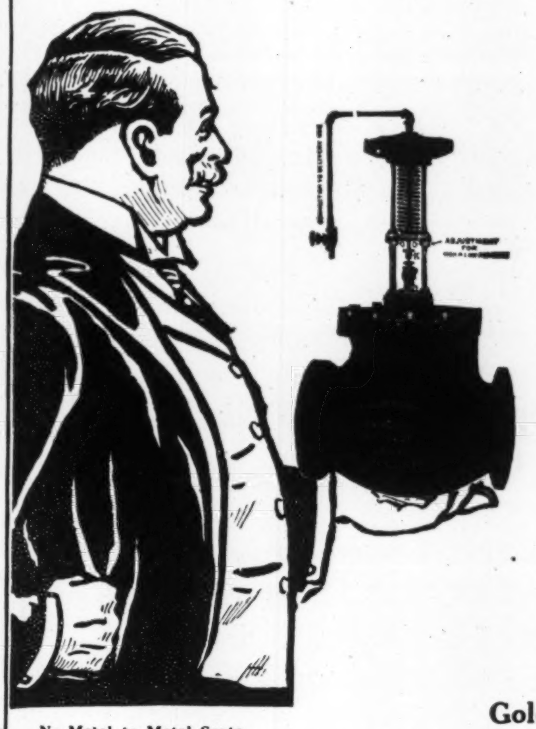
Cut Your Water Bill, Reduce Your Pumping Costs

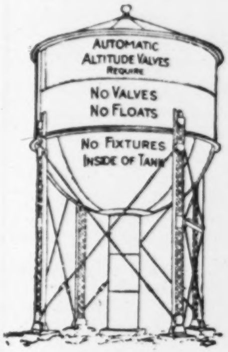


ADJUSTMENT FOR HIGH & LOW PRESSURE

The water that overflows from your tanks, standpipes, reservoirs, etc., represents a double loss—a loss in power required to pump it there, and a loss in water. Such waste can be eliminated *completely* by the installation of

GOLDEN-ANDERSON
Automatic "Cushioned" Controlling Altitude Valves

They maintain a constant level automatically, without the use of floats or fixtures inside or outside the tank. No human element is involved. These valves may be closed in three ways, (1) automatically by water, (2) by electricity (3) by hand. They may also be arranged to close automatically when a break occurs in the mains. When necessary, they may also be connected to "close both ways" in a single line of pipe.



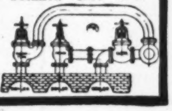
No Metal to Metal Seats.
No Water Hammer.

Golden-Anderson Valve Specialty Co.,
1202 Fulton Bldg., Pittsburgh, Pa.

GOLDEN-ANDERSON
Pat. Automatic Double Cushioned Triple Acting Non-Return Valves

Angle Globe or Elbow Pattern

1. Prevent shut-downs due to reversal of steam flow.
2. Instantly close and isolate a boiler when a tube bursts.
3. Cut off steam flow from every boiler instantly when a steam pipe ruptures.
4. Automatically cut a boiler into line.
5. Prevent backflow into cold boiler
6. The only valves that can be tested in service.



No Bursting Mains

Every Valve with an Absolute Guarantee

GOLDEN-ANDERSON
Pat. Automatic Cushioned Water Float Valves

1. Automatically Maintain Uniform Water Levels in Tanks, Standpipes, etc.
2. Instantly Adjusted to Operate Quickly or Slowly.
3. Floats Swivel to any Angle—Most Satisfactory Float Valves Known.
4. No Metal-to-Metal Seats — No Water, Hammer or Shock.
5. Cushioned by Water and Air.

GOLDEN-ANDERSON
Pat. Automatic Cushioned Water Pressure Regulating Valves

1. Maintain a constant reduced pressure regardless of fluctuations on high pressure side.
2. Perfectly Cushioned by water and air. No metal-to-metal seats.
3. The best valve made for maintaining a constant low pressure where consumption is continuous.
4. Operates quickly or slowly as required—No attention necessary.
5. Positively no hammering or sticking. Sizes to 24 in.

No Water Hammer

GOLDEN-ANDERSON
Pat. Cushioned Water Relief Valves

1. Automatically relieve excess pressure.
2. Prevent stress, strain and bursting of mains.
3. Correct mechanical construction.
4. Perfect air and water cushioning.
5. No metal-to-metal seats. No hammering or shocks.
6. Angle and globe pattern. Sizes 3 to 30 in

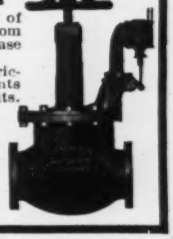
Hosts of References

GOLDEN-ANDERSON
Pat. Automatic Double Cushioned Check Valves

1. Especially adapted for Water Service.
2. For High or Low Pressure.
3. Thoroughly Cushioned, No chattering, Hammering, or Sticking.
4. Globe or Angle Patterns up to 30 in.
5. Especially adapted for hydraulic elevator service.

GOLDEN-ANDERSON
Pat. Cushioned Electric Water Service Valves

1. Give instant control of water distribution from pumping station in case of fire.
2. Open or close by electricity from distant points —a.c. or d.c. circuits. Also close by hand.
3. No waste of electricity. Current is on only few seconds.
4. Cushioned in opening and closing.
5. No water hammer, shock, sticking, surging or chattering



Stop-starter attachment for centrifugal pumps

No Metal-to-Metal Seats

POWER

Stone & Webster power stations designed and built, or now being built, total one and three-quarter million horse power—enough to operate the traction systems of New York, Chicago, Philadelphia, Detroit, Cleveland and St. Louis—our six largest cities.

Under construction is over 300,000 horse power. This is to supply Boston, Washington, Hartford, Lynn, Indianapolis, Fall River, Los Angeles and other cities.

Sixty public service corporations are served continuously by Stone & Webster engineers who make their plans and install their new generating and distributing equipment.

Stone & Webster engineers have examined and appraised properties to the total value of more than $4,500,000,000 including many of the country's foremost public utilities.

Everything in Steel When You Need It

WHETHER it's reinforcing bars and spirals or beams, bars, rails, bolts, rivets, or any other steel product needed by the contractor—Ryerson is the logical source.

First, because you can rely upon immediate shipment from our large and complete stocks. Second, because of our facilities for bending or cutting to the exact size you require. And third, because Ryerson *Steel-Service* may be taken literally. Our engineers—and in fact every member of our organization is ready to go out of his way to help you get the steel *where* you want it and *when* you want it.

The Ryerson Journal and Stock List contains complete information on all steel products—have you written for your copy?

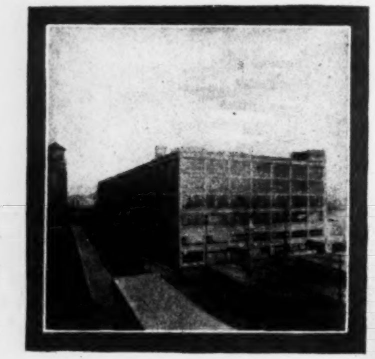
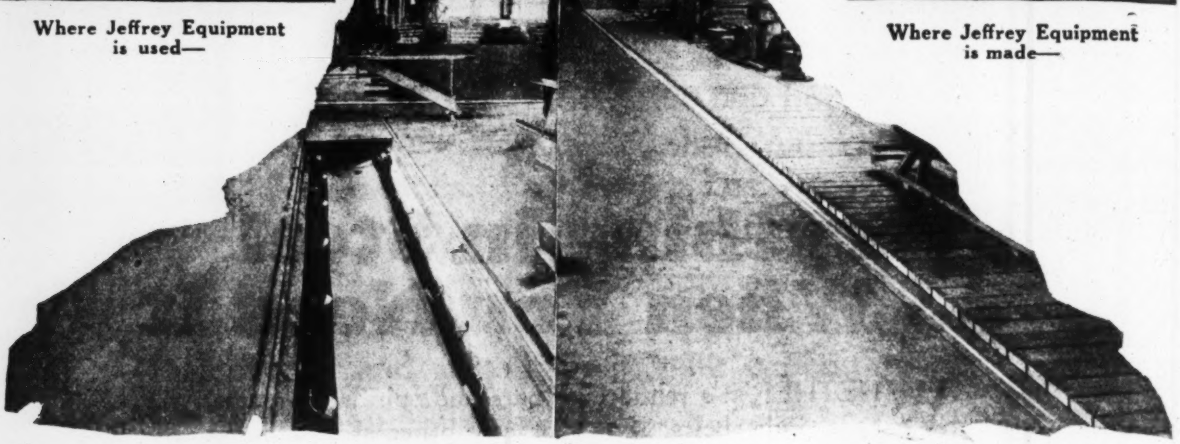
Jeffrey Material-Handling Equipment as used by the Fisher Body Corp'n

Wood Apron and Rubber Belt Conveyors



Where Jeffrey Equipment is used—

Where Jeffrey Equipment is made—



AT the Pontiac plant of the Fisher Body Corporation, the Jeffrey Belt Conveyor shown in the left hand illustration saves labor by handling waste wood or wood scraps from woodworking machines to storage.

This conveyor is 320 feet long, measuring 155 feet between centers; and travels at the rate of 100 feet per minute. It uses 24-inch four-ply canvas belting,—with 24-inch five-pulley troughing carriers mounted on wood base boards, and 24-inch standard flat belt carriers serving as return idlers.

The Jeffrey Conveyor shown at the right is part of a Jeffrey Wood Apron Conveyor System comprised of three units, employed to handle boards or finished wood shapes at the Pontiac plant.

One unit, 400 feet between centers, uses 1615 feet of Jeffrey No. 126 Malleable Roller Chain. Another unit 130 feet at centers, utilizes 530 feet of the Chain; and the third unit, which is 245 feet between centers, uses 990 feet of the Chain.

Dependable, continuous operation is expected of these Jeffrey Conveyor systems — and is given.

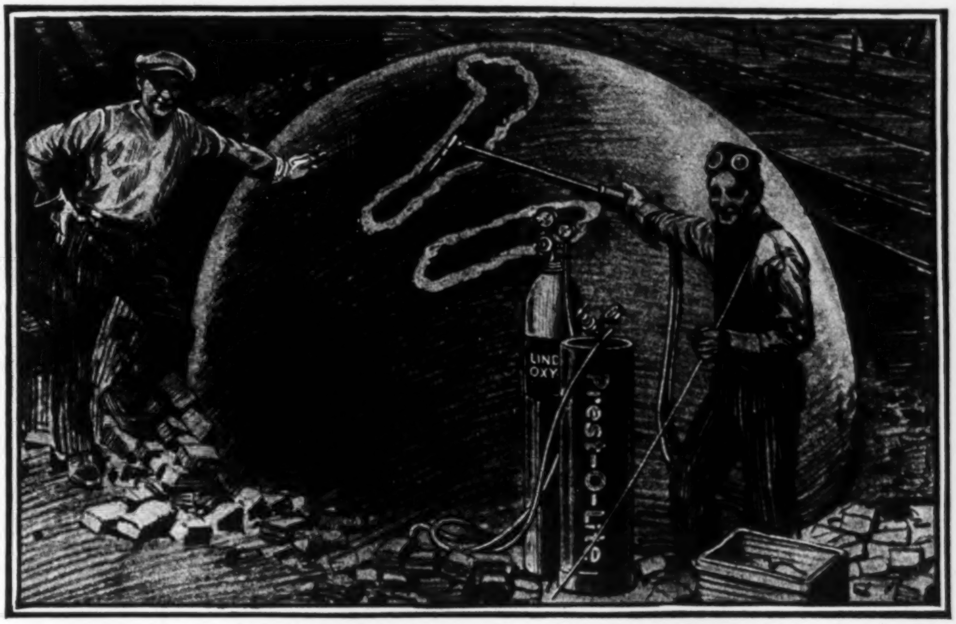
JEFFREY

MATERIAL HANDLING EQUIPMENT



Proud of It!

And with good reason. A few years ago monster cast-iron pots like these were regarded as "unweldable". In out-of-the-way places they were allowed to accumulate and encumber the smelter yards, because of the expense of breaking them up and transporting them to a scrap market.

The reclamation of "lead pots" is now a standard practice—thanks to the oxy-acetylene process. The big fellow shown here is one of twenty-six 8-ton cast iron pots reclaimed by a large mining and concentrating company in the west.

Thus one more intricate and difficult puzzle has been solved by oxwelding. It is typical of what Oxweld Resident Engineers (located in over fifty cities) are daily doing for the metal industry. They are ready to work on YOUR cutting and welding problems—to point out economical short cuts, reclaim scrapped pieces, speed production. Send for illustrated book "Oxweld Can Do It".

OXWELD ACETYLENE COMPANY

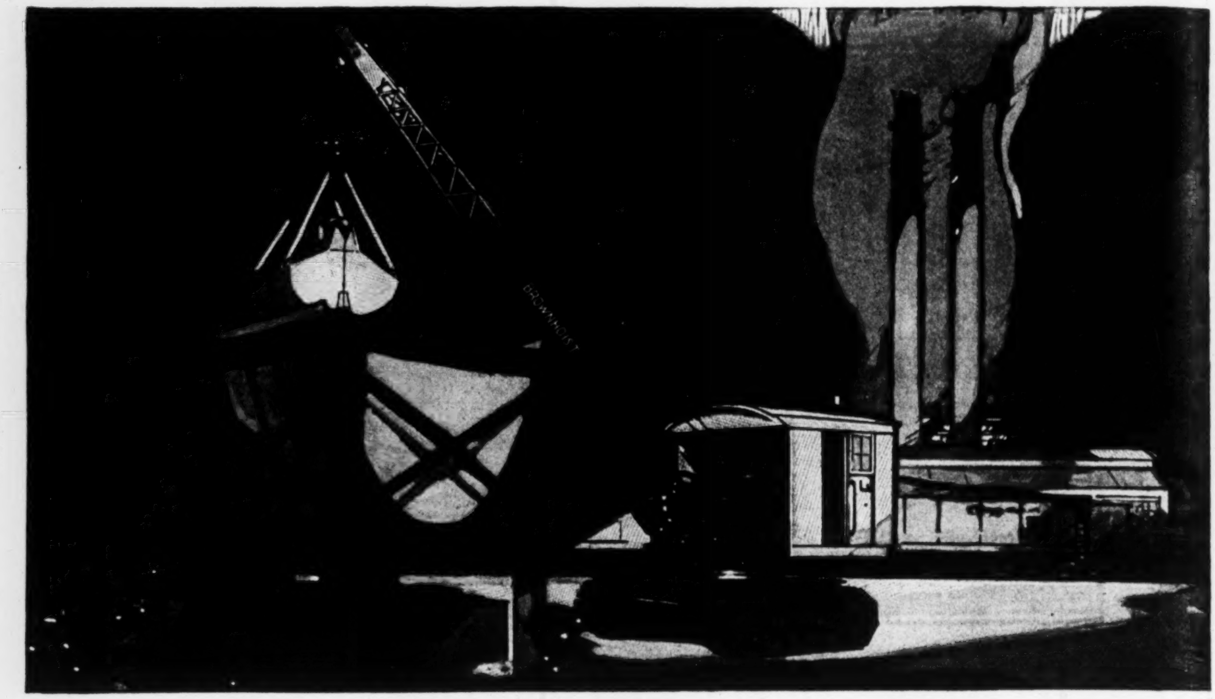
WELDING AND CUTTING APPARATUS

World's Largest Manufacturers of Welding and Cutting Equipment



No. 2 Brownhoist creeper truck crane equipped with 40 foot boom and Brownhoist one yard clamshell bucket

This Small Crane Will Cut Road Building Costs

Small in size and low in cost, this No. 2 Brownhoist Locomotive Crane has a remarkable handling capacity. It handles a one yard Brownhoist clamshell bucket easily and rapidly. The forty foot boom provides a wide handling radius and increased clearance for loading into bins.

In road building, large savings can be effected by the use of this crane in the handling of sand, stone, gravel, etc. The No. 2 Brownhoist is made with creeper trucks and four or eight wheel railroad trucks—powered either by gasoline or steam engine.

These different types are built so as to provide the most economical crane for the individual requirements of each user. We'll be glad to help you choose the one best fitted for your job.

Literature and complete data on request

Road Show

A moving picture showing approved methods of building roads in several states and also a No. 2 Brownhoist 8-wheel crane will be shown at the Road Show.

Bids: **Jan. 15.**

Municipal Water Supply Improvement

Oklahoma City, **Okla.**

Sealed bids will be received by M. Peshek, Jr., City Clerk of the City of Oklahoma City, Oklahoma, up to 12.00 o'clock noon, Tuesday, January 15th, 1924, and a duplicate of each bid must be filed with the City Auditor of the said city, and will be opened and considered by the Board of Commissioners at 2.00 o'clock p.m., Tuesday, January 15th, 1924, for the construction of the following work for the improvement to the municipal water supply for the City of Oklahoma City, Oklahoma:

Section A—1—Ambursen Const. Co. plan—Main Dam Extension.

Section A—2—Ambursen Const. Co. plan—Intake.

Section A—3—Ambursen Const. Co. plan—Gates and Operating Mechanism, Main Dam Extension.

Section A—4—Ambursen Const. Co. plan—Steel Flashboards and Operating Mechanism—Intake.

Section B—1—V. V. Long & Co. plan—Main Dam Extension.

Section B—2—V. V. Long & Co. plan—Intake.

Section B—3—V. V. Long & Co. plan—Structural Steel Crest; Intake.

Section C—1—Callahan Const. Co. plan—Main Dam Extension.

Section C—2—Callahan Const. Co. plan—Intake.

Section C—3—Callahan Const. Co. plan—Gates and Operating Mechanism—Main Dam Extension.

Section C—4—Callahan Const. Co. plan—Gates and Operating Mechanism, Intake.

Section D—1—Holway Engr. Co. plan—Main Dam Extension.

Section D—2—Holway Engr. Co. plan—Intake.

Setion D—3—Holway Engr. Co. plan—Gates and Operating Mechanism—Main Dam Extension.

Section D—4—Holway Engr. Co. plan—Gates and Operating Mechanism—Intake.

Bids will be considered on each Section separately, and contractors may bid on any or all sections. All of the necessary work and materials used shall be in strict accordance with the plans and specifications therefor, now on file in the office of the City Clerk.

Each bidder shall accompany his bid with a sworn statement in writing that the bidder had not directly nor indirectly made any agreement, express or implied, with any other bidder or bidders, having for its object the controlling of the price or amount of such bid or bids, the limiting of the bidder or bidders, the parcelling or farming out to any bidder or bidders, or other persons, of any part of the contract, or any part of the subject matter of the bid or of the profits thereof, and has no knowledge of the amount, kind or character of any bid to be made by any other person, firm or corporation, except those submitted and filed by him.

The bid or bids filed with the City Clerk must be accompanied by a certified check on any national bank, in the sum of at least five (5%) per cent of the amount of the bid or bids.

It being further understood that the amount of damages which the City would suffer would be impracticable to determine and extremely difficult to fix in case the successful bidder should fail to enter into a contract and give the required bonds within the required time, it is therefore understood that by the filing of a bid or bids it will be considered as agreed that the amount of damages which the City would suffer by reason of such failure on the part of said successful bidder is the amount represented by the check or checks so filed by the successful bidder, and that the City shall have the authority to appropriate such checks for its own use and benefit in payment for such damages.

Each bidder shall agree to enter into a contract and furnish the required bonds within ten (10) days after the acceptance of his bid, and shall state in his bid when he will begin the work and when he will complete the same.

The contractor will be required to give bond in the sum of twenty-five (25%) per cent of the contract price for faithful performance of the work, and all other bonds that are required by the laws of the State of Oklahoma or the ordinances of said City, and to give bond to hold the City harmless from any and all damages for which the City might be liable under the law, and which might occur by reason of any act upon the part of the said contractor or of any of his employees.

A deposit of fifty ($50.00) dollars will be required for each set of plans and specifications. Such deposit will be refunded upon the return of the plans and specifications in good condition within 10 days after the bids are opened.

Each bidder is hereby notified that the Ambursen Co. plans, the V. V. Long & Co. plans, the Callahan Const. Co. plans and the Holway Engr. Co. plans are different plans for the same construction work and the City reserves the right to finally adopt for said work any one plan or any part of any plan.

The Board of Commissioners further reserves the right to reject any or all bids.

M. PESHEK, JR.,
City Clerk.

Bids: Jan. 8.

Fire Escapes

Sonyea, N. Y.

Sealed proposals for Construction—Fire Escapes, at Craig Colony, Sonyea, N. Y., will be received by Mr. Percy L. Lang, President, Board of Managers, Craig Colony, Sonyea, N. Y., until 2 o'clock p.m. on Tuesday, January 8, 1924, when they will be publicly opened and read. Proposal shall be enclosed in an envelope furnished by the State Architect, sealed and addressed and shall be accompanied by a deposit consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4182. The right is reserved to reject any or all bids. Drawings and specifications may be examined at Craig Colony, Sonyea, N. Y., at the Department of Architecture, 18th Floor, Fuller Bldg., Broadway and 23rd Street, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: December 13. 1923.

Bids: **Jan. 18.**

Dredging

ENGINEERING DEPARTMENT
PARISH OF CALCASIEU, LOUISIANA

Lake Charles, La.

December 15th, 1923.

Sealed bids will be received by the Police Jury of the Parish of Calcasieu, Louisiana, until noon, Friday, January 18th, 1924, in the Police Jury Room, Court House, Lake Charles, Louisiana, and then and there publicly opened, for the construction of a Navigation Channel 30 feet deep by 125 feet wide at the bottom, from **Lake Charles** to the Sabine River.

SECTION 3

The construction of a channel 30 feet deep and 125 feet wide at the bottom, from Station 714, East along the Intracoastal Canal, to Station 580. A distance of 2.54 miles. Approximately 2,020,000 cubic yards of earth to be moved.

This work is along the present Intracoastal Canal, which on this section, is 6 feet deep and 40 feet wide on the bottom. The Atlantic, Gulf and Pacific Dredging Company have a contract with the War Department to deepen and widen this part of the Intracoastal Canal to 12 by 90 feet; their dredge "TEXAS" is working about Station 760 at present, and will pass Station 714 going East between January 1st and 10th. From Station 714, East to Station 680, the land is marsh, elevation +1.0 to +2.0. The Gum Cove Ridge lies between Station 680 and 580, elevation +2.0 to +12.0. Average stage of water +1.2. All depths and elevations refer to Mean Low Gulf Datum.

SECTION 5

The construction of a channel 30 feet deep and 125 feet wide at the bottom, from Station 58 on the Intracoastal Canal, West to Station 322. A distance of 5 miles. Approximately 3,480,000 cubic yards of earth to be moved.

This work is along the present Intracoastal Canal, which has been deepened and widened from Station 58 to 120, to 12 feet deep by 90 feet wide on the bottom. From Station 120 to 322 the Canal is 6 feet deep by 40 feet wide on the bottom, with a Pilot cut from Station 176 to 322, 12 feet deep by 40 feet wide on the bottom, along the South side of the old ditch: The Government Dredge "BLACKWATER" is at present at Station 120 working West completing the Canal to 12 feet depth and 90 feet width. The Blackwater will probably pass Station 176 about February 1st. From Station 58 to 90 is a low Ridge; Elevation +2.0 to +7.0; from Station 90 to Station 322 is a Black Grass Marsh, with knolls; Elevation +1.0 to +3.0. Average stage of water +1.2. All elevations and depths refer to Mean Low Gulf Datum.

Every bid shall be accompanied by a certified check in an amount equal to five per cent (5%) of the amount of the bid, payable to the Treasurer of Calcasieu Parish, which check shall be forfeited to the Parish should the bidder to whom such contract is awarded fail to enter into the contract required within ten (10) days after notice to do so from the Police Jury of Calcasieu Parish.

The Police Jury reserves the right to reject any or all bids.

V. R. REEVES,
President, Police Jury.
FRED SHUTTS,
Parish Engineer.

OFFICIAL PROPOSALS

Bids: **Jan. 17.**

Excavation and Rock Protection

STATE OF NEW YORK
DEPARTMENT OF PUBLIC WORKS
BUREAU OF CANALS

Albany, N. Y.,
December 13, 1923.

Sealed proposals will be received by the undersigned at his office in Albany, N. Y., until twelve o'clock noon of Thursday, January 17th, 1924, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

CONTRACT NO. 214.

Erie Canal—Section 9.

For completing the excavation of the canal channel in the Genesee river at Rochester and placing rock spoil protection along the river banks.

Sheets 1 to 3, inclusive.

Plans may be seen, and detailed specifications, engineers' estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Bureau of Canals, Albany, N. Y.; at the office of the Division Engineer, Department of Public Works, at Utica, Syracuse, Rochester and Buffalo; and at the Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent) of the work done at the contract price. Every proposal for said work must be accomplished by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank, in good credit within the State and payable at sight to the Commissioner of Canals and Waterways for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Commissioner of Canals and Waterways.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Commissioner of Canals and Waterways, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work, according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Bureau of Canals, State Department of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Commissioner of Canals and Waterways of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the State will be enhanced thereby.

ROYAL K. FULLER.
Commissioner of Canals
and Waterways.

Bids: Jan. 3.

Railroad Siding, Relocating Electric Railroad and Bridge

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Missouri, at the office of the Purchasing Agent, Second Floor, City Hall, until 2 oclock p.m., January 3, 1924, for furnishing the labor and materials for the grading for a railroad siding about three-fourths of a mile long, and a relocated electric railroad and highway about four-fifths of a mile long including a reinforced concrete highway bridge, span 16 feet, width 18 feet, located just north of North Kansas City. The proposals shall be in accordance with drawings and specifications on file in the office of the Board of Fire and Water Commissioners of Kansas City, Missouri, of Fuller and Maitland, Engineers for the Board of Fire and Water Commissioners, 600 Walnut Street, Kansas City, Missouri, and of Fuller and McClintock, 170 Broadway, New York City. Copies of the drawings and specifications may be obtained from Fuller and Maitland, 600 Walnut Street, Kansas City, Missouri, upon the deposit of $10.00 for each set, which deposit will be refunded provided the drawings and specifications are returned in good condition within 30 days after bids are received.

Each bidder shall deposit with the City Comptroller a certified check on a solvent bank or trust company in the amount of five thousand dollars ($5,000), payable to the City Comptroller of Kansas City, Missouri, and accompany his bid with the Comptroller's receipt therefor. The said certified check is required as a guarantee that the bidder will, within ten (10) days after receiving the award of the contract, file with the City a satisfactory bond to the amount of fifty per cent of the bid price, and will execute the contract.

The Board of Fire and Water Commissioners does not bind itself to accept the lowest or any bid offered, and reserves the right to reject any or all bids, and to waive any irregularity or informality in the bids.

MARTY H. RAMING,
Purchasing Agent.

FULLER AND MAITLAND,
Engineers.
By Authority of the Board of Fire and Water Commissioners.

Bids: Feb. 4, 1924.

University Buildings

Urbana, Ill.

Sealed proposals for General Work on four buildings to be erected for the University of Illinois in Urbana, Illinois, will be received at the office of James M. White, Supervising Architect, 256 Administration Building, Urbana, up to 2:00 p.m., Monday, February 4, 1924.

Bidders interested should write the Supervising Architect immediately for information as to type and size of buildings and dates when plans will be available.

Bids: **Jan. 3.**

Sewer Construction

McKenzie, Tenn.

Sealed bids for the construction of a vitrified pipe sewer system and settling tanks for the City of McKenzie will be received by the Mayor and City Council at the office of H. C. Bryant, City Clerk until 2 p.m., January 3, 1924, at which time and place they will be opened and publicly read.

The approximate quantities are as follows:

38,506	Lineal feet 8" Sewers
4,620	Lineal feet 10" Sewers
900	Lineal feet 12" Sewers
1,650	Lineal feet 15" Sewers
134	Manholes
12	Flush Tanks
588	Lineal feet vertical risers
2	Reinforced concrete settling tanks

Plans and specifications may be examined at the office of H. C. Bryant, City Clerk, at McKenzie, or at the office of the Engineer, or a copy may be obtained from the Engineer upon receipt of a deposit of $15.00, of which amount $10.00 will be refunded when the plans and specifications are returned in good condition. If additional information is required, address the Engineer.

The right is reserved to reject any and all proposals and to waive informalities. The contractor will be paid cash on monthly estimates amounting to 85% of the work done.

All proposals and bids must be accompanied by a certified check drawn on a responsible bank or trust company, and made payable to H. C. Bryant, City Clerk, for a sum of not less than 5% of the amount of the proposal; or a bidders bond for the same amount by a surety company authorized to do business in the State of Tennessee, will be accepted. The successful bidders will be required to furnish a performance bond in the sum of 50% of the contract price.

December, 1923. H. C. BRYANT,
City Clerk.

B. H. KLYCE, Engineer,
506 4th and 1st Natl. Bank Bldg.,
Nashville, Tenn.

Bids: **Jan. 19.**

Pipe Line, Tunnel, Dam, Etc.

Charlottesville, Va.

Sealed proposals will be received by the City Manager at his office, Charlottesville, Va., until 11 o'clock a.m., January 19th, 1924, for the construction of approximately 12 miles of 18 inch Cast Iron Pipe Line and 700 lineal feet of 4 x 6 Tunnel, a Diversion Dam, Grit Chamber and Regulating works. Pipe and Specials will be furnished by the City of Charlottesville, f.o.b. cars. Plans and Specifications can be seen on or after January 1, 1924, at the office of the City Manager, Charlottesville, Va., and at the offices of the Engineers, Fuller and McClintock, 170 Broadway, New York City, or Lee H. Williamson, National Bank Building, Charlottesville, Va. Proposal blanks will be forwarded upon application to the City Manager. Construction Bond to the amount of the contract will be required and each proposal must be accompanied by a certified check for $10,000.00.

Arrangements for inspection of the line can be made at the office of Lee H. Williamson, National Bank Building, Charlottesville, Va.

The right is reserved by the City Manager to reject any or all bids.

BOYD A. BENNETT,
City Manager.
City of Charlottesville, Va.

Construction of Flood Control Works

OFFICE OF THE BOARD OF DIRECTORS
THE PUEBLO CONSERVANCY
DISTRICT

Pueblo, Colo.
Dec. 17, 1923.

Sealed proposals will be received by The Pueblo Conservancy District, Pueblo, Colorado, until 2 o'clock, p.m., on Tuesday, January fifteen, 1924, for the construction of a relocated river channel and the relocation of 35 miles of railroad yard tracks in Pueblo, also a barrier dam 6 miles west of Pueblo, involving approximately the following principal quantities divided into contracts as follows:

No. 1. Channel Excavation above Santa Fe avenue; material used in Railroad Yard and Levee Fills.

Upper railroad fill	464,000 Cu.Yds.
Lower railroad fill	90,000 Cu.Yds.
Levees	486,500 Cu.Yds.

No. 2. Concrete Levee Paving.

Steel sheet piling	74,400 Sq.Ft.
Concrete slab revetment	26,600 Cu.Yds.

No. 3. Railroad Track Construction below Dry Creek Bridge.

Track laying and surfacing	26.47 Mi.
Alterations to tracks	3.53 Mi.

(Rails and ties to be furnished to Contractor.)

No. 4. Channel Excavation, below Santa Fe avenue, 54,000 Cu.Yds.

No. 6. Concrete Intake Structure, Reinforced concrete, 350 Cu.Yds., Reinforced concrete pipe, 48" Diam., 808 lin.ft.

No. 7. Retaining walls in Levee at Round House and at Union Depot, concrete, 1,985 Cu.Yds.

No. 8. Dyke below Santa Fe avenue, 6,000 Cu.Yds.

No. 9. Dykes at Dry Creek, 25,000 Cu. Yds.

No. 10. Dykes at North Side Water Works Reservoirs, 55,000 Cu.Yds.

No. 12. Railroad Track Removal, Removing and storing track materials, 32 miles.

No. 13. Railroad Embankment above Dry Creek. Embankment, 130,000 Cu.Yds.; Riprap, 1,600 Cu.Yds.

No. 14. Railroad Track Construction above Dry Creek. Track laying and surfacing, 3.86 miles. (Rail and ties to be furnished to Contractor.)

No. 17. Concrete Culvert, North Side Water Works. Reinforced concrete, 139 Cu.Yds.; Timber flume, 60 MBM.

No. 18. Concrete Culvert, South Side Water Works. Reinforced concrete, 64 Cu. Yds.; Timber flume, 16 MBM.

No. 21. Upper Railroad Bridge, Substructure; concrete, 2,000 Cu.Yds.

No. 22a. Upper Railroad Bridge, Superstructure, 4-100 foot double track, through riveted truss spans. Structural steel, fabrication and delivery, 1,750,000 lbs.

No. 22b. Upper Railroad Bridge, Superstructure. 4-100 foot double track through riveted truss spans. Structural steel, erection, 1,750,000 lbs. Deck timber, 80 MBM.

No. 23. Concrete Railroad Bridge at Dry Creek, Reinforced concrete through girders. Reinforced concrete, 4,800 Cu.Yds.

No. 30. Lower Railroad Bridge, Substructure. Concrete, 2,920 Cu.Yds.

No. 31a. Lower Railroad Bridge, Superstructure. 2-200 foot double track through riveted truss spans, skewed. Structural steel, fabrication and delivery, 2,500,000 lbs.

No. 31b. Lower Railroad Bridge, Superstructure. Structural steel, erection, 2,500,000 lbs.; deck timbers, 80 MBM.

No. 32. Santa Fe Avenue Highway Bridge, Substructure. Concrete, 325 Cu.Yds.; Steel tubes for cylinder piers, 4.

No. 33a. Santa Fe Avenue Highway Bridge, Superstructure, 1-280 foot through riveted highway span. Structural steel, fabrication and delivery, 615,000 lbs.

No. 33b. Santa Fe Avenue Highway Bridge, Superstructure. Structural steel, erection, 615,000 lbs.; Deck timber, 50 MBM.

No. 34. Rock Canyon Barrier, Embankment. Earth fill, 90,000 Cu.Yds.

No. 35. Rock Canyon Barrier, Concrete, Plain concrete, 5,000 Cu.Yds.; Reinforced concrete, 7,328 Cu.Yds., which works are a part of the system of flood control and stream elimination for The Pueblo Conservancy District, to be carried out under authority of The Conservancy Act of Colorado, and are in accordance with the Official Plan of the District.

The contracts will include, in addition to the principal quantities given, incidental work, such as excavation, backfill, track material, etc. Cement reinforcing steel and track material will be furnished to the Contractor. Other contracts necessary for the completion of the project have been deferred.

Proposals must be on the blank forms furnished by the Board, and must be accompanied by a certified check for not less than 5 per cent of the aggregate amount of the bid, figured on the basis of the estimated quantities and the unit prices bid, but which in no case shall be less than $1,000 or need be more than $50,000, such check to be drawn to the order of The Pueblo Conservancy District, as a guarantee that the bidder, if awarded a contract, will, within 15 days after the contract is delivered to him for that purpose, execute the same and furnish surety bond for the faithful performance of the contract in the sum of 55 per cent of the contract price; said contract and bond to be on the standard forms adopted by the Board. A bidder submitting alternative bids may furnish a single certified check covering the largest amount required by any alternative.

If any bidder, to whom an award has been made, shall fail to execute the contract or to furnish satisfactory bond within the time hereinbefore specified, or as extended by the Board, the award shall thereupon become void, in which case the proceeds of the certified check shall become the property of the District, and the contract may be awarded to the next lowest or best bidder; and such next lowest or best bidder shall thereupon assume the contract, as if he were the party to whom the award was first made.

Each bidder must, in his proposal, present satisfactory evidence that he has been engaged in constructing works of the general character covered by his proposal, and that he is fully prepared, and has the necessary capital, to begin the work promptly, and to conduct it as required by the contract and specifications.

The right is reserved to reject any or all bids, and to waive any technical defects, as the interests of the District may require.

Drawings, specifications, proposal blanks, and other information may be obtained on application to the Chief Engineer, The Pueblo Conservancy District, Pueblo, Colorado, at whose office drawings, borings and other data may be inspected. This information is now on file for examination and will be ready for mailing on or before January first. Specifications, drawings, sample blank forms and proposal forms covering any one contract will be furnished for $1.00, or all contracts for $15.00.

Bids should be sealed and marked "Bid on Pueblo Conservancy Contract." and inclosed in an envelope addressed to Chas. W. Lee, Room 740, First National Bank Bldg., Pueblo, Colorado, or presented in person at the time of the letting. Bids will be opened by the Board, in the Council Chamber, at the City Hall, Pueblo, at 2 p.m., Tuesday, January 15, 1924.

Done this 17th day of December, 1923, at Pueblo, Colorado, pursuant to resolution of the Board of Directors of The Pueblo Conservancy District.

E. D. SPRUILL.
Secretary.

Bids: Jan. 16.

(READVERTISEMENT)

Delaware River Bridge

CONTRACTS NOS. 9A, 9B, 9D, 10A & 10B
DEMOLITION

Philadelphia, Pa.

Sealed proposals for the demolition and removal of the buildings on the site of the Philadelphia approach between Front Street and Third Street, and between Fourth Street and Sixth Street, and the buildings on the site of the Camden Approach between Delaware Avenue and Fourth Street, will be received by the Delaware River Bridge Joint Commission at Room 806, Widener Building, Philadelphia, Pa., until 2:30 o'clock p.m., January 16, 1924, when they will be publicly opened and read. The contracts will be awarded, or all bids rejected, within fourteen days after bids are opened. The right is reserved to reject any or all bids.

Separate bids are asked for each of three sections of the Philadelphia Approach, and each of two sections of the Camden Approach. The work includes the demolition and removal of structures and certain other work incidental thereto. The work under Contracts 9A, 9B, 10A and 10B, is to be completed in three months, and that under 9D in six months.

Bids must be made upon the blank proposal forms, which together with specifications, bond and contract form, and contract drawings, may be obtained at the office of the Joint Commission, upon deposit of $10.00, which deposit will be refunded upon receipt of bid or upon the return in good condition of the copies so taken.

Each proposal must be accompanied by a certified check for Three Thousand Dollars, drawn upon a national or state bank or trust company having an office either in Philadelphia or Camden, and payable to the Delaware River Bridge Joint Commission, and surety's consent must be shown. The bidder or bidders to whom the contract for each section is awarded will be required to give bond in the sum of fifty per cent of the amount of such contract, but not less than $25,000.

Delaware River Bridge Joint Commission.
GIFFORD PINCHOT,
Chairman.
JOSEPH K. COSTELLO,
Secretary.

Bids: Jan. 29.

Street Paving

Baton Rouge, La.

Sealed bids will be received by the Commission Council, Baton Rouge, La., until 11:00 A.M., Jan. 29th, 1924, for paving sixteen streets. Bids will be received upon Asphaltic Concrete, Brick, Sheet Asphalt, and Warrenite Bitulithic, all on concrete base.

Approximate Quantities:
102,269 sq.yds. surfacing and base.
20,311 lin.ft. straight curb and gutter.
3,327 lin.ft. header curb.
585 lin.ft. circular curb and gutter.
3,970 lin.ft. drain pipe, 10 inch.
2,945 lin.ft. drain pipe, 12 inch.
150 lin.ft. drain pipe, 15 inch.
140 lin.ft. drain pipe, 18 inch.
56 catch basins.
3 manholes.
2,180 lin.ft. stone header.
27,680 cu.yds. excavation.

Plans and specifications are on file in the office of the Consulting Engineer, City Hall, Baton Rouge, La. Copies may be had upon payment of fifteen dollars, which will not be returned.

A certified check, or bidder's bond, for 5% of amount bid, payable to the Commissioner of Finance, City of Baton Rouge, must accompany each bid. The right is reserved to reject any and all bids.

J. W. BILLINGSLEY,
Consulting Engineer.

OFFICIAL PROPOSALS

Bids: Jan. 10.

Land Dredge

OFFICE OF THE COMMISSIONERS OF CHATHAM COUNTY AND EX-OFFICIO JUDGES

Savannah, Georgia.
December 13, 1923.

Sealed proposals will be received by the Commissioners of Chatham County and ex-officio Judges until the 10th day of January, 1924, at 12:30 o'clock p.m., and publicly opened by them at their office at that time for furnishing the County with One (1) Internal Combustion Land Dredge equipped with not more than three-quarter cubic yards capacity bucket, operated by at least fifty horse power Internal Combustion Engine. The machinery must be so designed as to dig new ditches and also to clean out those already dug.

Bidders will be required to submit with their bids specifications to the minutest detail of the machinery they propose to furnish, giving full weight of machine, length of boom, turning radius, compression per square inch on Caterpillar Tractors, and the total load on hoisting cable at different elevations of the boom, with guarantee of cost of operation, etc., and must also state at what place similar machinery to that bid on is in operation.

Proposals must be accompanied by a certified check, money deposit or bidder's liability bond, payable to the Commissioners of Chatham County, in an amount equal to 5 per cent of the amount of the total bid, to insure the succesful contractor delivering the machinery bid on and at the time he agreed to deliver the same.

TIME OF PAYMENT: The successful bidder will be paid on the 15th of the following month after delivery and acceptance of the machinery by the County Commissioners, by a warrant on the County Treasurer to be paid when in funds. Said warrent when presented to and stamped by the County Treasurer will bear interest at the rate of 7 per cent from the time of said presentation and stamping until paid.

The right is reserved to reject any or all bids and to waive all formalities.

By order of:
COMMISSIONERS OF CHATHAM COUNTY AND EX-OFFICIO JUDGES.
G. REUBEN BUTLER,
Clerk. (L. S.)

Bids: **Feb. 5.**

Sewers

Baton Rouge, La.

Approximate Quantities:
2,100 lin.ft. 10 inch V. C. Pipe.
2,500 lin.ft. 24 inch V. C. Pipe.
520 lin.ft. 36 inch Cast Iron Pipe **through** levee.
17 Manholes.

Plans and specifications on file in the office of the Consulting Engineer, City Hall, Baton Rouge. Copies may be had **upon** payment of $7.50, **which will not be** returned.

A certified check, **or bidder's bond, for** $3,000.00, payable to the **Commissioner of** Finance, Baton Rouge, must accompany each bid. **The right is reserved to reject** any or all bids.

J. W. BILLINGSLEY,
Consulting Engineer.

Bids: **Jan. 14.**

Filtration Plant

North East, Pa.

Sealed proposals will be received up to eight o'clock p.m., Monday, January 14, 1924, at the Council Rooms of the Borough of North East, Pa., for the construction of a rapid sand filtration plant, complete, consisting of two units of a capacity of 600,000 gallons daily. Plans and specifications may be seen at the office of the Boro Engineer or of the Boro Secretary. A deposit of $10.00 will be required for each set of plans given out, to be refunded when contract 's awarded and plans returned. All bids must be accompanied by a certified check for 5 per cent of the amount of bid and the right to reject any or all bids is reserved.

J. N. LEET,
Secretary.

OFFICIAL PROPOSALS

Bids: Jan. 17.

Double-Deck Bridge and Approach

New Orleans, La.

Sealed proposals will be received by the Board of Commissioners of the Port of New Orleans, at their office, Suite 200, New Court Building, until 3:00 P.M., Thursday, January 17, 1924, and then publicly opened for contracts in connection with the construction of a double-deck bridge and approach span, containing about 213 tons of structural steel, operating machinery and trim, for the ferry landing at the foot of Canal Street, New Orleans, La., as follows:

Requisition E. D. 14393—Under one contract.

Furnishing structural steel for ferry bridge with or without erection of bridge, of machinery and of trim.

Requisition E. D. 14394—Under one contract.

Erection of ferry bridge, of machinery and of trim.

Requisition E. D. 14395—Under one contract.

Furnishing ferry bridge machinery.

A deposit of $1,000 in cash or **certified** check is required with the proposal to cover the first requisition and $400 in cash or certified check with each of the other proposals.

A bond to the amount of fifty per cent (50%) of the sum bid will be required with each notarial contract signed.

Specifications and proposal forms are on file in the office of the Supervisor of Purchases, at No. 1 Canal Street, New Orleans, Louisiana. Complete sets for each proposal will be furnished to prospective bidders on deposit of $10 for each set, which will be refunded to depositors who submit proposals or return sets in good condition.

The right is reserved to reject any or all bids and to waive informalities.

AN experienced structural steel detailer wanted to do detailing and estimating. Location West of Mississippi River. P-254, Engineering News-Record, Old Colony Bldg., Chicago, Ill.

DRAFTSMEN and checkers, experienced in making shop drawings for structural steel work. Good opportunity for competent men. Apply Whitehead & Kales Co., Detroit, Mich.

EXPERIENCED architectural and structural designer and draftsman. Only technical graduates, thoroughly familiar with building codes need apply. State age, availability and salary. P-272, Eng. News-Record, Leader-News Bldg., Cleveland, Ohio.

ESTABLISHED construction company doing general building construction, requires the services of an experienced estimator. State experience and salary expected in first letter. Communications confidential. Address P-176, Eng. News-Record, Real Estate Trust Bldg., Phila., Pa.

LEVELERS and rodmen for work on subway construction, New York City; entrance salary $1,501 per annum, with opportunities for advancement; open to graduates in civil engineering or those with at least one year's satisfactory practical experience; citizens only; apply giving full information as to education and experience to Chief Clerk, Transit Commission, 49 Lafayette Street, New York City.

PUMP draftsman: Large mid-west manufacturer has opportunity for man familiar with centrifugal, steam and power pumps. Must be good detailer and thoroughly familiar with material lists. Good opportunity for young, energetic pump man. Location Michigan. P-251, Engineering News-Record, Leader-News Bldg., Cleveland, Ohio.

SEVERAL experienced bridge designers for highway work wanted; must be good draftsmen. Give complete statement of education and experience, age and nationality. Submit sample of drafting. State salary. P-229, Engineering News-Record, Old Colony Bldg., Chicago, Ill.

STRUCTURAL engineers wanted for designing structural steel factory and mill buildings; also for designing reinforced concrete buildings; state experience in full detail and salary expected. P-245, Engineering News-Record, Leader-News Bldg., Cleveland, Ohio.

STRUCTURAL engineer, experienced in truss, general steel, design and drafting; give full particulars as to training previous positions age and salary expected. Asbury Bridge & Iron Works, Asbury Park, N. J.

STRUCTURAL engineer wanted, experienced in estimating and detailing, one with sales experience preferred. State experience, also salary expected in first letter, Southern Ohio territory. P-275, Eng. News-Record, Leader-News Bldg., Cleveland, Ohio.

POSITIONS VACANT

STRUCTURAL steel and railroad bridge draftsman wanted. State age, nationality, education, experience in full, salary expected aand date you can report for work. Address P. G. Lang, Jr., Engineer of Bridges, Baltimore and Ohio Railroad Company, Baltimore, Md.

SUPERINTENDENT to take charge of a sand and gravel dredging plant. Must understand the operation of floating derricks having clam-shell buckets and hoisting sand and gravel out of beach. Must be familiar with the construction and operation of a screening plant and the loading of scows. Location, forty miles from New York on Long Island. State age, experience and salary expected. P-186, Eng. News-Record, 10th Ave. at 36th St., New York.

WANTED (at once) structural draftsman. Only first-class men need apply. Apply Bethlehem Construction Company, Bethlehem Trust Bldg., Bethlehem, Pa.

WANTED: The Blaw-Knox Company has an opening for a young civil engineer interested in being trained for sales work. This is a good opportunity. Construction experience necessary, particularly in highway and concrete construction. Sales experience desirable but not essential. Write your story completely, with references in first letter, to Blaw-Knox Company, attention Sales Manager, P. O. Box 915, Pittsburgh, Pa.

WANTED, writer in civil engineering subjects; must be a college graduate with experience in railroad surveying and construction; position requires residence in Eastern city of 150,000. State education and experience, also initial salary expected in first letter. New York or Philadelphia interview. P-248, Engineering News-Record, 10th Ave. at 36th St., New York.

WE need a Surveyor who is experienced in the relocation of city and country property lines from descriptions by metes and bounds and who not only can keep, but is in the habit of keeping, full and complete notes of all he does. He need not be an engineer, though training as an engineer would not disqualify. We are not advertising for students. We want someone who can deliver the goods. Please do not reply to this ad unless you can fill the bill and are dependable, accurate, sound in wind and limb, and intend to stick. If you do answer, state age, education, experience, least salary considered, and date available. Box 796, Asheville, N. C.

WE require the services of an engineer-surveyor who is familiar with the following branches of work: relocation of property corners from descriptions by metes and bounds; stadia, road and sewer location and construction; topography, drafting, etc. Judgment in the first named branch is an important item. Please do not answer this ad unless you can fill the bill and are accurate, dependable, healthy and intend to stick. We do not want a rolling stone, as this will be a permanent job for the right man. If you do answer, state age, education, experience, least salary considered and date available. Brown & Gibbs, Asheville, N. C.

EMPLOYMENT SERVICE

SALARIED men seeking tentative offers of new connections, are invited to communicate confidentially with the undersigned, who will negotiate overtures without jeopardy to present connections. A professional, ethical service, restricted to high grade positions; established 1910. Our "Refund Contract" guarantees refund of retaining fee to the client named therein, if service is not satisfactorily rendered and refund be requested within three months from date remitted. Send name and address only for particulars. R. W. Bixby, Inc., 701 Lockwood Building, Buffalo, New York.

EXECUTIVES, engineers and other qualified men whose salary requirements are over $2,500 per year, find our confidential direct service to specific employers extremely satisfactory. An inquiry entails no obligation. The National Business Bourse, Inc., H. H. Harrison, President, Association Building, Chicago.

EMPLOYMENT AGENCIES

GENERAL ENGINEERING AGENCY, Monongahela Bank Building, Pittsburgh, Pa. Supply employers everywhere, freely, prepared proposals available plant managers, superintendents, chief engineers, designers, draftsmen, transitmen, office clerks. Power engineers, electricians, master mechanics for every purpose, individuals or groups. General registration, no registration fees. We send men to Canada, Mexico, Central and South America.

NATIONAL CLERICAL BUREAU — Wisconsin's only technical agency offers special opportunity to technical men to locate in Milwaukee and vicinity where diversified industries assure both opportunity for advancement and steady employment. No advance fee. Loan & Trust Building, Milwaukee, Wis.

WANTED—Teachers engineering subjects. Draftsmen, mechanical, structural, architectural and civil engineering work. Recent graduates for various engineering opportunities. Cleveland Engineering Agency, Rose Bldg., Cleveland, Ohio.

POSITIONS WANTED

Civil Engineers

CIVIL engineer, age 31, ten years' experience, highway location and construction, railroad location, construction, tunnel driving, industrial construction surveys, reports, estimates. Desires permanent position with chance of advancement through meritorious service. At present employed as resident engineer but available on short notice; location immaterial. PW-244, 7ngineering News-Record, Old Colony Bldg., Chicago, Ill.

WILSON COURSES *(By Mail)*

"Engineer Makers" is what one enthusiastic student calls these courses; another student asks, "Isn't there some way of letting more draftsmen know about your courses"? "Thousands of good men are looking for just such practice work as you give in these courses, and they don't know where to find it."

We want to reach every technical graduate who needs **Experience** and every other man who has some knowledge of mathematics to start with; we have trained thousands in our 12 years of business and we invite communication with every man in the profession, regardless of age, who needs to modernize his methods, or get experience, or who is not satisfied with his present position through lack of confidence in his ability.

Reinforced Concrete Designing; Steel Designing; Bridges, Estimating a part of every course.

FREE literature; write for it TODAY

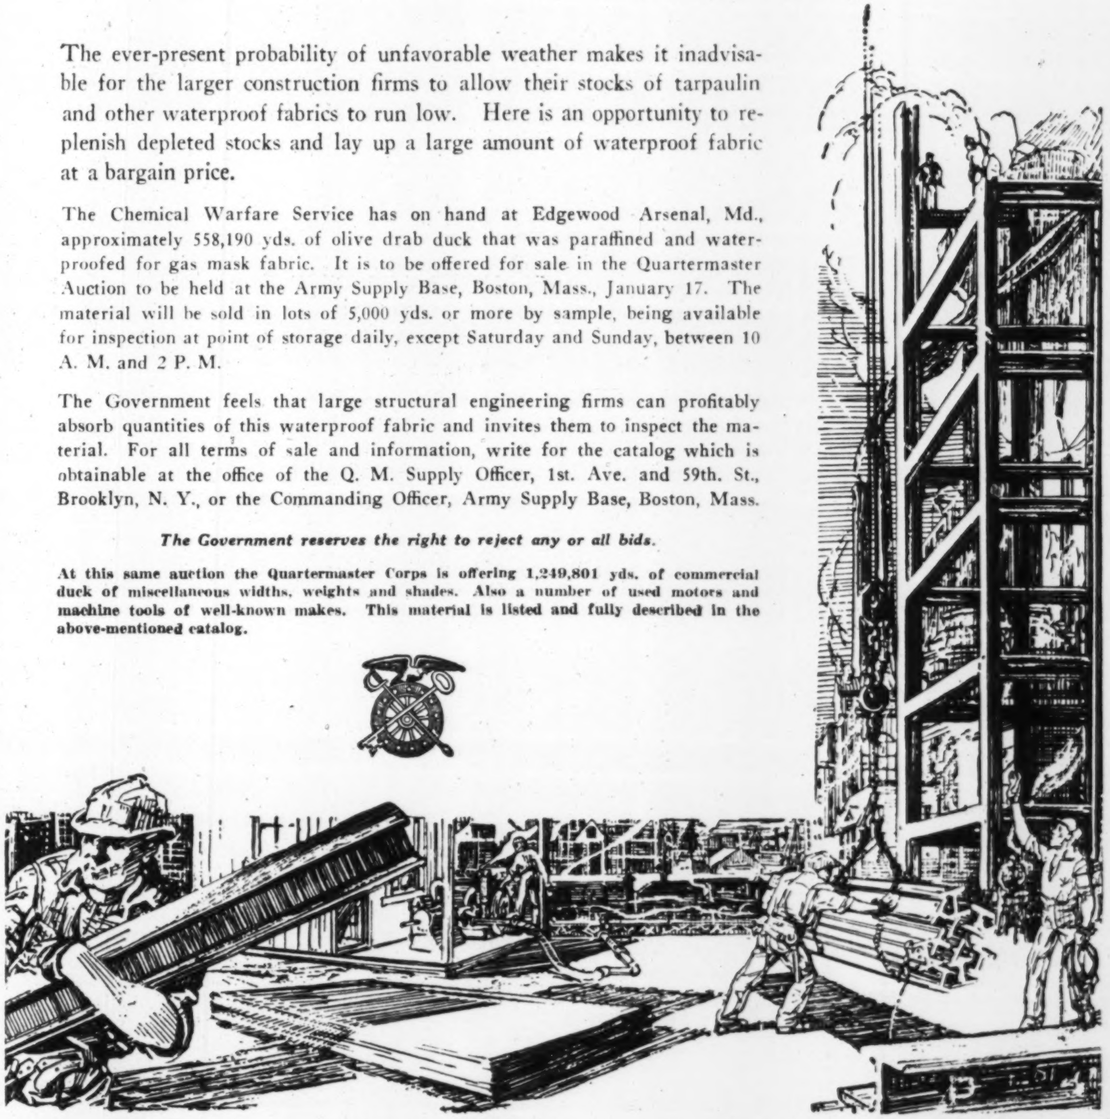
We have just completed a large factory for the manufacture of all kinds of fabricated steel products and solicit your inquiry. We are prepared to render exceptional service on structural steel shapes and plates. Tell us what you need—we can make it. Representation desired in all territories.

The Building Products Co.
Toledo, Ohio

Construction Protection

The Quartermaster Auction at Boston, Jan. 17, offers Engineering Contractors a large amount of Waterproof Duck



The ever-present probability of unfavorable weather makes it inadvisable for the larger construction firms to allow their stocks of tarpaulin and other waterproof fabrics to run low. Here is an opportunity to replenish depleted stocks and lay up a large amount of waterproof fabric at a bargain price.

The Chemical Warfare Service has on hand at Edgewood Arsenal, Md., approximately 558,190 yds. of olive drab duck that was paraffined and waterproofed for gas mask fabric. It is to be offered for sale in the Quartermaster Auction to be held at the Army Supply Base, Boston, Mass., January 17. The material will be sold in lots of 5,000 yds. or more by sample, being available for inspection at point of storage daily, except Saturday and Sunday, between 10 A. M. and 2 P. M.

The Government feels that large structural engineering firms can profitably absorb quantities of this waterproof fabric and invites them to inspect the material. For all terms of sale and information, write for the catalog which is obtainable at the office of the Q. M. Supply Officer, 1st. Ave. and 59th. St., Brooklyn, N. Y., or the Commanding Officer, Army Supply Base, Boston, Mass.

The Government reserves the right to reject any or all bids.

At this same auction the Quartermaster Corps is offering 1,249,801 yds. of commercial duck of miscellaneous widths, weights and shades. Also a number of used motors and machine tools of well-known makes. This material is listed and fully described in the above-mentioned catalog.

WAR DEPARTMENT

STRUCTURAL STEEL BUILDINGS

At the Old Hickory Powder Plant, Old Hickory, Tennessee

4—Structural steel buildings, 85 ft. 6 in. wide, 184 feet long, and 75 ft. 6 in. high. Covered with corrugated iron. Heavy construction, as shown by picture. Designed for heavy loading on floors.

A building identical to these was recently dismantled and shipped to Detroit, Michigan, where it will be re-erected in almost the exact form of the original. *Good proof of the sales values at Old Hickory.*

HOISTING ENGINES

In Stock in Baltimore

DOUBLE CYLINDER 3 DRUM AND BOILER

Number
83—7½x12 Mundy.
81—8 x12 Mundy.
80—8¼x10 National.
87—9 x10 Lambert.

DOUBLE CYLINDER DOUBLE DRUM AND BOILER

10—5 x 6 Flory.
75—6 x10 Mundy.
37—6¼x 8 Flory.
13—6¼x10 Flory.
82—6¼x10 Flory.
2—7¼x10 Mundy.
45—7¼x10 National.
85—8¼x10 Lidgerwood.
84—8½x10 Lambert.
44—9 x10 Lidgerwood.
102—9 x10 Lidgerwood.

DOUBLE CYLINDER SINGLE DRUM AND BOILER

38—6¼x10 Flory.

DOUBLE CYLINDER DOUBLE DRUM SKELETON SWINGING GEAR ATTACHED

86—7 x10 Lidgerwood, place for Boiler.
72—8½x10 Lambert.
73—8½x10 Lambert, place for Boiler.
53—9½x12 Lambert.

SWINGING ENGINES

51—3 x4 Mead & Morrison.
88—4½x6 Mead & Morrison.
100—4½x6 Mead & Morrison.
90—4½x6 Mundy.
103-104-105-106—4½x6 Mundy.
107—4½x6 National.
66—5 x6 Lidgerwood.

EVERY item listed here is either new or rebuilt and will pass the most rigid inspection.

Number
67—5 x6 Lidgerwood.
68—5 x6 Lidgerwood.
77—7 x8 American.
34—15-8¼x8 Lidgerwood.

DOUBLE CYLINDER SINGLE DRUM SKELETON

7—5 x 6 Lidgerwood, Reversing.
79—5 x 7 Orr & Sembower.
8½—5 x 7 Lidgerwood.
25—5 x 8 Lidgerwood, Reversing.
35—6¼x 8 Glover.
28—6½x10 Con. Plant.
29—6½x10 Con. Plant.
26—7 x10 Hunt.
22—8 x10 Hunt, Reversing.
40—8¼x10 Lidgerwood, 4 Winch Heads, Reversing.
24—8¼x10 Lidgerwood Reversing.
112—2-8½x10 Orr & Sembower, Reversing.
113—7-8½x10 Orr & Sembower, Reversing.
61—5-8½x10 Mead & Morrison, Reversing.
23—9 x10 Roberts.
52—12x12 Lambert, Reversing.
27—7 H.P. Dake.

DOUBLE CYLINDER DOUBLE DRUM SKELETON

Number
11—5 x 8 Lidgerwood.
43—6¼x 8 Lidgerwood.
42—6¼x10 Crook.
41—6½x10 Lambert, place for Boiler.
32—6½x10 American.
20—6½x12 Mundy.
15—6½x12 Mundy.
39—2-7 x 8 American, Reversing.
19—7 x10 Lidgerwood.
21—7 x10 Lambert, place for Boiler.
36—7 x10 Flory, place for Boiler.
93—7 x10 Lidgerwood.
94—7 x10 Lambert.
95—7 x10 Lambert.
96—7 x10 Pittsburgh.
101—7 x10 Flory.
7 x10 Marine.
7½x10 Mundy.
46—8 x10 National, place for Boiler.
78—8 x10 Marine Iron Works.
111—2-8¼x10 Mead & Morrison Reversing.
76—8¼x10 American.
97—8¼x10 Flory, place for Boiler.
108—2-9 x10 Lidgerwood.
99—10x12 Mead & Morrison.
14—20 H.P. Dake.

DOUBLE CYLINDER 3 DRUM SKELETON SWINGING GEAR ATTACHED

89—7x10 Lidgerwood.

DOUBLE CYLINDER 3 DRUM SKELETON

63—7 x10 American, place for Boiler.
64—7 x10 American, place for Boiler.
74—7 x10 Flory.
58—8¼x10 Flory.
98—8¼x10 Lidgerwood.
70—9 x10 Mead & Morrison.

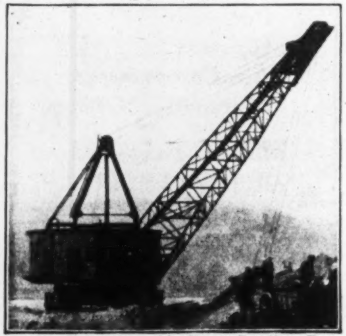
DEPENDABLE USED EQUIPMENT

READY TO DO YOUR JOB

Our equipment is maintained, inspected and overhauled at our own shops, by men familiar with every piece, which assures you equipment that is dependable and superior to just ordinary used machines.

DRAGLINE EXCAVATORS

1—"Lidgerwood" Class "B" Steam Dragline Excavator, truck mounted, 60-ft. or 75-ft. boom, 2-yd. or 1⅛-yd. bucket.
1—"Lidgerwood" Class "B" Dragline Excavator, truck mounted, 60-ft., or 75-ft. boom, 2-yd. or 1⅛-yd. bucket.
1—"Lidgerwood" Class "B" Steam Dragline Excavator, mounted on four double flanged wheels. Boom is 60-ft. with 15-ft. extension and handles 1½-yd. or 2-yd. bucket.



1—"Bucyrus" Class 14 Steam Dragline Excavator, mounted on caterpillars, with 60-ft. boom and 2-yd. bucket.
2—"Bucyrus" Class 24 Electric Dragline Excavators, skid mounted, with 85-, 100-, or 115-ft. boom, and 4½-, 3½-, or 2½-yd. bucket.

1—"Marion" Model 21 Dragline Excavator and Crane, mounted on caterpillars; 32-ft. boom, ¾-yd. bucket, either drag or clam shell.

DERRICKS AND HOISTS

Steel guy derricks, 70-ft. boom, 82-ft. mast. Wood guy and stiff-leg, 45-ft. boom, 50-ft. mast. Lidgerwood and Thomas Hoists.

PUMPS

Centrifugal pumps up to 14 in. with or without motors.

SUB-STATION TOWERS

high voltage, with lightning arresters.

6 CONCRETE BUCKETS

1½-yd. capacity.

SMITH CONCRETE MIXERS

½-yd. steam—¼-yd., gasoline.

25—ELECTRIC MOTORS—25

7½ to 500 hp.—220-440-2200—A.C.

1—10-TON HUBER STEAM TRACTOR

LOCOMOTIVES

1—35-ton Baldwin, std. gauge.

LOCOMOTIVE CRANES

Orten & Steinbrenner, 20 ton.

50—TRANSFORMERS—50

6/10 kva. to 500 kva.

TRANSMISSION AND HIGH TENSION LINE MATERIAL

STEAM PILE HAMMER

1—Ingersoll-Rand, 3 in.

GATE VALVES

10-12-15-in. Iron Body Bronze Mounted.

SPUD EQUIPMENT

Speed Hoists for use on dredge or scow.

NEW REPAIR PARTS at half price for above equipment, also for Bucyrus Dragline Excavators, Class 9½ and 175, Marion Models 21 and 36, Smith one-yard Concrete Mixers, Western 4 and 12-yd. Dump Cars, Cyclone Class "B" Non-traction Well Drills, Ingersoll-Rand E-44 Tripod and 100 B.C.R. Jackhamer Drills, Sullivan F. L. 3 Tripod and D.P. 33 Jackhamer Drills, American Railroad Ditcher, Dull Link Gravel Washers, American 40 and 50-ton Locomotives, Allis-Chamers, General Electric and Westinghouse Motors.

MIAMI CONSERVANCY DIST. SALES DIVISION, DAYTON, OHIO

"WE BUY, REBUILD, SELL or RENT"

ANNOUNCEMENT!

In addition to our large stock of equipment listed on the lower part of this page, we have purchased the following equipment which was just released from a large sewer job being completed in Detroit. This equipment will not be loaded out to our Plants for several weeks, and we are now offering same for sale f.o.b. Detroit. Description as listed below:

BOILER

1—Ames Locomotive type, 100 hp., Butt strapped, complete with stack.
Also several small vertical boilers.

DUMP CARS

64—Western, 4-yd., 36-in. gauge.
27—K. & J., 4-yd., 36-in. gauge.
4—Drop bottom Concrete Cars, 36-in. ga.
12—Koppel 1½-yd., "V" shaped, cradle dump cars, 36-in. ga. All steel, spring draw bars and axles.

CRANE

1—15-ton Brown Hoist Locomotive Crane, 8-wheel MCB, standard 48-ft. boom, also 1—65-ft. goose neck boom.

DREDGE

1—Hydraulic Dredge, Hull 32x8x110-ft., equipped with 12-in. Erie Pump, 250 hp. Ball Engine, tandem compound, and 300 hp. Scotch Marine Boiler, 3 Morrison Furnaces. This Dredge is complete with all miscellaneous equipment and is now located at Erie, Pennsylvania.

LOCOMOTIVES

1—Brooks, 16x24, standard gauge, 6-wheel switcher with tender. Weight on drives 45 tons.
2—Porters, 18-ton, 36-in. gauge, cyl. 10x16. Shop No. 5238 and No. 4612.
3—Vulcan, 18-ton, 36-in. gauge, cyl. 10x16, Shop No. 1612, No. 1577, No. 1575.
2—Porter, 14-ton, 36-in. gauge, cyl. 9x14, Shop Nos. 2873 and 3469.
2—Burton 3½-ton, 36-in. gauge, purchased new in 1921.

DRAGLINE

1—Class No. 20 Bucyrus Dragline Excavator, 2½-yd. Page Bucket, Steam, Shop No. 856, on skids and rollers. 85-ft. boom.

PUMPS

Miscellaneous lot of piston pumps, consisting of Cameron & Prescott & Blake.
1—Pulsometer No. 3.
1—Pulsometer No. 7, 4-in. suction and 4-in. discharge.
1—Centrifugal, 8-in., direct connected to Westinghouse 9x8 engine.

STEAM SHOVEL AND CRANE

1—Erie type "B", traction wheels, high lift, ¾-yd., also has ½-yd. sewer bucket and stick, also 36-ft. crane boom.
1—Bucyrus 70-C, Shop No. 1266, equipped with 2½-yd. dipper, new boiler.

All equipment listed below is in stock and may be inspected at one of our four Rebuilding Plants

CLAMSHELL BUCKETS

3—2-yd., 2 Owens, 1 O&S.
2—1½-yd. Williams, heavy duty.
23—1-yd., Blaw Knox, Standard, Lakewood, Owens.
34—¾-yd., Standard, Keisler, Hayward, Owens and Blaw Knox.
14—½-yd. All makes.

CONCRETE MIXERS

2—Ransome, No. 56-S, cap. 2-yd., on skids, without power.
60—Concrete Mixers, sizes 28S, cap. 1-yd., 21S, cap. ¾-yd.; 14S, cap. ½-yd. and 10S, cap. 1¾-yd. With steam or electric power with side loaders or batch hoppers. Following makes: Marsh-Capron, Koehring, Milwaukee, Ransome, Smith, Smith-Chicago, Rex, Lakewood, Foote, Cube, or Oshkosh.
42—7S, cap. 1 bag, with low charging platforms, with gasoline engines.

CARS

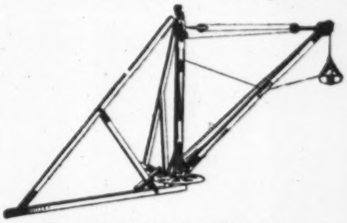
52—Koppel Flat Cars, 24-in. gauge, Spring Journal and draw bars. Frame 35x84x6-in. channels.
15—Lakewood Flat Cars, spring journals and spring draw bars, ball bearing.

CATERPILLAR CRANE

1—Northwest Combination Crane and Dragline, caterpillar, 40-ft. boom, 70-hp. Gasoline Engine, ¾-yd. Page Bucket.
1—Brownhoist, combination Crane & Dragline, 40-ft. boom, ¾-yd. clam shell bucket, has ⅝-yd. skimmer scoop attachment also equipped to handle 1-yd. Dragline bucket.

COMPRESSORS

1—Ingersoll-Rand, Steam, cap. 960 cu. ft. per minute, 100 lb. pressure.
1—Sullivan, Class W.G.3, belt driven, cyl. 10x12.
1—Westinghouse, size 11x11x12, on skids.
1—Westinghouse, size 8x8x9, on skids.



ELECTRIC HOISTS AND DERRICKS FROM HOG ISLAND

Specifications of Electric Hoists

35—American late model hoists. These hoists have 2 drums with attached swinging gear, with 37-hp. Otis A.C., 440-v., 60-cy., 3-ph. electric motor—complete with controllers and resistance grids—can be changed to suit customer's current requirements if desired.

Can furnish counterwighted holding drums with these hoists when used for operating bucket.
Also several 55 and 75-hp., single and double drum hoists with A.C. motors.

Specifications of Derricks

Large number of practically new American stiff-leg derricks.
Boom, 14x14x80-ft., trussed.
Mast, 16x16x40-ft.
Legs, 14x14x62-ft.
Bull wheel, 16-ft.
For Single Line Work or Arranged for Bucket Operation.
Will sell fittings only if desired.
Also have large stock of lighter stiff-leg derricks, several steel stiff-legs, 20, 30 and 50 ton.

GUY DERRICKS

9—Wood Guy Derricks; bucket operating or hook line, masts 60 to 90 ft., booms 50 to 80-ft., with "American" fittings.

STEAM HOISTS

10—Three-Drum Hoists, with or without boilers. Sizes, 9x12, 9x10, 8¼x10, and 7x10, with separate swingers for derrick work. All makes.
26—Two-Drum Hoists, with or without boilers. Sizes, 10x12, 9x10, 8¼x10, 7x10, 6¼x10, 6x8, and 5x8. Can be equipped with holding drum for bucket work. Several special Cableway Excavator or Drag Scraper Hoists. All makes.
2—8¼x10 American, D.C., D.D., with swingers.
1—7x10 National Single drum with boiler.

LOCOMOTIVES

2—3-ton Plymouth, 24-in. gauge gasoline.
1—7-ton Davenport, 24-in. gauge, steam.
1—6-ton Whitcomb, 24-in. gauge, gasoline.
1—6-ton Plymouth, 24-in. gauge, gasoline.

ROAD ROLLERS

1—10-ton Austin, 3-wheel, gasoline, single cylinder.
5—10-ton, 3-wheel, steam—2 Buffalo-Pitts, 1 Kelly-Springfield, 1 Peerless, 1 Monarch.
1—5-ton Iroquois Tanden, steam.
1—3-ton Erie Tandem, steam, new.

STEAM SHOVELS

4—Keystone Excavators, 3—No. 3, 1—No. 4
2—Type O Thew on traction wheels with ⅝-yd. dipper.
1—Type A-1 Thew, traction wheels, ⅞-yd. dipper.

CRANES

2—Byers Auto Cranes, on traction wheels, with 30-ft. boom, with ½ or ¾-yd. clam shell bucket, 1 steam, 1 gasoline.
1—15-ton, 8-wheel, O.&S., 40-ft. boom.

The above is only a partial list of our equipment. Write for latest stock list

FOR SALE OR RENT

STEAM SHOVELS

1—Type B Erie Traction. Shop No. 321. ¾-yd. dipper.
7—70C Bucyrus, Shop Nos. 1277. 1445, 1482, 1499, 1582, 1608 and 1998; 2½-yd. dippers.
3—70-ton Bucyrus, Shop Nos. 920, 977, and 1233. 2½-yd. dippers.
1—Model 60 Marion, Shop No. 2367, 2½-yd. dipper.
1—Model 80 Marion, Shop No. 876, 4-yd. dipper.

STEAM SHOVEL PARTS

1—1½-yd. Coal Loading Dipper for Marion 36 Steam Shovel.
2—Booms for 70-ton Bucyrus, length 29 ft.
1—Boom for 70C Bucyrus shovel, composite, length 40 ft.
1—Marion Dipper, 2½ cu. yd. capacity.
1—Bucyrus Dipper, 3 cu. yd. capacity.
Jack Arms and Boom Engines for 70-ton Bucyrus Shovels.

DRAGLINE EXCAVATORS

1—Class 7 Bucyrus. Shop No. 798, mounted on skids and rollers, 42-ft. boom, 1-yd. bucket.
1—Class 14 Bucyrus. Shop No. 745, mounted on skids and rollers or tandem wheels, 60-ft. boom, 2-yd. Page bucket.
1—Class 14 Bucyrus. Shop No. 2140, mounted on caterpillars, 60-ft. boom, 2-yd. Page bucket.

LOCOMOTIVES

1—18 x 24 American, 6-wheeled switcher, Brooks No. 2318. Wt. 55 tons on drivers.
1—18x24 American 6-wheeled Switcher. Brooks No. 1778. Wt. 50 tons on drivers.
1—16x24 Baldwin 6-wheeled Switcher, with tender. Shop No. 44887. New in 1917. Wt. 43 tons on drivers. 180 lbs. pressure.
1—16x24 Vulcan 4-wheeled Switcher with tender. Shop No. 1764. Wt. 40 tons. 180 lbs. steam pressure.

LOCOMOTIVES (Continued)

1—16x24 Baldwin 4-wheeled Switcher with tender. Shop No. 37643. Wt. 39 tons. 180 lbs. steam pressure.
1—16x24 Davenport 4-wheeled Switcher, with tender. Shop No. 900. Wt. 38 tons. 170 lbs. steam pressure.
1—17x24 Baldwin 4-wheeled Saddle Tank Locomotive. No. 15683. Wt. 47 tons.
1—16 x 22 C. M. & St. P. Ry., Class J-2, 4-wheeled switcher. Weight 32 tons.
1—Std. gauge 11x16 Davenport Dinkey. Shop No. 1163, new in 1912. Air brakes, automatic couplers. Wt. 20 tons
2—Std. gauge 11x16 American 4-wheeled Saddle Tank Locomotives. Shop Nos. 46519 and 47421, built 1912. Wt. 21 tons. Steam brakes, automatic couplers.
1—Std. gauge, 11x16 Davenport Dinkey. Shop No. 1027, new in 1910. Steam brakes. Wt. 20 tons.
1—36-in. gauge, 10x16 Vulcan Dinkey; Shop No. 868. Wt. 18 tons.
2—24-in. gauge, 7x12 Davenport Dinkies. Shop Nos. 1411 and 1524. Wt. 9 tons.
1—24-in. gauge, 7x12 Vulcan dinkey, Shop No. 2345. Wt. 9 tons.
1—24-in. gauge 6x10 Davenport side tank Dinkey. Shop No. 1307. Wt. 7 tons.
1—24-in. gauge 5x10 Shay geared. Lima No. 2678. Wt. 12 tons.
1—24-in. gauge, 6-ton Plymouth. Type 2, No. 1077.

CRANES

1—30-ton Ohio Locomotive Crane. No. 3416, new in 1919. 55-ft. boom, 20-ft. extension, 1½-yd. clam shell bucket.
1—Pintle Type Crane, built by Variety Iron & Steel Works. New in 1919; 48-ft. boom, 15-ton cap. at 18-ft. radius; 7-ft. 10½-in. gauge, 12-ft. wheelbase, self propelling. Base of boom 17 ft. above track. Bucket-operating drums. Wt. 50 tons. Price, 25% of new.
1—10-ton Industrial Crane (Shop No. 1989). 4 wheeled, 40 ft. boom.
1—Crane Boom, 33 ft. long, drum and necessary equipment for converting type B Erie shovel into crane.

DUMP CARS

38—20-yd. Western, all steel Air Dump Cars, 80,000 lb. capacity.
20—12-yd. Western Air Dump Cars, 19-ft. beds, steel sills, box girder doors.
4—16-yd. Western Air Dump Cars, steel sills, box girder doors.
8—12-yd. Western Hand Dump Cars, 19-ft. beds, steel sills, box girder doors, full M.C.B.
15—8-yd. Western, 36-in. gauge, double truck side Dump Cars; steel draw sills, wood beds.
4—4-yd. Continental, 36-in. Gauge Side Dump Cars, wood beds, steel draw sills.
9—12-yd. Western Air Dump Cars, 26-ft. beds.
4—4-yd. Western, 36-in. gauge, Wood Sill Dump Cars, truss rod doors.
24—4-yd. Continental, 36-in. gauge, wood draw sills, 4 pedestals, truss rod doors.
8—3½-yd. Peteler 36-in. gauge side dump cars, wood sills and wood beds.

SPREADER CARS

1—Std. gauge Jordan All Steel Spreader Car, 100,000 lb. capacity. Shop No. 317.
1—Std. gauge Western Spreader Car.
1—36-in. gauge Western Spreader Car,
1—36-in. gauge Oliver Spreader Car.

MISCELLANEOUS

1—7x10 D.C., D.D. Lidgerwood Hoist No. 25967. No boiler.
1—7x10 D.C., D.D. Lambert Hoist, with or without boiler.
3—1½-yd. Western Bottom Dump Wagons.
3—Locomotive Air Pumps, 9½-in. and 11-in. simple, 8½-in. and 9½-in. cross compound.
2—80-hp. horiz. Boilers, with fittings.
1—1½-yd. Page Dragline Bucket.
6—Mead-Morrison 1½-yd. Clam Shell Buckets.
3—1¼-yd. O. & S. coal loading clam shell buckets.

823 H. P. Stirling Water Tube Steam Boilers

From the Old Hickory Powder Plant, Old Hickory, Tennessee. Used less than ninety days, and in excellent condition. Inspection invited.

OFFERED AT MONEY SAVING PRICES

SPECIFICATIONS

Class M-30, each unit having 8226 sq. ft. heating surface, in accordance with following specifications and A.S.M.E. Code.

The heating surface of each boiler consists of three steam and water drums and a mud drum, as follows:

3—Steam Drums 42-in. diameter, 17-ft. 1⅜-in. long, ⅝-in. plate.

1—Mud Drum. 48-in. diameter, 16-ft. 7⅝-in. long, 1-in. plate.

Drums connected by 630 tubes, 3¼-in. diameter, connections made by expanding wrought tubes into reamed tube seats.

Space occupied by each boiler 18-ft. wide, 23-ft. 3-in. deep, 29-ft. 9-in. high.

DRUM CONSTRUCTION

All flanges for blow-off, feed, safety valve and water column connections made of wrought steel and riveted to the drums. The cylindrical portions of each drum made of a tube plate and a shell plate. Longitudinal seams double riveted, butt joint, circular seams, single riveted, lap joint.

TUBES

Tubes, 3¼ in., hot rolled, seamless steel, No. 10 gauge, for working pressure of 180 pounds to and including 225 pounds. Spaced alternately wide and narrow to facilitate replacement.

VALVES AND FITTINGS

Each boiler supplied with the following valves and fittings:

4—4½-in. Safety Valves, nickel seat, set to blow at 200 pounds.
1—15-in. Ashcroft Steam Gauge with 12-in., 400-lb. dial.
1—Water column fitted with bronze mountings for glass water gauge with special shut-off device operated from fire-room floor to allow renewal of glass under pressure. Three try cocks with lifting handles for operating from fire-room floor, fitted with steam metal valves. Independent blow-off pipes from bottom of column and glass gauge, carried down the front, terminating in the ash pit, fitted with valves at height of hand.
1—3-in. Hancock Bronze Stop Valve and one 3-in. Hancock Bronze Check Valve for feed.
2—2½-in. Blow-Off Valves and two Stop Cocks.
2—2½-in. Bronze Stop Valves on steam dusting hose connection.

STOKER ENGINE

1—8x8-in. Buffalo Vertical Engine, single acting, inclosed type, Class A, rated at 32 hp., 350 r.p.m., equipped with one 2½-in. Buffalo governor. Engine and accessories by Buffalo Forge Company.

FIXTURES

A full set of cleaning and ash doors and frames for side and rear walls, giving access to all parts for exterior cleaning. A large circular door and frame for access to mud drum manhead.

One cast iron damper box, damper and operating rig all supported from boiler structural supports, arranged for connection to horizontal breaching in rear, and operated from front of boiler.

Necessary buckstays and tie rods for securing all parts in position, and supports for baffle walls.

WORKING PRESSURE

The boilers were constructed for a working pressure of 200 pounds per square inch. All drums were tested and made tight under hydrostatic pressure of 300 pounds. When erected complete the boilers were tested and made tight under hydrostatic pressure of 250 pounds.

ACCESSORIES

Accessories furnished in addition to those mentioned:

1—8-in. Foster Non-return Valve.
1—6 Element Vulcan Soot Blower complete with all piping and valves.
1—Bailey Flow Meter, Type D-25, Class 56; rated flow 28,000 pounds per hour; maximum flow 70,000 lbs. per hour.

STOKERS

8-Retort Westinghouse Double Dump Underfeed Stoker, with line shaft, sprockets, transmission guards, extension coal hopper, etc.

FAN AND TURBINE

1—Buffalo Turbo-Conoidal Fan, Type T-D 9½, double inlet. Capacity 100,000 cu. ft. per minuate at 6-in. water pressure and 970 r.p.m. Driven by 225-hp. horizontal multi-stage, non-condensing Moore turbine and reduction gear. Gear ratio, 3600 r.p.m.—970 r.p.m. Throttle valve 3 in. Steam consumption at 180 hp.—31.6 pounds; at 225 hp.—33.2 pounds.

OLD HICKORY POWDER PLANT, Old Hickory, Tennessee

A Service You Will Appreciate

My business is more than merely buying and selling used cranes. It is knowing exactly what service cranes are capable of and how different types should be used. When you are in the market for a locomotive crane, I can help you select the one best suited for your needs—and probably save you money on your purchase.

Locomotive Cranes

1—Rebuilt **Industrial**, 20-25 ton cap., double drums, 50-ft. boom, outriggers, 8-wheel MCB. Like new. Guaranteed. Located Bay City, Mich.

1—23-ton **McMyler**, 8-wheel MCB., double drums, 45-ft. boom, with 7½ kw. Engberg Generator. Located Buffalo, N. Y.

1—20-ton cap. **Brown Hoist** single drum, 40-ft. boom, 8-wheel M.C.B. Located Philadelphia, Pa.

1—20-ton cap. **Industrial**, 8-wheel MCB., double drums, 50-ft., boom, 1½-yd. clamshell bucket. Located La Salle, Ill.

1—25-ton cap., Model "E" **Ohio**, 8-wheel MCB., double drums, 50-ft. boom. **Brand New.** Located Bucyrus, Ohio.

1—30-ton cap. Model "F" **Ohio**, 8-wheel MCB, double drums, 50-ft. boom. Overhauled; like new. Located Hartford, Conn.

1—7½-ton cap. **Osgood**, double drums, 4-wheel, standard gage, 40-ft. boom. Located Kingston, N. Y.

Philip T.
KING
"The Crane Man"

FOR RENT

I will rent any of my Cranes on a straight rental basis or with a view to purchase. Terms exceptionally favorable to you.

Philip T. KING 30 Church St. New York

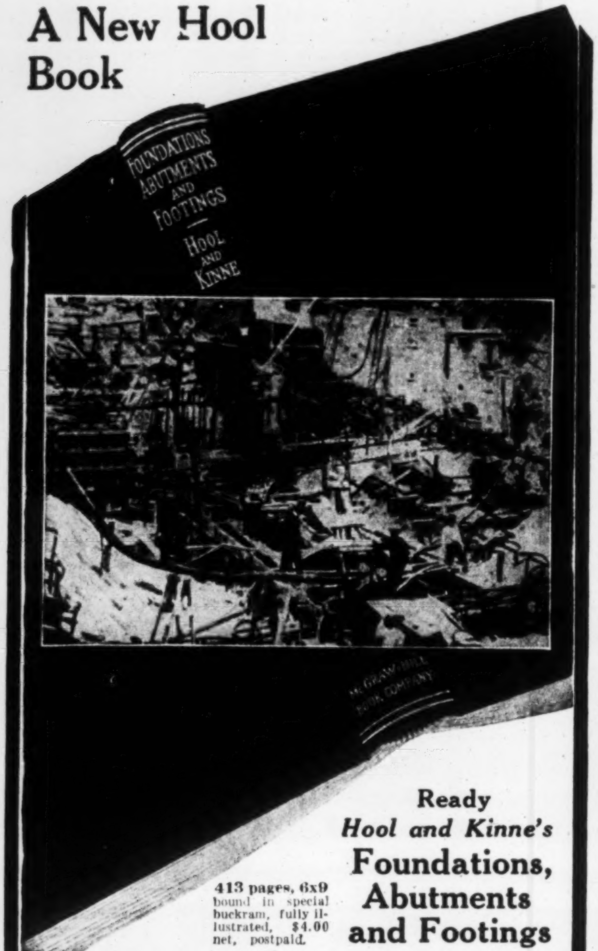
Baldwin Industrial Locomotives Meet the Most Difficult Conditions

WHERE rails are light and tracks uneven,— conditions under which most industrial locomotives must work — Baldwins are giving entire satisfaction.

Tell us your requirements and operating conditions, and we will design and build locomotives that will give you most unusual service.

The Baldwin Locomotive Works
Philadelphia

A New Hool Book



Ready
Hool and Kinne's
Foundations, Abutments and Footings

413 pages, 6x9 bound in special buckram, fully illustrated, $4.00 net, postpaid.

Editors-in-Chief: GEORGE A. HOOL and W. S. KINNE
Assisted by seventeen specialists

This new Hool Book—the work of nineteen engineering specialists—presents the whole problem of foundation and substructure work clearly, thoroughly and authoritatively.

The details of design—equipment, methods and cost of construction—the entire how and why of the subject—make up the invaluable contents of this practical work. Much of the material has never before been available in book form.

Other Hool and Kinne Books

Structural Members and Connections, $6.00
Movable and Long-Span Bridges, $5.00
Stresses in Framed Structures, $5.00

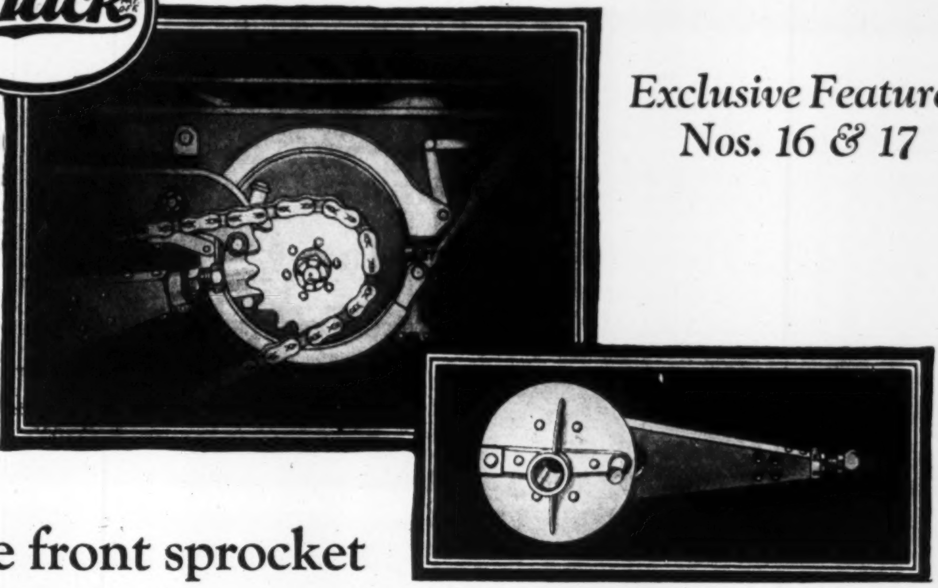
Mack

Exclusive Features
Nos. 16 & 17



The front sprocket
The pressed steel radius rod

WHEN the International Motor Company developed a drop-forged front sprocket, case-hardened its teeth and used it in conjunction with hardened chain rollers, the present-day efficient Mack chain drive was made possible. This drive not only performs efficiently and economically under normal going but has no equal when operating under adverse load and road conditions.

The Mack pressed steel radius rod is made in channel section and is lighter for a given strength and more flexible than common cast rods. This construction assures unvarying chain centers under all driving conditions. The large ball joint at its front end permits a single connection that adjusts itself to chassis movements. It is held by a socket that forms part of a drop-forging bolted to the chassis frame independent of the jackshaft.

INTERNATIONAL MOTOR COMPANY
25 Broadway New York City

Branches owned by this company operate under the titles of: "MACK MOTOR TRUCK COMPANY" and "MACK-INTERNATIONAL MOTOR TRUCK CORPORATION."

The 27 exclusive features listed are the result of 23 years of specializing in motor transportation. Each one has played an important part in building the reputation which Mack Trucks have established wherever motor trucks are known.

THE COMPLETE LIST

1— Crankshaft
2— Cylinder Treatment
3— Engine Support
4— Case-Hardened Timing Gears
5— Water-Cooled Oil Reservoir
6— Double-Screen Oiling System
7— Water Pump
8— Exhaust Manifold
9— Intake Manifold
10— Crankcase Inspection Ports
11— Interrupted Spline Shaft
12— Reverse Gear-Shift Lever
13— Steering Wheel
14— Steering Column
15— Steel Cab Sliding Doors
16— FRONT SPROCKET
17— PRESSED STEEL RADIUS ROD
18— Blast Cooled Dash Radiator
19— Beltless Squirrel Cage Blower
20— Single-Rod Gearshift Control
21—Non-Metallic Flexible Clutch Disc
22— Dual Reduction Drive
23— One-Piece Banjo Type Rear Axle
24— Full-Floating Construction
25— Rear Axle Accessibility
26— Drive Shaft Brake
27—Rubber (Shock Insulator) Shackles

Send for illustrated and descriptive literature on all exclusive features listed above.

Put Rigid Rail Tracks on Your Fordson

To Meet All Conditions!

Rigid Rail Tracks on your Fordson assure power a-plenty for any condition. No roads too muddy, no sand too deep—and no slipping. Twice the pull with the same amount of fuel. Turns easily in short space. Upkeep small. Insures greater profits for the road builder.

Our "One Man Grader" cuts your grading gang to "One Man" and your cost to 25 per cent.

One man and the H. P. One Man Grader attached to a Fordson will do as much work as two graders, six teams and four men.

Portland Cement Stucco Is Quality Stucco

The high recognition accorded Portland Cement Stucco by the architectural and engineering professions is due primarily to its dependability. The reason for this dependability is the fact that its most important ingredient—Portland Cement—is *standardized.*

Not only has Portland Cement Stucco superior strength and durability; applied in accordance with the most advanced specifications, it assures structures of distinction and beauty.

Our new booklet, "Portland Cement Stucco," gives all details of good practice. From these you can write your own specifications.

This booklet is yours for the asking. It is a practical "how-to-do-it" book for the superintendent and foreman, as well as a reference book for the architect, engineer and contractor. Here are a few of the things it contains:

Typical Construction Details with Sketches.
Varieties of Surface Finish and How Obtained.
Notes on Coloring Pigments.
Proportioning Mixtures.
Use of Hydrated Lime.
Back Plastered Work.

Send today for "Portland Cement Stucco." It is a booklet you will want to keep. Address our nearest District Office.

SULPHURIC ACID
TESTED BY FIRE

Acid, the destroyer, won't affect this pipe

It is an admitted fact that by the action of decomposition and bacteria, sewage will generate great quantities of Hydrogen Sulphide Gas. This in turn rapidly forms Sulphuric acid in the presence of air and water which becomes a menace to the walls of the sewer itself.

You can transport Sulphuric Acid in glass bottles without the slightest damage to the glass! So whats the answer?

Line your sewers with glass!

And this is exactly what Vitrified Salt Glazed Clay Sewer Pipe does. It brings the engineer a sanitary Glazed Sewer Pipe impervious to the actions of chemicals, which when properly laid will last a lifetime, insuring a healthy community, freedom from constant and expensive repairs and the danger of total breakdown, facts in which every city engineer should be interested.

Protect yourself and your community by specifying Vitrified Salt Glazed Clay Pipe, the Sanitary Sewer Pipe.

Ingot Iron

Now, after fifteen years of general use—

it is time to make some general observations.

Men who have inspected culverts—men who have actually climbed out of their cars hundreds of times and delved into the condition of highway substructures—make the following report:

No culverts of any material prove so dependable—give such certainty of service as Armco Culverts.

No culvert material can honestly claim greater permanence than Armco Culverts.

No culverts seem less affected by time and service than Armco Culverts.

Perhaps the culverts in your district will bear out the truth of these observations. When making your inspection be sure the corrugated culverts on which you pass judgment are genuine Armco Culverts—not culverts "just as good" as Armco.

This Little Dot

↓

■

If this triangle were a sheet of ARMCO Ingot Iron, this little dot would represent all impurities. If it were the least bit larger by the addition of any other material, the iron could not bear the ARMCO Trademark. There is less than 1 part impurities to every 625 parts of pure ferrite—less than 1 *ounce* to every 39 *pounds* of pure iron.

There is a manufacturer in almost every state and in Canada, making Culverts, Flumes, Siphons, Tanks, Roofing, etc., of genuine, rust-resisting Armco Ingot Iron. Write for full information and nearest shipping point on products in which you are interested.

Buyers Know the Uniformity and Dependability of

LONG-BELL LUMBER and TIMBER

For years Long-Bell lumber and timber have been meeting the exacting demands of buyers. Production has steadily increased; manufacturing methods and equipment have been bettered at every opportunity. Nothing is left undone to safeguard the production of uniform, dependable lumber and timber—with the added assurance of *shipments when promised.*

Why the Long-Bell Product Is Dependable

1—It comes from virgin forests.

2—Each log is cut and manufactured for the purpose to which it is best adapted.

3—Milled in our own mills, all operating with modern machinery under a uniform process and efficient supervision.

4—Unsurpassed accuracy and thoroughness at every step of manufacture.

5—Surfaced (planed smooth) four sides.

6—Unusual care in trimming.

7—Full length—uniform in width and thickness.

8—Uniformity of grading.

9—Uniform seasoning.

10—Lower grades receive the same care and attention as upper grades.

11—Correctly piled and stored—carefully shipped.

12—Minimum of carpenter labor—planing, sawing and sorting—necessary to put into construction.

13—Minimum of waste, due to uniform quality.

14—The product of a lumber company 47 years in the business.

15—Long-Bell Lumber can be identified by the Long-Bell trade-mark on the piece.

LONG-BELL

UNIVERSAL SAFETY TREAD STEEL OR BRASS FILLED WITH LEAD

A non-slip, non-removable lead surface presented at all stages of wear. Effective as a truly "safety" tread throughout entire depth. Remember, the lead at all times forms the principal wearing and tread surface. The steel (or brass) frame simply holds the lead and retards rapid wear. Can be used wherever a real safety tread is desired. Made in sections up to 12 inches wide in one piece.

Choose a Reinforcing Bar By the Shape of Its Ribs

Corr-Products

- **Corrugated Bars**
- **Corr-Plate Floors**
- **Corr-Mesh**
- **Corr-Bar Units**
- **Corr-Column Spirals**
- **Corr-Bar Road Units**
- **Hydraulic Steel Buildings**

Corrugated Bars are rolled exclusively from new billet steel.

Corrugated Bars have ribs so designed that a perfect bond is assured throughout the entire length of the bar. This is a great advantage, because it permits designing for a definite predetermined load capacity without waste of reinforcing steel.

The Use of Corrugated Bars and the correct method of design, based on their use, has meant great savings in material, labor costs and time of erection. Write for Bulletins covering the design of public buildings, schools, hospitals, institutions, industrial buildings, office buildings, warehouses, Y. M. C. A. buildings, bridges, culverts, roads, etc.

SUPERIOR GRAPHITE PAINT
It Prevents Rust

THE LOGICAL WAY TO JUDGE PAINT

The correct way to judge value in paint is to base your decision on the record of that paint in service over a long period of years. No other measure of value will do.

The wide use of SUPERIOR GRAPHITE PAINT in every line of industry—its durability under every phase of exposure and operating conditions—its low per year cost—are vital factors in its remarkable service records that have won for SUPERIOR GRAPHITE PAINT its enviable position of leader in the field of metal protective coatings.

Whenever you think of metal protection, think of SUPERIOR GRAPHITE PAINT. Its use is definite assurance of service and satisfaction.

DETROIT GRAPHITE COMPANY

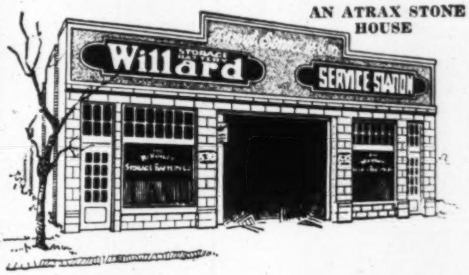
ATRAX CONSTRUCTION



AN ATRAX STONE HOUSE

Everybody Wants *Stone* Construction

→ —now everybody can afford it ←

Stone construction is admittedly the longest-lived, fireproof, economical in service and of higher value. And now the Atrax Plant makes it possible to secure stone of any finish, for building, at no greater cost than wood. Here is a real proposition for builders—for Sand and Gravel contractors—

TURNS SAND PIT INTO GOLD MINE

Write us for details of the Atrax proposition. Let us point out in detail its economy, simplicity and profits. **Let us tell you where you can see Atrax Houses.**

McKiernan-Terry Hammers building for the Brooklyn Edison Co.

11 Cofferdams enclosed with 15-in. steel sheet piling in 70-ft. lengths driven with 9-B Pile Hammers. Two of the five hammers used on this operation were subsequently employed for driving 14-in. timber piles 15 to 25 ft. long within the cofferdams, to grade, which submerged the hammers 30 to 40 ft. below water level.

Driving above or below water is done with equal success by the B-line of pile hammers; they are as efficient one way as the other.

Send for descriptive bulletins

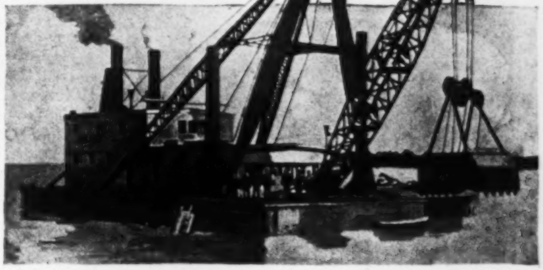
Cranes—Shovels—Buckets

"With our 5-yd. WILLIAMS: 'Special Dredging' Bucket, we have excavated as high as 174,000 cu. yds. per month," writes F. P. Gillen, Pres. & Gen. Mgr. of the Edw. Gillen Dock, Dredge & Constr. Co., Beardstown, Ill.



For any kind of hard digging—

get the bucket that gives you biggest output

The large output that you get with the **WILLIAMS** Special Dredging Bucket comes from its speedy action, and the power that the **WILLIAMS** tandem sheave closing arm gives for a big fast bit into tough materials.

Under water, a bucket runs into large boulders, imbedded timbers, etc., that finish an ordinary bucket in short time. But—

With a WILLIAMS "Special Dredging" you are protected by the WILLIAMS guarantee—"all parts guaranteed against breakage, as long as the bucket is used for the work intended."

We have a 60-page catalog that shows working photos and full descriptions of every bucket in the complete WILLIAMS line. Write for Catalog N-60.

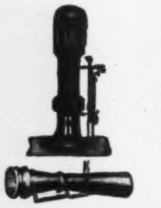
GAMON METER COMPANY
Main Office and Works:
NEWARK, NEW JERSEY

Number ten of a series of advertisements explaining the use of Simplex Venturi Tube Meter and its practical application

THE SIMPLEX
Venturi Tube Meter

is admirably adapted for Filter Plants

The present practice is to check the performance at all times of the entire plant, or any of its units, by measuring the raw water delivered to the sedimentation basin, the daily amount handled by the filters, the amount of wash water required and the gallons per day consumed by the distribution system. The Simplex meter is an ideal device to determine these data and for regulating the amount of chemical solutions that must be added to the water in proportion to the rate of flow.



Cut shows standard Simplex Meter Register connected to a Venturi tube which is inserted in the pipe line.

Repeat orders from many engineers and water works managers are the testimonials of the faith placed in Simplex Devices for their filtration plant.

"IN the elder days of art
Builders wrought with greatest care
Each minute and unseen part
For the Gods see everywhere."

—*LONGFELLOW* (*The Builders*)

TODAY that same spirit dominates the automatic machinery in the Neptune Meter Plant—for everywhere the eyes of the waterworks field are upon Trident Meters. That Trident Meters are "wrought with greatest care" is one reason why over 2,500,000 are in use today, and over 200,000 were made and sold during 1922.

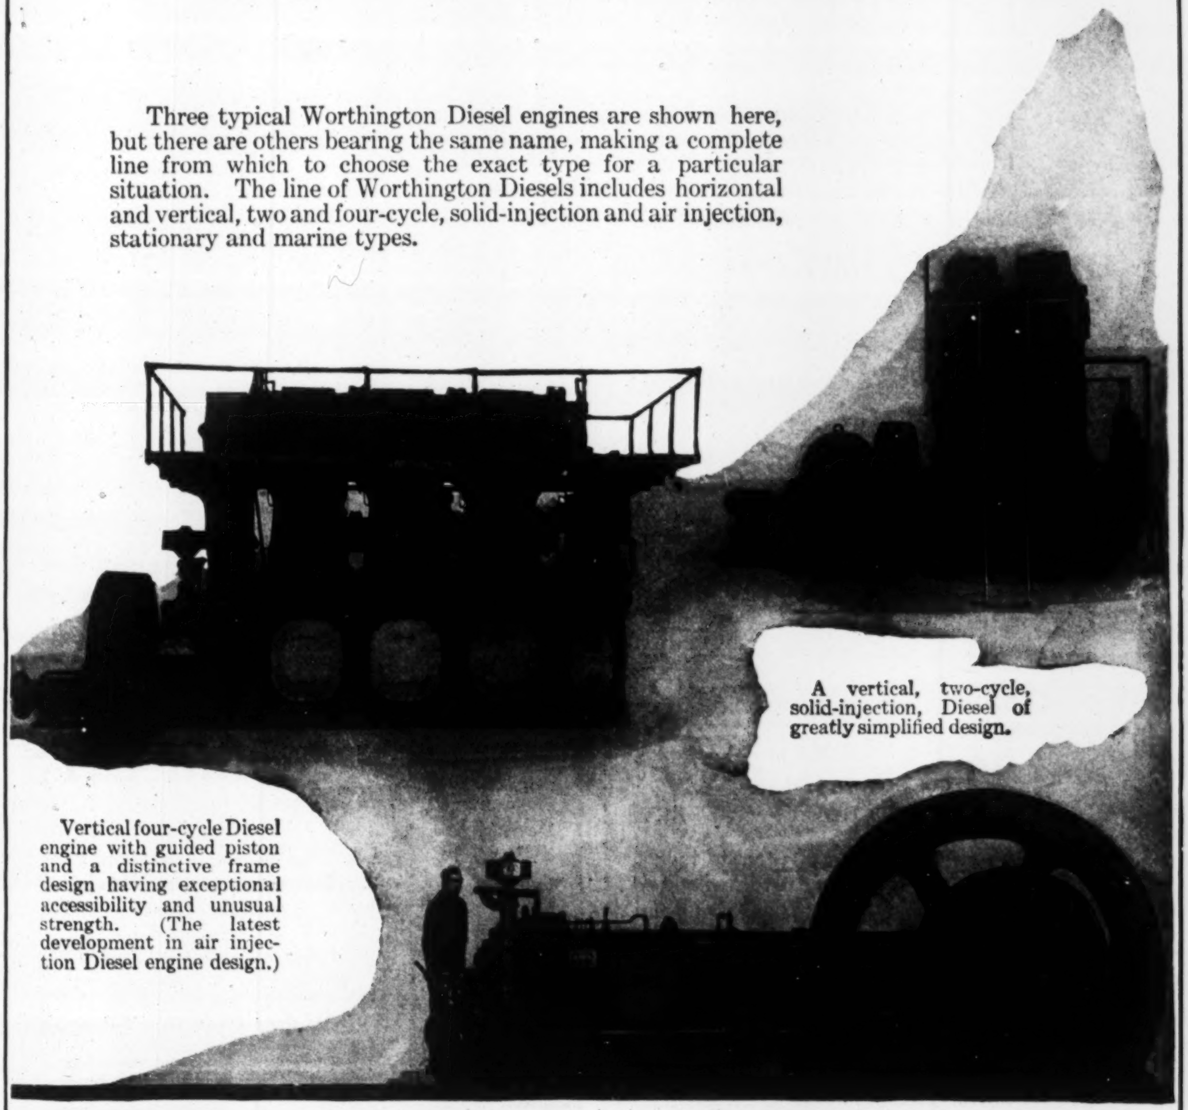
Worthington Diesel Engines A type for every service

Three typical Worthington Diesel engines are shown here, but there are others bearing the same name, making a complete line from which to choose the exact type for a particular situation. The line of Worthington Diesels includes horizontal and vertical, two and four-cycle, solid-injection and air injection, stationary and marine types.



A vertical, two-cycle, solid-injection, Diesel of greatly simplified design.

Vertical four-cycle Diesel engine with guided piston and a distinctive frame design having exceptional accessibility and unusual strength. (The latest development in air injection Diesel engine design.)

The Worthington-Snow horizontal four-cycle Diesel engine, a massive, sturdy engine for heavy duty.

WATER MAINS

In connection with our work as waterworks general contractors, we are prepared to furnish and lay cast iron and riveted steel pipe in all standard sizes. Recently, at Wheeling, W. Va., we began work on a contract involving laying approximately nine miles of large diameter cast iron and steel pipe. A permanent field organization handles all of our waterworks undertakings. Its members are thoroughly experienced and conversant with the best engineering practices. Pittsburgh-Des Moines service will meet every test.

In addition we fabricate and erect Elevated Water Towers, Stand Pipes, Oil Storage Tanks, Buildings, Bridges, etc.

The estimator's source books of actual costs—

Thousands of pages of detailed, actual costs, carefully analyzed and itemized—on every conceivable kind of civil engineering project. This library shows and explains the methods used on actual jobs and tells you how much every step of the work cost. Special attention is given to construction costs. The books will be of interest to contractors, architects, structural engineers, highway engineers, waterworks engineers, sanitary engineers and hydraulic engineers.

They help you take the guess out of estimating.

They explain the value of using accurate cost data—how to make a rapid and preliminary estimate of cost—give a typical complete cost estimate as an example—discuss factors a contractor should consider in making estimates—give the authors' formulas for commodity price levels and wage levels. And in addition—several thousand pages of actual, itemized costs of actual jobs.

Small monthly payments

No money down

Sent on approval

Examine Gillette and Dana's
COST DATA LIBRARY
for ten days FREE

Three volumes, handbook size

Only $3.00 in ten days and $5.00 monthly for three months

The authors of these books have specialized on cost data for more than 25 years. During that time they have conducted appraisals aggregating more than $650,000,000. Their experience and wide costs information have made these three books the accepted authorities on civil engineering cost data.

This Cost Data Library will save you money and trouble on every estimating job. It will enable you to check estimates with the assurance of definite data.

They cost only 18 cents a day for a short period

Just fill in and mail the coupon. This will bring these three great cost data books to you for ten days' free examination. You can look through the books yourself, you can satisfy yourself of their value to you, you can use them in checking up some estimate you are now working on. If you find that the books *are* dollar-savers, send us $3.00 in ten days and $5.00 monthly for three months. If you do not wish to purchase the books, you may return them, postpaid, in ten days, without question and without red tape.

FREE EXAMINATION COUPON

McGraw-Hill Book Company, Inc.,
370 Seventh Ave., New York.

You may send me the **Cost Data Library** for my inspection. If the books prove satisfactory I will send $3.00 in 10 days and $5.00 per month until I have paid the price of the books, $18.00. If the books are not what I want, I agree to return them postpaid within 10 days of receipt.

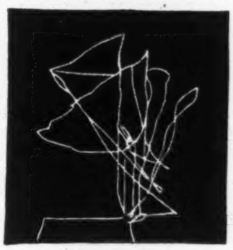
Bargains in Used Blue Printing Machines

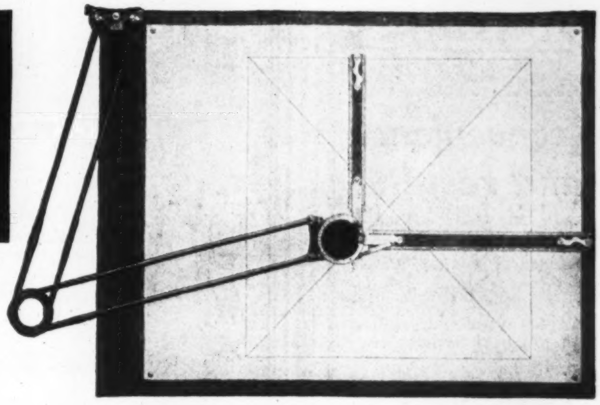
We have on hand a number of used blue print machines taken in trade and guarantee that every machine offered has been actually rebuilt by our experts.

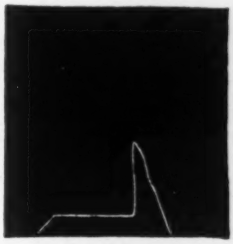
These machines are priced especially low and will give excellent satisfaction. Write for Bargain List No. 22.

The C. F. Pease Company, 836 N. Franklin St., Chicago



Right hand motion required to draw two 3″ lines at right angles using T Square, Triangles etc. (Reduced size.)





Right hand motion required to draw two 3″ lines at right angles using Universal Drafting Machine. (Reduced size.)

Annoying Interruptions Driven *from* Drawing Boards

CONSIDER the right hand motions and interruptions to draw two 3-inch lines at right angles by using the old-fashioned method.

First, the T-square is put in position on the board, a line drawn, square removed, scale picked up, line measured, scale laid aside, triangle set in position, vertical line drawn, triangle set aside, scale again picked up, vertical line measured, scale put down.

If either line is more than three inches in length, the eraser is brought into play and part of the above operations repeated.

Contrast this round-about, monotonous method of drawing these two lines with the way it is done by a Universal Drafting Machine. The machine is placed in position and all the right hand does is draw the lines to required lengths as indicated on scale. All accomplished with two operations of the right hand.

You can have a Universal Drafting Machine sent to you for free trial. Write for our new 1923 plan.

(American-Made)

Drawing Instruments

THESE instruments are a K&E Precision Product. Made of finest nickel-silver and steel, their moderate price is made possible only through modern American methods of quantity production.

You'll like these "MINUSA" features:

1. Exact uniformity makes all parts interchangeable and replaceable.
2. Serial number engraved on instruments facilitates identification.

Fully guaranteed

Send for "Minusa" booklet

WICKES
BLUE PRINT SYSTEM
SAGINAW·MICHIGAN

Can't be beat for convenience —and results!

No dark room! No special operator! No complicated machine parts to get out of order. Complete automatic control that insures snappy, clear-white-on-dark-blue results. That's how the Wickes System puts your blueprinting on a practical basis.

Your own office boy can be the operator and produce perfect blueprints. Light-tight compartments make it possible to work anywhere. Sharp, mercury vapor lights directed straight at the tracings insures quick printing—a possible speed of 30 in. a minute, 2 to 48 in. wide.

It'll pay you to investigate it at once.

1856 **WICKES BROTHERS** 1923

Builders of Heavy Duty Engine Lathes, Special Production Lathes and Crankshaft Turning Equipment, Heavy Duty Plate and Structural Tools, Blue Print Machines.

2007 Water St., Saginaw, Mich., U. S. A.

Schools & Colleges

College of Engineering
Northwestern University
Five years of broad, thorough training; small classes, in which each student receives individual attention from head professors. Unsurpassed opportunities to see great engineering projects and meet engineers.
A young thriving College in an old University.
Write for "Best Preparation for Engineering" and "Booklet of Views."
John F. Hayford, Director.
Evanston, Ill., Swift Hall.

Lafayette College
Technical Courses in Chemical, Civil, Electrical, Mechanical and Mining Engineering. Write for illustrated catalogue to the Registrar, Easton, Pa.

College of Engineering

Courses in Civil, Mechanical, Electrical, Sanitary, Municipal, Chemical Engineering. Short course in Structural Drafting.

Enter any time. No matriculation or registration fees. Expenses ¼ to ½ less than at other first-class schools. School year—Four quarters of 12 weeks each.

Length of Courses 120 Weeks. Save one year and $1000.

Experienced Instructors. Splendid Laboratories.

For catalog, bulletins or information address: Albert Edwin Smith, President, Ohio Northern University, Ada, Ohio.

Clarkson College of Technology

Courses leading to the degrees of Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering.

Catalog upon application.

Potsdam, N. Y.

New York University College of Engineering
Civil, Mechanical, Chemical and Industrial Engineering
For information address Chas. Henry Snow, Dean.
University Heights, New York.

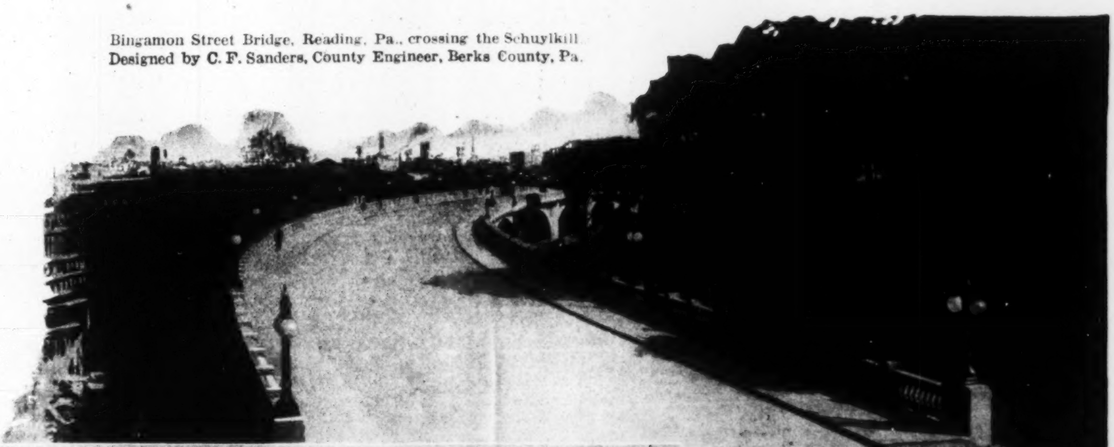
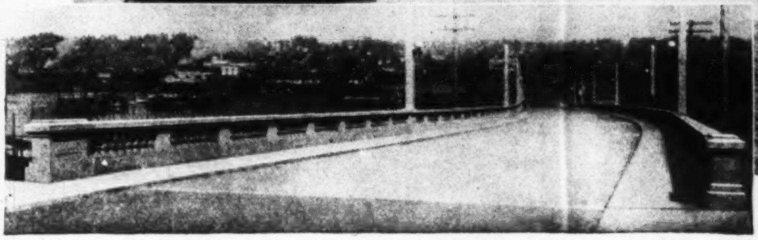
Bingamon Street Bridge, Reading, Pa., crossing the Schuylkill
Designed by C. F. Sanders, County Engineer, Berks County, Pa.





Bridge at Olympia, Wash. Elastite Expansion Joint used.

Protecting great bridges against temperature

TEMPERATURE fluctuation, and the consequent expanding and contracting of these great concrete masses, are rendered harmless to the durability of big bridges and viaducts by the installation of Elastite Expansion Joint at regular intervals.

The fact that Elastite Expansion Joint, "the sandwich joint," is handled as a slab, in any dimension and thickness, makes installation comparatively simple and easy. It is the practical joint used exclusively by practical engineers and contractors. It is easily cut to shape with an old saw, or can be supplied cut to exact fit to meet your requirements.

When you need "joint," remember that there are big stocks of Elastite Expansion Joint in seventeen cities. Your order will be immediately shipped to your job from the nearest point. Send for sample and all the facts.

THE PHILIP CAREY COMPANY
18 Wayne Ave., Lockland, Cincinnati, Ohio

Carey Elastite Expansion Joint is used in these bridges and viaducts

Akron Ohio	North Hill Viaduct
Augusta, Ga.	Archibald W. Butts Memorial Bridge
Bethlehem, Pa.	Hill-to-Hill Bridge
Cincinnati, Ohio	Park Avenue Bridge
Fort Wayne, Ind.	Harrison Street Bridge
Galveston, Texas	Galveston Causeway
Hawkinsville, Ga.	Ocmulgee River Bridge
Kansas City, Mo.	Benton Boulevard Viaduct
Little Rock, Ark.	Broadway Bridge
Oahu, Hawaii	Heeia Viaduct
Pulaski, New York	Salmon River Bridge
Reading, Pa.	Bingamon Street Bridge
St. Louis, Mo.	Chauteau Avenue Viaduct
St. Louis, Mo.	Jefferson Avenue Bridge
Laredo, Texas	Laredo International Bridge
Washington, D. C.	Key Bridge
Watertown, New York	Grove Street Bridge

Carey Elastite
Trade Mark Reg. U S Pat Office
EXPANSION JOINT
PROVED AND ACCEPTED

Carey Elastite Expansion Joint is an asphaltic body, formed of a high-grade asphaltic compound carefully refined and tempered, sandwiched between two walls of asphalt-saturated felt forming an elastic, compressible joint. It is made in lengths, widths and thicknesses as required, can be cut to crown or to any special shape and comes to the job ready to use.

"Have used all makes of locomotives for 20 years and the Vulcan is far superior"

This statement was made by Mr. E. S. Guth, Superintendent for the Security Cement & Lime Company of Hagerstown, Md. This company has had three Vulcan Locomotives in use since 1918.

"The repairs and upkeep of these locomotives," adds Mr. Guth, "are very low. They have good lasting qualities and stand up well under hard usage."

He also states that the parts are easily accessible and that our service is very good.

This is a fine example of the kind of enthusiasm we hear from Vulcan users in all parts of the country.

The Vulcan shown in the photo is the 12x16-in. cylinder, standard gauge, four-coupled saddle tank type, weighing 25 tons.

Each of the three Vulcans used by this Company travel approximately 46 miles a day, hauling 8 cars a trip, each car weighing 14 tons loaded. The steepest grade is about 3%.

We'll be glad to tell you all about the advantages of the Vulcan as well as send you a long list of users.

ALL TYPES AND SIZES

The Compressor shown here is the E-4 Type. It is a motor-driven unit with piston displacement of 110 cu. ft. per minute. This is but one of many Westinghouse-National types, which are built in all sizes from 11 to over 600 cu. ft. capacity. Write for the Westinghouse-National catalog.

AIR COMPRESSORS FOR EVERY USE

WESTINGHOUSE-NATIONAL Air Compressors meet every requirement of compressor service in a field represented by a size range of 11 to over 600 cubic-feet output of air per minute.

In addition to exceptionally high-grade construction, Westinghouse-National models are equipped with the famous HP Automatic Control, which effects an economy in the use of power and also eliminates needless wear and depreciation on the machine as a whole.

This special type of control is an exclusive feature, found only on Westinghouse-National Compressors.

CRANE "SERIES 25" CAST STEEL MATERIALS

For use in power plants where pressures run as high as 250 pounds and total steam temperatures may reach 750 degrees, Crane has developed a new specialized line of piping materials, designed by engineers of wide experience, known as "Series 25."

Valve bodies, bonnets and discs are cast steel; seat rings, disc rings and stems are monel metal. Fittings are Crane cast steel, accurately machined.

For descriptive literature and specifications of Crane's six new lines of steel valves and fittings, telephone or write the Crane representative at the Crane branch near you.

Barrett ROOFINGS

Roofs That Don't Talk Back!

Fourteen Barrett Specification Roofs on the three great plants of the American Thread Company. Seven of these roofs have an area each of 23,000 feet or more. And every one of them is bonded against repair expense for a long term of years.

That's the sort of roofs that busy mill executives want on their buildings—roofs that can be laid and forgotten—roofs so free from trouble that you need never give them a thought. That's why the engineers of the construction companies who reared these buildings specified Barrett Specification Roofs.

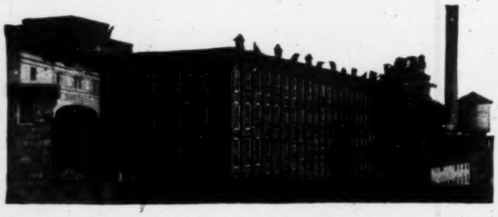
The Barrett Specification standardizes every detail of material, workmanship and inspection. Barrett inspectors follow the job to see that the Specification is absolutely followed. The man who lays the roof must have a recognized standing for good workmanship to secure the Surety Bond for the building's owner.

Because experience has proved that Barrett Specification Bonded Roofs far outlast the guaranteed period, we are able to bond them against all repair expense for 20 years.

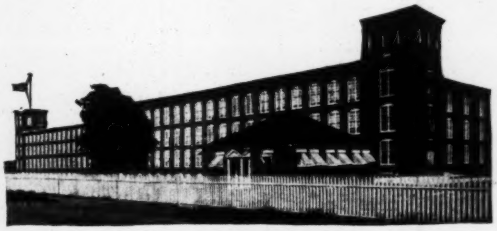
But whether your roof is constructed according to The Barrett Specification or whether it is a roof built to your own specification—

Whether it is on an old building or on a new one—

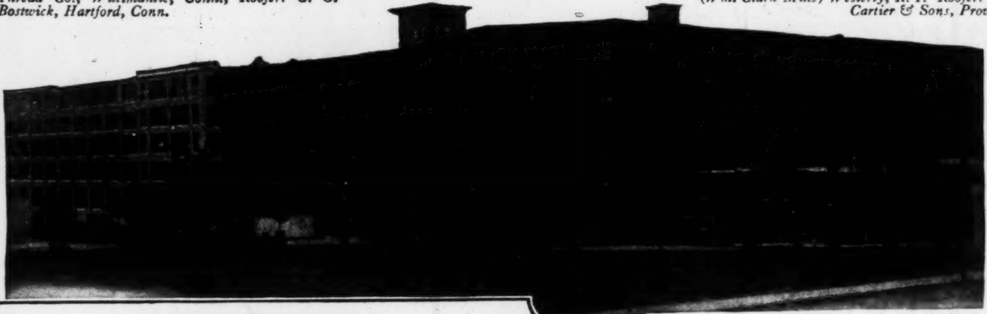
Experience has shown that it pays to see that the felt used and the pitch used are both labeled Barrett.



Barrett Specification Bonded Roof on American Thread Co., Willimantic, Conn., Roofer: C. G. Bostwick, Hartford, Conn.



Barrett Specification Bonded Roof on American Thread Co. (Wm. Clark Mills) Westerly, R. I. Roofer: M. N. Cartier & Sons, Providence.



Barrett Specification Bonded Roofs on buildings of American Thread Co., Fall River, Mass. Cont's: Aberthaw Constr. Co., Boston, and McNally Constr. Co., Fall River. Rfrs.: R. J. Archard, Fall River; C. G. Bostwick, Hartford, Conn.; R. E. Comins Co., Wollaston, Mass., and J. T. Maguire Co., Pawtucket, R. I.

Facts First

You can get Barrett quality in your roof no matter what kind of a building you are planning to cover. Get the facts about roofing before you buy.

For flat (or nearly flat) roofed buildings, there is a wide line of Barrett Built-Up Roofs of which the Barrett Specification is the leader.

For all steep-roofed buildings, there are four types of shingles—durable, fire-resistant, surfaced with everlasting mineral in red, green or blue-black. In roll roofings, a wide variety—both plain surfaced or mineral surfaced.

Write for copies of The Barrett Specification and for booklets describing the Barrett Ready Roofings in detail.
